BRIDGE Legislation House Bill 400, May, 2010	59

Introduction:

Education and career planning is a vital part of a student's educational career. It is a process in which an individual defines and re-defines career-related choices and outcomes. The process is called career development. All students need the tools, resources, skills, and knowledge to become productive citizens in a democratic society, and school systems should provide opportunities for young people to learn about themselves, the world of work and educational opportunities, and to create a viable realistic plan of action. These opportunities should be programmatic, developmental, and systematic in grades K-12 and beyond. This guide will focus on secondary grades 6-12 and approaches this process as a system wide initiative.

Currently the Georgia Department of Education has identified three basic assumptions upon which to build a career development program:

- All educators are career developers
- All students are expected to learn and earn a living
- PARENTS are the greatest influence on their children in the education and career decision-making process.

With these three assumptions in mind, it is clear that school systems are obligated to provide students and their parents with career-related information in a systematic and developmental process. This guide was developed to assist local systems in the application of tools, resources, and materials developed with federal grant funds from the College Access Challenge Grant to assist all students, including underrepresented students, in the education and career planning process utilizing the enhanced GAcollge411 website at www.GAcollge411.org. This grant provided the means for the Georgia Student Finance Commission (GSFC) to incorporate tools and materials including program "Guideways" which students and their families will need to make better and more informed decisions regarding the future. "Guideways" were designed to assist students and parents through the program.

This enhanced version contains the following: Career Planning, High School Planning, College Planning, Financial Aid Planning and a Portfolio where students and their families can maintain and manage information gathered from the site which will result in better and more informed decision making. As a sub-grant the GaDOE has developed additional tools and materials including but not limited to videos, narrated PowerPoint presentations, and Teachers-As-Advisor (TAA) activities to assist local systems with the dissemination of information to students and their parents in the educational and career planning process.

Acknowledgements:

A special note of thanks and recognition is extended to the dedicated individuals who contributed their time, expertise, and talent to the development of this publication: Georgia Student Finance Commission; Sharon Jones, Gwinnett County Professional School Counselor for content expertise; Jan Wyche, GaDOE for her editing and, the Georgia Department of Education/Career, Technical and Agricultural Education Division.

National Career Development Guidelines (NCDG):

The National Career Development Guidelines provide the framework for educators, career professionals, and community leaders to develop high-quality career development programs for youth and adults nationwide. Quality career development programs can:

- Increase academic achievement
- Help students make sound decisions related to planning for, preparing for, and financing postsecondary education or training
- Contribute to safe and drug free schools
- Help students develop the positive, personal qualities they will need in their future roles as parents, workers, and community members
- Help adults manage career transitions smoothly and effectively.

Guidelines for students in grades 6-8 and 9-12 are divided into three broad groups: Self-knowledge, Educational and Occupational Exploration, and Career Planning. Each group contains competencies and indicators. In September 2004, the NCDG were revised to reflect the goals of the No Child Left Behind (NCLB) legislation and to align with concepts from the American School Counselor national standards. They are grouped into the following three broad domains:

Personal Social Development Domain

- GOAL PS1 Develop understanding of self to build and maintain a positive self-concept.
- GOAL PS2 Develop positive interpersonal skills including respect for diversity.
- GOAL PS3 Integrate growth and change into your career development.
- GOAL PS4 Balance personal, leisure, community, learner, family and work roles.

Educational Achievement and Lifelong Learning Domain

- GOAL ED1 Attain educational achievement and performance levels needed to reach your personal and career goals.
- GOAL ED2 Participate in ongoing, lifelong learning experiences to enhance your ability to function effectively in a diverse and changing economy.

Career Management Domain

- GOAL CM1 Create and manage a career plan that meets your career goals.
- GOAL CM2 Use a process of decision-making as one component of career development.
- GOAL CM3 Use accurate, current and unbiased career information during career planning and management.
- GOAL CM4 Master academic, occupational and general employability skills in order to obtain, create, maintain and/or advance your employment.
- GOAL CM5 Integrate changing employment trends, societal needs and economic conditions into your career plans.

The NCDG have been used extensively in Georgia to align the framework for Georgia's Teachers-as-Advisor program and the Georgia professional counselor's program framework, SMART CHOICES. To find more information about the revised guidelines and a complete list of goals and competencies, visit <http://www.acrnetwork.org>. The Georgia TAA framework is located at www.GeorgiaStandards.org under "Resources and Videos" then to "Resources".

Comprehensive Delivery:

Teachers-As-Advisor (TAA)/Counselor Program

GaDOE has developed a TAA framework aligned with the National Career Development Guidelines. These goals and competencies represent the knowledge and skills students will need to be competitive in the job market. The activities developed from these competencies link classroom instruction to future career related choices. The skills acquired will help students transition successfully into post secondary choices or the world of work.

TAA standards are divided into three major domains:

- Career Management: awareness, exploration, and planning/management
- Academic Achievement, Educational Attainment and Lifelong Learning: thinking and learning skills
- Life Skills: personal and social development

This framework is available on GeorgiaStandards.org along with training modules along with an introductory PowerPoint presentation. These materials can be found under the “Resources and Videos” tab to “Resources”.

Local school professional counselors establish programs aligned with the NCDG or the American School Counselor Standards. These standards have been aligned, and both are divided into three very similar domains:

- Academic Development
- Career Development
- Personal/Social Development

These model programs consist of four interrelated components: foundation, delivery system, management systems, and accountability. The first component, foundation, dictates how the program is managed and delivered, which leads to the accountability of the program. The information gathered through the accountability process should refine and revise the foundation. Infused throughout the program are the qualities of leadership, advocacy, and collaboration, which lead to systemic change. For more information about the ASCA model, go to www.schoolcounselor.org. GaDOE encourages both instructors and counselors to become familiar with the enhanced GAcademy411. To complement

GACollege411 and assist local systems with the delivery of the site, GaDOE has developed a series of TAA activities, PowerPoint presentations, and videos located in the link at the bottom of the homepage, “Middle and High School Educators”.

A matrix/scope and sequence has been developed as a collaborative program between advisors and counselors (located in the appendix and electronically on Gacollege411 in the Middle and High School Resources link located at the bottom of the homepage) to assist local systems with how, who, when, and where these valuable tools can be utilized within the local system advisement program. In addition, Motivational Modules, on GACollege411, have been developed to enhance advisement for students and parents. These modules have been strategically located on the matrix to be delivered by counselors, business partners, or local college representatives. GaDOE recommends these modules be used to assist in the development of a “college going” culture in your building.

BRIDGE legislation requires parental involvement in the educational and career planning process to include a transitional parent conference between the 8th and 9th grade as well as annual advisement at the high school level.

Because an estimated 85% of all new jobs will require education beyond high school, promoting and providing “college going” information to students and their families should be an essential part of both the counselor’s program and a systematic TAA program. For the purpose of this booklet, “college going” refers to any education beyond high school aligned with the student’s career goal including the military.

Parents play a pivotal role in the education and career planning process for their children; therefore, it is extremely important that they are provided multiple opportunities to acquire educational and career-related information to assist them in that role. These motivational modules have been designed for immediate delivery and require minimal preparation by the facilitator. GaDOE recommends schools utilize local school counselors, area technical college or University System college admissions representative or local business partner to deliver motivational module content to students and parents where appropriate.

Encourage students to invite their parents to participate in the process utilizing Gacollege411. It is extremely important that parents have the opportunity to approve and edit the Individual Graduation Plan (411 Plan of Study).

SECTION I

Self-Awareness - (Who Am I?)

CAREER ASSESSMENTS on GAcademy411

CAREER PLANNING - Career and skills assessments help students discover what their interests are and how those interests and skills relate to various educational/career pathways and ultimately, in career choices. They assist students in narrowing their choices to a manageable number of employment opportunities for investigation and exploration. Assessments help students consider where they are, explore where they are going and help them develop a plan to get to where they want to be. The list below provides a description of and links to various interest assessments located on GAcademy411, as well as several others available to all Georgia students. It is recommended students begin these assessments in middle school and take them periodically as they grow and change. It is further recommended that a counselor and/or advisor periodically check to determine if students are utilizing the site for education and career planning.

GAcademy411 offers a variety of interest and skills surveys, such as Interest Profiler, Career Cluster Survey, Basic Skills Survey, Transferable Skills Survey and a Work Values Sorter. GAcademy411 also provides other resources to assist parents and educators in helping students to make educational and career decisions. The bullets below provides descriptions of GAcademy411's interest inventory and surveys. These tools are located under the CAREER PLANNING tab on the homepage of GAcademy411 in the section identified as "Learn About Yourself".

- **Interest Profiler** - This inventory should be used to determine future pathways at the

secondary school by analyzing student data at the 7th and 8th grades and can be used in later grades to confirm pathway selection if needed. The inventory takes approximately 10-20 minutes and is suggested for 6th, 7th and 8th graders.

- **Career Cluster Survey** – This survey helps students discover which program concentration/cluster is right for them. The survey takes 15-25 minutes and is customized to Georgia's 11 Program Concentrations. It is recommended for 6th and 7th grades.
- **Basic Skills Survey** – This survey allows students to find careers which require basic skills they already have. This assessment is recommended for students in grades 9-12.

BRIDGE legislation requires students to take career-related assessments to assist them with the decision-making process (referred to in the bill as "career awareness")

- **Transferable Skills Survey** - The survey will tell students how the skills they have learned in school will help them and lead them to new opportunities/careers. This survey takes about 30 minutes. This assessment is recommended for students in grades 9-12.
- **Work Values Sorter** – This survey will help students find their work values and match them to career options. The survey takes 5-15 minutes. This survey is recommended for 8th grade students.
- **Career Key** – Students can discover their unique Holland Code and match their codes with specific occupations. This survey is recommended for 9th graders.

INITIATIVE: GAcollge411

BENCHMARKS to measure effectiveness and compliance:

- **Career Cluster Survey** – 6th graders should have taken a career-related assessment.
- **Interest Profiler** – 7th graders should have taken a career-related assessment.
- **Work Values Survey** – 8th graders should have taken a career-related assessment prior to the transitional parent conference.

Other FREE assessments systems can utilize are listed below:

- **Armed Services Vocational Aptitude Battery (ASVAB)** is a multi-aptitude test given at over 14,000 schools nationwide, and maintained by the Department of Defense. Although the ASVAB is required for entrance into military service, taking the ASVAB in no way obligates anyone to join the military. The ASVAB is equally useful in determining aptitudes for civilian careers as well as military careers. Their website, <http://www.asvabprogram.com/>, explains the ASVAB testing program and offers test-taking tips, practice tests, and an explanation of scores. This battery of tests are developed, administered, and interpreted by the military. Contact your local recruiter for more information. It is recommended that 11th grade students take the ASVAB for aptitude measures. Students should record the results from this assessment in their GAcollge411 PORTFOLIO for future reference. In many cases, the ASVAB will be the only opportunity students will have to take a reliable and valid aptitude assessment.
- **PSAT (Preliminary Scholastic Aptitude Test)** is provided free to all 10th grade students in Georgia public high schools. This examination is an excellent opportunity for students to understand the requirements of the SAT, which is a critical reasoning exam used as a criteria in college admissions. Tenth grade students who participate in the October administration of the PSAT at their home high school receive a detailed Score Report Plus in December. The Score Report Plus provides students with a comprehensive skills' analysis of their performance and gives them a code which provides access to a website with additional test information and an interactive career information program called My Roads. Students who pay to take the PSAT as a junior are eligible to be considered for the National Merit Scholarship. It is recommended that school systems use this career interest inventory to assist in the confirmation of the student's pathway selection. These results should be self-recorded in the GAcollge411 PORTFOLIO for future reference.

SECTION II

Exploration and Investigation - (Where Am I Going?)

EXPLORE CAREERS on GAcollge411

CAREER PLANNING - Exploration and investigation of career-related choices can be achieved in the development and utilization of the following tools and materials:

- Georgia offers students the GAcollge411 experience as one way to explore career opportunities utilizing the tools and materials located under the CAREER PLANNING tab
- In addition, many of our middle schools and high schools have created career centers available to students, their families, and staff
- Students also have access to multiple levels of work-based learning
- Some systems provide guidance through a series of teachers-as-advisor activities, professional school counselor programs, or a combination of both
- The utilization of labor market information is also available in a variety of formats.

The Georgia Department of Education has selected to create a performance standards-based curriculum organized around the following 16 Federal Career Clusters:

- ✓ Agriculture , Food & Natural Resources
- ✓ Architecture & Construction
- ✓ Arts, Audio/Visual Technology and Communications
- ✓ Business Management & Administration
- ✓ Education & Training
- ✓ Finance
- ✓ Government & Public Administration
- ✓ Health Science
- ✓ Hospitality & Tourism
- ✓ Human Services
- ✓ Information Technology
- ✓ Law, Public Safety, Corrections & Security
- ✓ Manufacturing
- ✓ Marketing, Sales & Service
- ✓ Science, Technology, Engineering & Mathematics
- ✓ Transportation, Distribution & Logistics

BRIDGE legislation and House Bill 186 requires the individual graduation plan to include "rigorous academic core subjects and focused course work in mathematics and science or in humanities, fine arts, and foreign language or sequenced career pathway"

These career clusters are further aligned with career pathways which represent rigorous, coherent, and sequenced coursework that includes both academic and technical knowledge and skills. (See the chart *Georgia's Career Pathways* and the graphic career development model in the Appendix.) In his book, *Career Pathways: Education with a Purpose*, Dan Hull refers to this idea as "education with a purpose". He further explains that this concept approaches education "with an end in mind" taking a student's vision of their future beyond high school graduation. To model this concept, GaDOE has developed secondary Career Pathways: Individual Graduation Plans to act as an educational and career framework for each pathway. Each plan includes both secondary

and postsecondary options for students with a focus on the ultimate goal of a self-selected career and preparation for that career. Such a concept provides students and their families with a vision that will focus beyond high school graduation.

Gacollege411

The career pathway concept provides students with a simple process to continually narrow their choices from the broad concentration, to the narrower pathway, to possibly a specific occupation. (See the appendix for Georgia’s model of the career pathway concept.) In Gacollege411, under the tab CAREER PLANNING in the section identified as “Explore Careers”, the exploration components reflect Georgia’s Career Pathways. By first using the career-related assessments, student can begin to define and explore specific pathways and the aligned occupations:

- ✓ By title
- ✓ With search and sort tool: Career Finder to search for careers using interesting topics like salaries, skills, and interest; Compare Careers to compare two careers side by side; and, Career Plan Builder to mix and match your career and life options to create your future
- ✓ Georgia Career Pathways
- ✓ Georgia’s 11 Program Concentrations
- ✓ Georgia’s Hot Jobs

Local systems have access to teacher-as-advisor (TAA) activities, videos and narrated PowerPoint presentations to assist in this process all located on Gacollege411. These tools and materials can be delivered in a variety of formats. (See the Appendix Resource Matrix.)

INITIATIVE: Gacollege411

BENCHMARK to measure effectiveness:

- **7th graders have explored three career clusters and recorded in their portfolio**
- **8th graders have explored and investigated at least three careers prior to the transitional parent/student conference or student led conference**
- **9th graders have explore and investigated at least three additional careers prior to student/family conference**

Career Centers

Career centers provide a wide variety of information to students, parents, teachers, and counselors. These centers send the message to students and their families that education has a focus beyond graduation in a student’s future. GaDOE recommends middle and high schools

create career centers visible to students, parents, and staff. These centers provide access to computers, reference materials, websites, college information, university/technical school information, career and educational materials, testing materials, and financial aid and scholarship information for all students including students with limited English speaking abilities. Career centers require:

- **Designated Space:** Career centers should occupy a distinct, clearly identified area with at least one internet access computer.
- **Staffing:** A designated staff person or career center specialist should serve as a facilitator to leverage existing resources. The career center specialist can help facilitate the recruitment of volunteers, set up college recruitment presentations, assist with testing registration (SAT, ACT, COMPASS, Work Keys etc), and facilitate scholarship searches as well as provide information about scholarship opportunities that have been sent to the school for distribution.

Students using the career center resources will be able to access materials and software to help them make informed choices on schools, training, and careers for their future. Parent volunteers with minimal training can also be utilized to facilitate a center.

BRIDGE legislation requires that students be provided educational and career-related "information". It is important that local schools provide the information in a well-organized space that faculty, students and parents can utilize to gather information to assist students in evaluating their academic skills and career interests.

Career center key practices include:

- Available resources to benefit students, parents, teachers, and the community at large.
- Parents will be encouraged to use career centers with their children in order to be more aware of workforce and workplace changes and to better assist their children in making critical educational and career decisions.
- Teachers, who serve as advisors, either formally or informally, can obtain current career information to assist them in their advisory role.
- Counselors can utilize the career center as part of their academic and career development program for students. They will also use the career center to keep abreast of current career trends, emerging high-tech, high-skill jobs, skills desired by employers, and other valuable work-related information.
- College recruitment under the supervision of the career specialist, counselor or advisor personnel can utilize the center for small informational sessions with students interested in or considering attending their institutions. This type of venue allows for several students to hear information about the institution, and they are able to ask questions where more than one person hears the response.
- Students without home computer access may use centers for web-based career, college assessment preparation, or college assessment registration on GAcollege411.
- A log of students utilizing the center should be collected for evaluation purposes, along with a survey for students, staff, and parents to determine effectiveness and for continuous improvement.
- Conduct small group sessions such as First-Time College Bound Students.

