# Lesson 2: Interpret Representations of Multiplicative Comparison

Cool Down: Comparing Cubes

1. Circle the statement and the multiplication equation that show a comparison of Tyler's and Elena's cubes.

Tyler's cubes

Elena's cubes

Tyler has 4 more cubes than Elena. $6 \times 4 = 24$

Elena has 5 times as many cubes as Tyler. $2 \times 10 = 20$

Tyler has 5 times as many cubes as Elena. $4 \times 4 = 16$

Tyler has 4 times as many cubes as Elena. $5 \times 4 = 20$

2. Explain your choices.

_____

_____

_____

_____
