

Middle East Geography THINK-TAC-TOE

Directions: Below is a think-tac-toe that will help you to understand standard **SS7G6 The student will discuss environmental issues across Southwest Asia (Middle East) & SS7G7 The student will explain the impact of location, climate, physical characteristics, distribution of natural resources and population distribution on Southwest Asia (Middle East).** Using the standards matrix completed in class, complete **THREE** squares. *They must create a tic-tac-toe (either horizontally, vertically, or diagonally).* Remember you must go in a straight line; **you can't just pick three assignments at random.**

<p>Create a <u>crossword puzzle or word search</u> using the following words Irrigation, Population Distribution, Natural Resource, Literacy Rate, Standard of Living, Suez Canal, Strait of Hormuz. Make sure that you include the clues at the bottom. You cannot use the definition from the textbook – you must create your own clues.</p>	<p>Read the Environmental Issues Across Southwest Asia. Write down important information from the text to support your answers. Write the question and answers in complete sentences.</p>	<p>Read and answer (on your own paper Q&A) Water a Scarce Resource & Water War in the South Create a <u>Venn Diagram</u> comparing and contrasting the water issues in the Middle East and Southern United States</p> 
<p>Read the Where do People Live. Write down important information from the text to support your answers. Write the question and answers in complete sentences.</p>	<p>Complete the Middle East Letter over standard SS7G7. Complete the letter using R.A.F.T. Must include rough draft and final draft.</p>	<p>Irrigation in the Middle East Using the information provided in class draw a picture or diagram of water irrigation technology and also explain how it works and list of concerns or problems associated with each technology.</p>
<p><u>Write a Persuasive Essay</u> to the President of the United States to persuade him send clean water to the Middle East. Explain why they need the water and how we can help. Or <u>Write an Expository Essay</u> to Middle East Government officials explaining why they need to share oil revenue amongst each other. <u>6-8 sentence.</u></p>	<p>Create a <u>riddle</u> for each of the five vocabulary words from the Environmental Issues and Population Distribution sections. Your riddle should have a minimum of four lines, should be written in the first person and the last line should be “what am I?” Make sure you have an answer key. (Irrigation, Population Distribution, Natural Resource, Literacy Rate, Standard of Living)</p>	<p>Read the Oil in the Middle East. Write down important information from the text to support your answers. Write the question and answers in complete sentences.</p>
