

VIRTUAL OPEN HOUSE

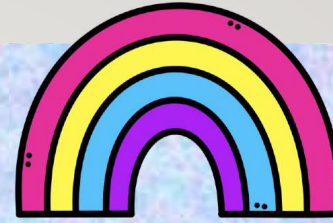

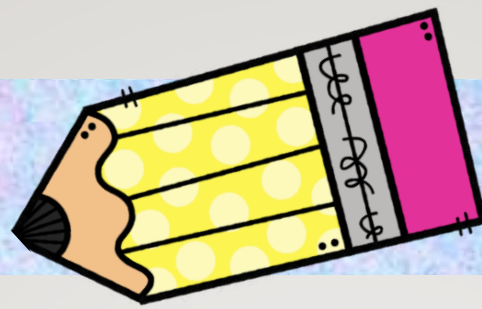

A LITTLE BIT ABOUT ME

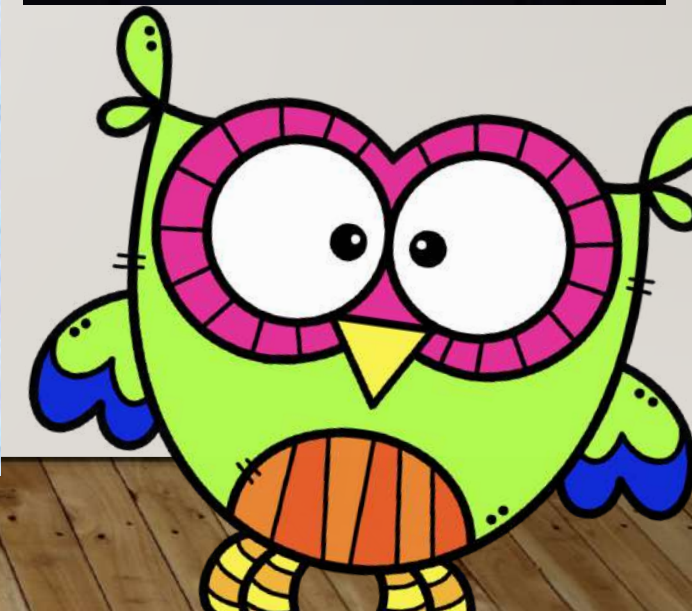

- Welcome families and students. I am so happy to meet all of you.
- I just went through a move earlier this year to Locust Grove from Hampton. I am happy and delighted to meet all of you. With my hobbies, I enjoy gardening, jogging, reading, trying new recipes, and spending time with my loved ones. A little bit about myself is that I was blessed to find my niche in education during my last year of college, which made me consider becoming a teacher! I was an ESL teacher before I transferred my passion to teaching to an elementary level.

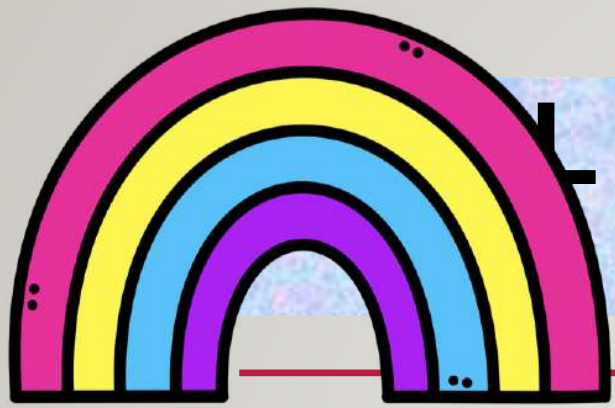

ABOUT ME

- Hi parents/students my name is Ms. Shafiq. I graduated from Georgia State University in Spring 2017, and later enrolled a year later at Mercer University to start my new path in Early Childhood Education. Regarding experience, I have classroom experience from working as a substitute teacher in several charter schools (K8) in the city of Atlanta as well as having experience of being a first grade teacher last year. Additionally, in the past I worked as an ESL Instructor for children (K-5). Additionally, after college, I took the role of a speech therapy intern and learned various methods and skills to cater to children with special needs. After my speech therapy internship, I followed my dream and pursued my desire to become an educator. I love teaching because I get to see, witness, and contribute to the academic growth of all our Kindergarteners.

