The student's nine-week grade will be calculated as follows:

- 80% will be determined at the professional discretion of the teacher and may include participation. Teachers utilizing class participation as a partial grade determinant shall notify students at the beginning of each semester.
- The remaining 20% will be the student's grade on the nine-week exam or equivalent.
- Each nine-week grade will count 50% of the semester grade.
- If an EOC is administered and counts for 30% of the final year long grade, the final grade will not be calculated until the score is released by the Florida DOE.

PROGRESS REPORTS

Since parents receive only (4) formal report cards a year, it is necessary that they know the progress of their child each mid-term marking period. All students will receive a progress report during the mid-term of each nine weeks. This is done with progress reports made out no later than the fifth week of each marking period.
