

Multiplicative Comparison and Measurement:

Section C Checkpoint

1. Priya and her aunt wanted to see how far they can each throw a frisbee. Priya's aunt's throw was 52 yards, which was 4 times the distance of Priya's throw.

What was the distance of Priya's throw in feet? Explain or show your reasoning.

2. A rectangle has a width of $2\frac{1}{4}$ inches. The perimeter of the rectangle is 13 inches. What is the length of the rectangle? Explain or show your reasoning.
