

Adding, Subtracting, and Working with Data: Section A Checkpoint

1. Find the number that makes each equation true.

a. $6 + \underline{\quad} = 10$

b. $20 = 13 + \underline{\quad}$

c. $\underline{\quad} + 8 = 20$

2. Find the value of $15 - 6$. Show your thinking using drawings, numbers, or words.

3. Find the value of $23 + 15$. Show your thinking using drawings, numbers, or words.