Work-based Learning (Career Related Education-CRE)

Education through work-based learning programs contributes to both the intellectual and career development of middle and high school students and is gaining acceptance by policymakers and educators as a means to improve the educational outcomes for many students. The intent of preparing students for work is not to take away from academic excellence, but instead, to integrate the academic and occupational curricula to make a relevant connection between school and work. Students should be given every opportunity to receive academic and occupational preparation that equips them with the necessary knowledge and skills for obtaining employment and/or entering postsecondary education.

In the early grades, most work-based learning consists of field trips to workplaces. Employees of a participating business take classes of students on a tour of the business and then may meet with them on a regular basis during the school year to discuss characteristics of different jobs, work attitudes and habits, and the students' career interests.

At the middle school or early high school level, students may be given opportunities to participate in a job-shadowing program. Students will watch an employee of a participating business go about his/her work and then meet to discuss the job, the education it requires, and its rewards. Students may keep track of their job shadowing experiences in their GAcollge411 PORTFOLIO. Job shadowing is used primarily for motivational and career exploration purposes.

At the high school level and into postsecondary education, more intensive work-based learning experiences are offered. Students may participate in a variety of work-based learning programs that meet their specific needs and abilities.

Work-based learning programs continue through postsecondary education, where students may alternate going to school full-time and going to the workplace full-time or they may use the parallel pattern common in secondary schools of going to the workplace several days a week. In some postsecondary education programs, participation in a work-based learning program extends the time that students need to graduate; in others it does not but may require enrollment during the summer. Figure1 illustrates the continuum of work-based learning programs.

BRIDGE legislation requires experience based, career oriented learning experiences which may include, but not be limited to, internships, apprenticeships, mentoring, co-op education, and service learning.

Figure 1- Continuum of Work-Based Learning Programs

Labor Market Information (LMI)

Labor market information plays a vital role in the exploration of education and career information. A student’s ability to acquire labor market information is essential to career planning. Thorough research into the world of work starts by understanding labor market information, particularly about specific occupations. It will be important for educators to leverage the student decision-making process with current and relative information regarding the following:

- Salaries (“Money and Outlook” on GAcollge411)
- Supply, demand and outlook (“Money and Outlook” on GAcollge411 and Occupational Supply and Demand at www.occsupplydemand.org)
- Skills and knowledge required in selected occupations (“What To Learn” on GAcollge411)
- Level of education needed to be competitive (“Skills You Need” and “What To Learn” on GAcollge411)
- What’s hot and what’s not (“Georgia’s HOT JOBS” on GAcollge411; see appendix)

BRIDGE legislation mandates that students receive the necessary information including labor market information to make good informed decisions regarding their educational and career planning. It is important that students have ample opportunities to gather specific information characteristic of the occupations they have selected from their multiple assessments.

Other resources might include:

1. **Career One Stop at <http://www.careeronestop.org/>**
Availability & Future Growth and Wages
 - Find the fastest-growing occupations in the U.S. or any state
 - Explore occupations with the most job openings in the U.S. or any state
 - Discover the occupations with the largest employment in the U.S. or any state
 - Research employment trends and projections in the Career Resource Library
 - Research the highest-paying occupations in the U.S. or any state
2. **Occupational Supply and Demand System (OSDS) at www.occsupplydemand.org**
for immediate identification of the high-skill, high-wage and high-demand occupations in Georgia.
3. **Georgia Department of Labor “Get Labor Market Information” at http://www.dol.state.ga.us/em/get_labor_market_information.htm**
 - a. Georgia Labor Market Explorer at <http://explorer.dol.state.ga.us/>
 - b. Current Publications http://www.dol.state.ga.us/wp/lmi_publications.htm

SECTION III

PLANNING - (How Am I Going to Get There?)

Planning Tools on GAcademy411

It is vital to the education and career planning process that students have opportunities and tools to organize and manage education and career-related information. Goal setting and decision making is a critical part of mapping a plan of action to reach one's education and career goals. Gathering and recording specific information about selected topics will impact the logical progression of a student's education and career planning process. GAcademy411 includes three major planning files plus a management tool, the PORTFOLIO:

- HIGH SCHOOL PLANNING
- COLLEGE PLANNING
- FINANCIAL AID PLANNING

HIGH SCHOOL PLANNING

- **YOUR PLAN OF STUDY** –GAcademy411 allows students to follow an approved course plan using a Georgia Career Pathway Individual Graduation Plan, keep track of course progress, and compare progress with high school's graduation requirements and college admissions requirements.

INITIATIVE: GAcademy411 BENCHMARK:

- **8th graders will have selected and completed a Plan of Study (Individual Graduation Plan) and approved by the parent and locked by the counselor/advisor by the end of the second semester of the 8th grade year to be utilized during the transition conference (see Appendix for the transitional plan).**

BRIDGE legislation requires 6-12 advisements. Included is the mandate that all 8th grade students with parental approval should have created an individual graduation plan (IGP) prior to the end of the 8th grade with parent approval.

Students should choose a concentration based on previous assessments. Then student should choose a specific Career Pathway based on previous career-related exploration and investigation to create the plan of study. Students can also utilize the Georgia model as a guide titled the Individual Graduation Plan titled Program of Study

on 411 located at http://www.gadoe.org/ci_cta.aspx?PageReq=CICTAPlanningNew. Their plans will pre-populate with recommended coursework based on the selected pathway.

- **Graduation Requirements** – Provides students and families with current graduation requirements under the HIGH SCHOOL PLANNING tab. GaDOE requires students to take and pass specific courses, pass the Georgia High School Graduation Test (**NOTE: Rule 160-3-1-.07 TESTING PROGRAMS and Rule 160-4-2-.13 STATEWIDE PASSING SCORE. With these rule amendments, students entering ninth grade on or after July 1, 2011 no longer must take or pass the GHSGT to receive a high school diploma. The rule amendments also reflect the change in the EOCT accounting for 20% of a student's final course grade. Students must pass all required courses, including those courses with EOCT, see appendix for more information**) and pass specific end of course test. Students who enrolled in the ninth grade in the years 2002-2003 may choose from four diploma programs. Upon completion, the student receives a high school diploma with a seal that matches the program of study. For students who enroll in the ninth grade in the school year 2008-2009 students must earn a total of 23 units in specific coursework. (See Appendix for Graduation Charts and/or Board Rule at http://www.gadoe.org/_documents/doe/legalservices/160-4-2-.47.pdf and http://www.gadoe.org/_documents/doe/legalservices/160-4-2-.48.pdf). GAcollge411 provides students and their parents with a description of current state graduation requirements. Local systems requiring more than the state minimum requirements should inform their students and parents of the additional system requirements.

BRIDGE legislation requires the individual graduation plan be flexible to allow change in the course of study but be sufficiently structured to meet graduation requirements and qualify the student for admission to postsecondary education.

- **High School Graduation Tests** – Students must take and pass all five parts of the Georgia High School Graduation Test (GHSGT) to receive a high school diploma. The Georgia High School Graduation Test includes reading, writing, mathematics, social studies, and science. The law requires that the tests “include processes and application skills as assessed in a range of academic content, and shall exceed minimum and essential skills by extending the assessments’ range of difficulty.” Georgia educators, including high school teachers and curriculum specialists, selected the knowledge and skills assessed on the graduation tests. The tests are based on the learning objectives specified in the Georgia Performance Standards for grades 9-12. The test subjects are English/Language Arts, Mathematics, Science, Social Studies, and Writing. The test is administered twice a year, once in the fall and once in the spring, beginning in the 11th grade. A student must achieve a minimum score of 500 in each subject to pass and may take the test as many times as necessary to receive a passing score. Make-up tests in different subjects are scheduled throughout the year. GAcollge411 offers additional information under the HIGH SCHOOL PLANNING

- tab. For more information go to the Georgia Department of Education at http://www.gadoe.org/ci_testing.aspx?PageReq=CI_TESTING_GHSGT
- **End of Course Tests (EOCT)** - The A+ Educational Reform Act of 2000, O.C.G.A. §20-2-281, mandates that the State Board of Education adopt end-of-course assessments in grades 9-12 for core subjects to be determined by the State Board of Education. With educator input, and State Board approval, the End-of-Course Testing program is comprised of the following eight content area assessments:
 - **Mathematics**
 - ✓ Mathematics I: Algebra/Geometry/Statistics
 - ✓ Mathematics II: Geometry/Algebra II/Statistics
 - **Social Studies**
 - ✓ United States History
 - ✓ Economics/Business/Free Enterprise
 - **Science**
 - ✓ Biology
 - ✓ Physical Science
 - **English Language Arts**
 - ✓ Ninth Grade Literature and Composition
 - ✓ American Literature and Composition

Three administrations of the EOCT are scheduled each school year. The EOCT is administered during the fall/winter, spring, and summer. Study guides for each of the eight EOCT are available on the Georgia Department of Education website at http://www.doe.k12.ga.us/curriculum/testing/eoct_guides.asp.

The guides are designed to assist students in preparation for the Georgia End-of-Course Tests. The guides provide information about the EOCT, tips on how to prepare for each specific test, and general test-taking strategies. Each guide contains a section outlining the contents of the booklet and any materials needed for effective use of the guide. Sample items are provided specific to each content area. For more information regarding the GHSGT and EOCT test go to http://www.gadoe.org/ci_testing.aspx?PageReq=CI_TESTING_EOCT. (See appendix for information regarding the elimination of the Georgia High School Graduation Test and changes in the administration of EOCT)

- **Dual Enrollment Programs** – Programs where high school students can earn college-level credit while in high school. It is important that students work with their high school counselor to schedule this coursework. Students and their families should be informed of these opportunities no later than April 1 in grades 8-11. Literature indicates that students are more likely to enroll at the postsecondary level if they have successfully completed college-level work prior to graduation. Students should know that, in most of these dual enrollment programs, they still must pass the GHSGT and EOCT to meet graduation requirements. Students should consult with their high school counselors to prepare for this type of enrollment.
- Earn College-level Credit at your High School:

- **Advanced Placement (AP)** – Successful completion of AP college-level courses and high scores on course exams will earn college-level credit at all USG institutions and many private colleges. AP courses are available at high schools around the state as well as through the Georgia Virtual High School at <http://www.gavirtualschool.org/>. Colleges vary in scores required and credits awarded. For information, visit <http://www.collegeboard.com/student/testing/ap/about.html>.

- **International**

Baccalaureate (IB) – IB is a challenging, two-year curriculum offered at select high schools throughout the state. Completion of the diploma may earn college credits for a student who scores well on end-of-course assessments. Check with your selected colleges to determine if they will accept credit. Colleges vary in scores required and credits given. For more information see your high school counselor or go to <http://www.ibo.org/>.

BRIDGE legislation requires the individual graduation plan to include opportunities for postsecondary studies through articulation, dual enrollment, and/or joint enrollment. House Bill 186 legislation requires that all students and their parents in grades 8-11 are aware of all dual enrollment programs by April 1 of each school year.

- **Articulated Credit** – Technical courses taken at the high school can become transfer credit to local technical colleges when agreements are in place between the local high school and the local technical college. See your high school counselor for agreements at your school.
- Attend a Local College (Students must be admitted to the selected college):
 - **Dual Academic Credit (Accel)** – Courses in math, science, language arts, and social studies taken at a local college can allow a student to earn both college academic credit and high school credit. Information regarding this program is located on GAcollge411 under the HIGH SCHOOL PLANNING tab, in the blue box on the right.
 - **Dual Technical Credit (HOPE Grant)** – Courses taken at a local college can allow a student to earn both college technical credit and high school credit.
 - **Move On When Ready (MOWR)** – Students can begin their college career early and receive both a high school diploma and college credit.
 - **Joint Enrollment** – Students can begin their college career early by taking college courses in addition to attending high school. (College credit only; student is responsible for all costs.)
- Attend a High School/College Sponsored Program:
 - **Advanced Academy (University of West Georgia)** – This Academy is an early admission, residential program at the University of West Georgia and is open to gifted, talented, and motivated students. Requires the student to be admitted to the college.

- **Georgia Academy of Aviation, Mathematics, Engineering and Science (GAMES) (Middle Georgia College)** – This Academy is an early admission, residential program at Middle Georgia College and is open to gifted, talented, and motivated students. Requires the student to be admitted to the college.
- **Early College (12 Locations in Georgia)** – Early College targets students traditionally underrepresented in postsecondary education: high poverty, minority, and/or first generation college-bound students. The goal is to complete one to two years of transferable college credit prior to graduation from high school.
- **Georgia Career Academies (7 locations in Georgia)** – Courses taken at a career academy may result in both high school and technical college credit or may give the student a head start on the pursuit of a technical certificate or diploma.
- **Gateway to College** – Gateway allows students who have dropped out or are behind in credits to complete their high school diploma and earn college credit at the same time. <http://www.gatewaytocollege.org>

INITIATIVE: Dual Enrollment (411 College Credit Now)
BENCH MARK:

- **10th graders have been made aware of “College Credit Now” programs through the College Credit Now GUIDEWAY located on the High School Planning page**

- **HIGH SCHOOL PLANNING TIMELINE** – GAcademy411 provides students with a detailed timeline at each grade level beginning in the 7th grade and ending with the College Freshman Year. The timeline recommends or suggests appropriate GAcademy411 activities for students and their families to assist them in the process.

Students should utilize the timeline to stay on track for graduation and prepare for the next step after graduation.

COLLEGE PLANNING – GAcollge411 provides students and their families with planning tools and materials they can utilize to determine the best possible postsecondary experience to meet their education and career planning goals. Under the COLLEGE PLANNING tab, students can find a college planning timeline, as well as test prep for the SAT, ACT, ASSET, and COMPASS/ESL and a vocabulary builder. Students can also explore various programs, majors, and find the right postsecondary school in Georgia or nationwide. The Applications and Transcripts section allows students to practice a college application before they actually complete and submit a real admission application. Voices provide blogs from current students to give a bird’s-eye view of what it’s really like to be a college student.

INITIATIVE: GAcollge411
BENCHMARK:
11th graders should have made the connection between education and career planning by exploring at least three possible choices of postsecondary institutions that match their program of study/plan of study.

- **PREPARE FOR COLLEGE** on GAcollge411 includes:
 - College Planning Timeline – GAcollge411 provides students with a detailed timeline at each grade level beginning in the 7th grade and then moving forward year by year until the college freshman year is reached. It is important for students to know what they need to do and when they need to do it. This timeline helps keep students on track with their planning and provides suggested GAcollge411 tasks to promote understanding.

- Getting Ready for College – This section provides students with the answers to frequently asked questions and specific information about attending colleges in Georgia including admissions requirements and other important information.

- **TEST PREP** – GAcollge411 provides students with an extensive testing tutorial for college admission assessments:
 - Technical or two-year college test prep-COMPASS/ESL and ASSET
 - Four-year college or university test prep-SAT I
 - Postgraduate test prep-GRE
 - Vocabulary Builder for expanding your vocabulary

- **EXPLORE POSTSECONDARY SCHOOLS**

- Search by school name
- Utilize school exploration tools
- Browse schools by
 - GAcademy411 Statewide Schools
 - University System of Georgia Schools
 - Technical Colleges
 - Independent Colleges

- **EXPLORE PROGRAMS AND MAJORS**

–Student should understand that postsecondary institutions refer to their specific curriculum as a program of study or a major which is aligned to specific career options.

- Search by name – Students can search programs of study by name. This process is difficult if the student is not familiar with postsecondary terminology, therefore assistance may be needed.
- Search by Career Pathways – Students can search for programs of study at the postsecondary level to align with their plan of study/individual graduation plan by pathways.
- Search by Program Concentrations – Students can search by Program Concentrations for a broader range of programs.

BRIDGE legislation requires high school students shall be provided on-going guidance, advisement, and counseling that will enable them to successfully complete their individual graduation plans, preparing them for a seamless transition to postsecondary study, further training, or employment.

INITIATIVE: GAcademy411

BENCHMARKS:

- **12th graders identify their next step after graduation in their electronic portfolio: 4-year institute, 2-year institute, apprenticeship, military, technical college, special purpose [vocational] school, or workforce.**

- **APPLICATIONS** – Students have access to multiple tools to assist with the postsecondary application process:

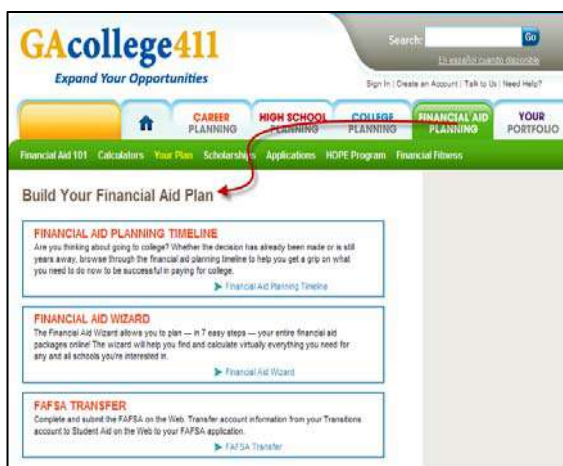

- Apply to College and Track Your Applications
- Practice a College Application
- Be a Star – Get Recruited

Students should be encouraged to utilize the GAcademy411 program to apply to colleges in Georgia. Currently 92 schools in Georgia and some colleges in other states are available. Students will be able to track their application progress.

- **VOICES** – Students are provided the opportunity to follow “college blogs” and ask questions of current students to find out what college life is really like.