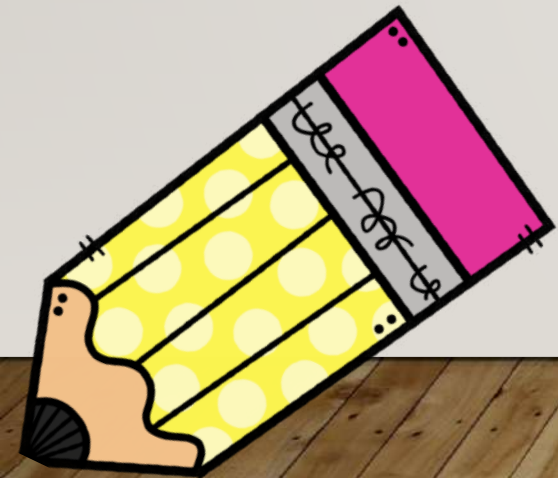

ABOUT MS. MCEWEN

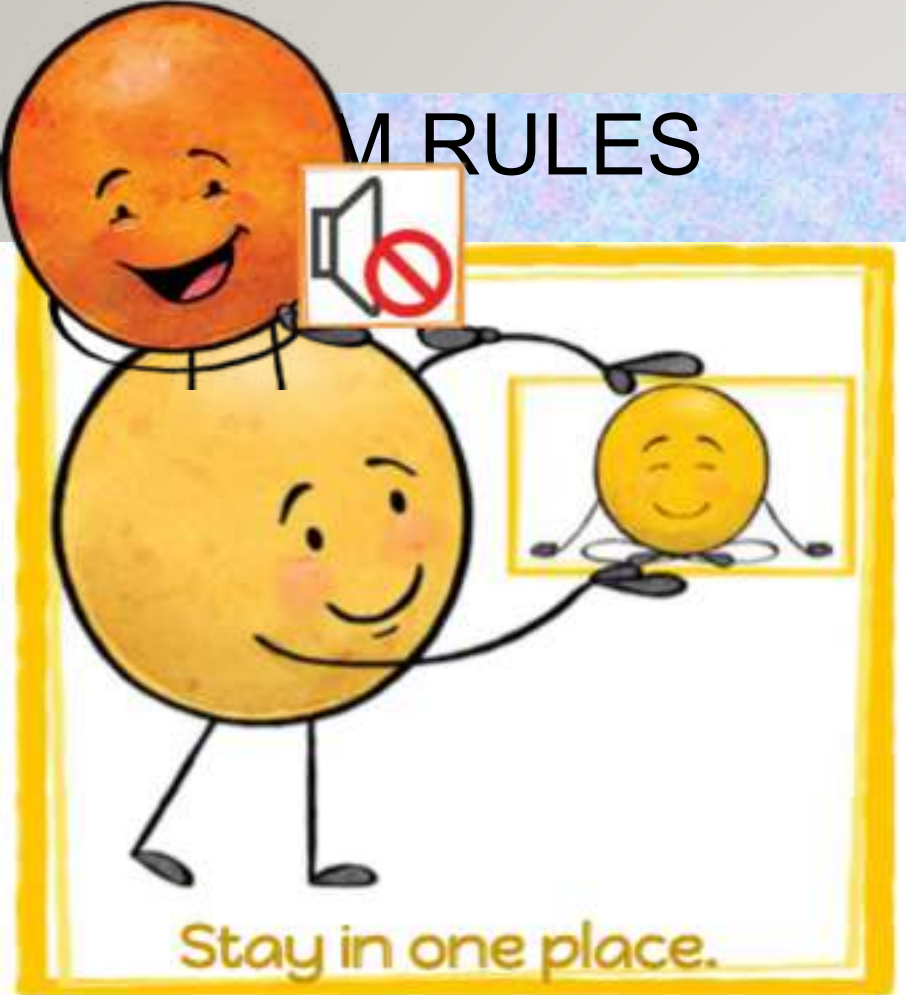

- Hi parents/students my name is Ms. McEwen. Welcome to Oakland! I am currently working to obtain my bachelor's degree in Elementary/Special Education at Gordon State College! This is my second year as a Kindergarten paraprofessional and I love what I do! Outside of school I enjoy shopping, beach trips, and watching movies! I can not wait to meet you all! This is going to be a great year!

