

Algebra

Express each phrase as an algebraic expression.

1. product of a number c and 24	2. 6 divided by a number k
3. 15 times a number q	4. a number e divided into 45
5. a number b less 21	6. 11 multiplied by a number n
7. 2 decreased by a number p	8. take away a number f from 17
9. a number z minus 39	10. difference of 7 and a number h
11. 35 more than a number y	12. subtract 48 from a number r
13. quotient of a number j and 23	14. add a number t to 14
15. 10 less than a number x	16. a number w plus 30
17. sum of 31 and a number s	18. 46 increased by a number a
19. a number g less 47	20. sum of 16 and a number m
21. a number u multiplied by 25	22. 37 divided into a number v
23. quotient of a number d and 9	24. 38 less than a number n
25. a number b times 13	26. 42 plus a number t
27. a number a decreased by 3	28. add 20 to a number z
29. a number u divided by 18	30. product of a number y and 40