FINANCIAL AID PLANNING – Financial aid planning is vital to the education and career planning process. Students and parents need an understanding of the process and will need direct assistance from counselors, advisors and local colleges to facilitate the process. GAcollge411 has an extensive file on all aspects of the process including:

- Financial Aid 101 – This part of the site can assist with terminology through the Financial Aid Glossary and a basic understanding of the process.
- Federal Aid Calculator and Find Scholarships – Students and parents should be made aware of this most valuable site for calculating federal aid and locating possible scholarships. The scholarship search should start early. Some scholarships will expect students to “groom” themselves in very specific ways that could start as early as the 9th grade or before.
- Build Your Financial Plan – This part of the site provides a timeline to assist students and their families with staying on track and meeting deadlines. The Financial Aid Wizard allows students to plan — in 7 easy steps — their entire financial aid packages online and determine which school is the best financial fit!
- Financial Aid for state programs, such as the HOPE Scholarship, HOPE Grant, and the Georgia Tuition Equalization Grant are available under the Applications section. The FAFSA Transfer Module can also be found here and allows students to transfer certain information from their GAcollge411 account to their Free Application for Federal Student Aid (FAFSA). An additional website, “Mapping Your Future” (<http://www.mappingyourfuture.org/>) with value added information that can be used with students and parents including a guide for 8th graders and their parents as well as a PowerPoint presentation.
- Georgia’s HOPE Program (**NOTE: A brief summary of the new HOPE [April, 2011] rules and regulations are located in the appendix**). – It is critical that middle school students and their families be aware of this opportunity that is available at Georgia’s public colleges/universities, technical colleges, and private colleges. A video and two PowerPoint presentations (one for middle school 8th graders and one for high school juniors) are available in the Middle School and High School Educators section of GAcollge411 to assist counselors with the delivery of the financial aid process and HOPE information. In addition, motivational modules which focus on financial aid are recommended. It is suggested that counselors, business partners, or local college representatives deliver these modules according to the matrix located in the appendix.
- Financial Fitness – This section features “Managing Your Money 101: An Introduction to Basic Financial Fitness” to help users manage their personal finances.

CSS Financial Aid Profile – The CSS Financial Aid Profile is used by member or participating colleges to help them award nonfederal student aid funds. The form is a financial aid application service of the College Board. This form is not available on 411. A list of colleges and scholarships requiring this form is available in the CSS Profile Student Guide or online at <https://profileonline.collegeboard.com/prf/index.jsp> Students can file usually as early as October 1st. There is a \$25.00 fee for filing. Students can apply online at <https://profileonline.collegeboard.com/prf/index.jsp>. Seniors should be made aware of this application that may be required by selected schools, usually private institutions.

School career centers should include a file on local scholarships and other opportunities along with federal and state forms and information regarding financial aid. Gacollege411 can provide many of the forms and information for the center. Other web sites for more FREE information:

The list above is a partial list of publications that can be duplicated and housed in the local middle and high school career center as “take one” items.

SECTION IV - Management

PORTFOLIO

Just as portfolios have been used for years in the arts and business, the world of education has come to see the value in portfolios, and schools are now using this concept to help students explore the developmental aspects of their learning and growth. The portfolio concept has great potential for showcasing the major results of a developmental school guidance program that integrates career development, an important dimension of human development, as a lifelong learning process.

Why is a Portfolio Beneficial?

Educational systems are charged with preparing students for productive employment in a global economy and success in life. Education and career development is an ongoing process, not an isolated event. Schools should help students with career decisions by facilitating the process and modeling appropriate ways to make sound decisions based on relative, current, and accurate information. Research shows that people are happier if they make solid progress toward their goals. An education and career planning portfolio is both tangible and visible proof of that progress (utilized as an evaluation tool upon which data can be collected).

- The personalized portfolio helps students take responsibility for and have ownership of their educational and career decisions.
- Some large companies are now requesting transcripts and portfolios for documentation.
- The portfolio serves to educate students about the many facets of the educational and career decision-making process, such as assessing their interests.
- The comprehensiveness of creating a portfolio requires that students use higher-level analysis, synthesis, and evaluation skills.

- The purpose of the portfolio's sequential planning activities is to provide better links between their education and future career plans.
- The portfolio allows for a variety of activities, procedures, products, and opportunities, which contribute to a better understanding of the big picture. These include building a resume, listing skills, strengths and abilities, and developing an action plan.
- All students deserve the opportunity to develop individualized education and career plans.

GAcollege411 - PORTFOLIO

The GAcollege411 website provides access to a lifelong electronic portfolio to manage and organize education and career-related

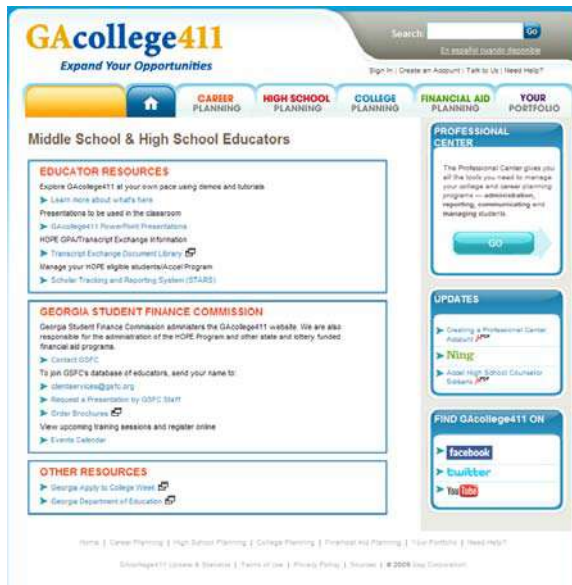

information. Research, decision making and reflection are critical to the planning process and students should be allowed opportunities to maintain their 411 portfolio. The TAA program should allow reminders to advisors for regular checks on student utilization of the web site

utilizing the Professional Center which will produce an individual report of the counselor or advisors case load.

Students can create their personal portfolio account using the YOUR PORTFOLIO tab. The portfolio provides students with the capability to save their results from their career assessments, set timelines for accomplishing goals, to research careers that interest them, to explore postsecondary education options and schools, and to research scholarship opportunities. Students can also apply for admission, financial aid and scholarships, and HOPE, as well as create a resume and practice with sample interview questions. The 411 PORTFOLIO will allow students the opportunities to:

- Personalize their portfolio by creating a personal profile (YOUR PROFILE)
- Keep track of their activities, experiences, and honors or awards (YOUR PROFILE)
- Save and review career and other assessment results (CAREER PLANNING PORTFOLIO)-BRIDGE Compliance
- Describe their work experiences (CAREER PLANNING PORTFOLIO)-Bridge Compliance
- Explore, create, and update their personal high school plan of study (Career Pathway/Individual Graduation Plan) as it relates to self-selected career choices (HIGH SCHOOL PLANNING PORTFOLIO)-BRIDGE and House Bill 186 Compliance
- Explore, create, and update future postsecondary planning as it relates to the high school plan of study and career choices (COLLEGE PLANNING PORTFOLIO) BRIDGE and House Bill 186 Compliance
- Explore and create a financial aid plan to fund postsecondary education (FINANCIAL AID PORTFOLIO)-BRIDGE Compliance
- Record their thoughts, ideas and possible questions regarding their plans. (YOUR JOURNAL)

MIDDLE SCHOOL & HIGH SCHOOL EDUCATORS: Can be accessed from the bottom of the homepage.

SECTION V – Appendix for supporting documents:

Proposed Secondary Assessment Transition Matrix

	Ninth Graders	Tenth Graders	Eleventh Graders	Twelfth Graders
2011/2012	 EOCT = 20% of course grade Pass the GHSWT	EOCT = 15% of course grade [Pass one EOCT in each of the four content areas or pass the corresponding subject test of GHSGT] Pass GHSWT 	EOCT = 15% of course grade [Pass one EOCT in each of the four content areas or pass the corresponding subject test of GHSGT] Pass GHSWT 	EOCT = 15% of course grade [Pass one EOCT in each of the four content areas or pass the corresponding subject test of GHSGT] Pass GHSWT 
2012/2013	EOCT = 20% of course grade Pass the GHSWT 	 EOCT = 20% of course grade Pass the GHSWT	EOCT = 15% of course grade [Pass one EOCT in each of the four content areas or pass the corresponding subject test of GHSGT] Pass GHSWT 	EOCT = 15% of course grade [Pass one EOCT in each of the four content areas or pass the corresponding subject test of GHSGT] Pass GHSWT 
2013/2014	EOCT = 20% of course grade Pass the GHSWT 	EOCT = 20% of course grade Pass the GHSWT 	 EOCT = 20% of course grade Pass the GHSWT	EOCT = 15% of course grade [Pass one EOCT in each of the four content areas or pass the corresponding subject test of GHSGT] Pass GHSWT 
2014/2015	Common Core Assessment Implementation (Language Arts & Mathematics) EOCT = 20%  (Science & Social Studies)	Common Core Assessment Implementation (Language Arts & Mathematics) EOCT = 20%  (Science & Social Studies)	Common Core Assessment Implementation (Language Arts & Mathematics) EOCT = 20%  (Science & Social Studies)	 EOCT = 20% of course grade Pass the GHSWT

Key

Lightning Bolt

- It is proposed for students who entered ninth grade between July 1, 2008, and June 30, 2011, that the testing requirement currently in place for diploma eligibility be achieved through demonstration to proficiency on one of the two EOCT/s in each content area (English/language arts, mathematics, science and social studies). Under this proposal, a passing score on a content area EOCT will serve as an alternate demonstration of proficiency and stand in lieu of the requirement to pass the corresponding content area GHSGT.
- For this cohort, the EOCT will continue to contribute 15% to the student's course grade. The GHSCT will remain available for any student unable to meet the testing requirement through the EOCT in any content area.
- The requirement to achieve a passing score on the Georgia High School Writing Test (GHSWT) will remain for all students.

Star and Sun

- It is proposed that the GHSGT no longer be required to earn a high school diploma for students entering grade nine for the first time during the 2011-2012 school year and beyond.
- Beginning with the students who enter grade nine for the first time in 2011-2012, the EOCT will contribute 20% to the course grade (for those core courses in which an EOCT is mandated).
- To earn a high school diploma, a student entering grade nine for the first time during the 2011-2012 school year and beyond will be required to pass the course with the increased weight of the EOCT applied to the course grade.
- The requirement to achieve a passing score on the Georgia High School Writing Test (GHSWT) will remain for all students.

Beginning in 2011-2012, Adequate Yearly Progress will be calculated using the End of Course Tests (EOCT) scores.

This transition plan was developed in consideration for the planned implementation of the Common Core Assessments in 2014-2015(☺).

TEACHERS-AS-ADVISORS (TAA) RUBRIC

Georgia Department of Education
Revised May, 2010

This rubric is designed to assist in rating the current implementation status of your school's **Teachers-As-Advisors (TAA)** Program in grades 6-12. This self-rating tool will assist school personnel in setting systemic goals. It can highlight at what level your program is being implemented and it can serve as a benchmarking tool for improvement. Please mark all responses that apply for each statement that has been implemented at your school. Steps are listed in the suggested order of occurrence. Add the number of check marks in each area to determine score. This rubric has been revised to reflect Georgia specific terminology and resources.

Describe your primary responsibility: (CHOOSE ONLY ONE)

- (a) Superintendent
- (b) High School Principal
- (c) Middle School Principal
- (d) Assistant Superintendent
- (e) Assistant Principal
- (f) Academic Teacher
- (g) Elective Teacher
- (h) Career/Technical Teacher
- (i) Counselor
- (j) Other: _____

PLANNING PROCESS

A. *Administrative support:*

- ___ Administrative leaders work in concert with teachers to create a well-defined statement of purpose and convey awareness and rationale for the program
- ___ Review/discuss teacher as "advisor" role during teacher evaluation
- ___ Review teacher expectations during hiring process
- ___ Appoint a "Teachers -As-Advisors" (TAA) program coordinator and TAA planning committee
- ___ Organize and work with a planning committee that includes parents, students, faculty and other stakeholders
- ___ Approve established goals and a plan of action
- ___ Market program name/logo
- ___ Foster communication among parents, teachers, counselors, and students about the program
- ___ Provide via technology opportunities to tour or observe model "TAA" school programs
- ___ Provide "Teachers-As-Advisors" orientation for key staff
- ___ Participate as an "advisor" to a group of students
- ___ Develop a school master schedule that allocates time for advisement activities

SET CALENDAR

B. *Yearly Calendar Schedule:*

- ___ Establish planning committee meeting times
- ___ Target staff professional learning dates
- ___ Schedule regular student advisory meeting sessions (at least twice monthly)
- ___ Schedule parent/teacher/student conference dates/times in grades 6-12 (at least annually)

CONTENT

C. *Activities Development and Implementation*

- _____ Develop and administer a student needs assessment; or, content was created utilizing the Georgia DOE TAA framework located on GeorgiaStandards.org
- _____ Identify, develop and align grade-level activities in grades 6-12
- _____ Copy materials for use by advisors
- _____ Align TAA program with the counselor advisement program

Suggested activities include but are not limited to:

- _____ Develop an individual 6-year plan to identify course selection (plan of study with postsecondary connections on Gacollege411 or other CIS (collect data)
- _____ Administer and interpret interest inventories/academic assessments located on Gacollege411 or other CIS (collect data)
- _____ Demonstrate employability skills such as teamwork and active listening
- _____ Improve study skills
- _____ Explore educational options on Gacollege411 or other CIS (collect data)
- _____ Figure grade point average (GPA) and averaging of grades
- _____ Address high school graduation requirement
- _____ Learn college & military entrance requirements utilizing Gacollege411 or other CIS
- _____ Development of the Gacollege411 or other CIS life-long electronic portfolio related to future goals
- _____ Relay labor market information to students and parents
- _____ Provide information regarding dual enrollment such as Accel and MOWR
- _____ Provide Georgia HOPE scholarship and grant information
- _____ Provide financial aid information
- _____ Others _____

ADVISOR TIME WITH STUDENTS

D. *Student Advisement:*

- _____ Work with peer groups for one to four years as a unit
- _____ Meet with small equitably distributed groups of students (20 or less)
- _____ Meet a minimum of 18 to 36 times per year above the meeting times for progress reports
- _____ Meet with advisory group for a minimum of thirty minutes

TEACHER TRAINING

E. *Teacher Involvement:*

- _____ Train staff on TAA topics prior to advisor/advisee time
- _____ Establish peer mentors for “new” advisors
- _____ Train substitutes, new staff, and support staff on the use of TAA materials
- _____ Provide advisors inquiry-access to advisees’ records regarding attendance, grades, discipline, etc., on “need to know” basis

Teacher training includes but is not limited to:

- TAA program purposes, curriculum, and benefits
- Listening skills
- Confidentiality and referral procedures
- Advisor and administrative responsibilities/duties for “quality”
- Orientation to programs such as the GACollege411 and/or other CIS
- Curriculum
- Academic progress, attendance, and future plans
- Assessment interpretation (career-related inventories on Gacollege411, ACT, PSAT)
- Career Clusters/Pathways
- High school graduation requirements
- NCAA eligibility requirements
- USG College (2-year and 4-year) and Technical College admission requirements
- Other _____

PARENT/STUDENT/ADVISOR CONFERENCE

F. Parental Participation:

- Increase parental attendance at conferences and their involvement in the educational and career planning process
- Provide a course description booklet for students and parents
- Provide informational booths (e.g., yearbook, PTA-PTO, student organizations, military, postsecondary education, etc.) during open house or freshmen orientation
- Update students’ individual Plan of Study/Individual Graduation Plan utilizing Gacollege411 or other CIS (usually in the spring of each year.)

MARKETING

G. Community and Parental Public Relations:

- Provide letter to inform parents of program purpose and meeting dates
- Maintain contact with parents regarding student progress and TAA activities
- Publish a newsletter or provide TAA information in other publications (bi-annual, annual, quarterly, etc.)
- Report to the community on a regular basis about the program and its results

EVALUATION

H. Program Evaluation and Improvement:

- Parents evaluate advisor conference time
- Students evaluate TAA program annually
- Teachers evaluate TAA program annually
- Advisory Committee compiles, reviews and shares program evaluation results
- Program adjustments made prior to the next school years sessions
- Concerns are identified, method for collecting data to address those issues/concerns are determined, data collected and reviewed to determine effectiveness
- Collect Gacollege411 or other CIS data to determine utilization

Observed outcomes at your school: Please check measurable benefits observed at your school.

- Increased parental participation/attendance
- Improved course selection and scheduling

- _____ Decreased schedule changes
- _____ Increased faculty ownership for “student” success
- _____ Increased time for counselors to focus on counseling
- _____ Increased knowledge of educational and occupational opportunities
- _____ Improved understanding of graduation requirements/college entrance requirements
- _____ Increased enrollment in higher level math and science including AP
- _____ Greater number of students with a plan of study/program of study on Gacollege411 or other CIS
- _____ Greater percentage of students passing all parts of the GHSGT before graduating
- _____ Greater percentage of student passing EOCT
- _____ Others _____

ADVANCED (Majority of criteria checked in each section)	PROFICIENT (Minimum of 3 criteria checked in each section)	BASIC (Minimum of 2 criteria checked in each section)	DEVELOPING (Must have <u>at least 1</u> criterion checked in each section)	NOT YET ESTABLISHED (No criteria checked in one or more sections)
83-77 Points	76-52 Points	51–36 Points	35-27 Points	26-0 Points

- Advanced** Your TAA program is well established. Continue to review and self-evaluate after every session and make required adjustments as needed to continue to help students be successful.
- Proficient** Your TAA program has engaged the majority of your school’s staff, students and parents. The TAA activities are varied and supportive of students’ goals. Continue to challenge yourselves to find additional ways to provide students the opportunity to develop skills they need for future success.
- Basic** Your TAA program is meeting the standard. Continue to meet on a regular basis with your advisory committee, encourage staff participation, and seek feedback from students and parents to help make progress in what you’re doing.
- Developing** Your TAA program is in the development stage. You most likely have been working hard to develop a program in which everyone is actively involved. You feel frustration because not everyone views it as their job to assist students in planning for their future. Continue to seek administrative support, train staff on a regular basis and seek community assistance.
- Not Yet Established** Seek assistance because your TAA program may need improvement or you have not worked to develop and implement a TAA program.

