how to reach me

send me an email and I will respond with in a school day. If your child needs help after school, and can be picked up by 3- I am happy to help with writing or art projects- but give me advanced notice, in case of conflicts.

opportunities to volunteer

If you have a job in the arts- come talk to a class about it! If you would like to help on a project- let me know! volunteer on the school website.

aligned classes

We are aligning our classes. We will swap out classes and students periodically and when needed for review and enrichment. This being said, our art classes will reflect each other in projects and content.

About the Art Program

Every Child is an Artist. The S.M.ART program is a place where your child will find success in a multitude of art media. We will draw, paint, collage, explore printmaking, fabric dying, paper mache, and assemblage. There are opportunities for choice, for working alone, and for working as a collaborative group. Large projects are graded by a set of rubrics, and students have the time to reflect and revise to do their best.

Writing Wednesdays

On Wednesdays we will look at a work of art and talk about it as a class. Students are learning about the Elements of Art and Principles of Design, and will use this vocabulary to learn how to discuss, describe and critique art. This is a great way to learn about art and strengthen literacy skills. This work is mostly done in class. If students need extra time at home to write, it can be brought in the next day.
