

## Lesson 19: Compare to 1

### Cool Down: Compare without Calculating

1. Is  $\left(1 - \frac{16}{33}\right) \times \frac{11}{14}$  greater than, equal to, or less than  $\frac{11}{14}$ ? Explain or show your reasoning.

2. Is  $\frac{49}{33} \times \frac{11}{14}$  greater than, equal to, or less than  $\frac{11}{14}$ ? Explain or show your reasoning.
