

Talking Drawing: Rock Formation

1. Close your eyes and think about *where rocks come from*. Now, open your eyes and draw what you imagined.

2. Read Activity 19, "Rock Formation." Now draw a second picture to show what you have learned about where rocks come from.

3. In the space below, tell what you have changed about your before and after pictures.

Name _____

Date _____

Directed Reading Table: Rock Formation

How much does it cost?				
In which countries can it be found?				
How is this type of rock formed?				
What type of rock is it? (What type of rock is it found in?)				
	Coal	Kimberlite	Marble	Fossil