**Individual Student Educational and Career Planning
Individual Graduation Plan (BRIDGE Compliance)
“Passing the Torch from Middle to High”
45-50 Minute Winter Transitional Session**

Outcome: Student, school staff and family will have developed an **individual graduation plan** (Career Pathway: Plan of Study) as a guide to graduation and beyond.

Participants: Middle School Advisor; High School TAA Advisor; Student; Family OR Middle School Counselor; High School Counselor; Student; Family

When: By the end of the second semester of the 8th grade (BRIDGE BILL compliance)

Materials:

- Space conducive to open conversation (round table, no barriers [anything that will impede conversation like distractions, rigid posture, no eye contact, interruptions] between staff, student and family members, attentive listening; be caring; be curious)
- Attendance records (impress the need to attend classes because of End Of Course Test (EOCT) and to acquire the knowledge and skills necessary to take the next step; remind students they are building a reliable and responsible reputation)
- Discipline records (impress the need to follow the rules and stay within the boundaries established by the high school such as dress code, being on time to school and class; and other rules and regulations; remind students they are building a reliable and responsible reputation)
- Academic records (latest CRCT, Writing Assessment and other standardized test scores [ITBS, NAEP or MGA from SREB]; student transcript; Interest Profiler and Work Values Sorter on GACollege411 (should be in the student’s Portfolio; access to GACollege411 to access the 411 Plan of Study in the HIGH SCHOOL PLANNING file)
- Copy of student career essay {optional essay} with notes (A career and B career as a backup) This can be done as an addition to middle school program criteria policy update OR as a practice writing assessment)
- List of open-ended questions about students educational and career choices to confirm student choices
 - Why are you interested in these careers? (Can use the Interest Profiler to affirm or deny student perception)
 - What are some specific details you know about these careers? (Confirm in the GACollege411 Portfolio that the student has used GACollege411 to explore pathways; if not, encourage student to begin the process and remind students that computers are available in public libraries, school media center)
 - What led you to think you might be interested in these careers? (Listen for skills, interest, and values)
 - What do you like most about these careers? (Listen for skills, interest, and values)
 - What do you like least about these careers? (Listen for a lack of skills, interest, and values)
 - Compare the skills you might need to work alone to those you will need to work in a team. (interpersonal skills are important to most occupations)

- Can you be a team-player/work within a group? Why? (employers want workers with the ability to work effectively in a group along with communicative skills)
- Compare the advantages of indoor work and outdoor work? Which do you prefer?
- Communication skills are important to potential employers. Do you have strengths and weaknesses? If so, what are they? (Reading, Speaking, Writing, Presentation, Explaining)
- How would these careers require math skills? Do you like math? (Point out the relationship, if any, between occupational choices and math aptitude)
- How would these careers require science skills? Do you like science? (Point out the relationship, if any, between occupational choices and science aptitude)
- What are your favorite classes? Least favorite? Why? (Point out the relationship, if any, between favorite and least favorite classes and occupational choices)
- What are some of your problem-solving skills? Why do you think these skills would be important to an employer? (Employers look for problem-solving as an important skill)
- Describe your technological skills? (Point out the tremendous usage of technology in today's world of work)
- What did your interest survey tell you about yourself? (Let the student talk about themselves in relation to their scores)
- What did your skills survey tell you about yourself? (Let the student talk about themselves in relation to their scores)
- What level of education/skills do these careers demand to be competitive in the job market? (Help student and family understand the varying levels of education and the possibilities for this student)
- What concerns do you have about postsecondary education? (Allow student and family discuss any concerns they may have about postsecondary education; offer resources or make the referral to the high school counselor)

Synthesize information to reflect student's motivating values and interest: accomplishment, enjoyment, service to others, money, security, and environment

Identify or confirm pathway alignment to career choices and synthesized information to include:

- High school courses and postsecondary plans, if needed, to include appropriate level of education needed to be competitive
- Complete with the parent and learner the Plan of Study; parent can approve the plan and the counselor/advisor can lock the plan. Optional: The learner can change their identification from the middle school to the high school.
- Identify technical, public and private colleges with strong programs in this pathway/occupation (counselor/TAA advisor should be familiar with local possibilities and be able to tell student and family how the GACollege411 [COLLEGE PLANNING tab] can assist them with matching programs of study to postsecondary programs)
- Inform student and family that they can begin to gather financial aid information from the GACollege411 site under the FINANCIAL AID PLANNING tab; be sure they understand the HOPE PROGRAM (have brochures available, if possible; or have pages printed from the GACOLLEGE411 HOPE PROGRAM section)
- Is there anything else you would like to discuss about your educational and career choices? (Allow student and family to ask questions or make comments)

Pre-meeting preparation:

- Notify parent of time and place; confirm the day before
- Prepare a short parent evaluation to determine the effectiveness of the session which includes a parent signature verifying that this meeting took place
- Create a space that is open, friendly and comfortable (round table for open discussion between all members of the group)
- Gather all materials to utilize during this session in a folder with student name, DOB and parent/guardian name on the front cover
- Multiple copies of the Individual Graduation Plan documents offered at the receiving high school (can become a tools for conversation as well as a plan of study on 411)
- Read and examine the career essays, if applicable
- Become familiar with standardized test scores and career assessments as they relate to the individual student found on 411

GRADUATION REQUIREMENTS for students who enroll in the ninth grade for the first time in the 2002-2003 school years. For more information regarding the graduation requirements go to http://www.gadoe.org/_documents/doe/legalservices/160-4-2-.47.pdf

AREAS OF STUDY:	CP	CP+	TC	TC+
(I) English/Language Arts*	4	4	4	4
(II) Mathematics*	4	4	3**	3**
(III) Science*	3	3	3	3
(IV) Social Studies*	3	3	3	3
(V) Health and Physical Education	1	1	1	1
(VI) Computer Technology and/or Fine Arts and/or Technology/Career-preparatory and/or Foreign Language	1	1	1	1
(VII) Foreign Language*	2	2	0	0**
(VIII) Technology/Career-preparatory units*** (From core Technology/Career-preparatory courses)	0	0	4	4
(IX) Locally required or elective units	4	4	3**	4**
(X) State Electives from Core Areas- (Courses with a single asterisk) and/or Fine Arts	0	2	0	1
TOTAL UNITS (MINIMUM)	22	24	22	24

*Core Courses

**Technology/Career-preparatory students may want to utilize an elective unit as Foreign Language or as a fourth unit of mathematics depending upon the student's program of study and the student's intentions to enter a University System of Georgia institution or other post-secondary institution.

Determination of the appropriate number of mathematics units for each Technology/Career-preparatory program of study shall be determined by the local board of education.

GRADUATION REQUIREMENTS for students who enroll in the ninth grade for the first time in the 2008-2009 school years. For more information regarding the graduation requirement go to http://www.gadoe.org/_documents/doe/legalservices/160-4-2-.48.pdf and/or http://www.gadoe.org/ci_services.aspx under the section titled “New Graduation Requirements”.

AREAS of STUDY:

I. English/Language Arts*	4 Units
II. Mathematics*	4 Units
III. Science*	4 Units
The 4th science unit may be used to meet both the science and elective requirement	
IV. Social Studies*	3 Units
V. CTAE and/or Modern Language and/or Fine Arts	3 Units
VI. Health and Physical Education*	1 Unit
VII. Electives	4 Units
Total Units (minimum state requirements)	23 Units
*Required Courses and/or Core Courses

State Program Updates Summary

Georgia Student Finance Commission

THIS INFORMATION IS PROVIDED FOR STUDENTS GRADUATING FROM HIGH SCHOOL IN 2011 OR LATER

HOPE Scholarship

- Students must graduate from high school with a 3.0 GPA as calculated by the Georgia Student Finance Commission for a college prep diploma or a 3.2 for a career tech diploma. Students graduating under the single diploma type must have a 3.0 GPA as calculated by GSFC.
- Students must maintain a 3.0 GPA in college.
- If a student falls below a 3.0 GPA in college, they may only regain the HOPE Scholarship one time.
- The HOPE Scholarship will not pay for remedial or developmental courses.
- A student may receive the HOPE Scholarship until the first of these events:
 - The student has earned a baccalaureate or first professional degree;
 - The student has attempted at any postsecondary institution a total of 190 quarter hours or 127 semester hours;
 - The student has received a total of combined payment of 127 semester hours or 190 quarter hours from the HOPE Scholarship, HOPE Grant, and Accel program (Accel payments made beginning with Fall 2011 term are excluded from the 127 hour cap); or
 - Beginning with those students receiving HOPE for the first time on or after July 1, 2011, seven years from a student's graduation from high school or the equivalent; provided, however, that for a student that serves on active duty in the military during such seven-year period such active duty service time will be credited back to the seven years.
- The HOPE Scholarship will pay:
 - At an eligible public postsecondary institution, for FY2012, a percentage amount of the standard tuition charges from the previous year. In subsequent years, the award amount will be a percentage of the immediately preceding year's HOPE Award Amount.
 - At an eligible private postsecondary institution, a percentage amount of the HOPE award amount for private colleges.

Creation of the Zell Miller Scholar Program

Students are eligible for the Zell Miller Scholar program:

- As an incoming freshman:
 - Having graduated from an eligible high school with a grade point average of at least 3.7 as calculated by Georgia Student Finance Commission and having received a score of at least 1,200 combined critical reading score and math score on a single administration of the SAT or an ACT score of at least 26; or
 - Having graduated from an eligible high school as the valedictorian or salutatorian; or Having completed a home study program meeting the HOPE eligibility requirements, having received a score of at least 1,200 combined critical reading score and math score on a single administration of the SAT or an ACT composite scale score of at least 26, and earning a cumulative grade point average of at least 3.3 at eligible postsecondary institution at the end of the quarter or semester in which the student has attempted 45 quarter hours or 30 semester hours, provided that such student shall be eligible to receive a retroactive scholarship for such student's freshman year to be paid at the end of the freshman year.
- A student must maintain a 3.3 grade point average in college to maintain the Zell Miller Scholar program. If the student falls below a 3.3 grade point average, they remain eligible for the regular HOPE Scholarship if the student's GPA is still a 3.0 or above.

- A student meeting the requirements to be a Zell Miller Scholar must also meet all the requirements to be a HOPE Scholar.
- If a student loses eligibility for the Zell Miller Scholar program for any reason, they may regain that eligibility one time.
- The Zell Miller Scholar Program will pay:
 - At an eligible public postsecondary institution, 100% of the standard tuition charges;
 - At an eligible private postsecondary institution, 100% of the HOPE award amount for private colleges.

HOPE Grant Program

- Only available for students seeking a certificate or diploma at a branch of the Technical College System of Georgia or a unit of the University System of Georgia.
- Students must meet achievement standards by earning a cumulative grade point average of at least 3.0 at the end of the quarter or semester in which the student has attended 30 or 60 semester hours or 45 or 90 quarter hours of courses towards a diploma or certificate for which the student received HOPE Grant funds HOPE Grant will pay:
 - A percentage amount of the standard tuition charges from the previous year.
 - No students with a baccalaureate degree can receive the HOPE Grant.

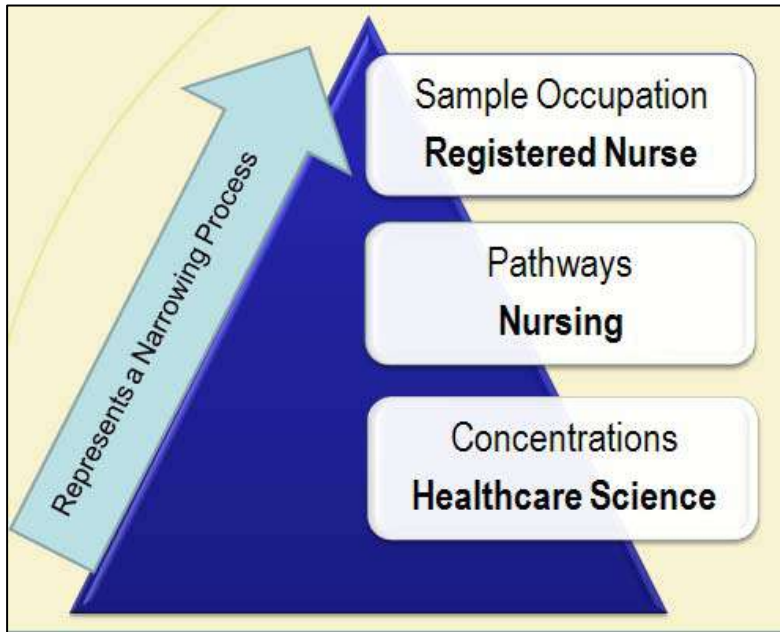

The Student Access Loan Program

- Low interest loan program targeted to students who experience unmet need or a gap in their college financing.
- Students must be able to demonstrate that they have exhausted other financial aid sources including federal grants and loans and must have completed the Free Application for Federal Student Aid for the academic year in which they seek this loan.
- Students must be a resident of Georgia and a United States Citizen or eligible non-citizen.
- Students must be attending an eligible postsecondary institution in Georgia
- Students may borrow up to \$10,000 per year and \$40,000 in their lifetime.
- Certain students who teach in Science, Technology, Engineering or Mathematics (STEM) fields may be eligible to have all or a portion of their Student Access Loan forgiven.
- The annual interest rate is 1% and borrowers will be required to pay interest while they are in school.
- Students may apply online at www.GAcollge411.org. Online applications will be available on or about June 20th, 2011. Postsecondary schools will be required to certify the loan and disbursements will be sent to the postsecondary institution.
- For more information, students should check the GAcollge411 website periodically.

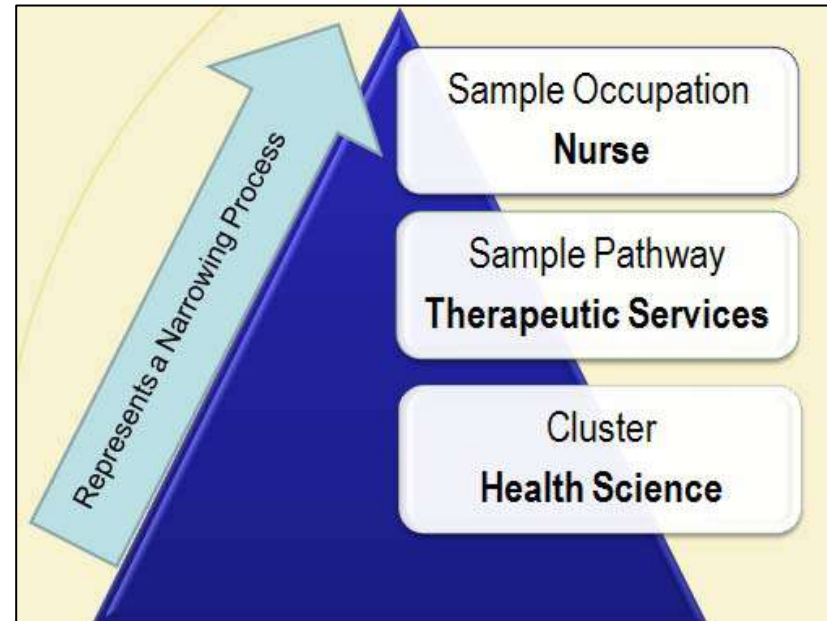

In addition to the requirements listed above for all of these aid programs, students must still meet the basic eligibility requirements of:

- Be a legal resident of Georgia;
- Meet academic achievement standards required by the program or the college;
- Be registered with the Selective Service, if required;
- Be in compliance with the Georgia Drug-Free Postsecondary Education Act of 1990;
- Meet HOPE's U.S. citizenship or eligible non-citizen requirements;
- Be in good standing on all student loans or other financial aid programs;
- Not have exceeded the maximum award limits for any HOPE program;
- Meet enrollment requirements; and
- Attend an eligible Georgia school.

CAREER CLUSTER MODELS

Career Cluster Model for students enrolling in the 9th grade 2008-2009

Career Cluster Model for students enrolling in the 9th grade 2012-2013

To better align with the House Bill 186 (see appendix) mandating in Section 5. 20-2-159.1 focused programs of study based on 16 Career Clusters, “No later than July 1, 2012, the Department of Education shall develop, and the State Board of Education shall approve, state models an curriculum framework for the following focused programs of study, as defined in Code Section 20-2-326, including, but not limited to: Agriculture, food, and natural resources; Architecture and construction; Arts, audio-video technology, and communications; Business, management, and administration; Education and training; Finance; Health science; Hospitality and tourism; Human services; Information technology; Law, public safety, and security; Manufacturing; Government and public administration; Marketing, sales, and service; Science, technology, engineering, and mathematics; and Transportation, distribution, and logistics. Such focused programs of study may be combined around these and other related clusters.” NOTE: A “focused program of study” is the same as a pathway as it is referenced in BRIDGE and HB 186.

