Ohio Department of Health – School Immunization Requirements

To: 12th Grade Parents/Guardians

From: Twinsburg High School Health Clinic

Date: September 2020

Subject: Meningococcal Vaccine

The Ohio Department of Health requires that ALL students entering the 12th grade have been given two (2) doses of the meningococcal vaccine MCV4, not the *Meningococcal B* vaccine. If your child has received the second dose of the meningococcal vaccine, on or after his/her 16th birthday, please provide written documentation from your child's healthcare provider.

Documentation can be submitted via email to jjaworski@twinsburgcsd.org.

Written verification (i.e. copy of current/updated immunization record) must be on file at Twinsburg High School no later than Friday, September 18, 2020.

Students who have not provided written documentation of the required immunizations will be excluded from school beginning Monday, September 21, 2020. To avoid exclusion, we are encouraging you to make an appointment with your healthcare provider or local Minute Clinic to receive the MCV4 immunization and/or provide documentation of having received the immunization before September 18.

Parents, please retain a copy of these immunizations, as all colleges require a copy during the registration process.
