

# Lesson 3: Scaled Picture Graphs

## Cool Down: Birds in the Park

Jada collected data to see how many of each type of bird she saw on her way home.

The data is shown in this picture graph:

Each ✓ represents 2 birds.

Based on the data on the graph:

1. How many sparrows did Jada see on the way home?
  
2. Write one question you could ask about the birds Jada saw on the way home.