Matrix for Student Advisement Tools and Materials on GACollege411

This matrix represents a suggested framework for delivery of Teachers-as-Advisors (TAA) activities, motivational modules, videos, and narrated PowerPoint presentations for grades 6-12 located on the GACollege411 web site. These tools can be found under “Middle and High School Educators” and “Motivational Modules” (available in English and Spanish) under the Volunteer Resources. It is the intention these tools be utilized as a collaborative model delivered by advisors, counselors, business partners, and/or local college representatives.

NATIONAL CONSORTIUM OF STATE GUIDANCE LEADERSHIP
Student Plan of Study/Career Pathway/Individual Graduation Plan Rubric At-A-Glance

Performance Element	1 Novice	2 Emerging	3 Developing	4 Meets Standards	5 Well Developed/Advanced
Recommended Requirements	High school graduation checklist	High school graduation checklist with a planned program concentration or blended academic and career/technical area of focus	High school, college, and postsecondary training entrance requirement checklist with a planned career pathway or blended academic and career/technical area of focus	School maintains a program of study that includes high school, college, and postsecondary training entrance requirements aligned with a Career Pathway.	Students can speak about options, requirements and benefits of their Plan of Study that includes high school, college, and postsecondary training entrance requirements aligned with a Career Pathway; students in grades 8-11 and parents are aware of dual enrollment opportunities in Georgia.
Staff Involvement	Counselor only	Counselor and/or academic and/or CTAE staff	Counselor and advisor and other staff work together on school wide Plan of Study/Pathway system	Counselor and other school advisors/mentors have assigned students and assist with educational and career planning for ALL students	Students receive assistance from multiple educators (advisor, counselor, instructors) and family to plan and create a career-related plan of study; recorded and maintained in Gacollege411 as a "plan of study".
Grade Level Group or Individual Participation	All 8 th graders involved in an orientation process individually or collectively	8 th grade orientation and 9 th grade follow-up conference	Individual and/or group advisement sessions for 8 th , 9 th , 10 th , 11 th , 12 th grade students	Comprehensive advisement is available in grades 6-12 with individual advisement and embedded transitional activities	A comprehensive and developmental <u>advisement program</u> in grades 6-12 to include individual and group educational and career planning activities.
Review	None	Copy on file	Reviewed and updated annually	Reviewed and updated at each grading period	Reviewed through on-going advisement sessions
Parental Involvement	Enrollment and assessment information sent home to parents	Enrollment and assessment information sent home to parents. Regularly scheduled parent/advisor or parent/counselor conference	Enrollment and assessment information is sent home or students take information to parents and parent's signature required for course selection. Regularly scheduled parent/advisor or parent/counselor conference	All parents meet with student and school staff. (parent/advisor or counselor student conference during scheduled time) to develop plan of study/individual graduation plan. Parent's signature is required for all course selections.	All parents meet with student and school staff to develop a plan of study/individual graduation plan. A parent signature is required on the IGP for the student to be enrolled and before class changes can be made. Parents meet with student and school staff twice annually to review and update POS
Career-Related Assessments	Student take assessment without prompting from local staff	Gacollege 411 career-related assessments are administered to begin career exploration process randomly	Gacollege 411 career-related assessments are administered to begin career exploration process and the results are given and interpreted to the student and parents	Gacollege411 career-related assessment are administered and utilized with parent and student to discuss life/career goals, and course options at the secondary level. Assessments are used to develop the Plan of Study	Student assessments/interest inventories and academic results/aptitude assessments are interpreted with parent and student to discuss life/career goals, and course options at the secondary and postsecondary levels; student assessment results are recorded in Gacollege411.

Each level builds upon the previous level. It is assumed all services in the previous level are continued as the rubric works upward. This rubric provides basic guidelines to assist in rating the current status of your school's implementation of students' Plan of study/Program of study (POS). This self-rating tool can assist school personnel in setting systemic goals and can be used as a benchmarking tool for improvement. NOTE: Rubric adapted with permission from the Guidance Division, OK CTE and further adapted to include Georgia specific information and terminology.

Individual Graduation Plan

SAMPLE

Name _____ Class of _____

Current Area of Interest: Agriculture, Food & Natural Resources/Veterinary Science - This *INDIVIDUAL GRADUATION PLAN* can serve as a guide, along with other career planning materials, as learners continue on a career path. Courses listed within this plan are only recommended coursework and should be individualized to meet learner's educational potential and career goals. **Opportunities for coursework are flexible and can vary at the local levels.**

EDUCATION LEVELS	GRADE	English/Language Arts 4 credits	Math 4 credits	Science 4 credits*	Social Studies 3 credits	Health/ Physical Education 1 credit	Electives 4 credits	Career and Technical Courses for Veterinary Science 3 elective credits**	SAMPLE Occupations Relating to this Career Pathway
------------------	-------	------------------------------------	-------------------	-----------------------	-----------------------------	---	------------------------	---	--

Career-related assessments administered and Individual Graduation Plan initiated for all learners by the end of the 8th grade (BRIDGE compliance)

SECONDARY	9	9 th Literature & Composition	Math I, GPS Algebra I or GPS Geometry	Physical Science	American Government/ Civics	Health	Elective or Modern Language Latin	Elective <u>or</u> Basic Agriculture Science Technology	Equine Managers Veterinarians Veterinary Assistants Animal Scientists Wildlife Biologists Livestock Geneticists Animal Nutritionists	
	On-going advisement with learner and family (BRIDGE compliance) to include postsecondary admissions assessment; career-related activities									
	10	10 th Literature & Composition	Math II, or GPS Geometry or GPS Advanced Algebra	Biology	World History	Personal Fitness	Elective or Modern Language Latin	Basic Agriculture Science Technology or Small Animal Care		
	On-going advisement with learner and family (BRIDGE compliance) to include postsecondary admissions assessment level; dual enrollment; work-based learning									
	11	11 th American Literature/ Composition	Math III, GPS Advanced Algebra or Advanced Math	Chemistry	United States History	Elective	Elective or Modern Language Latin	Small Animal Care or Veterinary Science		
	On-going advisement with learner and family (BRIDGE compliance) to include postsecondary admissions assessment level; dual enrollment; work-based learning									
POSTSECONDARY	12	Advanced Composition	Advanced Math or *Career Pathway Related Math	*Animal Science Technology/ Biotechnology	Economics/ Business/ Free Enterprise	Elective	Elective or Modern Language Latin	Elective <u>or</u> Veterinary Science		
	Postsecondary advisement with learner and family to include postsecondary admission assessment level; dual credit (College Credit Now)									
<ul style="list-style-type: none"> Learners who will continue their education at one of Georgia Public Technical Colleges should prepare to take the COMPASS assessment for admissions to those institutions. Learners who will continue their education at one of Georgia's University System 4-year state college or research university institutions should prepare to take the SAT or ACT. Check with your selected institution for specific admissions requirements. Georgia's 2-year colleges do not require the SAT/ACT for admissions. 										

* 4th Science may be used to meet both the required science and required elective in CTAE sequence of courses

**Learners must complete 2 years (2 credits) of the same Modern Language/Latin for admission to Georgia Board of Regents colleges/universities; Students must complete CTAE pathway and take end of pathway assessment. See the back for a more specific description of graduation requirements.

Some courses do not follow the same sequence at the local levels.

Legend: **Golden rod**=Core requirements; **Green**=Elective Requirements

The sample VETERINARY SCIENCE PATHWAY occupations listed below meet two out of three of GDOE definitions for high-demand, high-wage and high-skilled. www.occsupplydemand.org

Occupation Specialties	Level of Education Needed	Average Salary	Annual Average Openings in Georgia
Animal Breeder	Short-Term On-the-Job Training	\$22,152	20
Animal Trainer	Moderate On-the-Job Training	\$28,891	40
Veterinarian	First Professional Degree	\$67,101	60
Veterinarian Technologist & Technician	Associate Degree	\$25,480	60

Go to GACollege411 at www.GACollege411.org for more information about your education and career planning, including valuable financial information (grants and scholarships including HOPE Program, loans, AND FAFSA and CSS forms).

VETERINARY SCIENCE PATHWAY

Veterinarians treat health problems of pets, livestock, and animals in zoos, racetracks, and laboratories. They are concerned with preventing, controlling, and curing animal diseases as well as researching human and animal health to develop new ways to prevent and cure diseases. Some veterinarians are meat inspectors, and others work in wildlife management.

The American Medical Veterinary Association reports that about 70 percent of veterinarians work in private medical practices treating small animals. Almost one-fourth of all veterinarians work in "mixed" practices, treating pigs, goats, cattle, and sheep in addition to companion pets. A small number of veterinarians treat large animals (horses or cattle) exclusively. These veterinarians drive to farms or ranches to provide services for herds or individual animals. Veterinarians involved in food safety and inspection check livestock for diseases that may be transmitted to human beings. They advise owners on the treatment of their animals as well as ordering quarantines when necessary. They may also inspect slaughtering and processing plants and enforce federal regulations concerning food purity and sanitation.

Veterinarians must obtain a Doctor of Veterinary Medicine (D.V.M. or V.M.D.) from an accredited college of veterinary medicine after completing an undergraduate program. Competition is keen for admission to veterinary school. To apply, students should complete pre-veterinary course requirements (primarily science classes) as well as submitting test scores from the Graduate Record Examination (GRE), Veterinary College Admission Test (VCAT), or Medical College Admission Test (MCAT).

After graduation from an accredited veterinary program, veterinarians must earn a passing grade on a national board examination, the North American Veterinary Licensing Exam, before practicing veterinary medicine. Employment of veterinarians is expected to increase by 35 percent by 2016 attributed somewhat to the fact that modern veterinary services now parallel human medicine. For example, certain procedures that were only previously available for humans, are now available for animals—procedures such as hip replacement, kidney transplants, and blood transfusions.

REVISED ADVISEMENT CHECKLIST (✓) Revised 1/19/11; June, 2011
Evaluation Process for measuring effective advisement utilizing any state or national Career Information System for education and career planning in phases:

- Year 2/2011-12 – 90%
- Year 3/2012-13 – 100%:

Please provide the following information:

____ % of 6th graders who have electronic portfolio accounts

____ % of 6th graders who take a career assessment or interest inventory and save the results in their portfolio

____ % of 7th graders who take a career assessment or interest inventory and save the results in their portfolio

____ % of 7th graders who explore at least three careers concentrations/clusters and save the career clusters/concentrations in their portfolios

____ % of 8th graders who explore at least three occupations and save the occupational information in their portfolios prior to the transitional parent/student conference or student led conference

____ % of 8th graders who complete an Individual Graduation Plan to utilize during the **face-to-face** transitional conference between middle and high school

____ % of 9th graders who investigate and record in their portfolio three additional occupations prior to the annual student/family conference

____ % of 9th graders and family that have participated in regular advisement sessions

____ % of 10th graders who are aware of "College Credit Now" programs (dual enrollment opportunities) by April 1

____ % of 10th graders and family that have participated in regular advisement sessions

____ % of 11th graders who make the connection between school and work by exploring and saving in their portfolios at least three possible choices of postsecondary institutions that match their Individual Graduation Plan

____ % of 11th graders and family that have participated in regular advisement sessions

____ % of 12th graders who identify their next step after graduation in their electronic portfolio: 4-year institute, 2-year institute, apprenticeship, military, technical college, special purpose [vocational] school, or workforce

House Bill 400 (AS PASSED HOUSE AND SENATE)

By: Representatives Millar of the 79th, Lindsey of the 54th, Pruett of the 144th, Amerson of the 9th, and Ashe of the 56th

A BILL TO BE ENTITLED
AN ACT

1 To amend Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated,
2 relating to the "Quality Basic Education Act," so as to enact the "Building Resourceful
3 Individuals to Develop Georgia's Economy Act"; to develop programs to improve graduation
4 rates and to improve the preparedness of students for postsecondary education and careers;
5 to provide for definitions; to provide for individual graduation plans; to establish a reform
6 grant program; to provide that the grant program is subject to appropriations; to require local
7 school systems which receive a reform grant to comply with certain requirements; to provide
8 for rules and regulations; to provide for exemptions from certain portions of the high school
9 graduation test and end-of-course assessments; to provide for related matters; to provide for
10 an effective date; to repeal conflicting laws; and for other purposes.

11 BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

12 style="text-align:center">**SECTION 1.**

13 Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia Annotated, relating to the
14 "Quality Basic Education Act," is amended by adding a new part to read as follows:

15 style="text-align:center">"Part 16

16 20-2-325.

17 This part shall be known and may be cited as the 'Building Resourceful Individuals to
18 Develop Georgia's Economy Act.'

19 20-2-326.

20 For purposes of this part, the term:

21 (1) 'Articulation' means agreement between a high school and a postsecondary institution
22 regarding the awarding of both secondary and postsecondary credit for a dual enrollment
23 course.

24 (2) 'Career academy' means a specialized charter school established by a partnership
25 between one or more local boards of education and a technical school or college and
26 approved by the State Board of Education in accordance with Article 31 of this chapter
27 or the Georgia Charter Schools Commission in accordance with Article 31A of this
28 chapter. This term also includes a small learning community where a student receives
29 academic instruction at his or her assigned high school combined with work based
30 learning opportunities at an industry center or technical school or college.

31 (3) 'Choice technical high school' means a high school, other than the high school to
32 which a student is assigned by virtue of his or her residence and attendance zone, which
33 is designed to prepare a high school student for postsecondary education and for
34 employment in a career field. A choice technical high school may be operated by a local
35 school system or a technical school or college. A choice technical high school may also
36 be operated as a charter school under a governance board composed of parents,
37 employers, and representatives from the local board of education.

38 (4) 'Chronically low-performing high school' means a public high school in this state that
39 has a graduation rate of less than 60 percent for three consecutive years, as determined
40 in accordance with methodology established by the National Governors Association's
41 Compact on High School Graduation Data, or that has not made adequate yearly progress
42 for three consecutive years, as defined by the Office of Student Achievement.

43 (5) 'Focused program of study' means a rigorous academic core combined with a focus
44 in mathematics and science; a focus in humanities, fine arts, and foreign language; or a
45 coherent sequence of career pathway courses that is aligned with graduation requirements
46 established by the State Board of Education and curriculum requirements established
47 pursuant to Part 2 of this article that prepares a student for postsecondary education or
48 immediate employment after high school graduation.

49 (6) 'Graduation plan' means a student specific plan developed in accordance with
50 subsection (c) of Code Section 20-2-327 detailing the courses necessary for a high school
51 student to graduate from high school and to successfully transition to postsecondary
52 education and the work force.

53 (7) 'Industry certification' means a process of program evaluation that ensures that
54 individual programs meet industry standards in the areas of curriculum, teacher
55 qualification, lab specifications, equipment, and industry involvement.

56 (8) 'Public college or university' means a two-year or four-year college, university, or
57 other institution under the auspices of the Board of Regents of the University System of
58 Georgia.

59 (9) 'Small learning community' means an autonomous or semiautonomous small learning
60 environment within a large high school which is made up of a subset of students and

61 teachers for a two, three, or four-year period. The goal of a small learning community
 62 is to achieve greater personalization of learning with each community led by a principal
 63 or instructional leader. A small learning community blends academic studies around a
 64 broad career or academic theme where teachers have common planning time to connect
 65 teacher assignments and assessments to college and career readiness standards. Students
 66 voluntarily apply for enrollment in a small learning community but must be accepted, and
 67 such enrollment must be approved by the student's parent or guardian. A small learning
 68 community also includes a career academy organized around a specific career theme
 69 which integrates academic and career instruction, provides work-based learning
 70 opportunities, and prepares students for postsecondary education and employment, with
 71 support through partnerships with local employers, community organizations, and
 72 postsecondary institutions.

73 (10) 'Teacher adviser system' means a system where an individual professional educator
 74 in the school assists a small group of students and their parents or guardians throughout
 75 the students' high school careers to set postsecondary goals and help them prepare
 76 programs of study, utilizing assessments and other data to track academic progress on a
 77 regular basis; communicates frequently with parents or guardians; and provides
 78 advisement, support, and encouragement as needed.

79 (11) 'Technical school or college' means a school, college, institution, or other branch of
 80 the Technical College System of Georgia.

81 20-2-327.

82 (a) Student performance at the advanced proficiency/honors level on any assessments
 83 required for purposes of high school graduation shall be recognized as:

84 (1) Meeting postsecondary entrance test requirements, and

85 (2) Qualifying students to enroll in credit-bearing postsecondary course work in

86 accordance with policies and requirements established by the State Board of Education,

87 the Board of Regents of the University System of Georgia, and the State Board of

88 Technical and Adult Education.

89 (b) Secondary and postsecondary credit shall be awarded immediately upon successful

90 completion of any articulated or dual enrollment course in accordance with policies and

91 requirements established by the State Board of Education, the Board of Regents of the

92 University System of Georgia, and the State Board of Technical and Adult Education.

93 (c) Beginning with the 2010-2011 school year, students in the sixth, seventh, and eighth

94 grades shall be provided counseling, advisement, career awareness, career interest

95 inventories, and information to assist them in evaluating their academic skills and career

96 interests. Before the end of the second semester of the eighth grade, students shall develop

97 an individual graduation plan in consultation with their parents, guardians, or individuals
 98 appointed by the parents or guardians to serve as their designee. High school students shall
 99 be provided guidance, advisement, and counseling annually that will enable them to
 100 successfully complete their individual graduation plans, preparing them for a seamless
 101 transition to postsecondary study, further training, or employment. An individual
 102 graduation plan shall:

103 (1) Include rigorous academic core subjects and focused course work in mathematics and
 104 science or in humanities, fine arts, and foreign language or sequenced career pathway
 105 course work;

106 (2) Incorporate provisions of a student's Individualized Education Program (IEP), where
 107 applicable;

108 (3) Align educational and broad career goals and a student's course of study;

109 (4) Be based on the student's selected academic and career focus area as approved by the
 110 student's parent or guardian;

111 (5) Include experience based, career oriented learning experiences which may include,
 112 but not be limited to, internships, apprenticeships, mentoring, co-op education, and
 113 service learning;

114 (6) Include opportunities for postsecondary studies through articulation, dual enrollment,
 115 and joint enrollment;

116 (7) Be flexible to allow change in the course of study but be sufficiently structured to
 117 meet graduation requirements and qualify the student for admission to postsecondary
 118 education; and

119 (8) Be approved by the student and the student's parent or guardian with guidance from
 120 the student's school counselor or teacher adviser.