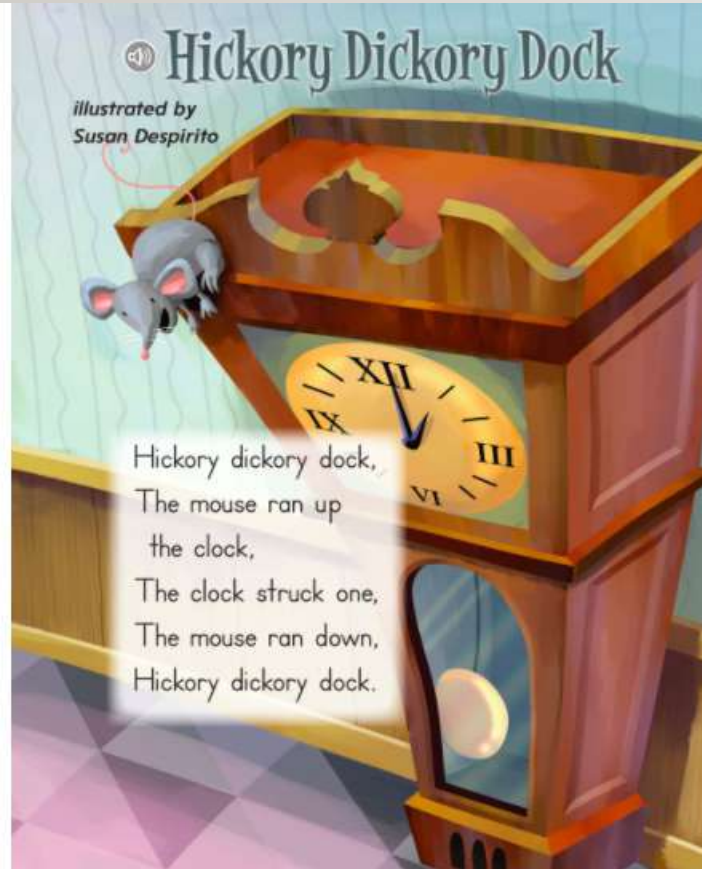

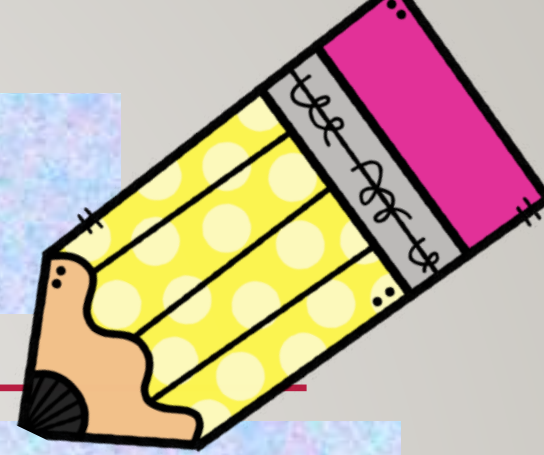

Go OWLS, we believe in YOU!

