

Section B: Practice Problems

1. Tell your partner a story using the picture.

(From Unit 4, Lesson 6.)

2. Show what happens in the story with counters.

There are 5 snails crawling in the grass.
Then 3 snails came to join them.
Then 2 of the snails crawled away.

(From Unit 4, Lesson 7.)

3. Jada has 5 connecting cubes.

Han gives Jada 2 more connecting cubes.

How many connecting cubes does Jada have now?

(From Unit 4, Lesson 8.)

4. There were 8 cars in the parking lot.

All 8 of the cars left after school.

How many cars are in the parking lot now?

(From Unit 4, Lesson 9.)

5. There were 9 crabs on the beach.

Then 5 of them scurried away into the ocean.

How many crabs are on the beach now?

Circle the representation that matches the story.

(From Unit 4, Lesson 10.)

6. There are 4 cups of milk on the table.

Jada puts 2 more cups of milk on the table.

How many cups are on the table altogether?

Make a drawing to show the story.

(From Unit 4, Lesson 11.)

7. There are 7 crows in the tree.

Then 3 more crows fly into the tree.

How many crows are in the tree altogether?

Show your thinking using drawings, numbers, words, or objects.

(From Unit 4, Lesson 12.)

8. Exploration

There are 6 dolphins swimming around the boat.

Complete the story in two different ways.

Solve your problems or share with a partner and solve your partner's problems.

9. Exploration

Tell a story problem that goes with each drawing.

a.

b.

10. Exploration

These three story problems are not finished yet.
Finish the story problems with your own questions.
Then solve the story problems you made.

a. Noah had 4 erasers.
Clare gave him 3 erasers.

b. Tyler had 3 pencils.
Tyler found 2 more pencils.

c. Elena had 6 markers.
She lost 1 of her markers.
