**Student Expectations/Rules**

It is a school wide expectation that our students take their role as members of our educational community seriously. Being part of a functioning group comes with expectations and responsibilities. We expect our students to,

**Be Respectful**

**Be Responsible**

*And* **Be Problem Solvers**

*Disciplinary consequences will be according to the team policy outlined by school administration.*

## **Learning Responsibilities**

*Students* are responsible for their own actions, including a significant part of their learning. Every action is the result of a conscious choice. The rules and expectations are few, simple, and easy to follow. Students have the option every day to choose to follow the expectations, rules, and procedures. Deciding whether or not to work, commit efforts to learning, or make respectful and responsible decisions, are choices made by each individual student. Such choices have either positive or negative outcomes.

The *instructor* is responsible for creating a safe environment to present the student with the opportunity for learning.

*Parents* are responsible for supporting the educational process of their children as well as maintaining a positive educational value system at home.

We the undersigned have read and understand all elements of this syllabus and acknowledge the associated responsibilities.
