

## AP Human Geography Summer Assignment

Mrs. Van Faussien (Rebecca.vanfaussien@henry.k12.ga.us)

It is important to have a firm understanding of the world and where things are located before we begin studying Human Geography. Complete the following maps and be prepared to turn them in on or before **August 1<sup>st</sup>**. We will quiz on several of these maps in the first few weeks of school (dates will be announced once school starts).

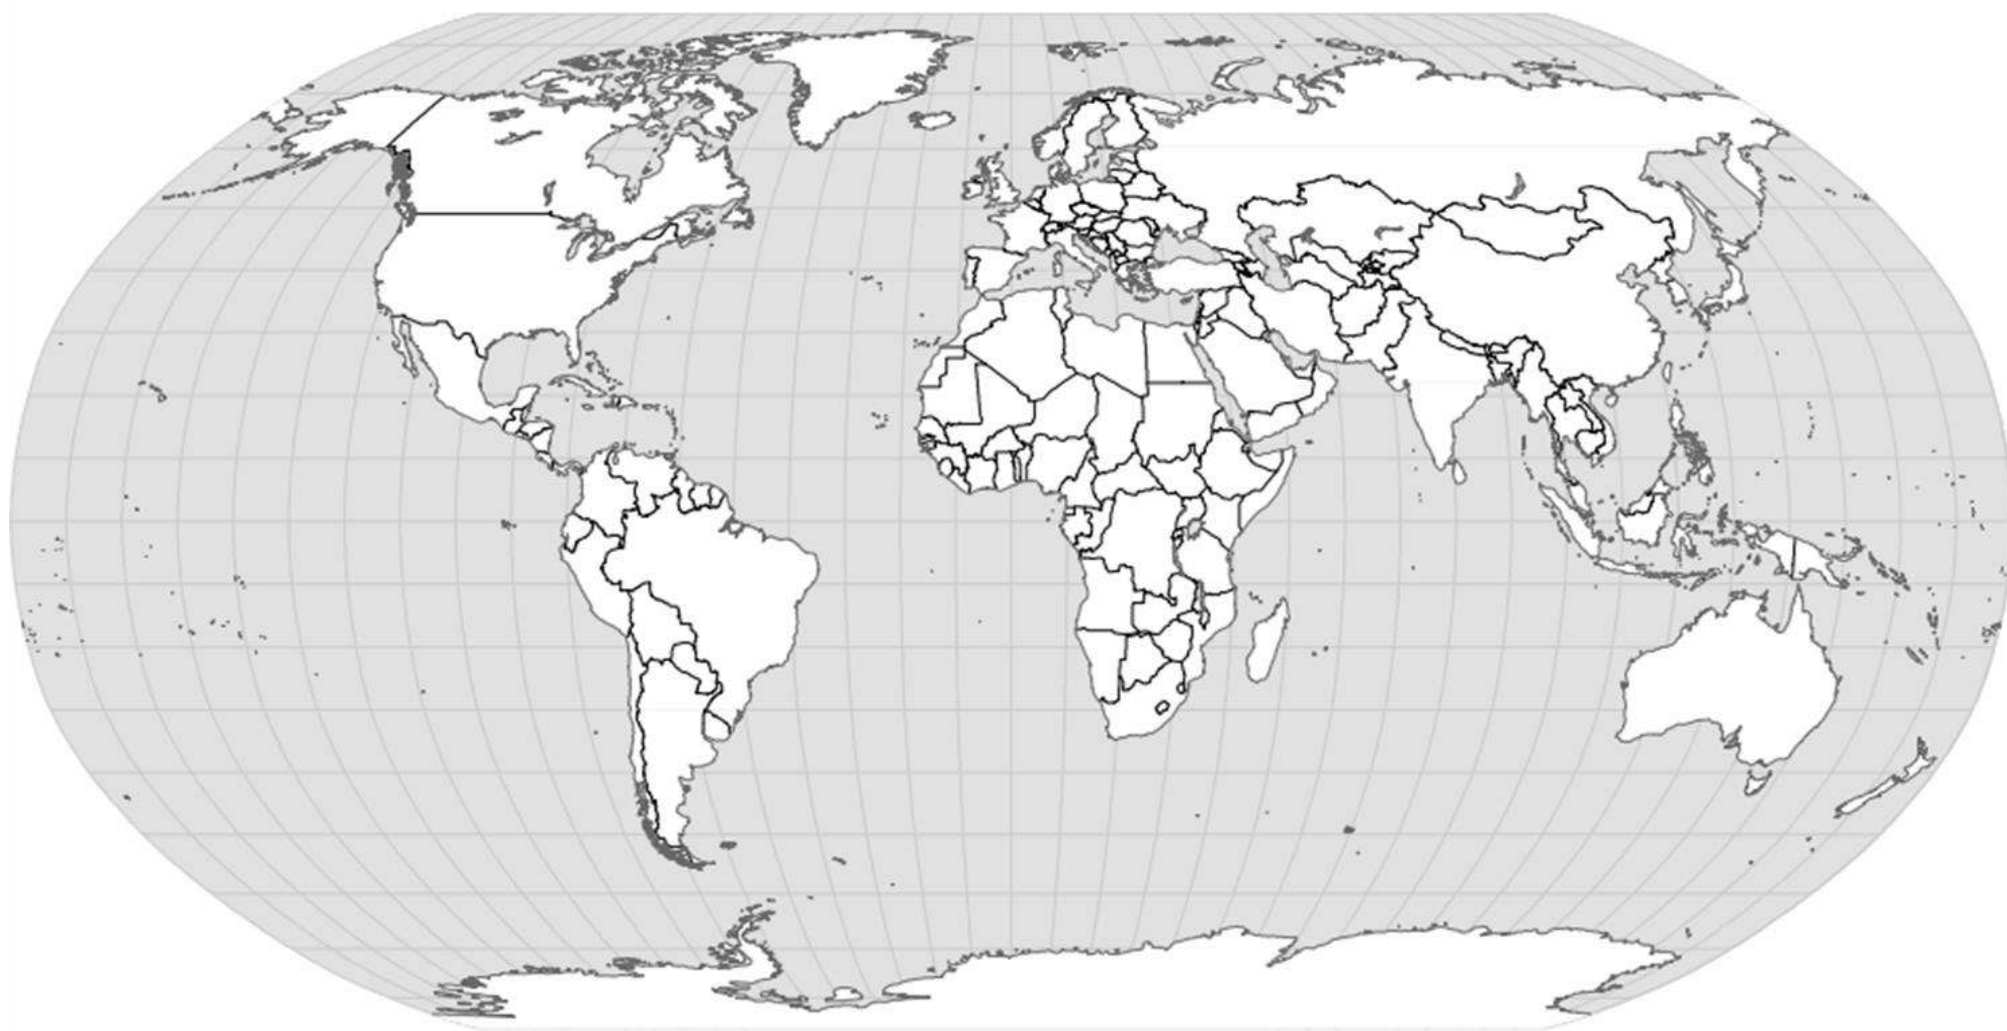

For each map, label using the accompanying chart. Coloring is not required except where noted, but it may help you remember locations better.

Create a key and number the labels if you do not have room to write out each name. Maps should be legible, and neatly finished.