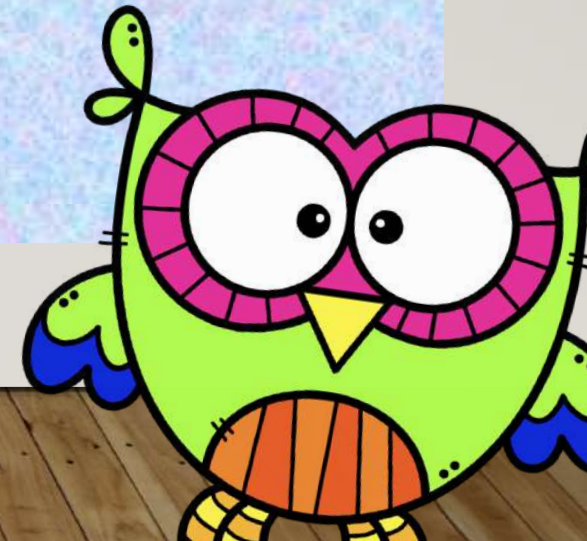

M RULES

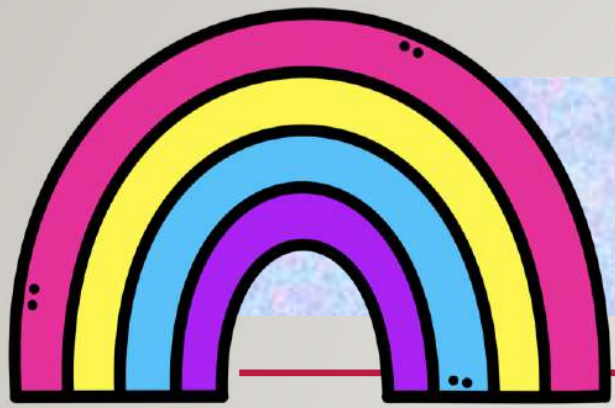

ELA MCGRAW

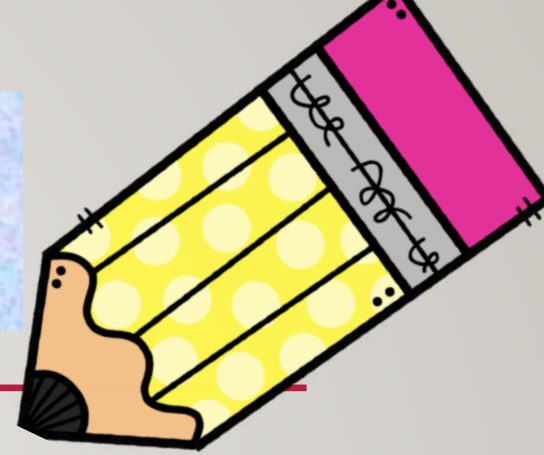

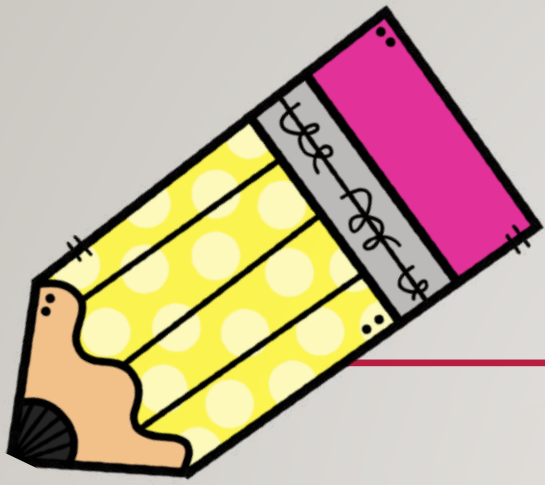

- The first week students will be learning/practicing how to
- listen and speak for a variety of informative purposes.
- listen with attention to oral language in different forms.
- Will be introduced to the Alphabet Song
- recognize and produce words that **rhyme**.

PHONICS

SCIENCE

- In Unit 1 students will be learning the 5 senses: touch, hear, see, taste, and smell. Additionally students will be learning how they use senses on a daily basis.
- Students will learn skills for science through informative vocabulary: observe, compare, measure, sort.
- Students will learn how we use Science Tools (hand lens, thermometer, measuring cup, balance, and ruler).

Contents

Unit 1: Doing Science

LESSON 1	Our Senses	1
LESSON 2	Science Skills	5
LESSON 3	Science Tools	9

Unit 2: Animals

LESSON 4	Living and Nonliving	13
LESSON 5	Real and Pretend	17
LESSON 6	Many Animals	21
LESSON 7	What Animals Need	27
LESSON 8	Animals Grow and Change	31

Unit 3: Plants

LESSON 9	Many Plants	35
LESSON 10	What Plants Need	39
LESSON 11	Plant Parts	43
LESSON 12	Plants Grow and Change	47