121 An individual graduation plan shall be reviewed annually, and revised, if appropriate, upon
 122 approval by the student and the student's parent or guardian with guidance from the
 123 student's school counselor or teacher adviser. An individual graduation plan may be
 124 changed at any time throughout a student's high school career upon approval by the student
 125 and the student's parent or guardian with guidance from the student's school counselor or
 126 teacher adviser.

127 20-2-328.

128 (a) Subject to appropriations by the General Assembly, the State Board of Education shall
 129 establish a competitive grant program for local school systems to implement school reform
 130 measures in selected high schools. The state board shall establish program requirements
 131 in accordance with the provisions of this Code section and shall establish grant criteria,

132 which shall include that priority for reform grants shall be given to chronically
133 low-performing high schools.

134 (b)(1) The State Board of Education shall develop an evidence based model program for
135 chronically low-performing high schools receiving a reform grant pursuant to this Code
136 section for addressing at-risk students, which shall include various programs and
137 curricula that have proven to be effective for at-risk students focusing on:

138 (A) Identification of students at risk for being poorly prepared for the next grade level
139 or for dropping out of school;

140 (B) Strengthening retention of ninth grade students in school and reducing high failure
141 rates;

142 (C) Improving more students' performances to grade level standards in reading and
143 mathematics by the end of ninth grade;

144 (D) Assisting students and their parents or guardians in setting an outcome career and
145 educational goal and identifying a focused program of study to achieve such goal; and

146 (E) Assisting students in learning and applying study skills, coping skills, and other
147 habits that produce successful students and adults.

148 (2) The at-risk model program shall include:

149 (A) Diagnostic assessments to identify strengths and weaknesses in the core academic
150 areas;

151 (B) A process for identifying at-risk students, closely monitored by the Department of
152 Education in collaboration with local school systems to ensure that students are being
153 properly identified and provided timely, appropriate guidance and assistance and to
154 ensure that no group is disproportionately represented; and

155 (C) An evaluation component in each high school to ensure the programs are providing
156 students an opportunity to graduate with a high school diploma.

157 (3) The at-risk model program may include various components designed to result in
158 more students facilitating a successful start in high school and passing ninth grade such
159 as:

160 (A) Utilizing a flexible schedule that increases students' time in core language
161 arts/reading and mathematics studies designed to eliminate academic deficiencies;

162 (B) Maintaining a student-teacher ratio in ninth grade that is no higher than any other
163 grade level ratio in high school;

164 (C) Utilizing experienced and effective teachers as leaders for teacher teams in ninth
165 grade to improve instructional planning, delivery, and reteaching strategies;

166 (D) Assigning students to a teacher mentor who will meet with them frequently to
167 provide planned lessons on study skills and other habits of success that help students

168 become independent learners and who will help them receive the assistance they need
 169 to successfully pass ninth grade; and

170 (E) Including ninth grade career courses which incorporate a series of miniprojects
 171 throughout the school year that require the application of ninth grade level reading,
 172 mathematics, and science skills to complete while students learn to use a range of
 173 technology and help students explore a range of educational and career options that will
 174 assist them in formulating post high school goals and give them a reason to stay in
 175 school and work toward achieving their stated goals.

176 (c) The State Board of Education shall promulgate rules and regulations for chronically
 177 low-performing high schools receiving a reform grant pursuant to this Code section to
 178 make the high schools more relevant to and effective for all students. Such rules shall
 179 encourage high schools to implement a comprehensive school reform research based model
 180 that focuses on:

181 (1) Setting high expectations for all students;

182 (2) Personalizing graduation plans for students;

183 (3) Developing small learning communities or career academies with a rigorous
 184 academic foundation and emphasis in broad career fields of study;

185 (4) Using project based instruction embedded with strong academics to improve
 186 relevancy in learning;

187 (5) Fostering collaboration among academic and career/technical teachers;

188 (6) Implementing nontraditional scheduling in ninth grade for students behind in their
 189 grade level;

190 (7) Promoting parental involvement; and

191 (8) Training teachers to work with low-performing students and their parents or
 192 guardians.

193 (d) This Code section shall be subject to appropriations by the General Assembly.

194 20-2-329.

195 High schools that receive a reform grant pursuant to Code Section 20-2-328 shall:

196 (1) Provide focused programs of study which are designed to provide a well-rounded
 197 education for students by fostering artistic creativity, critical thinking, and self-discipline
 198 through the teaching of academic content, knowledge, and skills that students will use in
 199 the workplace, further education, and life. The focused programs of study, whether
 200 provided at a choice technical high school, a career academy, a traditional high school,
 201 or on site at a technical school or college or a public college or university, shall be
 202 aligned with graduation requirements established by the State Board of Education and
 203 curriculum requirements established pursuant to Part 2 of this article, including, at a

204 minimum, four years of mathematics, Algebra I and higher, and four years of English,
 205 with an emphasis on developing reading and writing skills to meet college and career
 206 readiness standards;

207 (2) Implement a teacher adviser system;

208 (3) Provide students in the ninth through twelfth grades information on educational
 209 programs offered in high school, in technical and community colleges, in colleges and
 210 universities, and through apprenticeship programs and how these programs can lead to
 211 a variety of career fields. Local school systems shall provide opportunities for field trips,
 212 speakers, educational and career information centers, job shadowing, and classroom
 213 centers to assist students and their parents or guardians, with guidance from school
 214 counselors and teacher advisers, in revising, if appropriate, the individual graduation plan
 215 developed pursuant to subsection (c) of Code Section 20-2-327;

216 (4) Enroll students no later than ninth grade into one of the following options for earning
 217 a high school diploma and preparing students for postsecondary education and a career
 218 which will include a structured program of academic study with in-depth studies in:

219 (A) Mathematics and science;

220 (B) Humanities, fine arts, and foreign language; or

221 (C) A career pathway that leads to passing an employer certification exam in a high
 222 demand, high skill, or high wage career field or to an associate's degree or bachelor's
 223 degree.

224 The awarding of a special education diploma to any disabled student who has not
 225 completed all of the requirements for a high school diploma, but who has completed his
 226 or her Individualized Education Program (IEP) shall be deemed to meet the requirements
 227 of this paragraph;

228 (5) Implement the at-risk model program developed by the State Board of Education
 229 pursuant to subsection (b) of Code Section 20-2-328;

230 (6) Comply with the rules and regulations promulgated by the State Board of Education
 231 for chronically low-performing high schools pursuant to subsection (c) of Code Section
 232 20-2-328; and

233 (7) Schedule annual conferences to assist students and their parents or guardians in
 234 setting educational and career goals and creating individual graduation plans beginning
 235 with students in the eighth grade and continuing through high school. These conferences
 236 shall include, but are not limited to, assisting the student in identifying educational and
 237 career interests and goals, selecting a career and academic focus area, and developing an
 238 individual graduation plan.

239 20-2-329.1.

240 The State Board of Education shall promulgate rules and regulations necessary to carry out
241 the provisions of this part."

242 **SECTION 2.**

243 Said article is further amended in Code Section 20-2-281, relating to assessment of
244 effectiveness of educational programs, by adding a new subsection to read as follows:

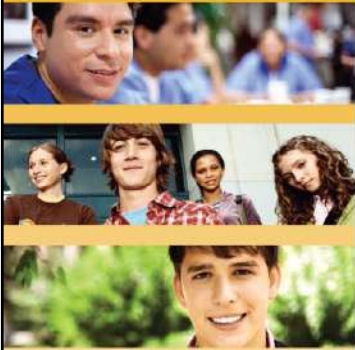

245 "(q) The State Board of Education shall consider the passage by a student of an industry
246 certification examination or a state licensure examination which is approved by the State
247 Board of Education when considering whether to grant such student a variance for one or
248 more portions of the high school graduation test required by the State Board of Education
249 pursuant to subsection (a) of this Code section in order to obtain a Georgia high school
250 diploma; provided, however, that the state board shall not grant a variance to a student
251 unless the student has attempted and failed to pass the relevant portion of the high school
252 graduation test at least four times."

253 **SECTION 3.**

254 This Act shall become effective upon its approval by the Governor or upon its becoming law
255 without such approval.

256 **SECTION 4.**

257 All laws and parts of laws in conflict with this Act are repealed.

GAcollege411

Access to Professional Center

- Each middle school and high school principal was sent a letter asking them to designate an administrator at their school for the Professional Center.
- As forms are returned, the access information is sent to the school.
- Multiple individuals can have access to the Professional Center.
- We recommend that individuals with administrator access be limited.
- Individuals will receive their access information from Georgia Student Finance Commission.

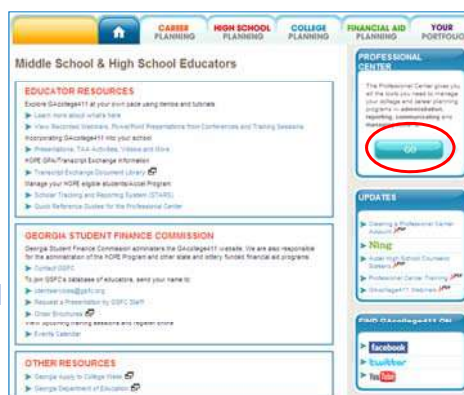

Professional Center Overview

- The Professional Center can be reached in two ways:
 - GAcollege411.org under Middle School & High School Educators link at bottom of homepage
 - Direct website: procenter.gacollege411.org

Middle School & High School Educators

- Some resources available for Educators
 - Request a Presentation
 - Order Brochures
 - Events Calendar
- Link for Professional Center is in the blue box on right side of the page

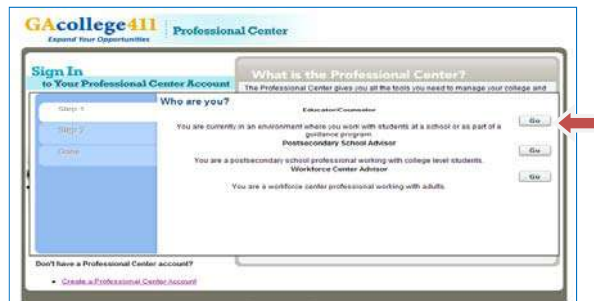

Pro Center Account Setup

- If you already have an account, sign in using your account name and password
- If you forget your password, select “Forgot password?” link for assistance
- If you don’t already have an account, select the link to “Create a Professional Center Account”

Pro Center Account Setup

- The first step in creating an account is selecting your role
- Counselors and Educators who work with high schools and middle schools will select the “Go” button next to the “Educator/Counselor” option

Pro Center Account Setup

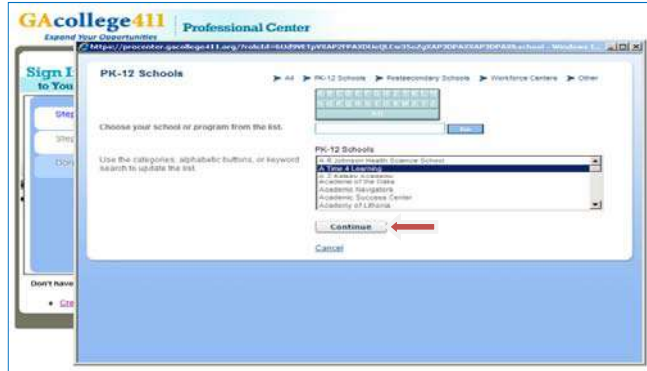

- The next step involves selecting your title from the drop-down menu
- After selecting your title, click the “Find” button to associate yourself with your school

Pro Center Account Setup

- A pop-up window will appear which will include all of the schools in Georgia
- You can find your school three ways:
 - Selecting the first letter of the School Name
 - Typing in the complete School Name
 - Scrolling through the complete list

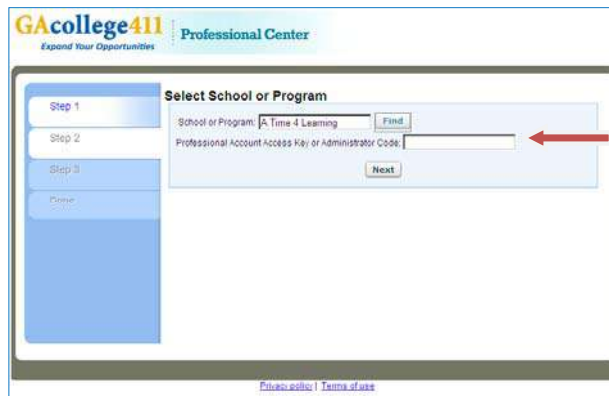

Pro Center Account Setup

- Once you locate your school, highlight the appropriate name, then click “Continue” at the bottom of the screen

Pro Center Account Setup

- You now need to enter the Professional Account Access Key (PAAK) or Administrator Code (AC)
- The designated Administrator can provide this code to you

Pro Center Account Setup

- Congratulations, you have created your account!!!

Pro Center Account Setup

- Select the link for “My Account” to access your personal Profile
- District Level Staff can also add another school connection, if needed

Pro Center Account Setup

- The Account Profile allows you to change your profile, update your role, add another school connection, or change any other personal information that needs to be updated

The screenshot shows the 'Account Profile' page. At the top, there are navigation tabs: 'Students & Groups', 'Reports', 'Resources', 'Communication', and 'Transcripts'. Below the tabs, the page is titled 'Account Profile'. It features a 'Professional Account Name' field with a 'Change your password' link. Below that is a 'Role' dropdown menu set to 'Educator/Counselor' with a 'Change your role' link. The 'School or Program' section shows 'Commerce High School' and an 'Add another connection' button. The 'Required information' section includes a 'Title' dropdown menu set to 'Mrs.', and input fields for 'First Name', 'Last Name', 'E-mail Address', 'Username', and 'Password'. The 'Account' field is set to 'Tigers'.

Professional Center Main Page

- Home Page for Professional Center
- Access any of the sections by clicking on the tabs that run across the top of the page or the links that run down the page
- There is also a link to GAcollege411 which allows you to access all of the tools used by your students on GAcollege411

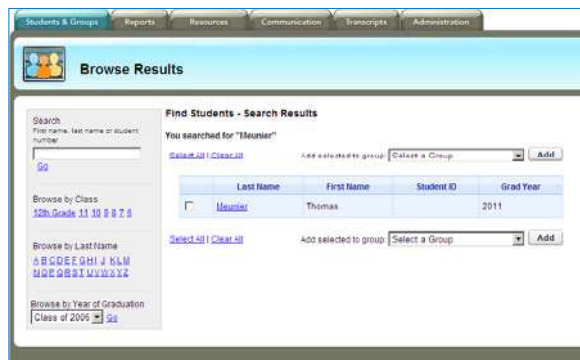

Students and Groups Tab

- Look up student information by student name or by class
- Access your groups and build new ones
- Create Student Accounts, Merge Accounts, and Release Student Accounts

Students and Groups Tab – Search

- Once you have located your student, you can add the student to a group by checking the checkbox and picking a group from the drop down menu
- You can also view the student's profile by clicking on the link for the last name

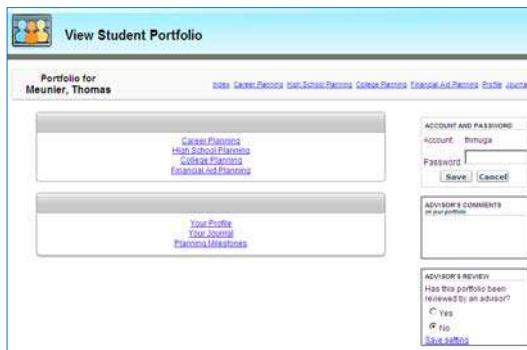

Students and Groups Tab

- When viewing a student's portfolio, you will see the links that make up GAcollge411
- Use the link on the right to view a student's account name or reset their password

Reset Student Password

- The link to reset a student's password shows the student's account name and provides a box where you can reset the password

Student and Groups Tab – Student Finder Option

- The Student Finder allows you to search for students based on criteria or specific characteristics
 - Gender
 - Ethnicity
 - GPA

Students and Groups Tab - Student Finder - Student Activities

- The Student Finder also allows you to search based on different activities in GAcollege411
 - Saved Careers
 - Resume Builder
 - Plan of Study
 - Saved Colleges
 - College Applied To
 - FAFSA Submitted

Students and Groups Tab - Student Finder – Student Activities

- An example that you might find helpful for advising, is looking at students who have “Not submitted their FAFSA”

Students and Groups Tab - Reviewer

- Easily access students to review by class year or by group
- Reviewing students will help you with advising by knowing things like career interests as well as colleges the student is interested in or has even applied to

