and

MOST IMPORTANTLY...

A positive attitude

Meet the teachers

[Contact us on Remind and Email](#)

Ms. Pam Lewis

I will be teaching your child Science and Social Studies. In fifth grade social studies, students begin the year learning about the growth of 19th century industry and innovation in the U.S., and culminate the study with the events and impact of 9-11-2001. Science will begin with the Scientific Process. From there, we will move on to our first unit, pertaining to earth changes over time.

Mrs. Stacy Hayes

I will be your English/Language Arts teacher. This year, we will be reading and writing a LOT. We are using a new program called WriteScore which you have probably used already at Cross Creek. I am so excited to be your new teacher, whether face to face or virtually. Welcome to TCMS Sigma team!

Mrs. Yalarie Williams

I am super excited to be your math teacher. This year makes my 13th year teaching. We will be learning several skills that include: Orders of operation, place value, fractions, and metric conversions just to name a few. I look forward to an amazing 20-21 school year!

Mrs. Katie Shaver

I am excited to be working with Sigma team this year and serving as the remote inclusion teacher. I will be working with inclusion students who have chosen to participate in remote learning. Away from school, I love hanging out with my husband and two boys and cheering on the Georgia Bulldogs (Please let there be football this year)!

Look for my face - - coming to a ZOOM session near you!
