

Do you LOVE Stanley? We need your support!

Stanley School was built in 1978 and needs an upgrade. The good news? **We've broken ground on the Stanley School Expansion and Remodel Project!** The Stanley School Parents' Association (SSPA) is thrilled to report we have raised **over \$700,000 from many generous donors**. The Challis School District has committed an additional \$550,000.

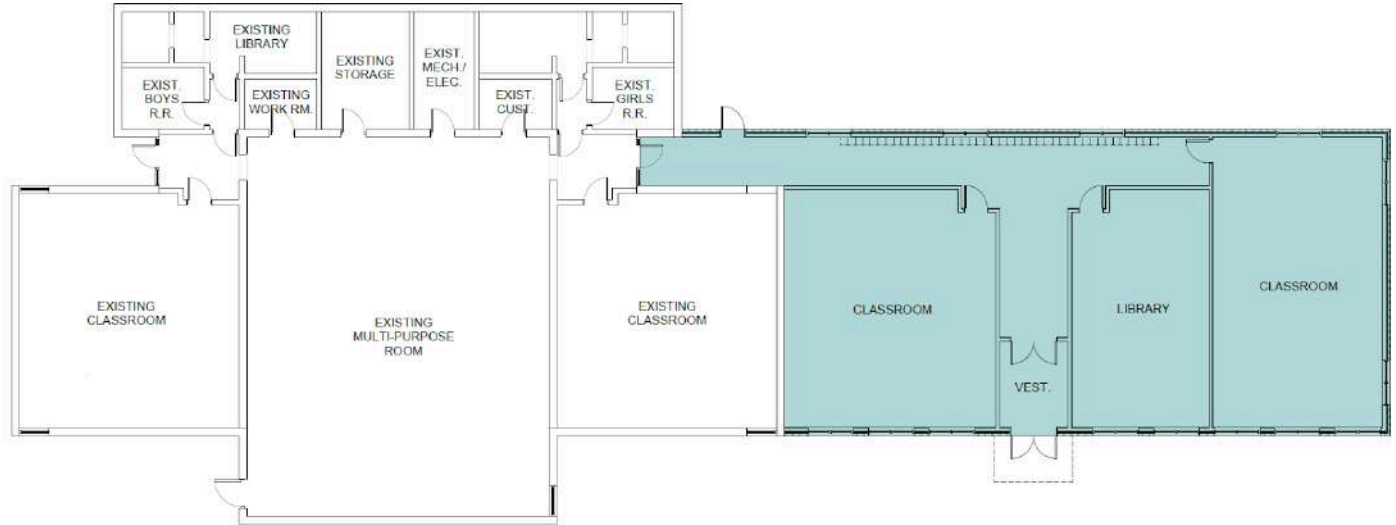

A new library will replace the school's very small library, currently housed in the boys' shower room. One new classroom will replace an aging portable (trailer) where the 6th–8th grade classroom currently meets, without a toilet or running water. One new classroom will provide space for potential high school education in Stanley, which will help the community by keeping families here and vital businesses and services available.

The SSPA is so grateful for the community's support, but we still need your help. **Total costs for the main project are \$1.38 million, so we still need to raise \$130,000.** And if we can raise even more funds, we can make additional improvements to the school. The more you give, the more we can do!

- Install additional windows in the existing classrooms and multipurpose room
- Cap the gym floor for asbestos abatement
- Add wall-mounted tables in the multipurpose room for an easier transition between its use as a lunchroom and gymnasium
- Convert the current custodian room into a handicap-accessible adult/teacher/visitors bathroom, and convert the girls' shower room into a new custodian closet
- Remodel and expand the kitchen for more efficient use and to support home economics instruction
- Upgrade the playground
