Sustainable Solutions

Grand Teton National Park

At Grand Teton, we are working to divert 60% of our waste from the landfill by 2030 as part of the Zero Landfill Initiative. There are so many ways to help!

1 Recycle Right

Grand Teton has a **source-separated** recycling system. Before you recycle, separate items by material, then sort items into the appropriate compartments at the recycling containers. Remember to **only** place the following items in recycling bins:

Tip:

Ask a ranger about specialty recycling for propane and bear spray canisters!

Glass

- All colors bottles and jars

Cans

- Aluminum cans
- Steel and tin cans

Plastic

- #1 bottles and jugs
- #2 bottles and jugs

2 Refill

Fresh, mountain spring water is right at your fingertips! You can **refill your reusable water bottle** at one of the park's water filling stations. Remember, never drink untreated water directly from a spring or waterway.

Tip:

Did you know Grand Teton's water is treated to a level exceeding federal and state standards for safe drinking water?

Tip:

Prevent **contamination** by rinsing and sorting items before you recycle—food/liquid residue or missorted items can cause an entire recycling load to be thrown out.

3 Rethink

Due to our location, many items that you may be used to recycling at home **are not recyclable in Teton County**. Re-think what you purchase and pack on your next trip to Grand Teton to avoid single use items and packaging that ends up in the landfill!

Tip:

Get creative to ditch single-use packaging! Can you think of reusable alternatives for the items below?

WHEN YOU *THROW* SOMETHING AWAY, **WHERE DOES IT GO?**

YOU CAN DRAMATICALLY REDUCE THE AMOUNT OF TRASH THAT IS THROWN AWAY BY **TAKING A FEW EASY STEPS:**

| | | | |
|---|----------------|---|-----------------------|
| REDUCE THE AMOUNT OF MATERIALS YOU USE, WHICH | | REDUCES THE AMOUNT OF WASTE YOU CREATE. | |
| REUSE MATERIALS WHEN POSSIBLE | | RECYCLE WHENEVER POSSIBLE | |
| RETHINK THE MATERIALS | YOU USE | AND THOSE | YOU THROW AWAY |

BY THINKING ABOUT WHAT WE'RE USING AND HOW TO REDUCE THE WASTE WE PRODUCE, WE CAN HELP CREATE A CLEANER, HEALTHIER ENVIRONMENT.

MAKE A DIFFERENCE TODAY!

If we all take **small steps every day** to reduce the amount of waste we produce, **we can help protect our planet** for generations to come.