Students and Groups Tab - Groups

- If you are working with a particular cohort of students on a regular basis, you can create a group to easily access their information
- Making a group an advisory group will allow other Professional Center users at your school to have access to the group

Building a Group

- Once the group is named, students can be added to the group
- Select students to add to the group by:
 - Name
 - Grade
 - Last name
 - Student characteristics

Building a Group

- Once you locate the students to add to your group, select the checkbox beside their names and click the “Add” button in the upper right corner

Reports Tab – Report Builder

- Report Builder allows you to select students needed to gather specific data
- This can be accomplished by using a specific grade, a group, or even by choosing a student characteristic to generate a report

Reports Tab – Reports Builder – Student Characteristics

- If you are selecting your students based on characteristics, you can begin by using a group or a class and narrow that group by other identifiers such as gender, age range, and ethnicity

Reports Tab – Transcript Report Builder

- The Transcript Report Builder will allow you to run reports of the transcripts you have uploaded and released through the Professional Center

Reports Tab - Tracking Milestones

- The Milestones Tracking Report will allow you to see the percentage of students who have completed each milestone that has been assigned
- You can also see which students have completed each milestone (not shown on screenshot)

Reports Tab – Tracking Guideways

- **Guideways Tracking Report** allows you to follow your students' activity on the site
- **There are five Guideways on GAcollege411**
 - Guideways help your students navigate and use the website by completing tasks appropriate to their grade level

Reports Tab – Usage Reports

- **The Accounts Created Report** shows the number of students at your school who have created accounts on GAcollege411

Administration Tab

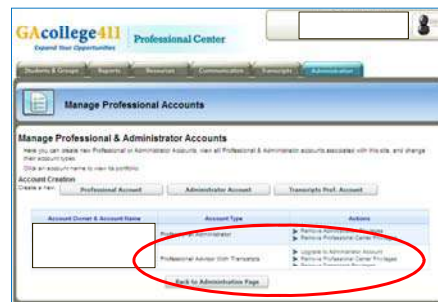

- The Administration Tab is accessible to users with the Administrator Code
- There are many valuable tools regarding how students are able to use GAcollege411 and how other professionals are able to use the Professional Center

35

Manage Professional Accounts

- The Administrator has the ability to control access to the Professional Center
- A Professional Advisor in the Professional Center can now have access to send transcripts or that privilege can be removed

36

Administration Tab – Update Master Course List

- The “Update Master Course List” function has a defaulted list of courses that can be adjusted
- This only affects what your students see on the Plan of Study tool on GAcollege411, not transcripts
- Courses which are unique to your school can be added

The screenshot shows the 'Update Master Course List - View All Courses' page. At the top, there are filters for 'Year All', '8th Grade', '7th Grade', '6th Grade', '5th Grade', '4th Grade', and '3rd Grade'. Below the filters is a table with the following columns: Actions, Course Name, Subject Area, Credits, and Available to Grades.

Actions	Course Name	Subject Area	Credits	Available to Grades
Details Edit	Accelerated Math I	Math	1	8, 10, 11, 12
Details Edit	Accelerated Math II	Math	1	8, 10, 11, 12
Details Edit	Accelerated Math III	Math	1	8, 10, 11, 12
Details Edit	Accounting	Math	1	8, 10, 11, 12
Details Edit	Advanced AC and DC Circuits	Career, Technical and Agricultural Education	1	8, 10, 11, 12
Details Edit	Advanced Accounting	Career, Technical and Agricultural Education	1	8, 10, 11, 12
Details Edit	Advanced Biology and Digital Logic and Circuits	Career, Technical and Agricultural Education	1	8, 10, 11, 12
Details Edit	Advanced Animal Science	Career, Technical and Agricultural Education	1	8, 10, 11, 12

Administration Tab - Milestones

- Milestones can be set and tracked for middle school and high school students
- Milestones display on the students' Portfolio page in GAcollege411
- Milestones can also be edited by the Administrator

The screenshot shows the 'Sets of Planning Milestones by Role and Grade' page. It includes a table with the following columns: Role/Grade, Name, and a 'New' button. The table lists various roles and grades with their corresponding milestone sets.

Role/Grade	Planning Milestones Set to be Displayed
8th grade	Name [dropdown] [New]
7th grade	Name [dropdown] [New]
6th grade	Name [dropdown] [New]
5th grade	Transform default milestones [dropdown] [New]
10th grade	Transform default milestones [dropdown] [New]
11th grade	Transform default milestones [dropdown] [New]
12th grade	Transform default milestones [dropdown] [New]
Postsecondary Student	Name [dropdown] [New]
Adult in the workforce	Name [dropdown] [New]

Below the table, there is a section for 'Default Sets of Planning Milestones' with a table showing 'Transform default milestones' and 'System-defined set' with 'Add' and 'Duplicate' buttons.

Customizing Planning Milestones

- There can be a maximum of 18 milestones
- These can be different for each grade level
- There are defaulted milestones for each grade level, but make sure you feel these are appropriate for your students

BRIDGE Legislation Training*

**Carra Floyd
Thomas Meunier**

June 23, 2011

Background Information

The BRIDGE Legislation

Requirements

- Beginning with the 2010-2011 school year, students in the sixth, seventh, and eighth grades shall be provided counseling, advisement, career awareness, career interest inventories, and information to assist them in evaluating their academic skills and career interests.
- Before the end of the second semester of the eighth grade, students shall develop an individual graduation plan in consultation with their parents, guardians or individuals appointed by the parents or guardians to serve as their designee.

GAcollege411

2

Background Information

The BRIDGE Legislation

Requirements

- High school students shall be provided guidance, advisement, and counseling annually that will enable them to successfully complete their individual graduation plans, preparing them for a seamless transition to postsecondary study, further training, or employment.

3

Background Information

The BRIDGE Legislation

Requirements

- **An individual graduation plan shall:**
 1. Include rigorous academic core subjects and focused course work in mathematics and science or in humanities, fine arts, and foreign language or sequenced career pathway course work;
 2. Incorporate provisions of a student's Individualized Education Program (IEP), where applicable;
 3. Align educational and broad career goals and a student's course of study;
 4. Be based on the student's selected academic and career focus area as approved by the student's parent or guardian;

4

The BRIDGE Legislation

Requirements

- **An individual graduation plan shall:**
 5. Include experience based, career oriented learning experiences which may include, but not be limited to, internships, apprenticeships, mentoring, co-op education, and service learning;
 6. Include opportunities for postsecondary studies through articulation, dual enrollment, and joint enrollment;
 7. Be flexible to allow change in the course of study but be sufficiently structured to meet graduation requirements and qualify the student for admission to postsecondary education; and
 8. Be approved by the student and the student's parent or guardian with guidance from the student's school counselor or teacher adviser.

5

BRIDGE Legislation Measures

ADVISEMENT CHECKLIST (✓)

- Evaluation Process for measuring effective advisement utilizing GAcollge411 as the primary tool for education and career planning in phases :
 - Year 1/2010-11 - 80%
 - Year 2/2011-12 - 90%
 - Year 3/2012-13 - 100%:
- GAcollge411 at www.GAcollge411.org -Utilizing the Professional Center and Report Center in the new and enhanced GAcollge411, the state, individual systems and local schools will have the capacity to measure effective advisement by the:
 - ___% of 6th graders who have electronic portfolio accounts
 - ___% of 6th graders who take a career assessment or interest inventory and save the results in their portfolio

6th graders who have electronic portfolio accounts

- occupational information in their portfolios prior to the transitional parent/student conference or student led conference
- ___% of 8th graders who complete an individual Graduation Plan to utilize during the transitional conference between middle and high school
- ___% of 9th graders who investigate and record in their portfolio at least three additional occupations prior to the annual student/family conference
- ___% of 10th graders who are aware of "College Credit Now" programs (dual enrollment opportunities) by April 1
- ___% of 11th graders who make the connection between school and work by exploring and saving in their portfolios at least three possible choices of postsecondary institutions that match their individual Graduation Plan
- ___% of 12th graders who identify their next step after graduation in their electronic portfolio: 4-year institute, 2-year institute, apprenticeship, military, technical college, special purpose [vocational] school, or workforce

Account Creation Process

Create an Account

- **Step One: select role of the user**
 - Middle School Student
 - High School Student
 - College Student
 - Adult
 - Parent

11

Creating an Account (cont.)

- **Next, enter date of birth**
- **There must also be an association with a school**
 - This is done by selecting the middle school or high school from the pop-up window, which will appear after clicking the “Find” button

12

Creating an Account (cont.)

- Finally, the student will complete the process by filling in biographical information and setting up an account name and password
- Note: A secondary account can be created to attach the student to the high school if the high school is known.
 - This is done through the student's portfolio

13

Professional Center Overview

- The Professional Center can be reached in two ways:
 - Direct website: procenter.gacollege411.org
 - GAcollege411.org under Middle School & High School Educators link at bottom of homepage

Middle School & High School Educators

- Link for Professional Center is in the blue box on right side of the page

Pro Center Account Sign-In

- If you already have an account, sign in using your account name and password
- If you forget your password, select “Forgot password?” link for assistance
- If you don’t already have an account, select the link to “Create a Professional Center Account”

GAcollege411

Professional Center

Pro Center Account Homepage

- Select the link for “My Account” to access your personal Profile
- District Level Staff can also add another school connection, if needed
- In order to set up accounts for students, select the Students & Groups tab

Create Student Accounts

Download the spreadsheet template, add your data to the file, then submit the file to create up to 500 accounts at a time.

1. Account Name Formats:
Choose the format for all of the account names created in this batch.

- Student number + last name (Example: 0123456Smith)
- Birth month + first day + last name (Example: May 1 for John Smith (050001))
- Student number (Example: 123456)

2. Account Creation Template:
Download this customized spreadsheet template [Account Creation Template](#).
(The file for step 2 is a new browser window for spreadsheet program.)

3. INSTRUCTIONS:
Copy your account data and paste it into the appropriate columns in the spreadsheet. [Click Here for Instructions](#) to get more information about the data you need.
Save the spreadsheet the using a name and location you'll remember. Make sure that you save your spreadsheet as a csv format file (csv or csv unicode).

4. Browse and Upload File:
Click Browse... to select the spreadsheet file you created in Step 2.

5. Submit
Click **Create Accounts** to create accounts from your data file and review the results.

20

Professional Center

Batch Creation Information Sheet

Help: Populating the Student Data File

When the link to the Account Creation Template is clicked, an empty file will open. The file has pre-defined columns into which you can enter or copy your student data.
 Do not enter the format of the file. Do not delete or add any columns. Do change the order of columns.
 Once your data has been entered the file needs to be saved to a location on your local hard drive (such as the My Documents folder). The file must be saved as a comma separated file type (.csv).

The following fields make up the file. Some are mandatory and must be populated in order create student accounts. Others are optional.

Skip - Optional. When this field contains a 'Y' the record will be skipped and an account is not created.

first name - Required

last name - Required

student id - Required if the student id is to be used in the account name.

date of birth(mmddyyyy) - Required

email - Optional. If populated the e-mail address must be in a standard format (ex@jyy.zzz).

street - Optional

city - Optional

state - Optional. If populated it must contain the 2 character state code or Foreign Country.

zip - Optional

country - Optional. If populated it must contain the 2 character country code.

grad year - Optional. If populated it must be current graduation year or up to 2 years higher (i.e. 2010 - 2012).

account type - Required
 One of the following values must be used:
 Middle School or Junior High School Student
 High School Student
 College or Postsecondary School Student
 Adult
 Parent

parent first name - Optional

parent last name - Optional

21

Career Cluster Survey

The screenshot shows a checklist of activities for the survey. The activities are grouped into several categories, each with a corresponding icon. The categories include:

- Arts & Humanities:** Study, live plants and animals; live and grow; Understand and imagine patterns and designs; Use my creativity to see things about something; Do activities based on things people do; Exchange ideas with many kinds of people; Write stories; Interested in art.
- Business & Computer Science:** Work in high pressure situations; Explain how things work; Take an interest in people and their needs; Use computers in my work; Handle items in high pressure or dangerous situations; Learn things by working with my hands; Do to enter and buy things.
- Education:** Figure out formulas; Copy text pages; Protect the earth's resources; Develop a financial plan; Perform an experiment; Do calculations and look up detailed information; Tutor others.
- Healthcare Sciences:** Perform work on a deadline; Draw and label things; Move and people and animals; Use tools; Work with all kinds of people; Volunteer to get involved in the community; Use logic and reason to solve a problem; Use observations to make a decision.

- **Matches a student's interests and personal qualities to Career Clusters to more effectively explore future career options**
- **The goal is to identify an individual's top career cluster of interest with the highest ranked cluster featured.**

27

GAcollege411

GAcollege411

Career Cluster Survey

The screenshot shows the results of the survey. It features a sidebar with navigation options: Start, Activities You Like, Personal Qualities, School Subjects, Your Clusters, and Career Finder. The main content area is divided into three sections:

- YOUR TOP CLUSTER(S):** Lists 'Arts & Humanities' and 'Education' with brief descriptions and icons. 'Arts & Humanities' includes activities like design, production, and performance. 'Education' includes planning, managing, and providing education services.
- YOUR RANKING OF ALL CLUSTERS:** A horizontal bar chart showing the ranking of 12 clusters. 'Arts & Humanities' is ranked highest (rank 1), followed by 'Education' (rank 2). Other clusters include Architecture, Construction, Communications; Business & Computer Science; Culinary Arts; Healthcare Sciences; Agriculture; Marketing, Sales & Services; Family & Consumer Sciences; Government & Public Safety; and Engineering & Technology.

RESULTS

The Career Key measures how similar you are to six basic types of people. The higher you score, the more you are like that type. For example, if your highest score is on the "Artistic" scale, that means you are most like the Artistic personality type or Artistic interest area.

Your top interest areas and your scores for each of the six types are shown below.

YOUR TOP INTEREST AREAS

Social

- You are a "Helper".
- You enjoy assisting people in various ways.
- You like working in groups.
- You find that verbal and communication skills come naturally to you.

Enterprising

- You are a "Persuader".
- You enjoy leading or managing other people.
- You often respond well to competition and enjoy leading teams.
- You are willing to take risks.
- You value status, power, money and material possessions.
- You describe yourself as ambitious or energetic.

Your Ranking of the Interest Areas

Click a title to see a description of that interest area and all of the careers associated with it.

Realistic	4
Investigative	5
Artistic	8
Social	10
Enterprising	14
Conventional	9

(Keep in mind that the higher the ranking, the better the interest area matches you.)

*High School
BRIDGE Legislation Training*

**Carra Floyd
Thomas Meunier**

June 23, 2011

Background Information

The BRIDGE Legislation

Requirements

- Beginning with the 2010-2011 school year, students in the sixth, seventh, and eighth grades shall be provided counseling, advisement, career awareness, career interest inventories, and information to assist them in evaluating their academic skills and career interests.
- Before the end of the second semester of the eighth grade, students shall develop an individual graduation plan in consultation with their parents, guardians or individuals appointed by the parents or guardians to serve as their designee.

GAcollege411

2

GAcollege411

Background Information

The BRIDGE Legislation

Requirements

- High school students shall be provided guidance, advisement, and counseling annually that will enable them to successfully complete their individual graduation plans, preparing them for a seamless transition to postsecondary study, further training, or employment.

3

GAcollege411

Background Information

The BRIDGE Legislation

Requirements

- **An individual graduation plan shall:**
 1. Include rigorous academic core subjects and focused course work in mathematics and science or in humanities, fine arts, and foreign language or sequenced career pathway course work;
 2. Incorporate provisions of a student's Individualized Education Program (IEP), where applicable;
 3. Align educational and broad career goals and a student's course of study;
 4. Be based on the student's selected academic and career focus area as approved by the student's parent or guardian;

4

The BRIDGE Legislation

Requirements

- **An individual graduation plan shall:**
 5. Include experience based, career oriented learning experiences which may include, but not be limited to, internships, apprenticeships, mentoring, co-op education, and service learning;
 6. Include opportunities for postsecondary studies through articulation, dual enrollment, and joint enrollment;
 7. Be flexible to allow change in the course of study but be sufficiently structured to meet graduation requirements and qualify the student for admission to postsecondary education; and
 8. Be approved by the student and the student's parent or guardian with guidance from the student's school counselor or teacher adviser.

5

GAcollege411 Homepage

- Navigate website using the five tabs across the top of the page
- Create an account to gain full access to site

BRIDGE Legislation Measures

ADVISEMENT CHECKLIST (✓)

- Evaluation Process for measuring effective advisement utilizing GAcollge411 as the primary tool for education and career planning in phases :
 - Year 1/2010-11 - 80%
 - Year 2/2011-12 - 90%
 - Year 3/2012-13 - 100%:
- GAcollge411 at www.GAcollge411.org -Utilizing the Professional Center and Report Center in the new and enhanced GAcollge411, the state, individual systems and local schools will have the capacity to measure effective advisement by the:
 - ___% of 6th graders who have electronic portfolio accounts
 - ___% of 6th graders who take a career assessment or interest inventory and save the results in their portfolio

6th graders who have electronic portfolio accounts

- occupational information in their portfolios prior to the transitional parent/student conference or student led conference
- ___% of 8th graders who complete an individual Graduation Plan to utilize during the transitional conference between middle and high school
- ___% of 9th graders who investigate and record in their portfolio at least three additional occupations prior to the annual student/family conference
- ___% of 10th graders who are aware of "College Credit Now" programs (dual enrollment opportunities) by April 1
- ___% of 11th graders who make the connection between school and work by exploring and saving in their portfolios at least three possible choices of postsecondary institutions that match their individual Graduation Plan
- ___% of 12th graders who identify their next step after graduation in their electronic portfolio. 4-year institute, 2-year institute, apprenticeship, military, technical college, special purpose [vocational] school, or workforce

Account Creation Process

Create an Account

- **Step One: select role of the user**
 - Middle School Student
 - High School Student
 - College Student
 - Adult
 - Parent

Creating an Account (cont.)

