Mike then went over how our plan is performing so far this year using a rolling 12-month view and explained how some of the adopted programs that have been put in place such as SmithRx Connect, Quantify Health, Cancer Care, etc. are helping with our performance. Mike stated that at our next meeting on May 16, 2024, we would have a data analytics deep dive with David Smith, review the State Schools Healthcare Trust, and look at our renewal projection for next year.

After that presentation, Mike introduced Todd Foushee with PMR Healthcare. Todd gave the committee a brief overview of what his company does to help companies lower the costs of healthcare and have shorter wait and more personable provider experience.

The meeting was adjourned.
