Science Fair Judges Needed!
If you have a degree in a science field or if you work in a science field, please consider being a science fair judge for our school. Our 5th and 6th graders are completing science fair projects and will need qualified judges to review their final projects, provide written feedback, and assign points. (Judges' scores will be averaged to determine science fair placements for our projects.) If you are not a qualified judge but know someone else who might be willing to help us, please pass along this information. Our science fair is taking place on Friday, December 13, 2019 in our school library from approximately 8:30 am - 12:00 pm. We'll provide some

refreshments and snacks for your time and service to our future scientists! If you can be a judge, or if you have any questions, please email the science fair coordinator, Ms.Cummings, at:
