

Second Grade Math Choice Board

Directions: Pick an activity from these choices to practice your math tonight.

Fast Fact Test

Name _____ 

3	1	7
+ 0	+ 1	+ 2
7	4	4
+ 6	+ 6	+ 2
7	9	2
+ 8	+ 6	+ 7

Slide the fast fact test inside the page protector. Use the dry erase marker to solve problems for 4 minutes. Have your parent check how many you got right and note it. At the end of the week, mark your best score on your Personal Best Graph.

Add and Subtract with Cards!

Place 2 playing cards on the game board. Add and then subtract. Remember to put the biggest number first when subtracting. Face cards are worth 10. Aces are worth 1.

Addition/ Subtraction Battle

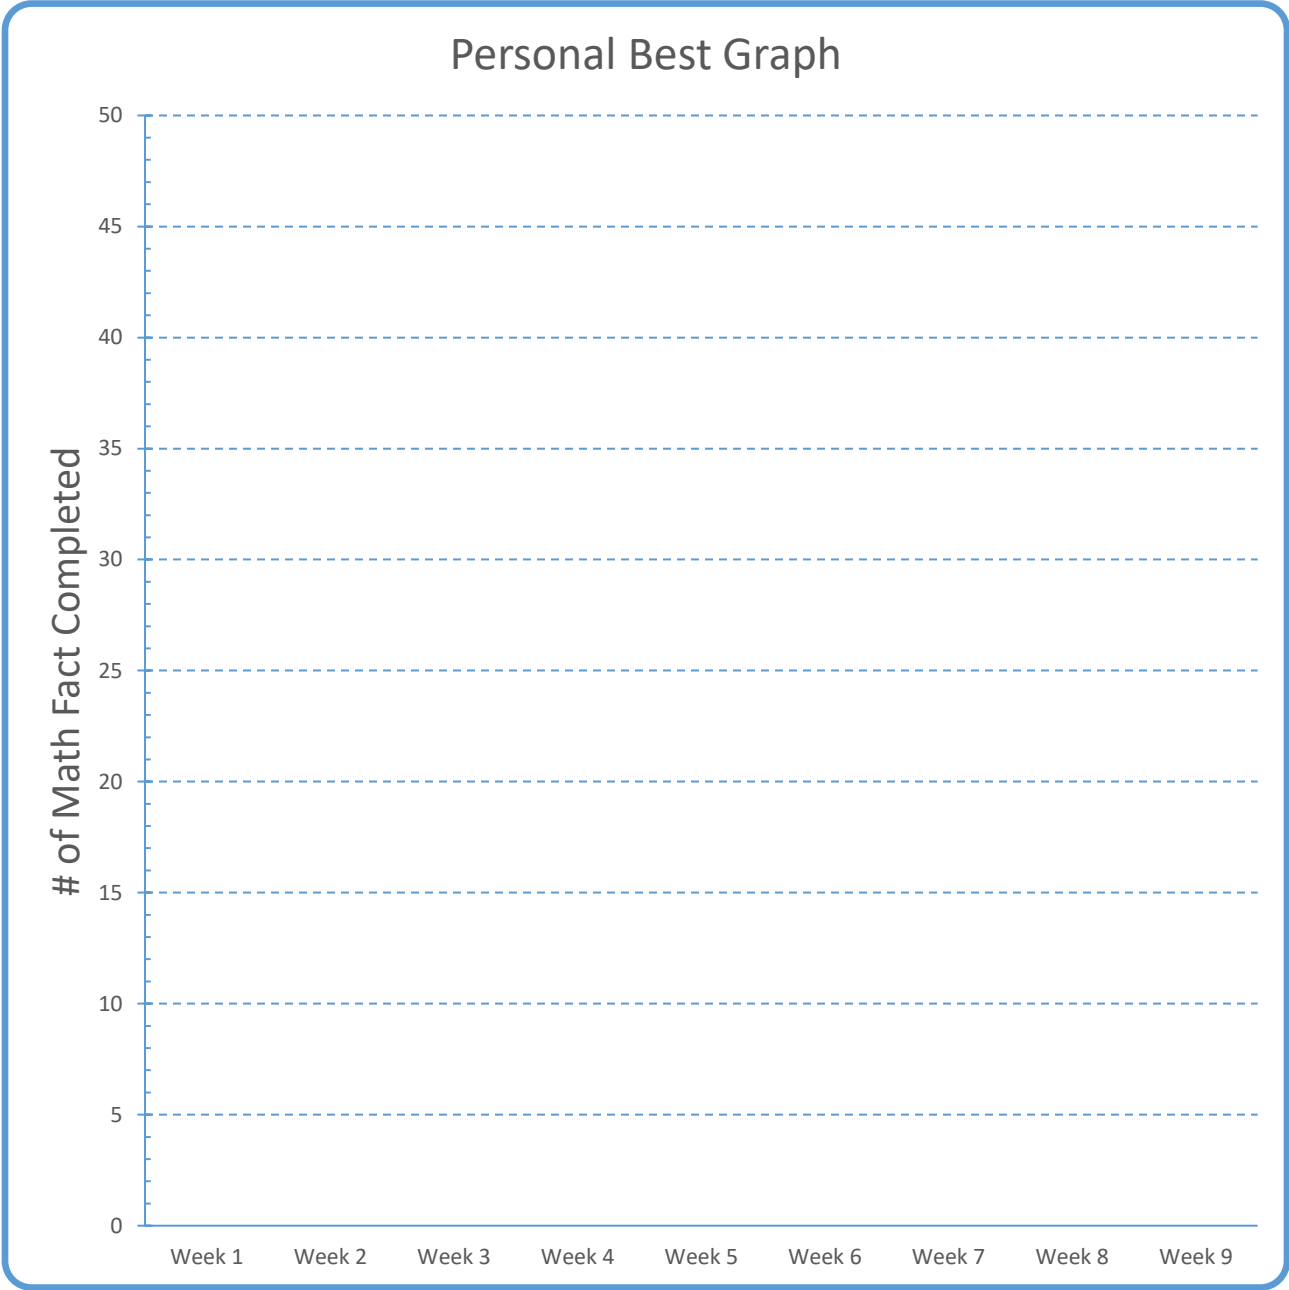

- Split a deck of cards in half and each player gets half.
- Each player flips over a card. The first person to add up the two cards gets them. If there's a tie, flip over two more cards. The winner gets all 4 cards. The player with the most cards wins.
- Follow these same rules for Subtraction Battle but subtract the cards!

Extension Activity 1

SOLVE IT!

Use the double-digit fast fact sheet in the page protector to practice. It is good to keep practicing the single digit test at least once a week.

How many math facts did you complete in 4 minutes?
Graph your personal best each week on the chart below and watch your progress!
