

Educational Programming

Program Summaries

On the following pages are summaries of the spaces that currently exist at the Coffin Elementary School, the Jordan Acres School and the Brunswick Junior High School. In meetings with the administrators and representative staff members of each school, program spaces were identified as either lacking an appropriate room or not being offered due to lack of room. Although the Jordan Acres School is closed, information about program needs was gathered from former teachers of the school.

The Coffin School and the Junior High School currently have six and two portables respectively. The goal would be to eliminate them completely and move those programs into permanent space within the building either through reorganization, renovations or additions.
