NOTE: The school district's automated student scheduling system will randomly schedule students for the 2021-2022 based on their grade level (upperclassmen have priority), then by their academic and elective course requests, with the exception of some program requirements. When possible, we will try to use the student's elective choices when finalizing student schedules. However, if none of the choices fit, we will place them in similar courses or wherever there is room so that the students are fully enrolled in 6 classes each semester.
