# Lesson 12: Solve Problems

## Cool Down: Evaluate Expressions

1. Priya hiked $1\frac{2}{3}$ miles. Diego hiked $\frac{1}{2}$ mile. How much farther did Priya hike than Diego? Explain or show your reasoning.

2. On Monday, Andre hiked $\frac{3}{4}$ mile in the morning and $1\frac{1}{3}$ miles in the afternoon. How far did Andre hike on Monday? Explain or show your reasoning.
