The adaptation focuses on building students' understanding of partitioning circles and squares into two, three, or four equal shares. It also equips students to name the equal shares as halves, thirds, and fourths and describe the whole as two halves, three thirds, or four fourths.

This work prepares students to partition shapes into equal-size parts in this unit and name the parts as fractions.

	Prior Grade	Current Grade
Standards	• 2.G.A.3	• 3.NF.A.1 • 3.NF.A.2 • 3.NF.A.3 • 3.G.A.2
Lesson Adjustments	Before Section A of the current unit, add in: • Grade 2 Unit 6 Section B Lesson 7[a] • Grade 2 Unit 6 Section B Lesson 8 • Grade 2 Unit 6 Section B Lesson 9 →	Complete the current unit.
Practice and Fluency	• Section B Practice Problems 2–4	**Adaptation Notes** [a] Consider adding this lesson if students did not have any experience with partitioning shapes in grade 2. Otherwise, begin the adaptation with Lesson 8.
Assessment	• Grade 2 Unit 6 Section B Checkpoint
