12. Please list any comments or concerns you may have regarding your child's education at Hampton Elementary Charter School.

- Keep up the good work. Haley loves coming to school.
- A bit concerned in regards to the size of the classes, especially 3rd grade
- You don't want to hear what I have to say about this school. All I have to say is that I'm not happy with the school this year.
- I am unhappy with charter learning because my child is not getting an adequate education. She does not even come home with vocabulary words and spelling. Her homework is to get on the internet at 8:00. TEACH ACADEMICS, not how to work in the workforce.
 1. No basic writing punctuation, phonics, etc
 2. Math is a joke
 3. Penmanship
 4. I am fed up with the bullying on bus 79-1. Kids have been punched in the face on the bus, and the bus driver did nothing.

It is hard to accept this charter school stuff when they fall behind in their education

- My son loves going to school; he enjoys his classes, and loves his teachers. We couldn't be happier.
- Education is great. I have had other issues.
- Open doors in the morning on time. Lack of communication with progress/behavior issues with my child.
- I would like to thank you all for a great year. My son enjoys Hampton Elementary Charter School. Continue to do what Hampton Elementary does.
- So far, all is well.
- They need to offer more tutoring classes for children, due to the fact the standards have went up.
- No concerns at this time.
- Change nothing. Keep up the awesome work! Go Hornets!
- Daily behavior reporting via Class DoJo was inconsistent.
- There are no concerns, Hampton is a great establishment.
- I understand the school is limited to (as far as the budget) what they can bring in for breakfast and lunch. I have had both and it was cold and had high sodium.
- Administrators should be a last resort, but when students are sent to the administrators there should be swift punishment for disruptive behavior.
- No parent-teacher meetings - kids being mean to other kids
- The only thing I may need help in knowing what my child may be struggling with, and how to work on it at home.
- Doing great! Keep up the good work.
- My child never gets her first choice in regards to STEAM classes. Also, the substitute teacher never picked any one for good behavior for student of the month; it was always the "problem" children.

The parents rated Hampton Elementary Charter School above average in all areas.

The two areas we most need to improve on are:

- Communication between school and parents
- Opportunities to improve parent skills and broaden parent knowledge

Even though stated areas are above average, there is a need for more emphasis to be put on these. If we set this as a goal, there will be an improvement in the upcoming school year 2015-2016. Improvement in communication and more opportunities for parents to broaden their skills and knowledge will enhance the education experience in every area at HECS.
