

Lesson 16: Interpret Measurement Data

Cool Down: Diego's Art Project

Diego collected sticks for an art project and measured them. His data is shown in this line plot.

Answer the questions based on Diego's line plot.

1. How many sticks collected were 22 cm?
2. How many sticks did Diego collect?
3. How long was the longest stick?
4. How many sticks were 21 cm?
