INTRODUCTION

Louisiana Believes...

Louisiana students...are **just as capable as students anywhere. They deserve high expectations** with support to reach them so that they are prepared to complete college and attain a professional career.

Louisiana teachers...will understand those expectations and work with their peers to make individual decisions to **meet their students' needs through planning and instruction.**

Louisiana principals and schools...will **create and lead meaningful structures of feedback and collaboration** to ensure teachers are able to learn and grow with support and guidance.

Louisiana districts...will **choose strong assessment and curricular** plans and **build systems that support school leaders** with goal setting, feedback, and collaboration.

Louisiana's Department of Education...will continue to shift away from prescribing local decisions and instead **provide resources, data, models, and direct teacher, principal, and district support.**

At the heart of these beliefs is good classroom teaching and learning. Effective instruction stems from the constant cycle of setting an ambitious goal, planning and teaching, and evaluating results. Our Teacher Support Toolbox in Louisiana is built to support these core actions of teachers. This instructional guidebook is a printed companion to our Teacher Support Toolbox. The guidebooks and the Teacher Support Toolbox, when used together, should support teachers and schools to make informed but independent decisions about how to provide rigorous but unique instruction in each classroom around the state.

How to Use the English Language Arts Guidebook

This guide is meant to support teachers in creating yearly, unit, and daily instructional plans for students. Each group of students has a unique set of needs, and thus the department is not mandating that teachers use the instructional models shared in this guide. Instead, the models are provided as a starting point for teams of teachers to use in planning for the unique needs of their students.

This guide provides:

- An explanation of how to structure an English language arts classroom centered around authentic texts
- Plans aligned to the state standards for English language arts
- Yearly and unit instructional plans that can be adapted by teams of teachers
- Examples of daily whole-class instruction

This guide **does not** provide:

- A set of plans that should be taught exactly the same in every classroom
- Daily lesson plans that all English language arts teachers must use in their classroom

How to Read This Guide

There are two sections of this guide, which function differently.

- **English Language Arts Overview** ([page 8](#)): This section describes how teachers can structure an English Language Arts (ELA) classroom to ensure students meet Louisiana’s standards.
- **Tools for Teaching** ([page 19](#)): This section provides grade-level plans for instruction. These plans are meant to serve as a model for how teachers can structure their year and their units. Teachers should collaborate to adjust these plans to meet the needs of their students.

In addition, this guide is a companion to a series of resources that can only be accessed virtually through the Teacher Support Toolbox. Thus, throughout the guide you will see the following icons that highlight key connections.

Online Teacher Toolbox Resources: Notes a recommendation to find more available resources in the Teacher Support Toolbox.

Multimedia Components: Notes a recommendation to find a resource or video hosted on an outside Internet site.

Statewide Assessment: Illustrates how a component of this guide connects to the statewide assessment students will take.

Compass Connections: Illustrates the connections between instructional content and the Compass rubric.

As always, we welcome questions and feedback on these materials. If you need any support, do not hesitate to contact us at classroomsupporttoolbox@la.gov.

ENGLISH LANGUAGE ARTS OVERVIEW

ENGLISH LANGUAGE ARTS OVERVIEW

Engaging students with grade-level text is central in an effective ELA classroom. Research has shown that the key factor in determining student learning in ELA is students' ability to read and understand grade-level  [texts](#).¹

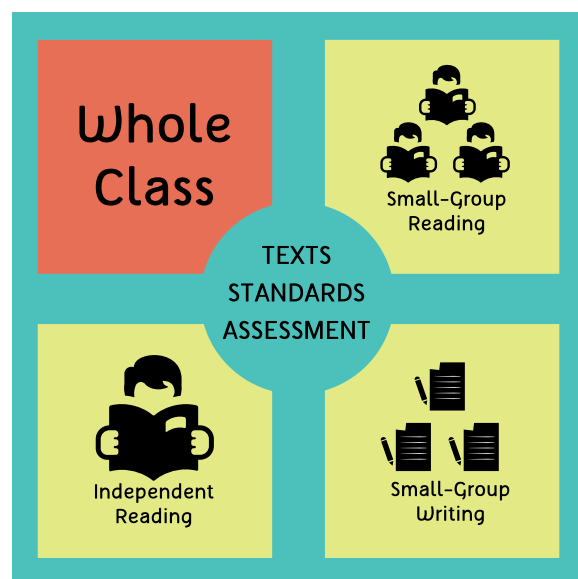

As such, Louisiana's new ELA standards demand:

- All students regularly access at or above grade-level texts and
- All students express their understanding of those texts through writing and speaking.

To support teachers with this, the department is releasing an online  [ELA instructional framework](#)² and these guidebooks.

The online ELA instructional framework illustrates a vision of text- and standards-based classroom instruction. Students must have access to quality texts during whole-class and small-group settings. Meaningful texts, use of standards, and ongoing assessment must integrate in each component of ELA instruction. The online framework helps illustrate what this looks like for teachers.

The ELA guidebooks accompany the online framework and provide an overview of this vision of instruction. These guidebooks include full unit plans for every grade level K through 12.

¹ ACT released a study showing the importance of grade-level text:

TEXTS

The Importance of Text

Quality texts are critical for English language arts instruction. “Quality” means a text’s language is at or above grade level and the content of the text is appropriately complex and connected to themes, concepts, or topics students are learning. All students, even the most struggling readers, must regularly have access to texts that are at or above grade level. This does not mean students do not also engage with texts on their reading level (they may during small groups) but whole-group instruction must remain rigorous and  **complex**.³

Texts should be varied and include fiction or literary texts, nonfiction or informational texts, and nonprint texts (e.g., art, film, songs, etc.). Students should have the opportunity to formulate their own ideas about these texts and communicate them either in writing or orally to their peers. Grade-level standards provide the criteria for reading, formulating ideas, and expressing those ideas about quality texts. **As such, the text, use of standards with that text, and connection of that text to other texts are among the most important choices an ELA teacher will make.**

Text Quality⁴

Texts must be both linguistically complex and instructionally useful based on the grade-level standards. Teachers use the following criteria to ensure texts are appropriate and meaningful for their students:

- **Texts are complex.**
 - » Use this guide to determine if your text meets the  **complexity expectations**⁵ of Reading Standard 10 and Reading Standard 4 in grades K-1 for student-read texts.
 - » Review all of the texts already reviewed and listed by grade bands in  **Appendix B**⁶ of the standards.
- **Texts are instructionally useful.**
 - » Texts build student knowledge about universal themes, diverse cultures, and other perspectives (e.g., [RL.2.9](#), [RI.5.6](#), or [RL.9-10.6](#).)
 - » Texts are  **available**⁷ and include commonly read authors or genres that are mentioned in grade-specific standards (e.g., Shakespeare or mysteries, [RL.4.9](#), [RL.6.9](#), [RI.11-12.9](#), [Grade 3 overview](#), [Grade 7 overview](#).)
 - » Texts represent major historical events and time periods, popular science, music, and art or connect to other content areas (e.g., [RI.1.9](#), [RI.3.3](#), or [RI.8.9](#)). Texts interest students or provide opportunities for building reading stamina and perseverance.
- **Texts include age-appropriate content.** Decisions about content appropriateness must be made locally. While text titles are provided in the sample units, local districts, schools, and teachers should make the final determination of which texts will be read in Louisiana classrooms.
- **Texts are authentic.** They are written by a published author and/or are high-quality and contain accurate information as opposed to short passages expressly written for the purpose of teaching a discrete ELA skill.

Text Sets

The unit plans included in this guidebook (page 25) illustrate quality text choice and are organized as a text set. The anchor text is the focus text for the unit—a quality text that students read and understand and then express their understanding of as they work with the grade-level standards. The supporting texts help students make meaning of the themes, concepts, or topics highlighted in the anchor text.

Here is a sample of a text set from grade 1.

Strong Text Set, Grade 1	
Unit Focus: Students learn factual information about the moon and how light creates shadows. Noting that authors oftentimes use their imaginations to create stories, students explore how misconceptions and misunderstandings can often be cleared up by gaining knowledge through observations or reading about others people’s findings. They begin to use evidence to investigate what is real and what is imaginary in various tales about the moon. “ The Moon Challenge ” ⁸ explains a similar unit with science connections.

STANDARDS AND ASSESSMENTS

The Standards Shifts

Louisiana's ELA standards help students make meaning of text and communicate about text. They are the skills that help students process the content of text. These new standards ask students to go deeper in their exploration of ELA content, and thus require teachers to shift their instruction.

These major shifts include:

Shift 1: Practice with complex and varied text and its academic language.

Definition of this shift: In careers, college, and life, students will regularly have to read complex and varied materials, make meaning of them, and act on what they have read. The standards call for students to practice these real-life skills so they are prepared to excel outside of a K-12 classroom. Research shows one factor that distinguishes a college- and career-ready student from one who is not ready is the ability to read and understand grade-level complex text. It is essential, then, that students have access to text with academic language, including rich vocabulary and complex sentence structure. Students should also read varied texts, including a balance of informational and literary texts in ELA classrooms across the year. Informational texts include content-rich nonfiction in history/social studies, science, the arts, and literary texts include fictional texts such as novels, short stories, and poetry. To be clear, the standards do require substantial attention to literature throughout K-12, at least 50% of the time in ELA classes.

Illustration from the unit plans: All of the included unit plans use anchor texts at or above the complexity level of that grade level and provide teachers with guidance in how to support students in understanding those complex texts through repeated interactive read alouds. To support teachers and students exploring rigorous texts, the sample daily instructional tasks include guidance on how to help students (1) read the text, (2) understand the text, (3) express the meaning of the text. The first two sections of these tasks help all students engage with the words of the text and the knowledge to be gained from the text. Below is an example of a daily task from the grade 1 unit for *Mooncake* that integrates standards to help all students understand complex text.

READ AND UNDERSTAND THE TEXT:

- **First Reading:** Reread *Mooncake* aloud and project or display the text so students can follow along. (The first few readings of *Mooncake* are done in Lesson 2.)
- **Second Reading:** Divide the class into pairs. Read aloud the first page of *Mooncake* and then display or project the illustrations of the text.
 - » Have each partner take turns telling the other partner the next event that happens in the text as each illustration is shown. If a partner needs help, prompt the other partner to ask questions for clarification or offer feedback. Model as needed. ([RL.1.1](#), [RL.1.2](#), [RL.1.3](#), [RL.1.7](#), [SL.1.2](#), [SL.1.3](#))
 - » Stop at various moments in the retelling to ask pairs questions about the key details in the text to determine what Bear wants, what his problem is, and to describe how he tries to solve his problem.
 - » When the retelling is done complete a Somebody-Wanted-But-So chart as a class to summarize *Mooncake*. Post the summary with the summary of *Moondance*.

Somebody	Wanted	But	So	Then (optional)
Bear	To eat the moon	He couldn't reach it.	He built a rocket ship and thought he traveled to the moon.	He made a mooncake and told Bird the moon tasted delicious!

- **Third Reading:** Display¹¹ specific sections of *Mooncake* (i.e., words, sentences, and/or passages) and prompt students to [partner read](#)¹² the displayed sections. ([RL.1.10](#), [RF.1.4a, b, c](#))

6 Assessments will measure whether students can read sufficiently complex texts independently. Research shows that the ability to read and understand complex text is what differentiates high performers from low performers and indicates readiness for college and careers. Assessment passages will be sufficiently complex for the grade level and will represent a range of complexity from readily accessible to very complex.

¹¹ Display the text using sentence strips, chart paper, a projection device, or a big book (if available).

¹² http://www.fcrr.org/studentactivities/F_016a.pdf

Shift 2: Writing and speaking should connect to and support the reading of text.

Definition of this shift: Just as students must read complex and varied text given expectations for college, careers, and life, students must also communicate effectively about that text. Writing and speaking are not meant to happen in isolation—they help students and adults communicate their ideas about the information they are taking in (from text and other sources). Thus, in classrooms, the standards push teachers and students to connect reading, writing, speaking and listening, and language, as every input (reading, listening, and language) must have an output (writing, speaking, and language) and vice versa. Even more, the standards place a premium on students writing to sources, i.e., using evidence from texts to present careful analyses, well-defended claims, and clear information.

Illustration from the unit plans: Throughout the plans, students are asked to express their understanding of text through writing or speaking. From the same lesson noted above from *Mooncake*, the daily task then asks students to write in response to the text with this culminating daily activity.

EXPRESS UNDERSTANDING:

- **Student Practice:** Have each pair join with another pair to form a group of four. Then ask each group to develop an entry from *Mooncake* to add to the class three-column chart. ([RL.1.1](#), [RL.1.3](#), [W.1.7](#), [W.1.8](#), [SL.1.2](#))
 - » Have each group share their entry with the class, speaking in complete sentences. Provide [answer frames](#)¹³ to model the type of expected spoken responses. ([SL.1.1a](#), [SL.1.4](#), [SL.1.6](#)) As they share, prompt other groups to ask the presenting group the key questions (provided above) and why they chose their detail. ([SL.1.3](#)) Challenge each group to provide a different detail and engage the class in evaluating the details groups provide. ([SL.1.1b, c](#))
 - Is this a good detail to add?
 - Is this detail different from the other groups?
 - Do you have any questions about what this group shared?
 - » Model writing the detail, or, as appropriate, invite some students to write the responses on the chart with feedback from the class. ([W.1.5](#))
 - » Finally, conduct a brief class discussion in which students consider why one or two of the details under “Moon Fiction” exist.
- **Note for Small-Group Writing:** Using statements and questions students generate about the moon, have students decide what type of punctuation should be included (. ? !). For advanced and grade-level writers, include opportunities for them to then write their own statements and questions regarding the moon and then have students work with a peer to revise their independently created statements and questions. For beginning writers, give them pre-written statements and questions to which they will add the correct punctuation. Then, give them the opportunity to generate their own sentences and questions about the moon while the teacher writes them down. Have the students revise these sentences by adding the correct punctuation at the end. ([SL.1.6](#), [L.1.2a](#), [L.1.2b](#))

¹³ <http://www.louisianabelieves.com/resources/classroom-support-toolbox/teacher-support-toolbox/lesson-assessment-planning-resources/whole-class>

Shift 3: The goal is comprehension of text, not mastery of a skill or strategy.

