

## The Seven Wonders of Florida Social Studies Project

### ***Project description:***

Make a Powerpoint museum display that proves that Florida geography is a wonder. Teams must select a geographic feature of Florida (for example, a body of water, landform, location, weather phenomenon, city, etc.) Your team's museum display must include:

- Description of your wonder
- Explanation of your wonder (What is it? How did it does it occur?  
How does it relate to Florida's geography)
- Map of where one could find your wonder
- Relevant graphics (please credit source of graphic)
- Evaluation: Why is this wonder wonderful?
- Creative use of technology

***Purpose:*** Provide an opportunity for a hands-on learning activity for evidence of the students' understanding of social studies content and ability to think critically about the subject.

***Goal for completion date:***      ***Friday, October 4, 2013***

### ***Rubric:***

Gathers relevant, accurate information	20
Shows thorough understanding of content	20
Exhibits outstanding insight/ creativity	20
Communicates ideas clearly and effectively	20
Powerpoint presentation	10
Positive Collaboration	10
<b><i>Total possible points</i></b>	<b>100</b>

Objectives/Standards: SS.4.G.1, 2 and 3 – I will be able to be able to identify physical features of Florida, locate cultural features on a map, and explain how weather impacts Florida.
