

Upcoming 8th to 9th grade parent transition activities for SFHS

South Forsyth High School CTAE Informational Night

Tuesday, January 28th

6:30-8:00 PM

SFHS Main Gym

- Overview of CTAE Pathways and the related clubs offered at SFHS.
- Information on our new SFHS CTAE Academies- Hospitality (Culinary Arts Focus) and Innovation (Manufacturing Focus).
- Information on our International Baccalaureate Career Certificate Program.
- An opportunity to visit CTAE Classrooms and meet the teachers to learn more!

Career pathways are similar to Connections classes, but unlike Connections, high school students will take a year long course in the same career field each year during high school. Choosing the right career pathway is very important! These classes and the clubs that go with them involve building relationships, pathway competitions as well as trips to other states for professional conferences. Students also have an opportunity to intern with companies in order to gain valuable work-based learning experiences in their junior and senior years. Additionally, CTAE courses will give students real life work experiences to help them choose what they would like to focus on in their post-secondary education.

At SFHS, students can choose from: **Business, Culinary Arts, Computer Science, Engineering, Teaching as a Profession, Manufacturing, and Marketing (Sports, Fashion, or Entrepreneurship)**. Each career pathway has courses that students can take each year. Please attend the South Forsyth High School Career Tech Education Night to learn more about these exciting courses and clubs.

South Forsyth High School Rising Parent Night

Tuesday, February 11th

7:00 – 8:00 p.m.

SFHS Main Gym

Important information will be presented to parents to make the transition from middle to school to high school as seamless as possible. More specifically, differences in AP and IB courses will be discussed as well as Instructional Focus and its focus on study skills and successful eighth to ninth grade transition.