Definition of this shift. Students must use the standards in connection with each other to make meaning of text. The standards are not meant to be addressed once in isolation and then checked off, never to be addressed again. Teachers must identify what begs to be taught with each particular text and then select the most important related standards that will help a student make meaning of that particular text. Students use combinations of skills and strategies to help them read, understand, and express their understanding about text. Thus, the standards are not isolated skills that can be mastered through individual, disconnected lessons. Rather, the standards represent outcomes for reading, understanding, and expressing understanding of quality complex texts. Throughout a given year, then, students will work with the same standards again and again in the context of different texts to build independence in reading and understanding grade-level complex texts.

Illustration from the unit plans: *The unit plans (and the examples above) provide tasks that illustrate how students use the skills of the standards to understand complex texts. Students are being asked to work with the same standards again and again with different texts.*

Standards are the tools students use to make meaning of and communicate about text. Louisiana's new standards, the plans included in this guidebook, and the online ELA instructional framework help teachers make these shifts.

Assessment

Given the important role of text in instruction, quality texts are critical in high-quality ELA assessment. Strong ELA assessments measure a students' ability to comprehend meaningful text and effectively express their understanding of that text. This is best done in two settings:

- (1) with texts they have studied and/or texts related to topics they are exploring and thus have context for, and
- (2) with texts they have not read previously and/or that communicate new information.

Students will encounter both settings in college, careers, and life and should be exposed to both settings throughout their K-12 education.

Assessments of Known Texts

Since students have read and studied these texts prior to the assessment, these assessments can tell a teacher about student performance on particular standards, as a student's ability to read the text (e.g., decode the words, have sufficient background knowledge and fluency, etc.) is less of a factor.

The unit plans included in this guidebook connect all writing, speaking, listening, and language tasks to text, and offer teachers multiple tasks (both end-of-unit and daily tasks) that integrate a set of standards for determining student performance on those standards. For example, every unit plan in this guidebook includes a culminating writing task and extension task, along with daily instructional tasks that can inform a teacher's understanding of student performance.

- **Culminating Writing Task:** Students are asked to express their final understanding of the anchor text and demonstrate  **meeting the expectations of the standards through a written essay.** These tasks were created to assess the content and standards of the unit in an integrated and authentic way for students.
- **Extension Task:** Students are asked to connect and extend their knowledge learned through text in the unit to engage in research or writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.
- **Daily Instructional Tasks:** These tasks are divided into "Read the Text," "Understand the Text," and "Express Understanding." While any of these tasks can be used to inform teachers about student performance, the tasks for Express Understanding are likely to be most useful for ongoing classroom assessment tasks. These tasks vary from writing to speaking tasks, but they can be used to assess the content and standards of a lesson in an integrated and authentic way for students.

Assessments of New Texts

Since students have not read or studied these texts prior to the assessment, these assessments can tell a teacher about a student's ability to read and comprehend a particular level of complex text independently. This type of assessment is similar to the type of assessment students are likely to encounter on the statewide assessments, and can be useful for tracking student readiness for those assessments. Assessments of new texts help teachers identify student success with reading and applying skills independently. It is important to note that just because a student does not do well in this context does not mean the student has not mastered a standard. It means that with a text at this grade level, he or she cannot apply the standard and make meaning of the text.

The unit plans included in this guidebook include a cold-read assessment that can inform teachers about how well their students are able to read and comprehend complex text independently.

- **Cold-Read Assessment Task:** Students are asked to  read a text or texts independently and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit.  Texts may also be multimedia texts, e.g., videos, interactive graphics, etc.

The cold-read assessments offer a range of text types (fiction, nonfiction, and multimedia) and complexity (readily accessible, moderately complex, very complex) throughout the unit, but teachers and districts may choose to offer additional opportunities for student practice with new texts during small-group instructional time, tutoring, remediation, etc. to monitor student progress toward end-of-year goals. Additional resources, including EAGLE, PARCC sample items, and other sites, are available for teachers in the  [Teacher Support Toolbox](#).¹⁶

With both sets of assessments (with known texts and with new texts), teachers may choose to omit, add, or adjust tasks.

¹⁶ <http://www.louisianabelieves.com/resources/classroom-support-toolbox/teacher-support-toolbox/end-of-year-assessments>

INSTRUCTION

The goal for students in English language arts (ELA) is to regularly access at- or above-grade-level text and express their understanding of those texts through writing and speaking.

After teachers select quality texts, identify how they will use standards to help students engage in texts, and identify how they will assess student mastery, teachers must then plan for their instruction. Effective ELA instruction is structured so that students receive the right amount of support through whole-class activities, small-group reading, small-group writing, and independent reading. This blended approach helps students build the skills necessary to increase their reading proficiency level while pushing them to explore complex ideas at their grade level. This combination of reading and writing allows students to practice in authentic settings similar to how they will perform in college and careers.

The above instructional model illustrates the components necessary to support students. To find sample schedules and hear video testimonials from real middle school teachers about how they make this structure work in their classroom, check out the [Teacher Support Toolbox](https://www.louisianabelieves.com/resources/classroom-support-toolbox/teacher-support-toolbox/lesson-assessment-planning-resources).¹⁷

Whole Class Instruction

Whole-class time is for grade-level instruction. All students should meet standards for reading, writing, speaking and listening, and language with complex texts. The sample unit plans included in this guidebook provide tasks that illustrate what meeting standards at each grade level may look like. Even if their skills are not always at grade level, students are capable of thinking at grade level. Thus, whole-class instruction provides a space for students to think about meaningful text, talk with other students to develop and refine their thinking about text, and write about their knowledge and understanding of text.

Whole-class instruction includes:

- Complex, grade-level **texts**
- Grade-level **standards** integrated throughout text sets
- Ongoing **assessments** during and at the end of instruction

¹⁷ <http://www.louisianabelieves.com/resources/classroom-support-toolbox/teacher-support-toolbox/lesson-assessment-planning-resources>

During whole-class instruction:

Students	CC Teachers
<ul style="list-style-type: none">• Build knowledge and skill to read, write, and speak about texts and meet grade-specific standards• Engage with complex texts collaboratively and independently to develop understanding of key ideas, language and structure, and text connections• Apply learning to new texts and situations throughout the unit; demonstrate learning via formative and summative performance-based tasks	<ul style="list-style-type: none">• Establish clear outcomes for student reading, writing, speaking, listening, and language study with texts• Design tasks that promote intellectual engagement of students, who demonstrate complex thinking about texts through writing and discussion• Assess student learning informally to determine student progress toward instructional outcomes and formally to measure student learning toward end-of-year goals

There are a variety of whole-class instructional strategies that support students in meeting grade-specific standards with complex texts. To see how to use these strategies to teach content, [read the sample unit plans \(page 27\)](#). To learn more about these strategies and access related resources and videos, check out the  [Teacher Support Toolbox](#).¹⁸

Small-Group Reading Instruction

Small-group reading time is for supporting student needs that cannot be met during whole-class instruction. This may be intervention for students below grade level with texts at their reading level (NOT a leveled version of a whole-class text) or targeted instruction for different learners using grade-level texts to support whole-class instruction. This allows students to practice and build the fluency and comprehension skills necessary to grow their reading proficiency over time. All students need small-group support. For advanced readers, this is a place to challenge each other and explore above-grade-level texts and skills.

Small-group reading includes:

- Various levels of **texts** selected to support and challenge students' growing reading ability
- Support for meeting grade-level **standards** with complex texts during whole-class instruction
- Various **assessments** to establish flexible groups

Students	CC Teachers

Small-Group Writing Instruction

Small-group writing time is for supporting student needs that cannot be met during whole-class instruction. Students may receive individual feedback on their writing, receive additional instruction on specific writing or language skills, and practice mastering unique skills they are struggling with.

Small-group writing includes:

Independent Reading

Independent reading time is for increasing the volume and range of student reading. Students may read books at their reading level to support their growing reading ability. These texts may or may not be related to the unit text set, but research has shown that student vocabulary growth is best supported by reading a large volume of texts about related concepts. To encourage reading enjoyment and build reading stamina and perseverance, students are encouraged to select their own texts in addition to reading teacher-selected texts.

Independent reading includes:

- **Texts** based on student interest and reading level
- Volume and range of reading for students to meet grade-level **standards**
- Holding students accountable for their reading via various **assessments**

TOOLS FOR TEACHING

YEAR-LONG PLANS

This section of the guidebook includes unit plans to help teachers use meaningful text with students. To begin using these plans you will need to (1) determine which units you will use this year (create a plan for the year), (2) prepare to use the unit plans, and (3) read the unit plans. This guidance prepares you for those steps.

Create a plan for the year

Five to six units are included for each grade level. On average, teachers and students will complete four units in one year, as each unit is designed to be approximately nine weeks long. This means teachers can choose the units to include.

If your district has not already done so, determine the units for your classroom following the steps below.

Step 1: Review the units included for your grade band.

Step 2: Choose four units to teach.

Consider:

- **Text complexity and type:** Do the anchor texts address a variety of complexity levels? Do the anchor texts include a variety of fiction and nonfiction texts?
- **Unit focus:** Which units will your students most enjoy? What ELA knowledge and skill do you want your students to gain this year? Which topics fit with other topics you or your colleagues in other content areas are teaching this year?
- **Text availability:** Do you have access to certain anchor texts but not others?

Step 3: Order your units.

Consider:

- **Text complexity and type:** Does the text complexity level increase as the year progresses? Is there a balance in fiction and nonfiction texts across the year?
- **Unit focus:** Does the unit topic connect to a specific time of year or an additional instructional topic in another content area (e.g., science, social studies, or the arts)?

That's it! You have built a year-long scope and sequence for your upcoming year in English language arts!

Below, you'll find an overview of all of the units included in this guidebook.

Kindergarten Unit Overview

Anchor Text	Unit Focus	Text Complexity*	Content and Standards	Recommended Time of Year
<i>Chrysanthemum</i> , Kevin Henkes (Page 35)	Names and what makes them unique	Very complex	Reading and writing foundational skills, language development, vocabulary and sentence structure, retelling, and comparing and contrasting ideas across texts	Beginning to middle of the year
<i>Mama Panya's Pancakes</i> , Mary and Rich Chamberlain (Page 62)	Character traits, African animals and habitat	Very complex	Read and retell stories, identify characters, setting, and major events, understand academic vocabulary, write in response to texts, determine the lessons being taught based on characters' actions and consequences	Beginning to middle of the year
<i>The Year at Maple Hill Farm</i> , Alice and Martin Provensen (Page 87)	Seasons and animal behavior	Very complex	Vocabulary and language development, gaining information through texts to build knowledge about a topic, verifying and connecting ideas between texts, writing about knowledge gained	Middle of the year
<i>From Seed to Plant</i> , Gail Gibbons (Page 111)	Plant life cycle and uses	Very complex	Developing vocabulary, identifying connections between ideas in a text, using illustrations to support understanding of texts, writing in response to texts, building knowledge across multiple texts	Middle of the year
<i>Cloudy With a Chance of Meatballs</i> , Judi Barrett (Page 131)	Weather and weather patterns	Very complex	Vocabulary development, understanding the differences between text types, making connections between literary and informational texts, comparing and contrasting character experiences across texts	End of year
<i>A is for America</i> , Gail Gibbons (Page 155)	American symbols and US Presidents	Very complex	Developing vocabulary, gathering information from various texts to build historical knowledge, writing in response to texts	End of year

Grade 1 Unit Overview

Anchor Text	Unit Focus	Text Complexity*	Content and Standards	Recommended Time of Year
<i>Frogs</i> , Gail Gibbons (Page 183)	Frog and toad life cycles across the seasons	Very complex	Understanding vocabulary and punctuation to determine meaning in text, distinguishing between literary and informational texts, writing in response to texts	Beginning to middle of year
<i>Rumpelstiltskin</i> , The Brothers Grimm (Page 210)	Fairy tales	Very complex	Vocabulary and language development, describing character traits, determining lessons in texts, comparing and contrasting characters and texts	Beginning to middle of year
<i>Mooncake</i> , Frank Asch (Page 239)	The moon, patterns, shadows	Moderately complex to very complex	Vocabulary and sentence structure, using informational texts to verify what is real or imaginary in literary texts, comparing and contrasting the experiences of characters across texts	Middle of year
<i>Spiders</i> , Gail Gibbons (Page 261)	Spiders, folktales and facts	Moderately complex to very complex	Vocabulary and language development, character motivation, and informational research	Middle of year

Anchor Text	Unit Focus	Text Complexity*	Content and Standards	Recommended Time of Year
<i>Amelia Bedelia</i> , Peggy Parish (Page 284)	Clear communication	Moderately complex to very complex	Determining and using different parts of speech, determining multiple meanings of words, comparing and contrasting characters and ideas across texts	Middle of year
<i>Duck for President</i> , Doreen Cronin (Page 303)	Citizenship, elections, the presidency	Moderately complex to very complex	Vocabulary and content exploration through various texts, writing, and speaking in response to texts and unit content	End of year

Grade 2 Unit Overview

Anchor Text	Unit Focus	Text Complexity*	Content and Standards	Recommended Time of Year
<i>Cinderella</i> , Marcia Brown (Page 327)	Cinderella stories	Moderately complex to very complex	Vocabulary and language development, describing character traits, determining lessons in texts, comparing and contrasting characters and texts	Beginning of year
<i>The Best Place</i> , Susan Meddaugh (Page 355)	Houses and homes around the world	Moderately complex to very complex	Vocabulary and language development, determining a central message, comparing and contrasting central messages across texts, modeling writing after published texts	Beginning to middle of year
"Thirsty Planet," Beth Geiger (<i>National Geographic Explorer</i>) (Page 383)	The water cycle and the role of water in nature	Moderately complex to very complex	Vocabulary and sentence structure, using informational texts to describe the connection between a series of scientific concepts in a text, explaining how specific images contribute to the meaning of a text	Middle of year
<i>The Ox-Cart Man</i> , Donald Hall and Barbara Cooney (Page 407)	Agricultural history of the US economy and how families made choices to meet their basic needs	Moderately complex to very complex	Vocabulary and language development, determining a central message, understanding connections between ideas within and across texts, how illustrations enhance written text	Middle to end of year
Lives: Poems About Famous Americans , Lee Bennett Hopkins (Page 433)	Famous Americans from history	Moderately complex to very complex	Vocabulary and poetic structure, using texts as mentor texts to create writing, analyzing poetry for a central message, comparing and contrasting ideas across texts on similar topics	End of year

* **Readily accessible text:** The language (words, sentence structure) might be at or below grade level but the content is complex and suitable for the grade level, or the language is at grade level and the content is less complex.