- **Next, enter date of birth**
- **There must also be an association with a school**
 - This is done by selecting the middle school or high school from the pop-up window, which will appear after clicking the “Find” button

Creating an Account (cont.)

- Finally, the student will complete the process by filling in biographical information and setting up an account name and password
- Note: A secondary account can be created to attach the student to the high school if the high school is known.
 - This is done through the student's portfolio

13

Professional Center Overview

- The Professional Center can be reached in two ways:
 - Direct website: procenter.gacollege411.org
 - GAcollege411.org under Middle School & High School Educators link at bottom of homepage

Middle School & High School Educators

- Link for Professional Center is in the blue box on right side of the page

Pro Center Account Sign-In

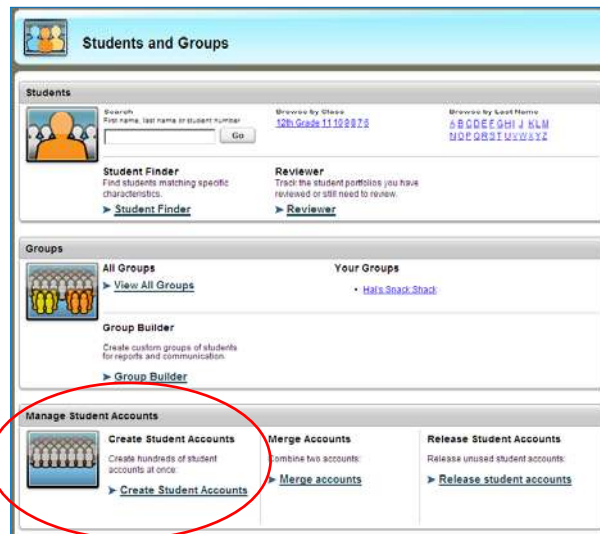

- If you already have an account, sign in using your account name and password
- If you forget your password, select “Forgot password?” link for assistance
- If you don’t already have an account, select the link to “Create a Professional Center Account”

Pro Center Account Homepage

- Select the link for “My Account” to access your personal Profile
- District Level Staff can also add another school connection, if needed
- In order to set up accounts for students, select the Students & Groups tab

Create Student Accounts

Download the spreadsheet template, add your data to the file, then submit the file to create up to 500 accounts at a time.

1. Account Name Formats:
Choose the format for all of the account names created in this batch.

- Student number + last name (Example: 0123456Smith)
- Birth month + first day + birth day (Example: May 1 for John Smith (0501SMITH))
- Student number (Example: 123456)

2. Account Creation Template:
Download this customized spreadsheet template [Account Creation Template](#).
(The file for step 2 is a new browser window for spreadsheet program.)

3. INSTRUCTIONS:
Copy your account data and paste it into the appropriate columns in the spreadsheet. [Click Here for Instructions](#) to get more information about the data you need.
Save the spreadsheet file using a name and location you'll remember. Make sure that you save your spreadsheet as a .csv format file (not xls or other formats).

4. Browse and Upload File:
Click Browse... to select the spreadsheet file you created in Step 2.

5. Submit
Click **CREATE ACCOUNTS** to create accounts from your data file and review the results.

20

Batch Creation Information Sheet

Help: Populating the Student Data File

When the link to the Account Creation Template is clicked, an empty file will open. The file has pre-defined columns into which you can enter or copy your student data.

Do not enter the format of the file. Do not delete or add any columns. Do change the order of columns.

Once your data has been entered the file needs to be saved to a location on your local hard drive (such as the My Documents folder). The file must be saved as a comma separated file type (.csv).

The following fields make up the file. Some are mandatory and must be populated in order create student accounts. Others are optional.

Skip - Optional. When this field contains a 'Y' the record will be skipped and an account is not created.

first name - Required

last name - Required

student id - Required if the student id is to be used in the account name.

date of birth(mmddyyyy) - Required

email - Optional. If populated the e-mail address must be in a standard format (ex@jyy.zzz).

street - Optional

city - Optional

state - Optional. If populated it must contain the 2 character state code or Foreign Country.

zip - Optional

country - Optional. If populated it must contain the 2 character country code.

grad year - Optional. If populated it must be current graduation year or up to 2 years higher (i.e. 2010 - 2012).

account type - Required
One of the following values must be used:
Middle School or Junior High School Student
High School Student
College or Postsecondary School Student
Adult
Parent

parent first name - Optional

parent last name - Optional

21

Professional Center

Batch Account Creation

After High School Transition Plan

The screenshot shows the 'After High School Transition Plan' form on the GAcollege411 website. The form is titled 'AFTER HIGH SCHOOL TRANSITION PLAN' and includes the following sections:

- Your path after high school:** A dropdown menu labeled 'Select a path' with options: 'Four-year college', 'Two-year college', 'Vocational or trade school', 'Apprenticeship program', 'Military service', and 'Direct to work'. A text field labeled 'school:' is next to it.
- How does this plan support your career goals?:** A text input field.
- What support will you need to achieve your career goals?:** A text input field.
- What will your next transition be?:** A text input field.

There are 'Save' and 'Cancel' buttons at the bottom left. On the right side, there are instructions for each section, such as 'write in terms such as the name and location of a school, the program or major you plan to take...' and 'Do you pursue more education? Grad school? Four-year college transfer? On-the-job training? Higher-paying, supervisory level job?'

Accel Program Purpose

The purpose of the Accel Program is to offer Georgia public and private high school students the opportunity to earn credit hours toward an Associate or Baccalaureate Degree, as they simultaneously meet their high school graduation requirements as a Dual Credit Enrollment student, by providing financial assistance toward their postsecondary educational costs.

3

Georgia Student
Finance Commission
LOANS • SCHOLARSHIPS • GRANTS

Definitions

For purposes of State Scholarship and Grant Programs:

- **Dual Credit Enrollment** means an arrangement whereby a high school student is Enrolled in postsecondary coursework with a postsecondary institution and earning postsecondary credit hours while continuing to pursue a high school diploma, and the student's high school has agreed to accept the postsecondary coursework as credit toward the student's high school graduation requirements.

4

Georgia Student
Finance Commission
LOANS • SCHOLARSHIPS • GRANTS

Definitions

For purposes of State Scholarship and Grant Programs:

- **Joint Enrollment** means an arrangement whereby a high school student is Enrolled in postsecondary coursework with a postsecondary institution while continuing to pursue a high school diploma, and the high school has not agreed to accept the postsecondary coursework as credit toward the student's high school graduation requirements.

5

Georgia Student
Finance Commission
LOANS • SCHOLARSHIPS • GRANTS

Accel Eligibility Requirements

- **Citizenship**
 - A student must be a United States citizen or an Eligible Non-Citizen for the 12 consecutive months immediately preceding the first day of classes of the school term for which Accel Program payment is sought.

6

Georgia Student Finance Commission – Giving Students Financial Choices since 1965

Georgia Student
Finance Commission
LOANS • SCHOLARSHIPS • GRANTS

Accel Eligibility Requirements

- *Residency*
 - Public Colleges and Universities
 - Residency at USG and TCSG institutions is determined based on BOR or TCSG policies
 - 12 consecutive months immediately prior to the first day of classes of the school term for which Accel payment is sought
 - If a USG or TCSG institution grants an out-of-state tuition waiver to a student whose parent is stationed in Georgia, the student meets Georgia residency requirements.
 - No other out-of-state Tuition waivers granted by USG or TCSG institutions qualify a student for Accel eligibility

7

Georgia Student Finance Commission – Giving Students Financial Choices since 1965

Georgia Student
Finance Commission
LOANS • SCHOLARSHIPS • GRANTS

Accel Eligibility Requirements

- *Residency*
 - Private Colleges and Universities
 - A student attending a private Eligible Postsecondary Institution and is classified as a Georgia Resident, according to the *Georgia Residency Requirements for State Programs Regulations*
 - 12 consecutive months immediately prior to the first day of classes of the school term for which Accel payment is sought
 - A student enrolled in an Eligible High School in Georgia, who is the dependent child of Military Personnel stationed in Georgia, is treated as a Georgia Resident for purposes of the Accel Program

8

Georgia Student Finance Commission – Giving Students Financial Choices since 1965

Accel Eligibility Requirements

- **SELECTIVE SERVICE REGISTRATION**
 - The student must meet federal Selective Service registration requirements.
- **REFUND DUE**
 - The student must not owe a refund on a State of Georgia student financial aid program.
- **GEORGIA DRUG-FREE ACT**
 - A student may be ineligible if in accordance with the Drug-Free Postsecondary Education Act of 1990, he or she has been convicted of committing certain felony offenses involving marijuana, controlled substances, or dangerous drugs.

Example: Student is convicted November 1, 2007. He or she is ineligible for Winter quarter or Spring semester of 2008.

9

Georgia Student Finance Commission – Giving Students Financial Choices since 1965

Accel Eligibility

Eligible students must:

- Be enrolled at an Eligible High School, including eligible/accredited Home Study Programs
- Be admitted and enrolled as a Dual-Credit Enrollment student at an Eligible Postsecondary Institution
- Meet application requirements by the end of the term for which the student is seeking Accel payment.

10

Georgia Student
Finance Commission
LOANS • SCHOLARSHIPS • GRANTS

Accel Eligibility, continued

Eligible students:

- Must not have already received a high school diploma or General Education Development (GED) Diploma.
- Are limited to a maximum of 4 semesters or 6 quarters of payment, regardless of the number of credits received during each semester or quarter.
- Are limited to payment during the Fall and Spring semesters, or Fall, Winter, and Spring quarters.
 - Accel is not available for Summer terms.

11

Georgia Student
Finance Commission
LOANS • SCHOLARSHIPS • GRANTS

Accel Length of Eligibility

Beginning July 1, 2010:

- Students are no longer required to be classified as an 11th or 12th grade student, nor must 9th or 10th grade students demonstrate academic excellence.
- Students are eligible if they are enrolled in an Eligible High School and admitted at an Eligible Postsecondary Institution as a Dual Credit Enrollment student.

12

Accel Coursework

Accel will only pay for coursework appearing in the Accel Course Directory

- The Directory lists all high school courses and the college equivalents that are eligible for payment under the Accel program.

Accel Impact on Future HOPE Eligibility

- Hours paid for by the Accel program are always counted in the HOPE Combined Paid hours limit.
- Hours paid for by the Accel program are only counted in the Attempted hours calculation for HOPE eligibility purposes if:
 - the student did not graduate as a HOPE Scholar from high school due to not meeting the GPA requirements; and
 - the coursework is accepted by an eligible postsecondary institution when the student first enrolls at the Tier 1 level.

18

Georgia Student
Finance Commission
LOANS • SCHOLARSHIPS • GRANTS

Accel Impact on Future HOPE Eligibility

- If coursework paid for by Accel is included in the attempted hours calculation, then the hours are utilized for determining when the HOPE Checkpoints occur, but the grades are never calculated into the HOPE GPA.

19

Accel Application Instructions

The Accel Application process has 3 main, sequential steps:

- The student must complete an online application at www.GAcollge411.org.
- The eligible high school must certify the student's application electronically.
- The eligible postsecondary institution must certify the student's application electronically.

20

Accel Application Instructions, continued

Step 1 – Student completes online application

- Go to www.GAcollge411.org, select “Accel Program” from the “Shortcuts” Box.
- Select “Online Accel Program Application”.
- “Log In” to Accel Application.
- Select “Add New Application”.
- Complete application information and select “Submit.”

regulations;

5. Be registered with Selective Service, if required;
6. Be in compliance with the Georgia Drug-Free Postsecondary Education Act of 1990;
7. Not be in default or owe a refund on any student financial aid program;
8. Maintain satisfactory academic progress, as defined by the college.

Value

Students that meet requirements to be eligible for Accel receive an award that covers tuition, approved fees, and a book allowance of up to \$100 per quarter or \$150 per semester, if enrolled at least half-time (six or more hours). If an eligible student is enrolled less than half-time (one to five hours), then the award covers tuition, approved fees, and a book allowance of \$50 per quarter or \$75 per semester. Full-time (12 hours) students attending private colleges or universities receive up to \$1,166 per quarter or \$1,750 per semester. If an eligible student is enrolled less than full-time (12 hours) at a private college or university, the award will be prorated based on the number of hours enrolled.

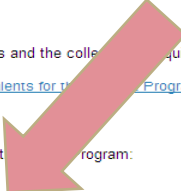

Course Directory

For a list of approved high school courses and the college equivalent, please refer to the following list:
[High School Courses and College Equivalents for the Accel Program](#) ^{PDF}

Application Procedure

There are two methods for application to the Accel program:

1. [Online Accel Program Application](#)
2. [Accel Program Paper Application](#) ^{PDF} (Note: Beginning with the Winter Quarter/Spring Semester of 2010, all Accel applications must be submitted using the online application, unless you are a student enrolled in a home study program.)

Accel Application - Student Section

Note: This form is to be completed only after admission to a postsecondary institution. Upon completion of this application and before you submit, please print a copy and retain for your records.

Part I: To be Completed by Student and Parent/Guardian.

I/we understand that failure to enroll in and pass designated postsecondary courses may result in the student not graduating with his or her class. I/we understand that any credits earned under this program may or may not be transferable to a University System or other institution; such determinations must be made by the receiving institution. I/we also understand that any refund resulting from withdrawal from a postsecondary institution will be returned to the Georgia Student Finance Commission. Further, I/we authorize the postsecondary institution named below to forward a transcript of grades to the high school named below.

* Denotes required fields

If this is not your correct legal name and current permanent address, please make corrections.

Student's Name (First/Middle/Last): * GSFC TESTING

Student's Date of Birth (mm/dd/yyyy): * 01/01/1990

Student's Permanent Address: * 2032 E. EXCHANGE PLACE

Permanent Address Line 2: *

Zip Code: * 30006 City: TUCKER State: GA

Student's Home Telephone Number (770-724-8300): * 770 - 724 - 9244

Student's e-mail Address: *

Gender: * Female

26

Student's State of legal residence: * GA

Date you became a legal resident (mm/dd/yyyy): * 01 / 01 / 1989

Are you a U.S. citizen? * Yes No No, but I am an eligible non-citizen.

Have you been convicted of committing a felony offense involving marijuana, controlled substances, or dangerous drugs? * Yes No

Are you in default or do you owe a refund on any federal or state educational loan or grant program? * Yes No

Accel Program Application

Thank you GSFC TESTING for using the electronic ACCEL application process. You do not need to complete the paper application nor print and mail your Accel application to the institution you plan to attend. Your Accel application will automatically be available to your high school counselor.

If you have not already done so, please schedule a meeting with your high school counselor to review and complete the course information section of the Accel application.

Accel Application Instructions, continued

Step 2 – High School completes online certification of application

- Go to www.GAcollge411.org, select “*Middle School & High School Educators*” at the bottom of the page.
- Select “*Scholar Tracking and Reporting System (STARS)*”.
- “Log In” to STARS.
- Select “*Accel*” from the main menu.

29

Accel Application Instructions, continued

Step 2 – High School completes online certification of application.

- Select (1) *Process New Applications* (2) *Edit Existing Applications* (3) *Process Disapproved Applications* (4) *Process Canceled Applications* (5) create an *Accel Status Report* or (6) edit your *Email List* address and choose whether you wish to receive email notifications related to the online applications.

30

Accel Application Instructions, continued

Step 2 – High School completes online certification of application.

- Select *“Process New Applications”*.
- Search for student or choose from list.
- Populate year and term of enrollment, courses that the student may enroll in, certify the student’s eligibility, and then *“Submit”*.

College Credit Now and the Impact on HOPE Eligibility

DO HOURS COUNT AS:	HOPE Scholar		Not HOPE Scholar, PSI accepts hours		Not HOPE Scholar, PSI does not accept hours	
	Attempted Hours?	Paid Hours?	Attempted Hours?	Paid Hours?	Attempted Hours?	Paid Hours?
Dual Enrollment with no Accel or HOPE Grant Funding	NO	NO	YES	NO	NO	NO
Joint Enrollment with no HOPE Grant Funding	NO	NO	YES	NO	NO	NO
Dual Enrollment with Accel Funding	NO	YES	YES	YES	NO	YES
Dual Enrollment with HOPE Grant Funding	NO	NO	YES	NO	NO	NO
Joint Enrollment with HOPE Grant Funding	NO	YES	YES	YES	NO	YES
Move on When Ready	NO	NO	NO	NO	NO	NO

For HOPE Purposes:

Joint Enrollment means an arrangement where a student takes coursework at a post-secondary institution prior to high school graduation, but the high school has not agreed to accept the coursework as credit towards high school graduation requirements

Dual Enrollment means an arrangement where a student takes coursework at an eligible post-secondary institution prior to high school graduation and the student's eligible high school has agreed to accept the coursework towards high school graduation requirements

*****Grades received for coursework taken prior to high school graduation are never calculated into the HOPE GPA at the college level for determining eligibility at the HOPE checkpoints**
