

Important things to know about Geometry with Mr. Sohn

1. Recommended that you get

A Calculator:

Casio fx-300es plus calc-(about \$9. By far the cheapest and best option)

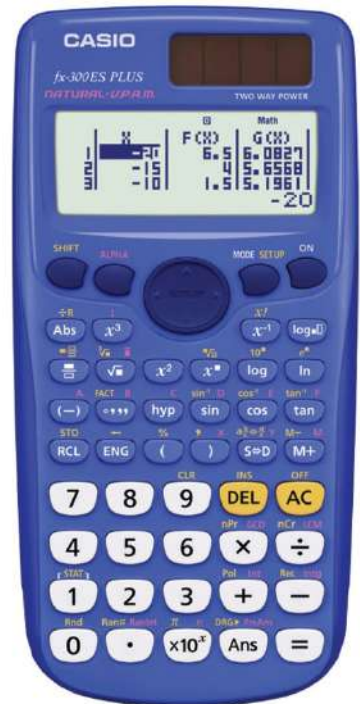

Or

casio fx115ex plus (about \$15)

Or

TI 30 xs MultiView (about \$15)

Preferred Calculator:

All three of these are the best suited for the course and replicate the computerized calculator that you will be able to use on your end of course exam. Even though they are not permitted on the exam itself it is only due to memory storage reasons. So, please purchase one of these as they are better suited not the permitted calculator.

Other recommended supplies:

A. 1 Spiral or composition notebook

B. 1 Compass

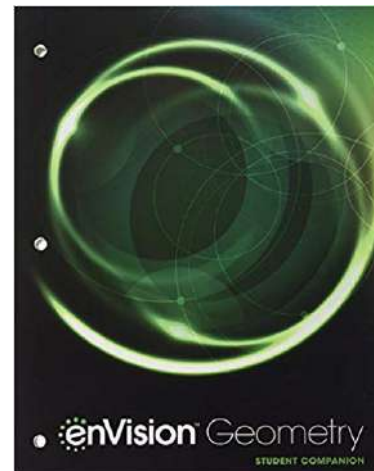

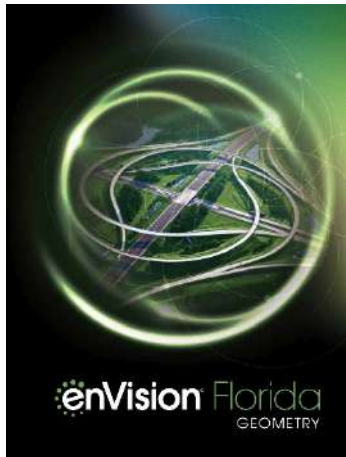

2. Grading

- a. Per school policy, grades will be calculated with 75% as Summative tests and 25% as Formative assignments.
- b. Geometry has an End Of Course exam (EOC), also called Florida Standards Assessment (FSA). This is weighted as 30% of the entire year average and is a 2-day-long computerized test.

3. Assignments and Textbook

- a. There will be weekly assignments and quizzes on the computer to better prepare for the FSA end of course exam. Assignments will be on **PearsonRealize.com** (students should sign on with Easy Bridge).
- b. Please bring your textbook and student companion every day. There is an online textbook and app that students can download to access their textbook at home.