Moderately complex text: The language is at grade level, and the content is suitable for the grade level.

Very complex text: The language is at or slightly above grade level, and the content is significantly complex.

Sample Year-Long Plan

Introduction to the Year Approximately 4 Weeks	Guidebook Unit One Approximately 8 Weeks	Guidebook Unit Two Approximately 8 Weeks	Guidebook Unit Three Approximately 8 Weeks	Guidebook Unit Four Approximately 8 Weeks
<p>The first 4-5 weeks of school are used to establish routines and classroom organization. Teachers will likely not begin the first guidebook unit until those have been established. Read books with students that have content well suited for the beginning of school (e.g., <i>First Day Jitters</i>, Julie Danneberg. Ask comprehension questions and conduct shared writing²² and independent writing activities. Create various anchor charts²³.</p>	<p><i>Frogs</i>, Gail Gibbons Informational Text (Nonfiction)</p>	<p><i>Mooncake</i>, Frank Asch Literary Text (Fiction)</p>	<p><i>Spiders</i>, Gail Gibbons Informational Text (Nonfiction)</p>	<p><i>Duck for President</i>, Doreen Cronin Literary Text (Fiction)</p>
	<p>Rationale: The content of this text set is suitable for the fall as it discusses the frog life cycle including the stages in the seasons.</p>	<p>Rationale: The content of this set focuses on understanding how students can connect fiction and informational texts, which supports later units.</p>	<p>Rationale: This set contains texts that should be able to be read by students at this point in the year. It also applies the concepts learned in the previous unit.</p>	<p>Rationale: The content of this set is more challenging, so it is best included at the end of the year.</p>
	<p>Students gather information from a variety of texts to support their opinions. They build on knowledge of plants and growth from kindergarten to focus on the life cycles of animals, specifically frogs and toads. Students will explore the changes of life and how animals adapt to help them survive.</p>	<p>Students learn factual information about the moon and how light creates shadows. Noting that authors oftentimes use their imaginations to create stories, students will explore how misconceptions and misunderstandings can often be cleared up by gaining knowledge through observations or reading about others people's findings. They will begin to use evidence to investigate what is real and what is imaginary in various tales about the moon. "The Moon Challenge"²⁴ explains a similar unit with science connections.</p>	<p>Students read several Anansi stories, which present Anansi as a trickster and as a helper. They will explore character motivation and how animals interact with other animals. Students continue to learn how to use evidence from informational and literary texts to inform their opinions.</p>	<p>Students build their knowledge about the character traits valued in a good leader and citizen by exploring government, laws, elections, and the lives and decisions of former presidents. Through the anchor text, students discuss the power of language and details of the voting process. Students gain a preliminary understanding of our democratic process and build on the knowledge gained in kindergarten about our country. This connects to social studies.</p>

- Units are ordered based on the content of the set and the knowledge students build across the year.
- Students engage with multiple standards to build knowledge and skill with complex texts across different sets.
- The units connect to other content areas.

UNIT PLAN OVERVIEW

How to Use the Unit Plans

In order to prepare for effective instruction, teachers will need to engage in a series of steps as they use these unit plans. Throughout the school year, grade-specific webinars will help teachers take these steps. Those webinars will be available in August and posted on the website as well.

Each unit includes:

That said, teachers will need to take the following steps to use the unit plans.

1. **Read the texts and the unit focus.** Because text is so critical, teachers must read their texts before instructing. To ask meaningful questions of texts and engage students, teachers should be clear on the following:
 - a. **Unit focus:** This explains how all of the texts connect to each other and what content knowledge, themes, and/or concepts students will build or understand as a result of engaging in this unit.
 - b. **Text focus:** Teachers should read the texts of the unit and consider: (1) How does this text help students accomplish the unit focus? and (2) How does this text connect to and deepen understanding of other texts in the unit?
 - c. **Standards use:** How do the standards recommended in this unit help students engage with this text?
2. **Identify what mastery of the content and standards looks like for students.** Once teachers have reviewed the unit texts, they should review the sample unit assessments in the plan. Exploring the sample unit assessments will help teachers adjust and build their lesson plans, by identifying the content they must teach to prepare students for success.
 - a. **Mastery of text and content:** What content knowledge must students build in this unit in order to perform well? What texts and portions of texts must they deeply understand?
 - b. **Meeting standards:** What do reading, understanding, writing, and speaking about texts look like at this grade level? How do the standards help students understand and write or speak about complex texts?

3. **Adapt and create daily instructional tasks that prepare students for the end-of-unit assessment.** With this knowledge, teachers are prepared to adapt and create their lesson plans. Teachers should consider the following:
- a. **Using recommended tasks:** Which tasks are already built out that will matter most for the students in my classroom? Will I need to adjust or omit any of those tasks?
 - b. **Building additional plans:** The unit plans do not include tasks for every text. What additional texts, content, and standards must my students practice before the culminating assessment? How will I build a lesson to help them do that?
 - c. **Learning from others:** The grade-level ELA Edmodo site, virtual book clubs, and the [online instructional framework](#)²⁵ are all places where teachers can find additional resources and support to help them build and adjust plans.

How to Read the Unit Plans

The unit plans are built around the instructional framework illustrated in the front section of this guide. They help teachers use high-quality texts and use the standards for students to understand and to express understanding of those texts.

These plans model standards-aligned whole-class instruction. Instruction for small-group reading, small-group writing, and independent reading must be unique to the individual students in your classroom and support your students in meeting grade-level standards during whole-class instruction. To learn more about how to support individual student needs in those instructional areas, visit the [Teacher Support Toolbox](#).²⁶

- 1 All units have a unit focus, summative unit assessments, and daily tasks.
- 2 The unit focus answers the question: “What do I want my students to learn from texts?”
- 3 The summative unit assessments answer the question: “How will I determine if my students can understand complex texts and meet standards?”
- 4 The culminating writing task ask students to **write in response to a text.**
- 5 The cold-read task measures **students’ ability to read and understand complex texts.**
- 6 The extension task incorporates **shared writing or research about related unit topics.**
- 7 The daily tasks answer the question: “How will I help students read and understand texts and express their understanding?”

SUMMATIVE UNIT ASSESSMENTS

1

CULMINATING WRITING TASK⁴

Have students respond to the following prompt: "Choose a character we've read about. What does this character not understand about the moon? Write a letter to your character that explains what they need to know to clear up their misunderstanding. Be sure to include at least one fact from the texts we have studied." ([RL.1.2](#), [RL.1.5](#), [W.1.8](#))

Teacher Note:

- Students are asked to select a character, identify what that character misunderstands about the moon, and clear up that character's confusion, drawing on information learned from the informational texts in the unit. ([W.1.2](#)) The completed writing should use words from the word displays, including conjunctions that signal simple relationships (e.g., because) and frequently occurring adjectives. ([L.1.1f](#), [g](#); [L.1.6](#))
- Students should write in complete sentences, using various nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [h](#), [i](#), [j](#); [L.K.2d](#), [e](#)) Provide [sentence frames](#)⁵ for students who need help writing complete sentences. The sentences should also be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

TEXT SEQUENCE	TEXT USE
<p>LESSON 1:¹³</p> <p><i>Moondance</i>, Frank Asch (Read Aloud)</p>	<p>TEXT DESCRIPTION: <i>Moondance</i> introduces students to Bear or Moonbear, who loves the moon. Through a series of books, Bear tries to dance with the moon, travel to the moon, eat the moon, play hide-and-seek with the moon, etc. In <i>Moondance</i>, Moonbear tries to dance with the moon. Students are left to judge whether Bear is successful.</p> <p>TEXT FOCUS: This text provides opportunities for students to read and understand a complex text with teacher support. Students will closely examine the vocabulary (RL.1.4; L.1.4a; L.1.5a, d; L.1.6) and identify the main (and recurring) character of Bear. They will explore his interactions with the moon over the course of this and several texts by the same author. (RL.1.3, RL.1.7) In particular, this text invites students to determine the misconceptions Bear has based on previous learning they gained in kindergarten.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students listen to <i>Moondance</i> read aloud and study the vocabulary as the text is displayed or projected. Then, working with a partner, students view the illustrations to retell the story and summarize the story as a class. Finally students engage in a shared writing followed by independent writing in which they write a note to Bear.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • First Reading: Read the text aloud to students. Only interrupt minimally as needed to define any essential vocabulary for basic understanding of the text. Allow students the opportunity to appreciate and fully engage in the text. • Word Work: Build a vocabulary display¹⁴ throughout the unit that students can rely on in their writing. (L.1.6) <ul style="list-style-type: none"> ○ Project the text and ask students to locate and define in context academic vocabulary words that suggest feelings or appeal to the senses (e.g., <i>suggested</i>, <i>chuckled</i>, <i>cried</i>, <i>replied</i>, <i>asked</i>, <i>sighed</i>, <i>gazed</i>, <i>looking</i>, <i>watched</i>). (RL.1.4, L.1.4a) ○ Discuss with students the similarities among the words (i.e., they are different ways we can say or do something) and sort them into categories (Say and Do). (L.1.5a) ○ Then ask students to identify the differences by discussing the shades of meaning among the words. To support students in understanding this concept, have student pairs act out the words, and discuss what makes their demonstrations different. (L.1.5d)

¹³ **Note:** One lesson does not equal one day. Teachers should determine how long to take on a given lesson. This will depend on each unique class.

¹ The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and should focus on a [progression of skills](#) that are formally assessed at various points throughout the year.

Chrysanthemum Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK²

Have students respond to the following prompt: “Select two characters from the texts we read: one who is most like you and one who is most different from you. Draw a picture of each character. On the picture write (label) what is the same and what is different from you.” ([RL.K.1](#), [RL.K.3](#), [RL.K.9](#), [SL.K.5](#))

Then ask students to dictate or write a sentence for each picture: “Underneath each picture, identify the name of each character and the text. Write whether you and the character are alike or different.” ([W.K.2](#), [W.K.8](#))

Teacher Note:

- Students are asked to name and draw two characters from the unit—one who is similar and one who is different from them. They must also identify and label the traits that make the characters similar or different, and write two complete sentences. The writing should use words from the displays. ([L.K.6](#))
- Students should print many upper- and lowercase letters, use frequently occurring nouns and verbs, and spell simple words phonetically. ([L.K.1a](#), [b](#), [f](#); [L.K.2c](#), [d](#)) Students should also write complete sentences. Provide [sentence frames](#)³ for students who need help writing complete sentences (e.g., “_____ (character’s name) and I are alike or different.” and have students write the character’s name and circle either alike or different. The sentences should also be capitalized and punctuated correctly. ([L.K.2a](#), [b](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability (e.g., correctly forming letters, using correct letters for consonant and vowel sounds, capitalizing the first letter, using end punctuation, or writing a complete sentence). ([W.K.5](#))

COLD-READ TASK⁴

Read aloud⁵ *Andy (That’s My Name)* by Tomie dePaola to individual students. Ask each student to independently answer a combination of orally read multiple-choice and constructed-response questions about the text⁶. For example:

1. Ask the student: “Who are the characters in this text? Why do the other kids not want to play with Andy?” ([RL.K.1](#), [RL.K.3](#), [SL.K.2](#), [SL.K.6](#), [L.K.1d](#))
2. Ask the student: “Look at the illustrations in the book. What are the big kids doing with Andy’s name?” ([RL.K.1](#), [RL.K.7](#), [SL.K.2](#), [SL.K.6](#), [L.K.1d](#))
3. Ask the student: “Why is Andy important?” ([RL.K.1](#), [SL.K.2](#), [SL.K.6](#), [L.K.1d](#))
4. Read aloud *can*, *fan*, *man*, *pan*, *ran*, and/or *tan* from the text. Ask the student: “Pronounce the three sounds in one or more of the words.” (**Teacher Note:** As needed, select the words for students to segment.) ([RF.K.2d](#), [SL.K.6](#))
5. Ask the student: “Read *can*, *fan*, *man*, *pan*, *ran*, and *tan* from the text. What letters are different in these words? Identify the sound of the letters that are different.” (**Teacher Note:** Point to the words in the text rather than saying them aloud.) ([RF.K.3c](#), [RF.K.3d](#), [SL.K.6](#))
6. Ask the student: “Compare *Andy* to *hand* and *handy*. What are the differences in these words?” (**Teacher Note:** Point to the words in the text rather than saying them aloud.) ([RF.K.3d](#), [SL.K.6](#))
7. Give the student an envelope with the letters of his or her full name cut out. Ask the student: “Use these letters to create at least two new words.” ([L.K.2d](#))

⁴ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁵ If students are already reading, allow them to read the text. This should be based on individual student ability.

⁶ Ensure students have access to the printed text while testing.

EXTENSION TASK⁷

Create two class books, *All About Me* (Extension Task #1) and *All About Our Class* (Extension Task #2).

Extension Task #1: Have students draw a self-portrait and a picture of something they like to do. Then, below the pictures, have students write their full name (first, middle, and last) using a combination of dictating and writing. Bind the book and place the book in the classroom library for students to read. ([RF.K.4](#), [W.K.7](#), [W.K.8](#), [L.K.1.a](#), [L.K.2c](#), [L.K.6](#))

Extension Task #2: Create various pages with simple sentences, regular three-letter words (CVC words), and pictures representing multisyllabic words (rebuses). For example, one page might say, “I like dogs. I like cats. I eat (picture of pizza). I eat (picture of ice cream). I go to (picture of church). My name has Aa in it.” Underneath or beside each statement, draw an open box. Each page will have slightly different statements. Engage in shared research with the class. ([RI.K.10](#), [W.K.7](#), [W.K.8](#)) Have students locate someone in the class who matches each sentence and ask that classmate to sign (or print) his/her name in the box underneath the statement. ([RF.K.1a](#), [RF.K.1c](#), [RF.K.3b](#), [RF.K.3c](#), [L.K.2c](#), [L.K.2d](#), [L.K.6](#)) Once students have their pages completed, gather them and bind them into a book. Place the book in the classroom library for students to read. ([RF.K.4](#))

Teacher Note: If time allows, engage students in digitally publishing one of the class books. ([W.K.6](#))

⁷ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)⁸ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

ONGOING READING FOUNDATIONAL SKILLS

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. Reading foundations, writing, and language development are essential in grades K-2.

There are four core skills to build at the beginning of the year in kindergarten:

1. Recognizing and producing rhyming sounds and segmenting syllables
2. Understanding concepts of printed text
3. Knowing, recognizing, and writing the upper- and lowercase letters of the alphabet
4. Recognizing, reading, and writing high-frequency words

Below is a set of sample scaffolded tasks to support students in developing these skills. Recommendations are provided for when to teach these skills, but teachers must determine when and what is taught based on their specific students' needs. Use ongoing assessments to determine skill mastery and deficiencies.

Teachers may consult additional sources for support in teaching the skills (e.g., [Tier 1 reading foundational programs](#),⁹ [Florida Center for Reading Research](#),¹⁰ [Building the Foundation from the Center on Instruction](#),¹¹ [Phonemic Awareness in Young Children: A Classroom Curriculum](#),¹² or basal textbooks).

Instructional Note: At the beginning of the year, most kindergarten teachers may choose to teach foundational standards during whole-class instruction, as many students are at similar development levels. As the year progresses and students' reading needs become more diverse, most foundational skills will be taught during small-group reading and small-group writing instruction. Determine when and what is taught based on student needs. See the [ELA Instructional Framework](#)¹³ for additional information.

(RF.K.1a) <ul style="list-style-type: none"> ○ Read the cover and title page of the selected text. Ask volunteers to identify the front and back covers and the title page. ○ Have volunteers point out the beginning of the story and where the story ends. ○ Then say, “Before we begin the story, who can show us where we begin on a page?” ○ Then say, “Which way do we go...and where do we go when we get to the end of the line?” ○ Integrate movement by having the students move their arms, hips, or head from left to right. ○ Show the students that the words only make sense when read left to right, by rereading them right to left and demonstrating that this makes no sense. 2. <u>Alphabetic Principles</u>: Teach students to recognize and name all upper- and lowercase letters of the alphabet. (RF.K.1d) <ul style="list-style-type: none"> ○ Teach students an alphabet song, cheer, or chant. During the reciting of the song, cheer, or chant, display an alphabet card that includes an upper- and lowercase letter and a picture corresponding to the sound of the letter as students say the letter. ○ Another option is to have students say the letter name, make the sound, and do a movement for each letter. ○ When teaching vowel sounds, be sure to include both the short and long vowel sounds. Focus on teaching the short vowel sounds (phonemes) first before engaging students with matching the sounds to letters. Short vowel sounds are easiest for kindergarten students to master, and they are more commonly used in three-letter words. Long vowel sounds are included in Sample Task 8 (below). ○ Additional tasks for teaching letters and standard RF.K.1d are available here.¹⁴

(RF.K.3c) ○ Reread the text a second time and have students take turns using pointers to track the words as the story is being read aloud. (RF.K.1b) ○ Then have students count the words in some of the longest and shortest sentences. (RF.K.1c) ○ Ask why some sentences are longer than others. Point out that the longer sentences “say more” or have more information. 4. <u>Segmenting Activities</u>: Teach students to <i>segment sentences into words</i>. (page 18 of Appendix A¹⁵ and RF.K.1c) <ul style="list-style-type: none"> ○ Identify sentences from a text and have students count the number of words in a sentence. Do this through body movements or using manipulatives to move for each word said. For example, students can clap, jump, count on fingers, use plastic frogs to jump, or tap with popsicle sticks. 5. <u>High-Frequency Words</u>: Engage students in practice reading and using high-frequency words from the high-frequency word display. <ul style="list-style-type: none"> ○ Using common sight words (pulled from the high-frequency word display), and play games such as “Slap It,” where the teacher calls out the sight word and students must slap the written form of it. In the example above, it would be <i>knowing</i> and <i>blowing</i>. ▪ Use chants or songs, such as “The Name Game”¹⁷ by Shirley Ellis (also known as “The Banana Song”). ▪ Provide students with picture cards of rhymes to match the words that rhyme. <p>7. <u>Identifying the Parts of a Book</u>: Teach students to understand the role of the author and illustrator. TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

Unit Note: The first four or five weeks of school are used to establish routines and classroom organization. Teachers will likely not begin this unit until those have been established. Read books with students that have content well suited for the beginning of school (e.g., *The Kissing Hand* by Audrey Penn or *Leo the Late Bloomer* by Robert Krauss). ([RL.K.10](#), [RI.K.10](#)) Conduct [shared writing](#)²⁰ activities, such as writing a [Morning Message](#)²¹ or creating class books, such as *We Can* or *How We Bloomed*. Create various [anchor charts](#).²² Work on whole-class foundational skills. Refer to the ongoing whole-class foundational skills lessons on the previous pages for support in tasks to use throughout the units.

Then students listen to the text read aloud and work with the academic vocabulary. Lastly, students listen to the story read it aloud again, and they retell the events of the story using the illustrations for support.</p> <p>READ THE TEXT:</p> <ul style="list-style-type: none"> • <u>Pre-Reading:</u> Identify the sounds for consonants and study the letters and syllables in students’ names.

	<ul style="list-style-type: none"> ○ Read aloud the title and author of the book and say, “The name of the main character of this book is Chrysanthemum.” Work with students to divide the name into its syllables (i.e., clap the syllables). As a class, count the number of syllables in Chrysanthemum. Then have students work with a partner to pronounce each syllable in Chrysanthemum’s name and blend the syllables to pronounce her name. (RF.K.2b) ○ Ask students to work with their partner to do the same using their own first and last names. Have one partner say his/her first name aloud and have the other partner break the name into its syllables. Then repeat the process with the last name. Record the number of syllables. Then repeat the process with the other partner. Count the total number of syllables in both names. As a class, determine which pair has the most and least syllables in both of their names. (SL.K.1a, b; SL.K.3) ○ Graph students’ first names and Chrysanthemum from smallest to largest number of letters. Ask students to say the letters as they are written on the graph. (RF.K.1b) ○ Read and discuss the name graph using vocabulary such as <i>largest/longest</i>, <i>smallest/shortest</i>, <i>more</i>, <i>less</i>, <i>same</i>, and <i>different</i>. (L.K.6) Guide students in asking each other questions about the name graph. (L.K.1d, L.K.5a) At this age, the use of vocabulary terms such as <i>same</i>, <i>similar</i>, <i>like</i>, <i>different</i>, <i>more</i>, <i>less</i>, <i>comparing</i>, and <i>comparison</i> is abstract. Make a special vocabulary display with the terms used for discussion. Include a picture representation of the words and refer to it whenever these terms are used. (RI.K.3, SL.K.1a-b, L.K.6) ○ Have students compare the letters in Chrysanthemum’s name to the letters in their full name using a Venn diagram. (Model the process with the teacher’s name.) (RF.K.1d) ○ Note for Small-Group Reading: As particular students struggle with meeting these reading foundation standards during whole-class instruction, follow up with those students during small-group reading time to work more specifically on them.²⁵ ● First Reading: Read aloud this text in its entirety once. Only interrupt minimally as needed to define any essential vocabulary for basic understanding of the text. Allow students the opportunity to appreciate and fully engage in the text. <p><i>Mama Panya’s Pancakes</i>, Mary and Richard Chamberlain (Literary)</p>	<p>Students read and retell stories and fables from Africa to determine how the actions of the characters teach lessons about how to act and how not to act. ¹ The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and should focus on a [progression of skills](#) that are formally assessed at various points throughout the year.

Mama Panya's Pancakes Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK²

Have students respond to the following prompt: “The lesson of this story is about friendship and sharing. Review the chart with the characters and think about how they are friends and how they shared with each other in the story. Identify a character from the story. What did this person do to help his or her friends? Draw a picture of the character and what he or she did to help others. Write a sentence about your picture.”

Teacher Notes:

- Students are asked to identify a character and tell how that character helped other characters in the story. ([RL.K.1](#), [RL.K.3](#), [W.K.2](#))
- Students should print many upper- and lowercase letters, use frequently occurring nouns and verbs, spell simple words phonetically, and use words from the word displays. ([L.K.1a](#), [b](#), [c](#), [f](#); [L.K.2c](#), [d](#); [L.K.6](#)) Students should also write or dictate a complete sentence. Provide [sentence frames](#)³ for students who need help writing a complete sentence (e.g., “_____ [character’s name] brought _____ [object] to _____ [verb] with others at the feast.”). The sentences should be capitalized and punctuated correctly. ([L.K.2a](#), [b](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability (correctly forming letters, using correct letters for consonant and vowel sounds, capitalizing the first letter, using end punctuation, or writing a complete sentence). ([W.K.5](#))

COLD-READ TASK⁴

Read aloud⁵ *Why Mosquitoes Buzz in People's Ears: A West African Tale* by Verna Aardema to all students. Then ask each student independently to answer a combination of orally read multiple-choice and constructed-response questions about the text.⁶ Support students by rereading portions of the text as needed. Sample questions:

1. Ask the student: "What does the mosquito do at the beginning of the text? What do his actions end up doing?" ([RL.K.1](#), [RL.K.2](#), [RL.K.3](#), [SL.K.2](#), [SL.K.6](#), [L.K.1b](#), [L.K.1d](#), [L.K.6](#))
2. Ask the student: "How does the iguana respond to the mosquito?" ([RL.K.1](#), [RL.K.2](#), [SL.K.2](#), [SL.K.6](#), [L.K.1b](#), [L.K.1d](#), [L.K.6](#))
3. Ask the student: "Identify another character in the story other than the mosquito or iguana. What does the character do? Why?" ([RL.K.1](#), [RL.K.2](#), [RL.K.3](#), [SL.K.2](#), [SL.K.6](#), [L.K.1b](#), [L.K.1d](#), [L.K.6](#))
4. Ask the student: "Who is the leader of the animal council?" ([RL.K.1](#), [RL.K.3](#), [SL.K.2](#), [SL.K.6](#), [L.K.1b](#), [L.K.1d](#))
5. Ask the student: "Describe the mosquito's actions. What does he teach you to do or not do?" ([RL.K.1](#), [RL.K.2](#), [RL.K.3](#), [SL.K.2](#), [SL.K.6](#), [L.K.1b](#), [L.K.1d](#), [L.K.6](#))
6. Ask the student: "Why do mosquitos buzz in our ears?" ([RL.K.1](#), [RL.K.2](#), [RL.K.3](#), [SL.K.2](#), [SL.K.6](#), [L.K.1b](#), [L.K.1d](#), [L.K.6](#))
7. Provide the student with index cards with a word from the class character chart created throughout the unit written on each card. Give him or her a large, blank T-chart labeled "Adika" and "Mosquito." Ask the student to select the words that describe each character or his/her actions and place the words in the appropriate column on the chart. He or she can refer to the class chart as needed to support his or her answers. ([RL.K.1](#), [RL.K.9](#), [W.K.8](#), [SL.K.2](#), [L.K.1b](#), [L.K.1d](#), [L.K.5b](#), [L.K.6](#))

⁴ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁵ If students are already reading, allow them to read the text. This should be based on individual student ability.

⁶ Ensure that students have access to the printed text while testing.

EXTENSION TASK⁷

Create a class character book.

1. Divide the class into groups. Provide each group with a page template for the class book, similar to the following:

_____ was _____.	_____ was not _____.

2. Assign each group a character from one of the stories read in the unit.
3. Have each group complete the left side of the frame with a character's name and a trait (e.g., selfish, greedy, bossy). ([RL.K.3](#), [W.K.2](#)) Have them complete the right side of the frame with the same character's name and the opposite trait. ([L.K.5b](#))
4. Ask the groups to illustrate the character and the traits. ([SL.K.5](#))
5. Provide each student with a similar frame focused on them. Ask the students to replace the blanks with their name and a trait and then its opposite and draw an illustration of each. ([W.K.3](#))

⁷ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

_____ is _____.	_____ is not _____.
-----------------	---------------------

6. Bind the pages and place the book in the classroom library for students to read. ([RF.K.1a](#), [RF.K.1c](#), [RF.K.3b](#), [RF.K.3c](#), [RF.K.4](#))

Teacher Note: If time allows, engage students in digitally publishing all or part of the class book. ([W.K.6](#))

- Students should print many upper- and lowercase letters, use frequently occurring proper nouns and spell simple words phonetically. ([L.K.1a](#), [b](#), [c](#), [f](#); [L.K.2c](#), [d](#)) Students should also write complete sentences. The sentences should be capitalized and punctuated correctly. ([L.K.2a](#), [b](#))

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)⁸ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

TEXT SEQUENCE	TEXT USE
<p>LESSON 1:⁹</p> <p><i>Here Is the African Savanna</i>, Madeleine Dunphy</p>	<p>TEXT DESCRIPTION: Through rhythm and rhyme, this text teaches how each part of the African savanna is connected to and reliant upon the others. Readers see how life on the savanna begins and ends with the grass that grows on the plain, as each page builds the poem by introducing a new animal or element of life on the savanna. The text reveals how the different animals interact with each other and with the land.</p> <p>TEXT FOCUS: The repetitive pattern of this text makes it suitable for helping students engage in the reading of the text after multiple readings. Students should identify the main topic as the African savanna and retell key details, such as what animals live on the savanna and how animals live on the savanna (RI.K.2). Students can also describe how the animals are all connected to each other and dependent on the grass on the savanna. (RI.K.3)</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Engage students in three readings of the text. As a class define key vocabulary and break apart the meaning of the text.</p> <p>READ THE TEXT:</p> <ul style="list-style-type: none"> • First Reading: Read the text to students so they can hear the rhythm and repetition. • Second Reading: Project the text and read it aloud. Point to each word as it is read so students can practice tracking print. Depending on student ability, ask for student volunteers to point to the words as they are read. (RF.K.1a, c) • Third Reading: This text is repetitive. Work with students to read words and phrases that repeat throughout the text. (RI.K.10) <ul style="list-style-type: none"> ○ Divide the class into pairs. ○ Assign each pair one of the following phrases. Write the phrase on a sentence strip for students. <ul style="list-style-type: none"> ▪ “who eats the grass” ▪ “who stalk the zebras” ▪ “who watches the lions” ▪ “which shades the giraffe”

Ask students, “What does the grass do on the plain? What causes it to change colors? What does the change in colors mean?” (RI.K.1, RI.K.2, RI.K.3, RI.K.8, SL.K.1b, SL.K.2, L.K.1d) ○ Read page 5 to students. Ask students, “Who eats the grass? Describe what you see in the illustration. Let’s practice reading the phrase, ‘who eats the grass.’” (RI.K.1, RI.K.2, RI.K.7, SL.K.1b, SL.K.2, L.K.1d) ○ Project or display the phrase, “who eats the grass” for students. Point to each word as you read it aloud. (RF.K.1a, c) Have the students read the phrase chorally with you. Practice reading it again together. Then ask which pair has the matching phrase on their sentence strip. Ask the pair to practice reading the phrase aloud. (RF.K.3a, b, c; RF.K.4) Support the pair as needed. ○ Reread page 5 and prompt the pair with the statement, “who eats the grass” to read aloud their statement. ○ Turn to page 7. Ask students, “Look at the illustration. What animal do you think the text is going to talk about next?” (RI.K.1, RI.K.7) Then read aloud page 7. Ask students, “What do the lions do on the African savanna? What does <i>stalk</i> mean?” Support students in understanding the meaning of the word in context by using the illustration and any prior knowledge about lion behavior. (RI.K.4, L.K.4a, L.K.5c, SL.K.1b, SL.K.2, L.K.1d) Refine student understanding of the word by asking them to act out the difference between <i>walk</i> and <i>stalk</i>. (L.K.5d) Add <i>stalk</i> to a vocabulary display¹⁰ that students can rely on in their writing. (L.K.6) ○ Repeat the process used for “who eats the grass” with the statement “who stalk the zebras.” Then reread page 7 aloud and have the pairs with “who stalk the zebras” and “who eats the grass” read aloud their statement.

<p>LESSON 4: <i>The Greedy Python</i>, Richard Buckley</p>	<p>TEXT DESCRIPTION: Through rhythm and rhyme, the story tells about a python living in a jungle who eats everything he comes across, including a leopard, a buffalo, and an elephant. When the animals begin to move around in his stomach, the python gets sick, and he coughs all the animals out. The python does not learn his lesson, and in the end, eats himself when he thinks his own tail is lunch.</p> <p>TEXT FOCUS: Have students work to recognize and produce rhyming words by projecting the text and covering the second word in a rhyming pattern with a sticky note or an index card. Pause before reading the word and prompt students to say, spell, and write the rhyming word. (RF.K.1b, d; RF.K.3a, b, d) Read the word aloud as a class, identify its rhyming word in the text, and reread the sentences that contain the full rhyming pattern. (RF.K.2a) Use this text for students to work collaboratively to identify characters and settings, and retell the major events of the story. (RL.K.2, RL.K.3, W.K.2). Have students ask and answer questions about unknown words, phrases, and key events (e.g., when Python is described as having a monstrous appetite, when he eats the elephant, when he coughs up the animals, and when he begins to eat himself) and record Python and his actions on the chart begun in Lesson 2. (RL.K.1, RL.K.3, RL.K.4) By engaging with this text, students gain an understanding of greed and its negative consequences. Students can compare and contrast Adika’s actions (e.g., inviting everyone he sees to join them for dinner) with the python’s actions (e.g., being so greedy he disappeared) and work to describe their actions using antonyms that can be added to the vocabulary display.¹⁵ (RL.K.9, RL.K.10, L.K.5b, L.K.6)</p>

Students can identify how the characters interact with each other and what words can be used to describe the characters and their actions during the various events by recording information on the chart begun in Lesson 2. (RL.K.1, RL.K.3) Students should understand and describe through drawing, dictating, or writing how sharing was the reason that Mama Panya was able to feed everybody. (L.K.6)</p>
<p>LESSON 6: <i>The Selfish Crocodile</i>, Faustin Charles and Michael Terry</p>	<p>TEXT DESCRIPTION: This story tells about a crocodile who does not allow any animals to be at the river, saying it is all his. He scares all the other animals away so that they never come near him. The crocodile then has a toothache, and no animal will come to help except a little mouse. The mouse helps the crocodile by taking out his tooth, and the crocodile brings him a nut as a thank-you. In the end, the crocodile and mouse become best friends, and the crocodile lets other animals come to the river.</p>

<p>LESSON 8:</p> <p><i>Honey...Honey...Lion!</i>, Jan Brett</p>	<p><u>TEXT DESCRIPTION:</u> This story is based on truth and legend and comes from an oral tradition. In Africa, the honeyguide bird and the honey badger are partners. The honeyguide finds the honeycomb, the honey badger opens it with its strong claws, and together they enjoy the sweet treat. On the day that honey badger changes his mind about sharing, the honeyguide teaches him a lesson he will never forget.</p> <p><u>TEXT FOCUS:</u> Through the use of descriptive words, onomatopoeia, and other literary techniques, the author entertains while conveying a lesson about selfishness and greed.</p> <p><u>MODEL TASKS</u></p> <p>LESSON OVERVIEW: Engage students in two readings of the text. Students build in their class character chart. Have students order the events of the text. Complete the lesson with a writing prompt having students describe the actions of the main character.</p>

Prior to the climax when the lion is revealed, ask students what they think is behind the flap. (RL.K.10) Then read the remaining portion of the story without interruption. • <u>Second Reading</u>: Divide the students into small groups and assign each group one of the sounds made by honeyguide and the honey badger (e.g., pitter, patter, splish, splash, sprong, boom, clickety-clack, swish). <ul style="list-style-type: none"> ○ Write the word(s) on a sentence strip. ○ Project the words and ask which group has the sound. The tale starts with the mosquito annoying an iguana, who then puts sticks in his ears so he doesn’t have to listen to the mosquito anymore. This sets off a chain of events as different animals react to each other, ending with one of Mother Owl’s owlets falling from the nest and dying. In Mother Owl’s grief, she will not wake the sun. A council, headed by King Lion, is called to figure out who is responsible for killing Mother Owl’s owlet. As the story is traced back, the mosquito is found to be responsible. Now, the mosquito buzzes in ears because he is asking to see if everyone is still mad at him. <u>MODEL TASK</u> SAMPLE SUMMATIVE TASK: Cold-Read Task

¹ The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and should focus on a [progression of skills](#) that are formally assessed at various points throughout the year.

The Year at Maple Hill Farm Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK²

Have students respond to the following prompt: “Choose an animal. Draw what happens before winter, during winter, and after winter for this animal. On each picture write (label) what the animal is, write where the animal is, and use a word to describe the action of the animal.” ([RI.K.1](#), [RI.K.3](#), [RI.K.9](#), [SL.K.5](#))

Then ask students to dictate or write one to two sentences for each picture: “Underneath each picture, explain what the animal is doing in each illustration.” ([W.K.2](#), [W.K.8](#))

Teacher Note:

- *Students will apply knowledge learned about animal behaviors during winter from read-aloud texts and other sources to describe an animal’s behavior.* ([W.K.8](#))
- *Students are asked to demonstrate understanding of terminology (e.g., hibernate, migrate, or hunt) by selecting an animal and describing the activities in which that animal engages. They must name and draw the animal before, during, and after winter to demonstrate understanding of the seasons and include related words and details through labeling. They must also dictate or write at least three complete sentences. The completed writing should use words from the word displays.* ([L.K.6](#))
- *Provide students with a frame for their drawings:*

Before Winter	During Winter	After Winter
What is the animal doing?	What is the animal doing?	What is the animal doing?

² Culminating Writing Task: Students express their final understanding of the anchor text and demonstrate meeting the expectations of the standards through writing.

- Students should print many upper- and lowercase letters; use frequently occurring nouns, verbs, and prepositions; and spell simple words phonetically. ([L.K.1a, b, c, e, f](#); [L.K.2c, d](#)) Students should also write complete sentences. Provide [sentence frames](#)³ for students who need help writing complete sentences (e.g., “The _____ (animal name) _____ (what the animal does) before winter.”). The sentences should also be capitalized and punctuated correctly. ([L.K.2a, b](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability (i.e., correctly forming letters, using correct letters for consonant and vowel sounds, capitalizing the first letter, using end punctuation, or writing a complete sentence). ([W.K.5](#))

COLD-READ TASK⁴

Read aloud⁵ *Animals in Winter* by Henrietta Bancroft and Richard G. Van Gelder to all students. Then ask each student independently to answer a combination of orally read multiple-choice and constructed-response questions about the text.⁶ Support students by rereading portions of the text as needed. Sample questions:

1. Ask the student: “In the beginning of the text, what season is it? How do you know?” ([RI.K.1](#), [RI.K.7](#), [SL.K.2](#), [SL.K.6](#)) (**Teacher Note:** As needed, provide students with the page numbers (pages 4-7) and have them skim through the illustrations.)
2. Ask the student: “Why does the woodchuck eat so much in the fall?” ([RI.K.1](#), [RL.K.8](#), [SL.K.2](#), [SL.K.6](#), [L.K.1d](#))
3. Ask the student: “How is the pika different than the woodchuck?” ([RI.K.1](#), [RI.K.2](#), [RI.K.3](#), [SL.K.2](#), [SL.K.6](#), [L.K.1d](#))
4. Ask the student: “Draw a picture of an animal that goes in each of the following categories.” ([RI.K.3](#), [W.K.2](#), [SL.K.2](#), [SL.K.5](#), [SL.K.6](#), [L.K.5a](#))

Hibernate	Migrate	Hunt

5. Ask the student: “Why is it important to continue feeding birds and wild animals in the winter?” ([RI.K.1](#), [RI.K.3](#), [RI.K.8](#), [SL.K.2](#), [SL.K.6](#), [L.K.1d](#))

⁴ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁵ If students are already reading, allow them to read the text. This should be based on individual student ability.

⁶ Ensure students have access to the printed text while testing.

EXTENSION TASK⁷

Create a class chapter book, *The Seasons*.

- Chapter 1: Information about the Seasons

Investigate the seasons through shared research. Gather simple facts learned as a class from the anchor text, related texts, and additional research using the Internet. ([RI.K.10](#), [W.K.7](#), [W.K.8](#)) Have students select the facts and dictate which facts to include. Ensure students use words from the vocabulary display. ([L.K.6](#)) A possible text for additional research is “The Seasons of Farming” from Core Knowledge. This text can be accessed through [Domain 5 of Core Knowledge Kindergarten, Listening and Learning Strand Read-Aloud Anthology](#) (pages 82-91).⁸

- Chapter 2: Our Favorite Activities in the Seasons

Survey the class to find out their favorite things to do during each season. ([SL.K.4](#), [SL.K.6](#)) Record the results and graph the various activities to see which ones are the most popular and least popular in each season. Then have students choose their favorite activity from each season. Have students select a season and write their opinion in a complete sentence. Provide a [sentence frame](#)⁹ as needed (e.g., “In _____ (season), I like to _____ (activity).”) ([W.K.1](#)) Ask students to draw a picture to support their sentences. ([SL.K.5](#)) Provide at least one page per season. Include the various sentences and pictures about activities during each season.

- Chapter 3: Seasonal Poetry

Have students each write a poem about their favorite season, using dictation or writing. (W.K.3) Ensure they describe the season using their five senses and include language from the vocabulary display.

Then bind the book and place it in the classroom library for students to read. ([RF.K.1a](#), [RF.K.1c](#), [RF.K.3b](#), [RF.K.3c](#), [RF.K.4](#))

Teacher Note: *If time allows, engage students in digitally publishing all or part of the class book.* ([W.K.6](#))

- *Students should print many upper- and lowercase letters; use frequently occurring nouns, verbs, and prepositions; and spell simple words phonetically.* ([L.K.1a](#), [b](#), [c](#), [e](#), [f](#); [L.K.2c](#), [d](#)) *Students should also write complete sentences. The sentences should also be capitalized and punctuated correctly.* ([L.K.2a](#), [b](#))
- *Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability (i.e., correctly forming letters, using correct letters for consonant and vowel sounds, capitalizing the first letter, using end punctuation, or writing a complete sentence).* ([W.K.5](#))

⁷ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹⁰ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports the language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level,
2. instruction for different learners using grade-level texts to support whole-class instruction, and
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs,
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards, and
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

TEXT SEQUENCE	TEXT USE
<p>LESSON 1:¹¹</p> <p>“Change Is in the Air” from <i>National Geographic Young Explorer</i>, March 2012, pages 11-15</p>	<p>TEXT DESCRIPTION: This informational text uses engaging photographs and simple sentences to introduce the seasons and describe how animals and plants react to the changing of the weather.</p> <p>TEXT FOCUS: This text is connected to the unit because it introduces seasons and explains how animals are affected by the changing of the weather. This text contains several engaging photographs with matching text that will provide clear understanding of what each season looks like and how animals and humans interact with the season. This text begins the unit by establishing a clear idea of the four seasons and beginning to establish how animals react to them—which will be covered in more depth by the anchor and other texts in the unit.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students listen to “Change Is in the Air” as it is read aloud once. Students complete a chart that includes how the season feels and what the plants and animals are doing. Students fill in the blanks using words from the text to create a sentence to match each season. Students create picture representations that match the sentences.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • First Reading: Read aloud the text to students. • Second Reading: Project the text and read it aloud. Point to each word as it is read so students can practice tracking print. Depending on student ability, ask for student volunteers to point to the words as they are read. (RF.K.1a, c) • Word Work: Build a high-frequency vocabulary display¹² throughout the unit. <ul style="list-style-type: none"> ○ Ask students, “Who can come frame the word <i>can</i>?” Have a volunteer frame (circle, highlight, use Wikki Stix) <i>can</i>. Then read the rest of the text aloud as students follow along. While reading, ask students to indicate when another instance of <i>can</i> appears in the text. (RF.K.1b, RF.K.3c) ○ Add <i>can</i> and other high-frequency words from the text (e.g., <i>how</i>, <i>we</i>, <i>in</i>, <i>are</i>, <i>the</i>) to the high-frequency word display if they have not already been added from a previous unit. ○ When adding words to the display, work with students to understand how the words function in the sentences of the text. For example, <i>in</i> tells us that something is happening during the season when the text says, “In spring” or “In winter,” etc. (L.K.1b-e)

¹¹ **Note:** One lesson does not equal one day. Teachers should determine how long to take on a given lesson. This will depend on each unique class.

<p>LESSON 2:</p> <p>“Four Seasons” (Video)</p>	<p>TEXT DESCRIPTION: This humorous and silly video uses different animal puppets and background scenery to show three adjectives that can be used to describe each season.</p> <p>TEXT FOCUS: This video provides the opportunity to build the understanding of seasons. Students will watch and then be able to add information to both charts created in the previous lesson. Using the Seasons Chart from the previous lesson, add information gained from the video (teacher adds words, and students record notes in additional drawings or words on their chart). Ask students to explain why each season feels the way the video says—what is happening to make _____ (season) feel _____ (adjective)? Add the adjectives from the video to the vocabulary display. Read the shared writing again and ask students if they want to make any revisions based on the video. Add or change details as necessary.</p>
<p>LESSON 3:</p> <p><i>The Year at Maple Hill Farm</i>, Alice and Martin Provensen</p>	<p>TEXT DESCRIPTION: Using engaging illustrations and texts, this informational text captures one year at Maple Hill Farm, including how the animals sense the changing seasons and respond to the changes.</p> <p>TEXT FOCUS: The anchor provides plenty of opportunities for students to use their knowledge of seasons to discuss how animals are behaving during each season. This text will be revisited in future lessons.</p> <p>MODEL TASKS¹⁶</p> <p>LESSON OVERVIEW: Students listen to the text read aloud twice and then they engage in a series of tasks to demonstrate understanding of the text. Students then work with the vocabulary and write original sentences. From Seed to Plant Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK⁴

Have students use the anchor charts from the unit to respond to the following prompt: “Draw pictures that show the life cycle of a plant growing in the ground. On the picture, label the stage of the plant life cycle.” (RI.K.1, RI.K.2, RI.K.3) Then ask students to dictate or write a sentence for each picture: “Underneath each picture, describe the stage and what is happening. Use words from the word display.” (W.K.2, W.K.8) Prompt students to use key vocabulary words in *From Seed to Plant* and other unit texts to describe what is happening at each stage. (L.K.6)

Exemplar Response:

				
The seed is planted in the ground. It needs water.	First the roots grow down.	Then the stem grows up.	The leaves grow next.	Then there is a flower. It makes more seeds.

Teacher Note:

- Students are asked to draw each stage of the life cycle of a plant. They must also identify and label the stages and then write a complete sentence that describes the connection between events in the life cycle of a plant. The completed writing should use words from the word displays. (L.K.6)

⁴ Culminating Writing Task: Students express their final understanding of the anchor text and demonstrate meeting the expectations of the standards through writing.

- *Students should print many upper- and lowercase letters; use frequently occurring nouns, verbs, and prepositional phrases; and spell simple words phonetically. ([L.K.1a, b, f](#); [L.K.2c, d](#)) Students should also write complete sentences. Provide [sentence frames](#)⁵ for students who need help writing complete sentences and have students write a key word from the life cycle of the plant. The sentences should be capitalized and punctuated correctly. ([L.K.2a, b](#))*
- *Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability (i.e., correctly forming letters, using correct letters for consonant and vowel sounds, capitalizing the first letter, using end punctuation, or writing a complete sentence). ([W.K.5](#))*

COLD-READ TASK⁶

Read aloud⁷ *One Bean* by Anne Rockwell to all students. Then ask each student independently to answer a combination of orally read multiple-choice and constructed-response questions about the text.⁸ Support students by rereading portions of the text as needed. Sample questions:

1. Ask the student: “The boy describes his bean as ‘dry,’ ‘smooth,’ and ‘hard.’ Describe what that means the bean is not. Use the opposite words to explain what the bean is not.” ([RL.K.1](#); [RL.K.4](#); [W.K.2](#); [SL.K.2](#); [L.K.1a-c, f](#); [L.K.2a-d](#); [L.K.5b](#); [L.K.6](#)) (**Teacher Note:** Provide a sentence frame for students who need support writing a complete sentence (e.g., “The bean is not _____. The bean is not _____. The bean is not _____.”).
2. Ask the student: “Identify three actions the boy took to make the plant grow.” ([RL.K.1](#); [RL.K.2](#); [SL.K.2](#); [SL.K.6](#); [L.K.1b, e](#); [L.K.6](#))
3. Ask the student: “What do you think will happen to the one bean the sister is dropping in a cup at the end of the story? How do you know?” ([RL.K.1](#), [RL.K.7](#), [SL.K.2](#), [SL.K.6](#), [L.K.6](#))
4. Ask the student: “What makes this text the same as *From Seed to Plant*? What makes this text different than *From Seed to Plant*?” ([RL.K.1](#), [RI.K.9](#), [W.K.8](#), [SL.K.2](#), [SL.K.6](#), [L.K.1e](#))

⁶ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁷ If students are already reading, allow them to read the text. This should be based on individual student ability.

⁸ Ensure students have access to the printed text while testing.

EXTENSION TASK⁹

1. Work with students to plant a small garden (or a portable indoor garden consisting of beans or seeds in a plastic cup or baggy with moistened paper towels). (Lesson 1)
2. Have each student create a Garden Observation Log with a cover and blank white pages inside the log. (Lesson 1)
3. Ask students to observe the garden daily and create an entry for their plant observations. ([W.K.8](#)) (Lessons 1-10)
4. Each entry should contain the following:
 - The date of the observation (this can be prewritten on the pages as needed)
 - A labeled illustration of the garden or plant ([SL.K.5](#), [L.K.1a-c](#), [L.K.2c](#))
 - The labels should identify the vocabulary from the unit that can be used to describe the plants in stages of their life cycle (e.g., *soil*, *stem*, *flower*, *leaf/leaves*, etc.) ([L.K.1a-c](#), [L.K.2c-d](#), [L.K.5c](#), [L.K.6](#))
5. Once the observation log is finished, conduct a class discussion in which students share their observations. ([SL.K.4](#), [SL.K.6](#)) (Lesson 10)
6. Record an illustration and label the various stages on a blank calendar. ([SL.K.5](#)) Have students dictate the writing of the labels and write the parts they know. ([L.K.1a-c](#), [L.K.2c-d](#), [L.K.6](#)) (Lesson 10)
7. Determine as a class how long each stage took based on the calendar. Discuss with students what happens in each stage, using process words such as *first*, *next*, *then*, *now*, etc. Prompt students to ask questions about their results. ([W.K.7](#), [SL.K.1a-b](#), [SL.K.3](#), [L.K.1d](#)) Display the calendar for students to use as notes in writing their Culminating Writing Task. ([W.K.8](#)) (Lesson 10)
8. Conduct a [shared writing](#)¹⁰ task using a “shared pen” or “shared keyboard” technique. ([W.K.6](#)) Have students respond to the following prompt: “How do animals interact with or impact plants?” ([RI.K.1](#); [RI.K.3](#); [W.K.2](#); [W.K.7](#); [L.K.1a-c](#), e-f; [L.K.2a-d](#); [L.K.6](#)) (Lesson 10)

⁹ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹¹ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports the language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level,
2. instruction for different learners using grade-level texts to support whole-class instruction, and
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs,
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards, and
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

NOTE ABOUT THE LESSONS: Throughout this unit, students will build knowledge about vocabulary and plants. Students will progressively build knowledge using the following tools throughout the unit.

- **Plant Fact Book:** Students create a class Plant Fact Book in which they record through writing and illustrations information they gain throughout the unit. Pages for the book should be labeled with the following: *Seeds, Plant Parts, Plant Life Cycle, Pollination, Plants Uses*. Begin in [Lesson 1](#).
- **Words to Describe the Plant Life Cycle Chart:** Create a class chart based on words from the texts read in the unit. Students work with the teacher to list and then categorize the words and define or illustrate their meaning. Begin in [Lesson 1](#).

<p>LESSON 2: <i>How a Seed Grows</i>, Helene Jordan</p>	<p>TEXT DESCRIPTION: This informational text provides some basic information about different types of seeds and facts about how seeds grow. Then, it explains in steps how to grow a bean plant from a seed.</p> <p>TEXT FOCUS: While reading aloud, reinforce vocabulary that is recorded on the Words to Describe the Plant Life Cycle chart. (RI.K.4) Record sentences from the text on sentence strips with key vocabulary terms missing and discuss which vocabulary word makes sense in the sentence. For example, write on a sentence strip, “Day after day, the ____ push down into the soil.” Ask students to fill in the blank with the appropriate vocabulary word. (L.K.1a-c, L.K.2a-d, L.K.6) Continue with sentences from the text for <i>plant</i>, <i>seed</i>, <i>soil</i>, <i>roots</i>, <i>shoot (stem)</i>, and <i>leaves</i>. After reading, ask students to act out each stage of the plant life cycle. (SL.K.4) Finally, provide students with images of the plant life cycle and ask them to sequence them and orally describe what is happening in the images, using words from the vocabulary chart. Depending on the needs of students, have students write or dictate sentences to explain the process of how a seed grows into a plant based on the sequenced illustrations. (W.K.2, L.K.1f)</p>
<p>LESSON 3: “Plant Parts” from Domain 4 of the Grade K Core Knowledge Listening and Learning Strand (Pages 24-26 of the <i>Read-Aloud Anthology</i>)¹⁴</p>	<p>TEXT DESCRIPTION: This informational text introduces the basic parts of many plants. The text introduces key vocabulary such as <i>roots</i>, <i>stems</i>, <i>leaves</i>, <i>flowers</i>, and <i>seeds</i>.</p> <p>TEXT FOCUS: Use this text to help students further understand plant parts and their functions. Use the illustrations and visuals provided to enhance understanding of the key details and vocabulary.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students listen to the text read aloud and add words to the Words to Describe the Plant Life Cycle Chart. Students engage in a second reading and answer questions to demonstrate understanding. The lesson concludes with students labeling a plant diagram.</p>

Since students will not have read the previous text, use this section to teach them the difference between <i>living</i> and <i>nonliving</i> things. Add the word <i>living</i> to the Words to Describe the Plant Life Cycle Chart. (RI.K.4, L.K.5c) • <u>First Reading</u>: Follow the procedures as described in the “Presenting the Read Aloud” section (pages 24-26). Draw the events and title one ‘Real’ and the other ‘Imaginary.’ Then, write a sentence that explains why each event is real or imaginary. Include weather words from the vocabulary display.”

Teacher Note:

- Students are asked to apply knowledge learned about weather from read-aloud texts to illustrate two events and determine what is real and what is imaginary. ([RL.K.3](#), [RL.K.7](#), [W.K.8](#), [SL.K.5](#))
- Students should print many upper- and lowercase letters; use frequently occurring nouns, verbs, and prepositions; and spell simple words phonetically. Provide [sentence frames](#)⁴ for students who need help writing complete sentences (e.g., “This drawing is _____ because _____.”). The sentences should also be capitalized and punctuated correctly. ([L.K.2a](#), [b](#))
- The completed writing should use words from the word displays. ([L.K.6](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability (i.e., correctly forming letters, using correct letters for consonant and vowel sounds, capitalizing the first letter, using end punctuation, or writing a complete sentence). COLD-READ TASK⁵

Read aloud⁶ *Franklin and the Thunderstorm* by Paulette Bourgeois to all students. Then ask each student independently to answer a combination of orally read multiple-choice and constructed-response questions about the text.⁷ Support students by rereading portions of the text as needed. Sample questions:

1. Ask the student: “What is Franklin’s problem in the story?” ([RL.K.1](#), [RL.K.3](#), [RL.K.7](#), [SL.K.2](#), [SL.K.6](#), [L.K.1d](#))
2. Provide students with five to six cards of the images from the text and simple statements, such as “Franklin walks to Fox’s house” and “The rain begins to fall.” Ask students to place the events in order and retell what happens in the text. ([RL.K.1](#), [RL.K.2](#), [RL.K.7](#), [SL.K.2](#), [SL.K.4](#), [SL.K.6](#))
3. Ask the student: “Describe the weather at the beginning of the story. What weather words can you use to describe the weather?” ([RL.K.3](#), [RL.K.7](#), [W.K.8](#), [SL.K.2](#), [SL.K.6](#), [L.K.6](#))
4. Ask the student: “How does the weather change from the beginning of the story to the end of the story?” ([RL.K.1](#), [RL.K.2](#), [RL.K.7](#), [W.K.8](#), [SL.K.2](#), [SL.K.6](#), [L.K.1d](#))
5. Ask the student: “What is one reason the animals give for why it rains? Is this reason real or imaginary?” ([RL.K.1](#), [RL.K.3](#), [W.K.8](#), [SL.K.2](#), [SL.K.6](#), [L.K.1d](#))

⁵ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁶ If students are already reading, allow them to read the text. This should be based on individual student ability.

