FROM THE PRINCIPAL

Dear Parents and Community Members,

I am both pleased and concerned with our performance last year. We are taking concrete steps to improve the performance of all of our student groups in specific areas.

Highlights

- · When compared to schools with similar demographics, Reynolds' students performed better in mathematics.
- \cdot We focused on raising writing achievement and saw a 3% gain in achievement.
- · Our science achievement is 20% higher than comparison schools.
- · Our dropout rate dropped by 0.6%.
- Our completion rate increased by almost 8%.

Concerns

- · Our reading performance dropped. We will continue the work of our Literacy Team to integrate literacy instruction in all content areas.
- · Our freshman do not finish their freshman year on track to graduate. We have added a freshman access class to help our freshman navigate a large school more successfully.
- · Our graduation rate for all groups is too low. We are trying to improve outcomes for freshman and with an additional counselor we will be better able to keep students on track to graduate.

Thank you,

Principal | Wade Bakely

OVERALL STATE RATING HOW ARE STUDENTS AT THIS SCHOOL PERFORMING COMPARED TO THOSE AT OTHER SCHOOLS?

The overall state rating is intended to summarize this school's particular successes and challenges. It is based on a combination of up to five factors. Three of these factors come from standardized test scores in reading and math: student achievement, student growth, and the growth of underserved subgroups. High schools are also rated on the overall graduation rate for the school and the graduation rates of underserved subgroups. Please be aware that this rating is based mainly on high-stakes testing and accordingly, represents a limited view of student performance. Other aspects of this report card are designed to put this rating in the proper context.

Compared to all schools statewide in 2013-14, this school is rated as Level 2.

Level 1 = Falls into the bottom 5% of schools

Level 2 = Falls between 5% and 15% of schools

Level 3 = Falls between 15% and 44% of schools

Level 4 = Falls between 44% and 90% of schools

Level 5 = Falls into the top 10% of schools

Compared to high schools with similar student demographics in 2013-14, this school's rating is about average.

Below average = Falls into the bottom third of comparison schools

below average - Falls lifto the bottom third of comparison schools

About average = Falls into the middle third of comparison schools

Above average = Falls into the top third of comparison schools

This school participated in the Smarter Balanced field test. Interpret the overall school rating and the like-school comparison rating with caution.