Unit 4: Day and Night

LESSON 13	Day Sky	51
LESSON 14	Night Sky	55

Unit 5: Earth's Resources

LESSON 15	Rocks	59
LESSON 16	Water	63
LESSON 17	Natural Resources	67

Unit 6: Matter

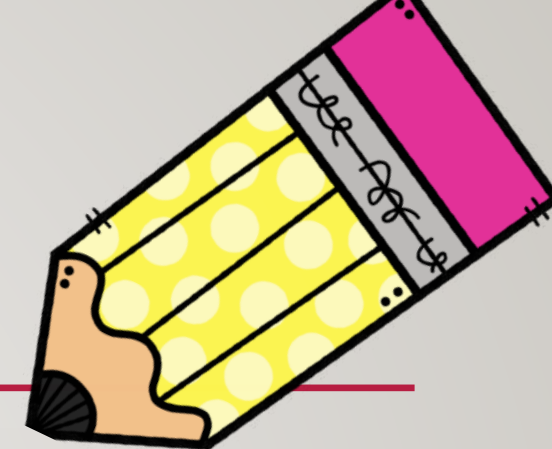

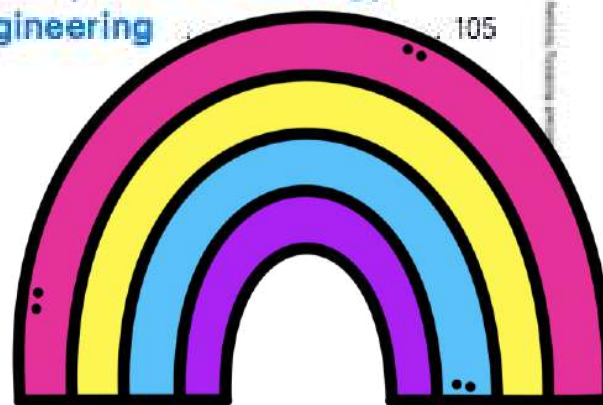

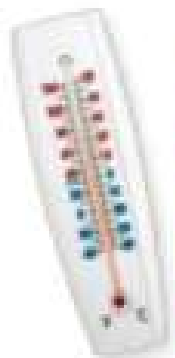

LESSON 18	Matter	73
LESSON 19	Matter Can Change	79
LESSON 20	Heating and Cooling Matter	83

Unit 7: Motion

LESSON 21	Where Things Are	87
LESSON 22	How Things Move	91
LESSON 23	Changing How Things Move	97
LESSON 24	Magnets	101

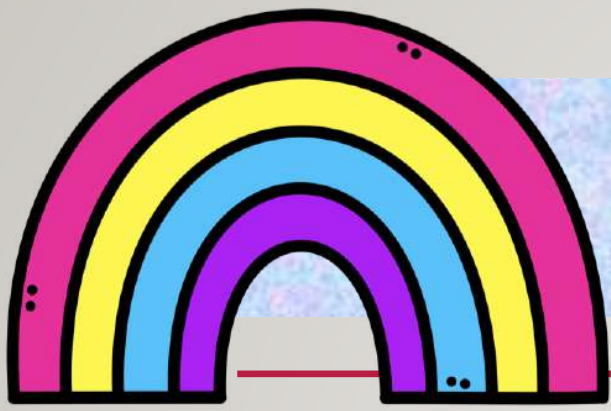

21st Century Skills: Technology and Engineering

WELCOME

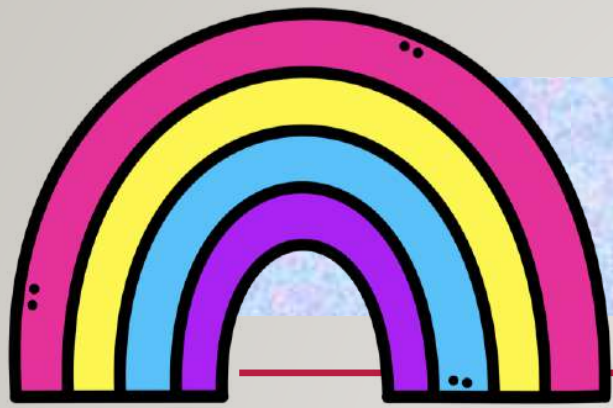

"Kindergarten is upon us.
A new beginning is here.
So many thoughts and feelings,
But there's really nothing to fear!
Your little one will be safe and loved,
Will learn and make new friends,
Play and grow and laugh and sing
Until the school year ends!
Just like little Chester,
We must all be brave and strong.
Know that your sweet "raccoon"
will be treasured all year long!

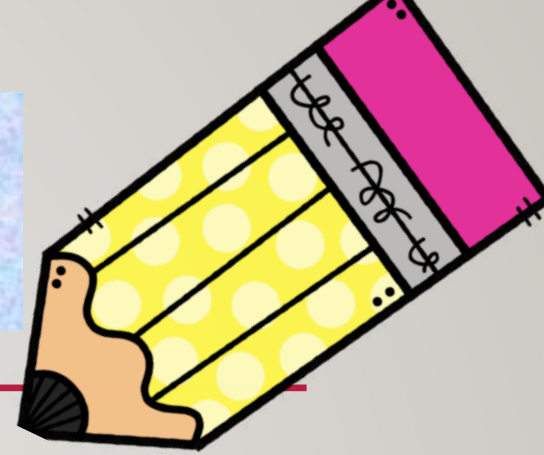

~Tracy Klein Murphy