⁷ Ensure students have access to the printed text while testing.

EXTENSION TASK⁸

Part One: Weather Observation Log

1. At the beginning of the unit, have each student create a Weather Observation Log with a cover and blank white pages inside the log.
2. Ask students to observe the weather each day and tell them to create an entry for their weather observations. ([W.K.8](#))
3. Each entry should contain the following:
 - The date of the observation (this can be prewritten on the pages as needed)
 - A labeled illustration of the weather ([SL.K.5](#), [L.K.1a-c](#), [L.K.2c](#))
 - The labels should identify the weather words that can be used to describe the weather that day (e.g., rainy, sunny, hot, humid, etc.) ([L.K.1a-c](#), [L.K.2c-d](#), [L.K.5c](#), [L.K.6](#))
4. Once the observation log is finished, ask students to review their logs with a partner and discuss similarities and differences between the weather observations (e.g., Did the partners see the same weather? Was weather different depending on where they live? Were there several days in a row with the same weather? How many days did it rain?). Provide students with prompting questions as necessary. ([RI.K.1](#), [RI.K.7](#), [RI.K.9](#), [SL.K.1a-b](#), [SL.K.3](#), [L.K.1d](#))
5. Ask the pairs to write at least one sentence explaining the similarities and differences between their weather observations. ([W.K.2](#); [L.K.1a-c](#), [e-f](#); [L.K.1a-d](#); [L.K.6](#))

Part Two: Weather Report

1. Read aloud *Weather Forecasting* by Gail Gibbons. Discuss the role of the weather service and a meteorologist. ([RI.K.1](#), [RI.K.2](#), [SL.K.2](#))
2. Create a class chart of the seasons. (**Teacher Note:** Review the seasons with students based on information gained from *The Year at Maple Hill Farm* unit.) For each season, ask students to identify typical weather, such as sunny, hot, rainy, cold, windy, cloudy, etc. ([W.K.7](#), [W.K.8](#), [L.K.5a](#))
3. Demonstrate how to describe a weather word in writing using sensory language (e.g., “It is raining outside. The sky has dark clouds, and rain is falling from them. The wind is blowing. I feel the cool air from the wind. I hear the rain splash in the puddles.”).
4. Divide the class into pairs. Have the pairs select a weather word from the seasons chart. Ensure that across all the pairs, each season’s weather is represented.

⁸ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

5. Have students work in pairs to orally describe what their word looks like, feels like, etc. (e.g., “It is snowing outside. The air is cold. I feel wet snowflakes. I see a lot of white on the ground. People are wearing jackets.”) ([SL.K.1a-b](#))
6. Ask the pairs to create an illustration of their weather word based on their oral description. ([SL.K.5](#))
7. Then split the pairs apart to create new groups. Ask the newly formed group to write a weather report similar to that given by a meteorologist that tells the audience what the weather will be and how best to prepare for the weather during each season (e.g., “It is going to be rainy this spring. Make sure to have an umbrella and rain boots!”). ([W.K.3](#), [W.K.7](#), [L.K.1a-c](#), [e-f](#); [L.K.1a-d](#); [L.K.6](#))

Winter	Spring
Summer	Fall

8. Then have each group present their various forecasts to the class. ([SL.K.4](#), [SL.K.6](#)) Ensure students use illustrations to support their forecast. ([SL.K.5](#))
9. Following the presentations, discuss the antonyms used to describe weather in the seasons. ([L.K.5b](#))

Teacher Note:

- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability (i.e., correctly forming letters, using correct letters for consonant and vowel sounds, capitalizing the first letter, using end punctuation, or writing a complete sentence). ([W.K.5](#))

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)⁹ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports the language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level,
2. instruction for different learners using grade-level texts to support whole-class instruction, and
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs,
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards, and
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

TEXT SEQUENCE	TEXT USE
<p>LESSON 1:¹⁰</p> <p>“The Weather Outside” from <i>National Geographic Young Explorer</i>, September 2011, pages 18-23</p>	<p>TEXT DESCRIPTION: This text introduces the unit by describing different weather conditions using various adjectives.</p> <p>TEXT FOCUS: This text introduces the concept of weather; students can read along as an expert reader reads it aloud. On subsequent readings of the text, students can join in the reading and/or take turns reading different portions of the text out loud independently. (RF.K.4) Students can describe the relationship between photographs and the text to understand the weather adjectives (e.g., <i>sunny, rainy, windy, cloudy, and snowy</i>) (RI.K.7, L.K.5c). Use this text to begin a list of “weather words.” This display will be added to throughout the unit for use in students’ speaking and writing. (W.K.8, L.K.6) Beginning the unit with a nonfiction text can help students when they are asked to explain what is real and what is imaginary in the anchor text.</p>
<p>LESSON 2:</p> <p><i>Weather Words and What They Mean</i>, Gail Gibbons</p> <p>Riding the Winds with Kalani, University of Illinois Extension</p>	<p>TEXT DESCRIPTION: <i>Weather Words and What They Mean</i> uses illustrations and text features to introduce weather concepts such as <i>temperature, air pressure, moisture, and wind</i>. These terms are broken down further with drawings that closely match the textual information. The anchor text pages have illustrations that show imaginary weather events. Together, the texts show real and imaginary weather events.</p> <p>TEXT FOCUS: <i>Weather Words</i> expands on students’ knowledge gained from “The Weather Outside” by building student understanding of temperature, wind, air pressure, and moisture. By using the illustrations to support understanding of complex vocabulary, students will continue to build a vocabulary display to be used throughout the unit of weather words. These vocabulary words will be used in the cold-read assessment and the writing assessment. Students will apply facts and vocabulary learned from <i>Weather Words</i> to describe the weather in <i>Cloudy with a Chance of Meatballs</i>. Students will discover that even though the story has a lot of imaginary events, there are connections to real weather.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Read the text aloud—discussing in terms of the weather concepts presented in the words and the illustrations. Then, create a Weather Words chart. Encourage students to show their understanding of the weather in the anchor and the vocabulary from the informational text through a writing activity about a weather-related event.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • First Reading: Read the book <i>Weather Words</i> aloud, stopping along the way to note weather terminology and allow students to analyze the illustrations that accompany each description. (RI.K.10)

Model for students the kinds of strategies a skilled reader uses to construct meaning and cope with comprehension problems. For example, read pages 6-7 aloud. Project the text for students to follow along. Point to the words as you read them, showing students how to track print with an informational text. (RF.K.1a, c) Demonstrate for students how to construct meaning and think through trouble spots. Possible examples: <ul style="list-style-type: none"> “This word must be temp-er-a-ture and not ther-mo-meter because it doesn’t begin with /th/.” Describe visual images formed while reading and connect to prior knowledge: “It says that the temperature goes up and down. What does that look like on a thermometer? Let’s act out the following: How does it feel when the temperature goes up outside? How does it feel when the temperature goes down outside?” (L.K.5c) Show how you monitor your ongoing comprehension and become aware of problems: “I wonder what the word ‘mild’ means? Have I heard that word before? (RI.K.4, L.K.5c) Let’s look at the illustration and read the text. What time of day does ‘mild’ describe? How does the temperature feel at that time of day? What might ‘mild’ mean?”) Word Work: Create a categorized vocabulary chart for students to use throughout the unit. <div data-bbox="1150 865 1339 894" data-label="Section-Header"> <p style="text-align: center;">Weather Words</p> </div> <table border="1" data-bbox="930 912 1560 1172"> <tr> <td data-bbox="930 912 1245 1036">TEMPERATURE</td><td data-bbox="1245 912 1560 1036">AIR PRESSURE</td></tr> <tr> <td data-bbox="930 1036 1245 1172">MOISTURE</td><td data-bbox="1245 1036 1560 1172">WIND</td></tr> </table> <ul style="list-style-type: none"> Review the list created in Lesson 1. For each, ask students what consonant and sound is at the beginning of the words. (RF.K.1d, RF.K.3a) Then discuss the meaning of each word, encouraging students to support their understanding by referring to the illustrations. Using illustrations to support understandings, students will learn about the different types of clouds. Students will add to the vocabulary display by adding the different types of clouds. Students will be able to understand the connection between clouds and weather.</p> <p>MODEL TASKS¹²</p> <p>LESSON OVERVIEW: Students listen to the text read aloud. <p>LESSON 4:</p> <p><i>Bringing the Rain to Kapiti Plain</i>, Verna Aardema</p>	<p>TEXT DESCRIPTION: This text is a tale from Kenya that is written to the rhythm of the popular English nursery rhyme "The House That Jack Built." It tells the story of how a Kenyan man shoots a large thunder cloud to end a drought on Kapiti Plain.</p> <p>TEXT FOCUS: This text, similar to the anchor, presents an imaginary situation involving the weather. The rhythm and rhyme of the text make it engaging for students to listen to. Students should be able to make connections between <i>The Cloud Book</i> and the solution that Ki-Pat comes up with to solve the problem of the drought in <i>Bringing the Rain to the Kapiti Plain</i>. For each illustration, ask groups to look at the details of the illustration: “What is happening in this picture?” (RL.K.1, RL.K.3, RL.K.7) Then reread the text on the page. Ask groups, “How does the illustration connect to the written description on the page? How does the illustration add details that are not in the written description on the page?” (RL.K.1, RL.K.7) ▪ Project the illustration on page 16. Ask groups, “How is this garbage truck similar to or different from our garbage trucks? Why are there differences? What is one question you have about this illustration?” (RL.K.1, RL.K.7) ▪ Ask groups: “Is eating food from the sky good or bad in Chewandswallow?” ▪ Ask groups: “What happens in Chewandswallow that couldn’t actually happen in real life? What happens that does happen in real life?” Record answers on a class chart¹⁶ labeled “Real” and “Imaginary.” ○ Discuss the same questions as a whole class. Call on each group to share out their ideas and responses to the questions as discussed in their group. (SL.K.3, SL.K.4, SL.K.6) • Word Work: Continue to work with the language of the text for students to understand the meaning of the academic vocabulary that relates to weather. <ul style="list-style-type: none"> ○ Discuss how even though the weather is imaginary, the words used to describe the weather in Chewandswallow can be used to describe real weather conditions (e.g., <i>wind blew in storms, varied, coming down, brief shower, low clouds moved in, sprinkled, rained, blew in from the northwest at about five miles an hour, wind shifted east, drizzle, becoming heavy at times, occasional, gradual clearing</i>). ○ Have students add the terminology to the appropriate box on the Weather Words chart from Lesson 2. Use a process similar to the one described in Lesson 2. (RL.K.1, RL.K.4, RL.K.7, SL.K.2, L.K.5c) • Fourth Reading: Reread pages 16-22. Stop at various points in the story for students to engage in a discussion about

(RL.K.1, RL.K.2, RL.K.3, RL.K.7) As necessary, reread portions of the text for help answering a specific question. Ask students to pair up with a shoulder partner to discuss answers to various questions. (SL.K.1a-b, SL.K.2, SL.K.4, SL.K.6) • Student Practice: Have students work in pairs or small groups to draw and label an event from the story. (RL.K.3; RL.K.7; SL.K.1a-b; SL.K.5; L.K.1a-c, e; L.K.2a-d) Each drawing should include accurate labels for the setting and the weather event, using words from the vocabulary display created in Lesson 2 (e.g., “raining soup” or “storms of hamburgers”). 	<ul style="list-style-type: none"> ○ Have the class identify the topic and supply some information. ○ Guide the writing process while students write the parts they know using a “shared pen” technique (or a “shared keyboard” technique by modeling composition on a computer). (W.K.6) Demonstrate how to write the unknown parts of words. (As students learn letters and their sounds, they can take a more active role in writing the response.) For example, the first sentence may be: “The weather at Chewandswallow is the same as real weather because there are different types of weather.” Have students dictate the sentence, identifying the starting place, using initial capitalization, spelling the words aloud, using fingers to make spaces, and placing a period while saying “Period.” (RF.K.1b, c; RF.K.3a, b; L.K.1a, b; L.K.2a, c, d) ○ Read the first sentence with the students, and then have students dictate the next sentence. (SL.K.1a-b) Provide guidance to make a complete sentence, add details to expand the sentence, and decide on the appropriate punctuation. (W.K.5, L.K.1f, L.K.2b) Write the second sentence, modeling the writing process. ○ During the shared writing activity, model the use of the vocabulary charts. (L.K.6) ○ Ask students to find capital or lowercase letters, identify the letters that relate to the students’ names, count the words, and identify punctuation. (SL.K.1a, b) Place the text where the students can read it. (RF.K.4) • Independent Writing: Have students write independently, using a combination of drawing, dictating, and writing. <ul style="list-style-type: none"> ○ Ask students to compose a response to the following prompt: “Select one of the weather events discussed during the shared writing (rain, thunderstorm, wind, flood, etc.). Draw an illustration of the weather and label the illustration using words from the vocabulary chart.” (SL.K.5) ○ Ensure students use at least two words from the vocabulary display and print many upper- and lowercase letters, use frequently occurring nouns and verbs, and spell simple words phonetically. <p>LESSON 6:</p> <p>“The Wind,” James Reeves</p>	<p>TEXT DESCRIPTION: This poem is a riddle that describes wind.</p> <p>TEXT FOCUS: Use this text for students to understand more about the actions of wind. Students can also better understand the difference between a story, an informational text, and a poem. (RL.K.5)</p> <p>MODEL TASKS¹⁸</p>

¹⁸ This lesson is adapted from a lesson produced for the Read-Aloud Project.

