

June 3-6, 2013

9 A.M. through 1 P.M.

ALL STUDENTS IN

GRADES 4-5

**ELEMENTARY**

**SCIENCE OLYMPIAD**

**DAY CAMP**

### What is Science Olympiad?

For the past 29 years, Science Olympiad has led a revolution in science education. What began as a grassroots assembly of science teachers is now one of the premiere science competitions in the nation, providing rigorous, standards-based challenges to 6,800 teams in 50 states. Science Olympiad's ever-changing line-up of events in all STEM disciplines exposes students to practicing scientists and career choices, and energizes classroom teachers with a dynamic content experience. The local regional tournament, where teams earn the chance to advance to the annual state competition, takes place several times a year. In Forsyth County there are competitive teams at the elementary, middle and high school levels. Events include disciplines such as genetics, earth science, chemistry, anatomy, physics, geology, mechanical engineering and technology. By combining events from all disciplines, Science Olympiad encourages a wide cross-section of students to get involved. Emphasis is placed on active, hands-on group participation. Through Science Olympiad, students, teachers, parents, principals and business leaders bond together and work toward a shared goal of scientific literacy.

Lambert certified science staff and student volunteers will lead your child through a series of fun and engaging activities designed to improve science and teamwork skills and understanding, in a safe, friendly environment. Students will work in small teams of four or five, under the close supervision of certified teachers at all times. With the guidance of teachers and Science Olympiad students, your child will compete in a wide variety of events and activities. We guarantee your student will be challenged, engaged, and inspired! Sample Events include:

**Chopper Challenge, Mystery Boxes, Crime Busters, Water Bottle Rockets, and Food for Thought.**

Space is limited to the first 40 students; please register as far in advance as possible.

To register, visit the LHS Website:
