Project Description

Third grade students will create a mini-society in their classrooms. They will culminate their learning experience in a "Market Day" where student "Business Owners", hold a market that allows other students in the school to exchange money for goods or services.

Leading up to Market Day, third grade students will apply for a business license, design a classroom currency, explore the concept of scarcity, analyze the impacts of human wants and needs on a market economy, and study the interconnectivity of consumers, producers, services, money, resources, and goods.

On Market Day, third grade students will demonstrate understanding of barter, money, and other media and how they are employed to facilitate the exchange of resources, goods, and services. Kindergarten, first, and second grade students will attend the Market Day in order to analyze the potential costs and benefits of personal economic choices in a market economy.

Project Parent Letter (3rd Grade)

Dear Parents,

The third grade will begin a unit in Social Studies learning about the aspects of community that involve economic concepts such as resources, scarcity, opportunity costs, products, goods, business, interdependence, and money (saving/spending). We will establish a Mini-Society in our room and we will be using a form of money designed by the children. The children will earn this money in the classroom.

As the students work in their society, they will establish rules to live by and each child will establish some sort of "business" to operate during the school day. They must make a product to sell (made by the student). Production costs for the item your child markets should not exceed \$15. Please ensure that your child has at least twenty of the same items to sell. The parents may NOT set up, clean up, or run the business for their child. Please remember that this is a learning experience for the children. It is their responsibility to take full charge of their own business and money.

If you have any questions about your child's Mini-Society, please contact us. You will find a calendar of events attached to this letter that will help you remember deadlines along with a list of ideas for businesses that your child might like to consider. Please assist your child with completing the form and return it to school no later than April 22nd. To avoid duplication, we will notify your child of product approval on April 30th. Your child is required to bring in a prototype (sample) of the product on May 8th. Thank you for your help in making this a worthwhile learning experience for your child.

Sincerely,

The 3rd Grade Teachers

I have seen this Mini-Society letter.

Child's Name:

Parent's Signature:

PCA Market Day Suggested Businesses

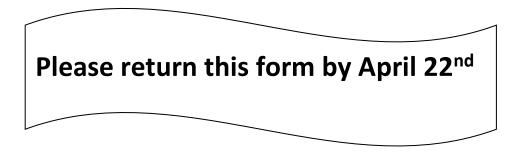

Goods

- Art
- Bookmarks
- Puppets
- Pillows
- Painted rocks/shells
- Jewelry
- Woodworking
- Plants
- Greeting Cards

- Banks jars, milk cartons, etc.
- Doll Clothes
- Personalized stationary
- Books/stories
- Sewn pictures,
- animals, bean bags
- Buttons or badges
- Gift bags

- Hair clips, barrettes
- Joke book
- Refrigerator magnets – clothespins
- Coloring book
- Sand paintings
- Paper flowers
- Games

There will be NO drinks or food items allowed. No prepackaged or repackaged store bought items will be sold. Only items produced by the child will be sold on Market Day. Production costs for the item your child markets should not exceed \$15. Please ensure that your child has at least twenty of the same items to sell. The parents may NOT set up, clean up, or run the business for their child.

Child's Name: _____

Write your top three product choices for production in our Mini-Society. You will be notified by April 30th as to which product you will be producing.

Choice 1 _____

Choice 2 _____

Choice 3 _____

Mini Society News

Parents, Teachers, Friends <u>PLEASE COME TO THE THIRD GRADE MARKET DAY!</u>

When: Friday, May 18th

Where: Market Day will be held in the auditorium.

Time: 1:00 – 2:30

1:00 – 1:30: 4th & 5th grade 1:30 – 2:00: 2nd grade & Upper School 2:00 – 2:30: K-1st grade

As the date approaches, please take time to notice the advertisements that will be posted around the school of what goods will be sold by our third grade businesses.

Bring real money. Every \$0.50 (real money) will equal \$1.00 Mini Society money. A banker will be available at the entrance to exchange real money for Mini Society money.

Thank you for your support!!!!

5th Grade Assessment: Wax Museum

The Wax Museum is a cross-curricular hands-on project designed to allow students to showcase their learning across multiple genres. Students use primary source material to research an American Hero, write a research paper, design, rehearse, and present an oral presentation, and participate in a 'Wax Museum'.

The 5th grade students dress up as their character and act as the statue in the museum. Students from lower grades press the button to bring the statue to life, and the 5th grade presents their material to their audience, recreating the experience of an automated wax statue.

The 4th grade students use the opportunity as a formative assessment for ELA. They listen to three statues of their choice, take notes, and return to the classroom for a debrief. This serves to focus their learning, and also creates excitement as they look forward to their turn as a statue.

Grade	Standard Alignment	Role
K - 4	History Anchor Standard 3	Museum Patrons
4	ELA Speaking & Listening 4.2, 4.3	Museum Patrons
5	History Anchor Standard 4	Wax Museum Statue, Researcher
5	ELA Speaking & Listening 5.5, 5.6	Wax Museum Statue, Researcher
5	ELA Writing, 5.2, 5.4, 5.7, 5.10	Researcher, Author

Standards for the Wax Museum Assessment:

Grade 5

The 5th Grade Wax Museum project is an annual project that allows Providence Creek Academy 5th grade students to showcase their learning across multiple genres.

The following packet is VERY IMPORTANT and contains all requirements for both Mrs. Pitcher's research report paper and Mrs. Adam's wax museum, poster, and presentations. This research project is a joint *collaboration* for your child's writing and social studies classes.

Please read thoroughly and sign and return the bottom portion on the next page.

IMPORTANT NEED TO KNOW:

Research Paper: DUE to Mrs. Pitcher Friday, May 19

Museum Poster: DUE to Mrs. Adams Thursday, May 26

Wax Museum: Save the Date: Wednesday, May 31, 2:00 around the PCA Circle

All poster work is to be done at home.

*Research and rough draft of research paper and historical figure will be done in social studies and writing class.

*Typed final draft is to be done at home or in technology.

*Each student needs a biography book on their hero, most students were able to get one at PCA; if not please take them to the local library.

*Students will need costume/props; check your local Dollar Tree, Goodwill, etc. If you have any questions or concerns, please contact Mrs. Adams or Mrs. Pitcher.

ox Museum Dear parents/guardians, We are excited about our Wax Museum that will be coming up soon. Here are the important details you should be aware of. Please look at the attached rubric that outlines more specifically what is required. The Wax Museum will consist of three parts: a poster board display, an in-class presentation, and the actual Wax Museum. - Poster: This should be a way to show off your hero. A tri-fold poster is recommended but not required. The poster needs to be neat, creative, colorful, and have pictures that depict the hero's life. In-class presentation: For the presentation, the American hero will come to life, giving facts and information about their life and accomplishments. Students will recite their 10 facts, which should be memorized. A good presentation will consist of good expression, eye contact, and memorization of the 10 facts. Wax Museum: All students will meet together, and become their American hero, Parents, family members, and the community will be invited to walk around and visit each American hero. As part of this project, your child will need a costume, Costume: Please find something that will adequately depict the American hero represented Look for ways to obtain a costume that will not be expensive - check your local thrift shop and ask your neighbors/tamily/triends for help. We look forward to this fun event and know it will be a great learning experience for our students! Thank you, Please sign and return this bottom portion to acknowledge that you have received the wax museum packet. Perent Signeture: Student Name:

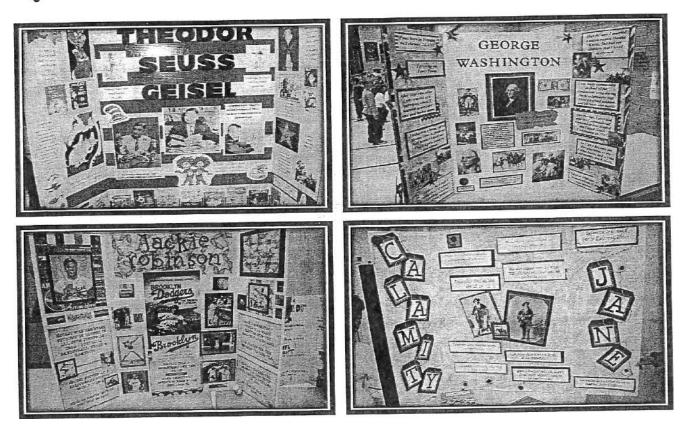

Posters due: May 26th

A good poster will:

- Reflect your hero! Be creative and colorful. Include a nice header.
- Be neat! Type all information or write it neatly in your **very best** handwriting.
- Include all **10 facts** and other important information.
- Showcase relevant pictures of your hero as many as possible!

• Examples of Great Looking Posters!

Note that each poster is neat, attractive, and informative.

Some fun extras:

Bring some props to hold or set out on your desk that reflect your hero's accomplishments.

PCA 6 – 8 Assessment Sample: 7th Grade Assessment

Emerald City – Planning a Sustainable City Project

Transfer Task

Г

This summative assessment is a transfer task that requires students to use knowledge and understandings to perform a task in a new setting or context.

The assessment and scoring guide should be reviewed with students prior to any instruction. Students should do the assessment after the lessons conclude.

Essential Question measured by the transfer task:

• What physical and human features make a place culturally unique?

Prior Knowledge	In this unit you have examined the idea of place. You have learned to identify important human and physical features of a site. You have learned how the geographic situation affects the lives of people in the place. You know that culture affects the way people build and change their neighborhoods, towns and cities.	
Problem/Role	You are a city planner (see Appendix 1). Your company would like to get the job of planning a modern city called "Emerald City." Your job will be to help prepare a plan for the new city that will meet the needs of the residents. If your plan is selected, your company will continue to work on this project until the city is finished. Four sites for the residents to choose from have been selected (<u>Appendix 3</u>).	
Perspective	The 50,000 people who will be living and working in Emerald City are committed to living a "green" way of life. They value technology as a way of making their life more convenient and reducing their impact on the environment. Emerald City residents like to spend a lot of time outdoors. They enjoy beautiful scenery and green space where they can exercise and gather for social and sports events.	
	Here are their requests:	
	1. The city should look and feel modern and tech-friendly.	
	2. The city should have clean, unpolluted air.	
	3. Most energy should come from wind power, hydroelectric power, or solar power.	
	4. There should be plenty of room for outdoor activities and sports.	

Product	You will prepare a presentation for the bid opening. Each team will get only 3 minutes to explain their plan. Work together to make the most of the time allowed persuading the Emerald City Planner Search Committee that you have the best plan.	
	Use <u>Appendix 2</u> to evaluations of the geographic site, situation, and cultural needs and perspectives of the residents.	
Criteria for an	To be judged excellent, you oral presentation will:	
Exemplary Response	1. Include a clear concise description or "vision" of Emerald City, the place of the future.	
	2. Explain how you have selected the best spot for the city from the four choices offered.	
	3. Explain how your design accomplishes the goals of the new residents.

Working as a City Planner

What does a city planner do?

City planners help design cities. Guided by the needs and wants of the residents, a city planner decides some important things about the city. For example, he or she might plan how tall the buildings should be, how wide the streets should be, and the street pattern. Even the number of street signs, and the designs bus stops, lampposts and trash cans go into the plan for the city. Every building must be

designed with careful thought. How will people get power and water? How can homes and apartments be located close to public transportation? Aesthetic design, or how things look, is something else the planner must think about. The designer wants the city to be a place where people feel comfortable. To make sure the plan is practical and also pleasing to the people who will live there, a city planner must be creative.

How does a city planner get the job done?

The planner begins by surveying the possible physical sites to select the right one. Then he studies the people who will live and work there. Demographic, economic, and environmental studies must be completed to assess the needs of the community. The planner also asks people for their opinions. When all the information is gathered, a planner creates maps and designs. People can look at these general plans and suggest changes. Then the city planner works with architects to plan for the construction of bridges, radio and telephone towers, and other infrastructure such as roads.

Green Cities Transfer Task

Congratulations, you have graduated from college! You have started your first job as a city planner. Your company would like to get the job of planning a modern city called "Emerald City." You will work with a team to put together a proposal for the new city. The exact

location of the Emerald City has not been decided.

Your job will be to complete four steps:

- Complete the site evaluation.
- Select a good location for the city.
- Do a preliminary city plan complete with a drawing.
- Present your plan to the Search Committee.

I am a City Planner

Read the background information about your new job. Complete the graphic organizer below.

My Responsibilities	My Thoughts

View the sites that are now open for development. Notice that there are four possible sites for your city. Look carefully at the site map and read the description for each one.

Green Cities Transfer Task

Select one of the sites for your city and answer the questions below.

- Evaluate the physical features on the site map. What features make this site unique?
- List the physical features of the site you have chosen. What are the advantages/disadvantages of each physical feature when planning your city?

PHYSICAL FEATURES	ADVANTAGES	DISADVANTAGES

Choose 5 -10 human features that are essential for the development of a successful city.

- Explain why you chose this location.
- What was important when choosing this location?
- How was the environment modified by your choice?

HUMAN FEATURES	WHY DID YOU CHOOSE THIS LOCATION?	WHAT WAS AN IMPORTANT FACTOR YOU CONSIDERED WHEN CHOOSING THIS LOCATION?	HOW WAS THE ENVIRONMENT CHANGED OR AFFECTED BY THIS CHOICE?

Create your city plan by using the information provided and your rubric.

35

Green Cities

Transfer Task

Appendix 2 - Evaluating Site and Situation

Use this form to evaluate each of the four land parcels that are possible building sites for Emerald City. You will need to use a separate form for each parcel.

Parcel #	Physical Characteristics	Can be used "as is"	Must be changed	Problems or Notes
	Land and soil conditions			
	Climate			
	Natural resources			
	Outdoor space and Scenery			

Student reflection:

Which parcel would be your personal choice for a place to live? Explain your answer.

Green Cities Transfer Task Appendix 2 - Evaluating Site and Situation

Evaluating the Human Characteristics of the Site

Now read below the information you have been given about the people who want to move to Emerald City.

The 50,000 people who will be living and working in Emerald City are committed to living a "green" way of life. They value technology as a way of making their life more convenient and reducing their impact on the environment. Emerald City residents like to spend a lot of time outdoors. They enjoy beautiful scenery and green space where they can exercise and gather for social and sports events.

Here are their requests:

- The city should look and feel modern and up-to-date.
- The city should have clean, unpolluted air.
- Most energy should come from wind power, hydroelectric power, or solar power.
- There should be plenty of room for outdoor activities and sports.

Use the graphic organizer below to evaluate the human characteristics of the site. Some facts have been added for you to get you started.

HUMAN FEATURES	Facts from the reading	What facilities should be included?	Research needed
Facts about the people	50,000 residents	Homes for 50,000 people	What age groups will be the largest?
Cultural values of the people			
Activities of the people			

The geographic situation of Emerald City will be important, too. As a planner you should know three facts.

- On the other side of the mountains is a large desert. Few people live there.
- There are six coastal cities to the north, or to the right, of Land Parcel 4. All of these cities are factory towns with lumber mills and refineries.
- The winds in this area usually blow from west to east.

How might these facts affect your choice of the best spot for Emerald City? Explain your answer with an example.

Now that you have completed your evaluation of the physical and human aspects of the **geographic site**, and you have also considered the **geographic situation**, it is time to make a decision where to build the city and begin the preliminary plan.

