* Denotes items that meet specifications for   Technology Guidelines for Georgia Milestones for Online Assessments.

** Can be used to count Chrombox units.

Students per Instructional Computers	

Potential Students per Instructional Computers Meeting OS Specifications for Technology Guidelines for Georgia Milestones for Online Assessments	

Does your district have guidance for local schools for selecting accessible print materials (accessed by different formats such as braille, enlargement, and/or audio) and technologies (alternative input, screen readable, etc.) in the procurement process?	
Is there a district-wide adoption of specialized software to support access to the curriculum for students who struggle academically and/or students with disabilities?	
If yes, is the software provided by the GaDOE AT partnership (e.g. Read and Write, WriQ, EquatIO)?	
If yes, is there any other district-wide specialized software used for reading and writing support (e.g. Snap and Read, Co:writer, etc)?	
Do you install and or support individual specialized software or hardware for students with disabilities?	

Enter number of each type of non-student computers.
Number of non-student computers less than 5 yrs old
Number of non-student computers 5 yrs or older
