STEM + ARTS

The STEM + Arts camp provides fun learning experiences through Science, Technology, Engineering, Mathematics and Art integration.

Participants will explore many topics including 3-D design and printing, painting, gardening techniques, coding activities and much more! Join us for an exciting opportunity that is the perfect start to the 2021-2022 school year!

Price includes t-shirt, several take home projects, snacks and drinks. **Participants should bring their own bag lunch each day.**
