

Stanley School Expansion Project
Content for website

Stanley School is located in Stanley, Idaho, a beautiful, remote, and rural setting. We currently have 22 students enrolled in grades K-8.

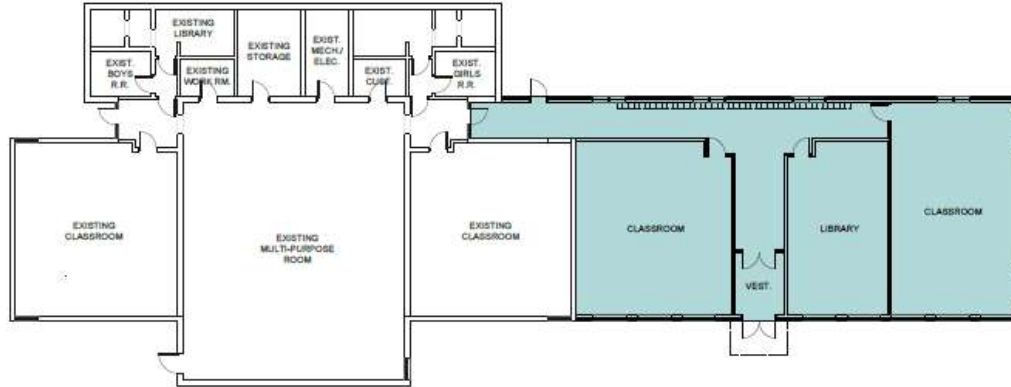

While the Stanley School prides itself on academics, we also enhance our curriculum with arts including theater productions, visiting artists, and music lessons. Cross country skiing, downhill skiing, ice skating, and backpacking trips are part of our PE program.

Do you LOVE Stanley? We need your support!

Stanley School was built in 1978 and needs an upgrade! The Stanley School Parents' Association (SSPA) is partnering with the Challis School District to expand and remodel our school. A new library will allow us to move our library out of the boys' shower room. One new classroom will replace an aging portable, which lacks a toilet and running water. A second new classroom will provide space for high school education in Stanley, which would allow parents to consider long-term residency and would help retain local volunteers and employees for emergency and health services, law enforcement, and businesses. Additional funds raised will pay for improvements to the existing building for better safety and efficiency.

Conceptual Plan

Fundraising Goal: a K-12 school with a high school classroom and improved educational facilities.

The Challis School District has committed \$550,000 for one classroom. The SSPA is raising additional funds. The more we raise, the more we can do!

\$900,000 – Upgrade playground

\$875,000 – Add teacher/visitor bathroom, remodel kitchen

\$825,000 – Cap gym floor and install wall-mounted, folding tables

\$725,000 – Add windows to existing classrooms and gym

\$700,000 – Add two complete classrooms and a library

Donation Levels

\$100 and up receive permanent, visible recognition in the school.