I choose Land Parcel

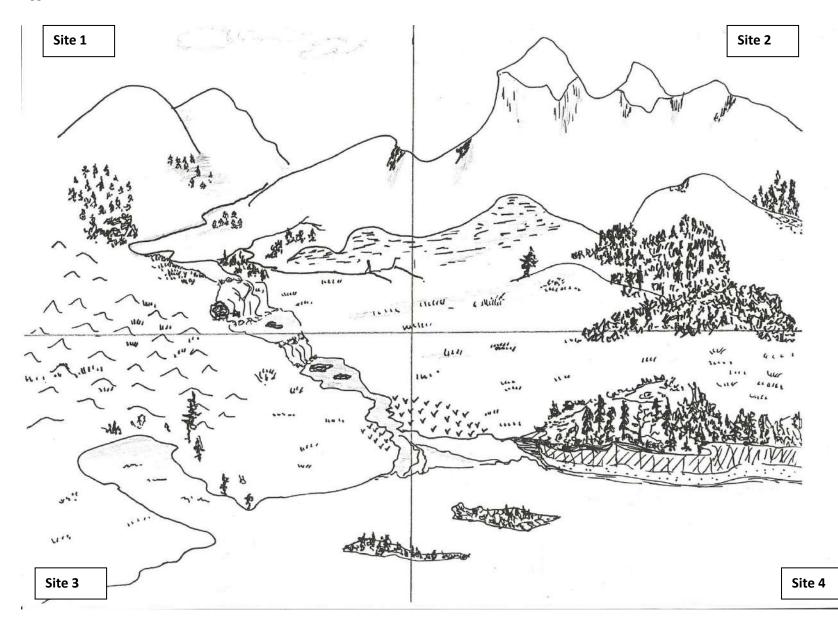

Part II - Planning Emerald City

Use the sketch of the land parcel you selected, your physical and human site evaluations, and your thoughts about the geographic situation to plan Emerald City.

Combine all your ideas in a map or graphic. Be sure to label the important features.

Remember you will be presenting your ideas to the search committee. While you may spend many hours working on the plan, you will have only three minutes to get your ideas across.

Green Cities Transfer Task Potential Sites Appendix 3

38

Green Cities Transfer Task Potential Sites Appendix 3 Site 1

This mountain valley will be the perfect place for your new city. Residents can escape the summer heat and will enjoy the beautiful mountain landscape. Rivers and a waterfall might be put to work to make electricity, and sportsmen will enjoy fishing and hunting. Flooding in the valleys and lowlands can be a problem occasionally, especially after storms and in the spring when the snow melts in the mountains.

Elevation: 700-1800 ft

Average Temperatures:

Summer 55°-80° F

Winter 20°-50° F

- Soils: Rocky with erosion along streams
- Land features: Steep hillsides with a narrow river valley and a flat area at the base of the hills with good cropland
- Water features: Three fast-moving rivers come together before a waterfall. Stream flows are heavy after storms and in spring when snow melts in the hills.
- Vegetation: Heavily forested at lower elevations and a natural meadow near the streams
- Animal life: Abundant fish, deer and other small game

Site 2

If you choose this site, your city will be high above all the rest. The scenery is beautiful, and the mountain climate makes skiing and other winter sports possible. Hunting is also a possibility. The benefits of this area will be worth the expense of building roads and transporting building materials. In the mountains, mineral deposits have already been discovered - including silver and lead - and there may be more!

Elevation: 1000-5000 ft.

Average Temperatures:

Summer 30°-74° F

Winter 10°-35° F

- Soils: Rocky, including granite and shale. Deposits of coal, small deposits of silver and lead.
- Water features: A few small mountain streams
- Vegetation: Heavily forested at lower elevations,
- Animal life: Deer, elk, bears and other game animals; a few sightings of mountain lions in recent years.

Green Cities Transfer Task Potential Sites Appendix 3

Site 3

Stay connected with the rest of the world by building a harbor city on this site. Residents will enjoy the mild climate in winter. Building and water travel in this area will be easy. It will be easy to plan around the fact that low-lying coastal areas can sometimes experience damage from wind, rain and storm surges from coastal storms.

Elevation: Sea level - 700 ft

Average Temperatures:

Summer 55°-85° F

Winter 28°-65° F

- Soils: Clay deposits and sandy soils with rocky base
- Land features: Low hills with some flat meadowland in eastern portion. Marshy area near the coast.
- Water features: River with small islands. Tide lands at mouth of river. Deep water harbor.
- Vegetation: Hardwood trees and shrubs. Marsh grass in low areas.
- Animal life: Some small animals, fresh water fish in rivers, saltwater fish along coast.

Site 4

Residents will enjoy the options created by the varied environments. Offshore islands, beautiful wooded areas and natural meadows contrast with the marshland. Perched on the cliffs, your city will be protected from coastal storms. Mosquitoes will only be a passing summer problem.

Elevation: Sea level – 1000 ft

Average Temperatures:

Summer 55°-85° F

Winter 28°-63° F

- Soils: Sandy soils with clay in marshy areas
- Land features: Mostly flat coastal plain with gentle hills in the interior. Erosion has caused a steep cliff along part of the coastline. Two small islands off shore.
- Water features: No rivers. Shallow water between coast and islands.
- Vegetation: Woodland covers about half the land area and both islands. Marshy land near the river. Some natural meadow.
- Animal life: Muskrats in the marsh. Deer, rabbits and small game.
