SESSION(S): ___ Session I ONLY ___ Session II ONLY ___ BOTH Sessions

RISING GRADE (circle): 3rd

SESSION I (AM)

Rank 1-5	<i>Rank your course choices for SESSION I (June 1-15) AM classes from most desired (1) to least desired (5). Leave blank if you are not participating in Session I.</i>
	Haywire for Habitats (Serves Grades 2-3) Come one! Come all! Join us for an animal ball! We will take an adventure through all types of lands, explore habitats, and create food chains. During this adventure you will investigate a variety of organisms and recreate a habitat. Observe and study a habitat outdoors and track changes. Participate in an animal tracks scavenger hunt. Research adaptations and determine how animals use them to survive. Join us for a WILD time!
	Fairy Tale Solutions (Serves Grades 2-3) Help the Brothers Grimm create happy endings for our favorite fairy tale characters. We will use the engineering design process to design a stronger structure to protect the three little pigs from the big bad wolf, construct a new bridge for The Three Billy Goats Gruff, and create a parachute for Humpty Dumpty. Our young engineers will then use their imagination to design their own solution to a fairy tale problem.
	STEAM Kitchen (Serves Grades 2-3) Have you ever wondered if it's possible to drop an egg on the ground and it not break? Or if you can build a tower with marshmallows and it not collapse or shake? Now's the time to figure it all out, and really get to the bottom of what this STEAM thing is about. We'll make treats, have fun, and enjoy learning bite by bite. So join me in taking the STEAM Kitchen to magical heights.
	When Small People Dream Big (Serves Grades 2-3) It's time to take your ideas and make them big! Have fun dreaming up a new business idea, while exploring the economics and advertising you need to know to make it real! Hear from local entrepreneurs so you can create something amazing in your community. Everyone will be asking, "What's your big idea?"
	May the Force be with You (Serves Grades 2-3) Click.....click.....click, you're on a roller coaster. It's climbing slowly up a hill. All you see is the top of the hill and open sky. And before you know it you're back down to the ground again. But how did this happen? What force created this thrilling sensation of a roller coaster ride? Come be an engineer and learn how to create your own amazing ride. May the Force Be With You!

SESSION II (AM)

Rank 1-5	<i>Rank your course choices for SESSION II (June 16-29) AM classes from most desired (1) to least desired (5). Leave blank if you are not participating in Session II.</i>
	Haywire for Habitats (Serves Grades 2-3) Come one! Come all! Join us for an animal ball! We will take an adventure through all types of lands, explore habitats, and create food chains. During this adventure you will investigate a variety of organisms and recreate a habitat. Observe and study a habitat outdoors and track changes. Participate in an animal tracks scavenger hunt. Research adaptations and determine how animals use them to survive. Join us for a WILD time!
	STEAM Kitchen (Serves Grades 2-3) Have you ever wondered if it's possible to drop an egg on the ground and it not break? Or if you can build a tower with marshmallows and it not collapse or shake? Now's the time to figure it all out, and really get to the bottom of what this STEAM thing is about. We'll make treats, have fun, and enjoy learning bite by bite. So join me in taking the STEAM Kitchen to magical heights.
	Amazing Works (Serves Grades 2-3) When you look around what do you see? How do feel? What thoughts do you have? Let's turn these into amazing works. Students will discover ways to express themselves creatively. During this class they will use a variety of tools to demonstrate and celebrate their gifts and talents.
	Candy Shop (Serves Grades 2-3) Welcome to the Candy Shop! Who doesn't enjoy something YUMMY in their TUMMY? At the Candy Shop, everyone will explore the science behind their favorite 'sweetsations' and learn how to make their own. See you at the Candy Shop. It is going to be SO SWEET!
	Juicing it Up (Serves Grades 2-3) Are you tired of eating the same fruits and vegetable? Do your parents pile them on your plate and say things like, "It's good for you?" Well there's a great way to get all those healthy nutrients in without ever having to use a fork. In this course, you will learn about the healthy, tasty benefits of juicing.

RISING GRADE (circle): 3rd

PM Classes

Rank 1-5	Rank your top 5 course choices for SESSION I & II PM classes from most desired (1) to least desired (5).
	<p>Taking a Line for a Walk (Serves Grades 1-3) Lines are everywhere. There's art to be found in the lines around. Learn how to use color, shading and technique to create your own original art pieces from a wide range of mediums and materials! Let your creativity flow!</p>
	<p>Performing Arts (Serves Grades 1-3) Do you love to act? Do you love to dance? Do you love to perform on stage? If you answered yes to either one of these questions, then this fun and exciting class is for you. Come join the performing arts class as we go on and exciting journey in the world of performing arts!</p>
	<p>Teamwork Makes the Dreamwork (Serves Grades 1-3) You will be involved in various fun, exciting, and purposeful activities. There will be soccer, dodgeball, manipulatives, team games, golf, basketball, and more. Come prepared with comfortable clothes, sneakers, and a positive attitude.</p>
	<p>Music in Motion (Serves Grades 1-3) This is a high-energy experience that develops creative expression through rhythm, movement, and performance. Students will create instruments out of common household materials, learn choreographed dances and children's songs.</p>
	<p>Fitness Information Training (F.I.T.) USA (Serves Grades 1-3) Working our way toward a F.I.T. USA. Travel with us as we explore food and nutrition awareness, choreographed fitness routines, yoga, meditation, and more! Learn about the many ways you can get physically, mentally, and academically FIT!</p>
	<p>Op Art and Color Theory (Serves Grades 3-5) Voila!:Op Art and Color Theory Unit Learn to create optical illusions using the concept of op art techniques and combining color theory into phenomenal drawings, paintings, and sculptures.</p>
	<p>Performing Arts (Serves Grades 3-5) Do you love to act? Do you love to dance? Do you love to perform on stage? If you answered yes to either one of these questions, then this fun and exciting class is for you. Come join the performing arts class as we go on and exciting journey in the world of performing arts!</p>
	<p>Adventurous Avengers (Serves Grades 3-5) Just like Iron Man, Captain America, and Thor students will learn that teams are made up of different components. Teams work together as one to reach a common goal. Team building activities help you develop trust, critical thinking and problem solving skills, they're also fun and can help students feel comfortable working with others.</p>
	<p>Drumline (Serves Grades 3-5) As a Jammin' Drummer on ATL's hottest drumline you will learn how to play percussion instruments i.e., concert snare drums, tenor drums, bass drums, cymbals, and some Latin instruments. The learning of rhythms, notes, and creative flashy movements will culminate in a performance in the "BIG SHOW" at the end of camp!</p>
	<p>Music and Technology (Serves Grades 3-5) Music is a universal language that is spoken in many facets around the world. For many years, it has enhanced the world through entertainment. Experience an incredible journey of music that will capture your imagination of singing, composing, and performing music with technology.</p>
	<p>It's Pinteresting! (Serves Grades 3-5) This is a unique experience filled with an array of creative activities and everyday kid-friendly ideas to foster creativity, organization, fun and practicality. Using resources and ideas from the super popular Pinterest website this is sure to be a fun afternoon for all. It's sure to pin your interests!</p>
