

ZEARN Math

zearn.org

Zearn Math is a top-rated math curriculum that personalizes learning for each student.

Students learn in a personalized way, rotating between learning independently and in small groups, every day.

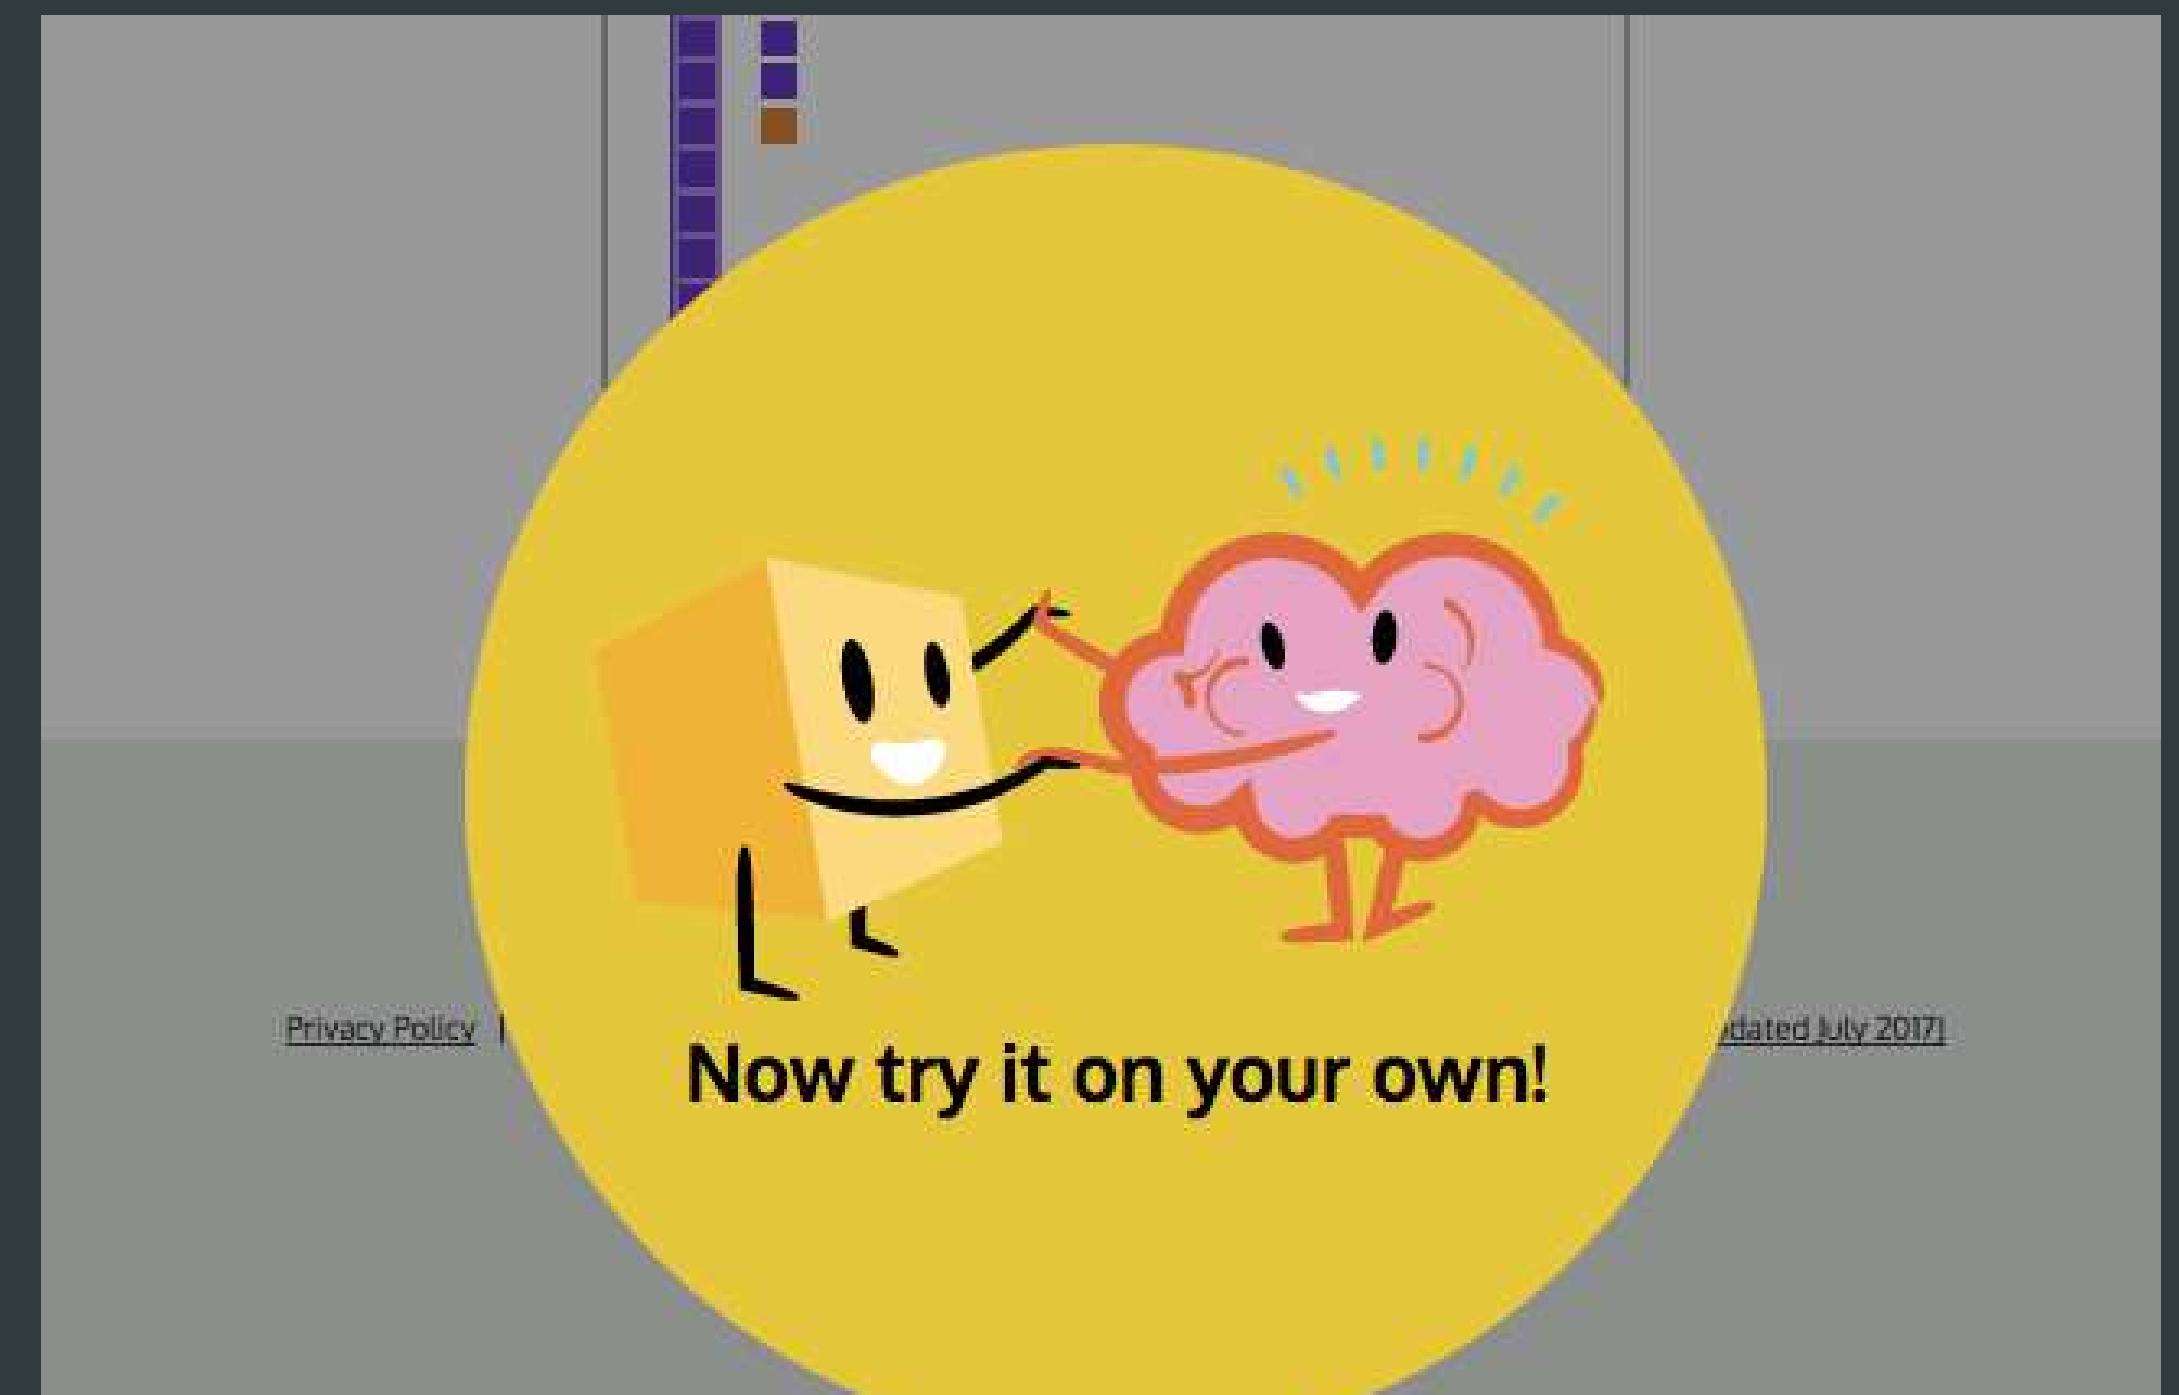

Let's take a look at what children experience when learning independently.

1st Grade

Students are reminded throughout to keep trying and work through challenge.

Text can be read aloud.

SIGN OUT

The interface displays a grid of 19 lesson icons. The first 18 icons are colorful and represent completed or available lessons. The final icon in the grid is a yellow padlock, indicating that the next lesson is locked. The sidebar on the left contains three main options: 'NEXT UP' (with a speech bubble icon), 'MY STUFF' (with a shield icon and highlighted in yellow), and 'SIGN OUT'.

Here are some questions to ask your child to support their learning with Zearn Math!

- What did you discuss with your teacher and friends in math small group time?
- What concrete materials did you get to learn with in Small Group today?
- What are your favorite parts of a Digital Lesson?
- When you get a challenging problem, how do you work through it?
- How many Digital Lesson badges have you earned?