TEXT SEQUENCE	TEXT USE
	<p>LESSON OVERVIEW: In this lesson sequence, the teacher uses a variety of strategies to actively engage students in searching for meaning in the figurative language and rich vocabulary of a poem. Students learn to test inferences against specific details of the text, to take three-dimensional “notes,” and to use those notes to more deeply understand the meaning of the poem. Discussion and a short writing exercise help students to synthesize what they have learned.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • <u>First Reading:</u> Read the poem aloud without reading the title. This way it becomes a riddle. <ul style="list-style-type: none"> ○ Ask students to listen to the poem and try to guess the title, which tells the reader what the poem is about. ○ Read the poem straight through, with expression. Use tone and volume to help students understand each line and to provide some context for inferring unknown words (e.g., use a soft voice when the wind is gentle and a loud voice when the wind is strong). ○ Then asks students, “What do you think the title might be? What is this poem about?” Record student responses on the board without comment or judgment. (RL.K.10) • <u>Second Reading:</u> Guide students through a second reading, evaluating the list of student guesses against specific lines in the text. <ul style="list-style-type: none"> ○ Stop after reading each line to discuss its meaning and consider the list of student guesses (e.g., “Are there any guesses on the list that should be eliminated? Why? [Erase these.] Are there some that now seem more likely than others? [Put a star next to these.] Are there any new possibilities we should add?”) (SL.K.1a-b, SL.K.2, SL.K.3) Introduce vocabulary words as needed during this discussion, drawing meaning from context wherever possible. (RL.K.4, L.K.6) ○ Say, “Now that you have looked at the poem more carefully, what do you think this poem is about?” Call on a few students to make a final “guess” about the title, asking them to explain their choices by pointing out what, in the poem, supports their thinking. • <u>Third Reading:</u> Uncover the title to see if any guesses are correct. Then guide the class in determining the things that wind can do. (RL.K.2) Discuss what makes this a poem rather than a storybook. (RL.K.5) • <u>Fourth Reading:</u> Project the text and read it aloud. Point to each word as it is read so students can practice tracking print. Depending on student ability, ask for student volunteers to point to the words as they are read. (RF.K.1a, c) Ask students to join in the reading of the poem as they are comfortable. • <u>Word Work:</u> Have students add words to describe wind on the Weather Words chart using a process similar to the one described in Lesson 2 (e.g., <i>drive (driving), storm-clouds</i>).

TEXT SEQUENCE	TEXT USE
	<ul style="list-style-type: none"> • <u>Class Discussion</u>: Gather a set of objects or pictures to represent each line in the poem. Engage students in using these objects or pictures to further understand the poem. <ul style="list-style-type: none"> ○ Show students the objects (or pictures). Ask them to help you locate the line or phrase in the poem that each item represents. Reread each line as it is identified and have the class repeat the line aloud. ○ Give each student one of the props (be sure everyone has an object or picture, even if they are repeated). Reread the poem aloud and instruct students to hold up their object when it is mentioned in the poem. ○ Create two class sorting mats using two different colored pieces of poster paper. Label one “Rave and Riot” and the other “Quiet as Quiet.” Lead the class in sorting their objects into these two categories. <ul style="list-style-type: none"> ▪ Ask students to bring their objects to the front of the room. ▪ Have the class recall the part of the poem the item represents; discuss whether the example shows that the wind can “rave and riot” or that the wind can lie “quiet as quiet.” ▪ Then, place the object on the correct mat. When all items have been sorted, guide the students in using the concrete details of the poem to understand the author’s personification of the wind. ▪ Save these three-dimensional “notes” for the next day’s writing. <p>EXPRESS UNDERSTANDING:</p> <ul style="list-style-type: none"> • <u>Student Writing</u>: Reread the poem together. Take out the three-dimensional notes and review them. <ul style="list-style-type: none"> ○ Create a class writing template with the heading “Sometimes the wind is strong.” Ask students to use the notes taken during the class discussion to fill in some examples of when the wind is strong. Write the examples as students identify them in a color that matches the sorting mat color for “Rave and Riot.” Ensure students are providing examples from the notes, not their personal experiences. ○ Then divide the class into pairs. Provide each pair with a similar writing template with the heading “Sometimes the wind is gentle.” Discuss how <i>strong</i> and <i>gentle</i> are opposites, or antonyms. (L.K.5b) Ask pairs to repeat the process done , using the class notes and a combination of drawing, dictating, or writing to identify one way the wind is gentle. (W.K.2, L.K.1a-c, e-f; L.K.2a-d; L.K.6) • <u>Independent Writing</u>: Have students complete the following frame: “I like the wind when it is _____.” (W.K.1, L.K.1a-c, e-f; L.K.2a-d; L.K.6)

<p>LESSON 7:</p> <p><i>The Wind Blew</i>, Pat Hutchins</p> <p><i>Cloudy with a Chance of Meatballs</i>, Judi Barrett</p>	<p>TEXT DESCRIPTION: <i>The Wind Blew</i> uses simple rhyming verse and colorful illustrations to tell the story of a playful wind that blows through town to show students how the forces of nature can impact the people’s lives.</p> <p>TEXT FOCUS: Use these texts to establish how weather impacts people and events. (RL.K.9)</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: After listening to the text read aloud, students retell the events in the story by identifying the characters, settings, and major events. Finally, students compare and contrast how weather impacts people in <i>The Wind Blew</i> and <i>Cloudy with a Chance of Meatballs</i>.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • Pre-Reading: Introduce the title, author, and illustrator of <i>The Wind Blew</i> to students. Ask students if they think the book is real or an imaginary story. (RL.K.5, RL.K.6) • First Reading: Read aloud the entire story with minimal interruptions. • Second Reading: Reread the story and create a class chart of the sequence of events based on the items that are affected by the wind. <ul style="list-style-type: none"> ○ Provide students with a picture or object to add to the sequence. Have students add the pictures to the chart and verify the order by rereading portions of the text aloud. ○ Prompt students to name each object/picture. Ask them to count the syllables in multisyllabic words (i.e., <i>umbrella</i> and <i>balloon</i>), orally segment the phonemes CVC words (i.e., <i>hat</i>), and segment and then blend the onset and rhyme in single-syllable words (i.e., <i>kite</i>) in each word and then blend the names of each object/picture. (RF.K.2b, c, d) ○ Then work with students to label the pictures using a shared pen technique. Ask students to orally spell the words as they are written. (RF.K.1b-d, RF.K.3a-b, L.K.1a-b, L.K.2c-d) Then have students read the words as a class and retell the story in pairs. (RL.K.2)

Students can work to sequence the text. Provide them with a frame that leaves off the verbs and ask students to fill in the appropriate words. Provide students with a set of the illustrations from the text. Read sentences from the text and ask students to locate the illustration that depicts the text and to sequence the events. (RL.K.2, RL.K.7) Have students identify the problem in the story and how characters respond to the problem. A Is for America Unit Overview

⁶ The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and should focus on a [progression of skills](#) that are formally assessed at various points throughout the year.

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK⁷

Have students respond to the following prompt: “Write about one of the US presidents or symbols that we read about. Identify the person or symbol and write or draw one fact about the person or symbol and why the person or symbol is important.”

Teacher Notes:

- Students are asked to demonstrate knowledge about a US president or symbol through a combination of writing, dictating, and drawing. ([RL.K.3](#), [RL.K.7](#), [W.K.8](#), [SL.K.5](#))
- Students should print many upper- and lowercase letters; use frequently occurring nouns, verbs, and prepositions; and spell simple words phonetically. ([L.K.1a](#), [b](#), [c](#), [e](#), [f](#); [L.K.2c](#), [d](#)) Students should also write complete sentences. Provide [sentence frames](#)⁸ for students who need help writing complete sentences (e.g., _____ [name or drawing of person or symbol] is _____ [fact]. _____ [name or drawing of person or symbol] is important because _____.”). The sentences should also be capitalized and punctuated correctly. ([L.K.2a](#), [b](#))
- The completed writing should use words from the unit vocabulary dictionary. ([L.K.6](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability (i.e., correctly forming letters, using correct letters for consonant and vowel sounds, capitalizing the first letter, using end punctuation, and writing a complete sentence). ([W.K.5](#))

COLD-READ TASK⁹

Read aloud¹⁰ *America Is...* by Louise Borden to all students. Then ask students to answer a combination of orally read multiple-choice and constructed-response questions about the text.¹¹ Support students by rereading portions of the text as needed. Sample questions:

1. Show the cover of the book. Ask students: “What US symbols do you see on this cover?” Have students write or draw the symbols they see. ([RI.K.1](#); [RI.K.7](#); [L.K.1a](#), [b](#); [L.K.2c](#); [L.K.6](#))
2. Ask students: “What is another name for country?” ([RI.K.4](#), [L.K.5a](#), [L.K.6](#))
 - a. City
 - b. State
 - c. Nation
3. Show students pages 1 and 2 of the text. Reread the text on page 2. Then ask students: “What symbol on these pages represents *freedom*?” ([RI.K.1](#), [RI.K.3](#), [RI.K.4](#), [RI.K.7](#), [L.K.6](#))
 - a. The setting sun
 - b. The different boats
 - c. The Statue of Liberty
4. Ask students: “Identify one detail in *America Is...* that is similar to where you live.” Have students write or draw the detail. ([RI.K.1](#), [RI.K.2](#), [L.K.5c](#))
5. Ask students: “Identify three things America is according to the text.” Have students write down or draw their answer. Reread portions of the text as needed, and display the illustrations to support students in answering the question. ([RI.K.1](#); [RI.K.2](#); [RI.K.7](#); [RI.K.8](#); [L.K.1a](#), [b](#); [L.K.2c](#); [L.K.6](#))

⁹ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

¹⁰ If students are already reading, allow them to read the text. This should be based on individual student ability.

¹¹ Ensure that students have access to the printed text while testing.

EXTENSION TASK¹²

Create a research book about the lives and presidencies of notable US presidents.

1. Divide the class into groups. Assign each group a different US president not studied in the unit.
2. Give each group a picture and the name of the president.
3. Provide each student with a five-column graphic organizer labeled (1) Who, (2) When, (3) Where, (4) What, and (5) How.
4. At the top of the graphic organizer, have students write the name of their assigned president. ([L.K.1a](#), [L.K.2c](#))
5. For each column, ask the groups to develop a question they want answered about their assigned president. For example, “When was Franklin Roosevelt president?” or “What did Ronald Reagan do as president?” Support groups in writing their questions as needed and work with them to revise any questions that need further clarification. ([L.K.1a-f](#), [L.K.2a-d](#), [L.K.6](#))
6. Gather a series of resources that will answer the groups’ questions in advance of conducting the class research. These resources should be both print and digital.
7. Conduct research as a class. ([W.K.7](#)) Have each group introduce their assigned president and ask their questions. ([SL.K.1a-b](#), [SL.K.3](#), [SL.K.4](#), [SL.K.6](#))
8. Project or display resources and engage students in locating the answers to their questions by reading aloud portions of the various resources or by having students use visual aids to locate their answers. ([SL.K.2](#), [W.K.8](#))
9. As groups get an answer to their question, have them write, dictate, or draw the answer in the appropriate column. ([W.K.2](#))
10. Gather the graphic organizers and place them into a class book along with the pictures of the US presidents.
11. Place the research book in the classroom library for students to read on their own. ([RF.K.4](#))

¹² Extension Task: Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹³ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

NOTE ABOUT THE LESSONS: Throughout this unit, students will build knowledge about vocabulary and important people and symbols that represent the United States. Students will progressively build knowledge throughout the unit using the following tools.

- **Unit Vocabulary Dictionary:** Students create entries for a class dictionary based on words from the texts read in the unit. Students work with the teacher to define the word, use it in a sentence, and illustrate its meaning. Begin in Lesson 1.
- **What Is America? Journal:** Students create and maintain an [interactive notebook](#)¹⁴ that contains a section for the symbols and people learned about in each text read in the unit. Begin in Lesson 1.

The text also identifies the American flag and the Pledge of Allegiance.</p> <p>TEXT FOCUS: By introducing many American icons, this text will begin the unit study by further explaining important symbols and people in the United States. Students engage in asking and answering questions about important US symbols and people. (RI.K.1, RI.K.3, RI.K.9)</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students listen to the text read aloud. (SL.K.5) ○ Conduct a shared writing²² task in which the class answers the question, “What makes this symbol or person important?” Begin the task by listing various facts students remember about the person. (RI.K.2, W.K.8) Write those down for students to see. Then ask students to list a reason for each fact that would explain to whom, why, and how that makes the symbol or person important. (W.K.2) Lastly, ask the students to vote on the two most important facts and use a “shared pen” or “shared keyboard” technique to write a response to the question. (W.K.6, L.K.1a-f, L.K.2a-d, L.K.6) ○ Prompt students to copy two or three facts from the class list into their notebook. (W.K.2, L.K.1a, L.K.2c) ○ Then ask them to write a response to following question: “How are you going to remember this symbol or person?” (RI.K.2, W.K.1, W.K.8) ○ This journal will be used to record information about people and symbols throughout the rest of the unit and will be used in the Culminating Writing Task.

Using previously learned information about George Washington, students will continue to understand him as a great leader in our history.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students answer questions about the read-aloud text and add pages to the unit vocabulary dictionary. They sequence events in George Washington’s life using the terms <i>first</i>, <i>next</i>, and <i>last</i> to retell the events. Lastly, students add sentences to their What is America? journal.</p>

1ST GRADE UNIT PLANS

1ST GRADE UNIT PLANS

1st Grade Units at a Glance

Note: The text complexity is very complex for the first sets, as most of these texts are to be used for reading aloud to students. The later units contain some texts that students should be able to read on their own and with teacher support. The units are ordered based on their content, taking into account connections with science and social studies and the best order to build student knowledge across the year.

Anchor Text	Unit Focus	Text Complexity*	Content and Standards	Recommended Time of Year
<i>Frogs</i> , Gail Gibbons (Page 183)	Frog and toad life cycles across the seasons	Very complex	Understanding vocabulary and punctuation to determine meaning in text, distinguishing between literary and informational texts, writing in response to texts	Beginning to middle of year
<i>Rumpelstiltskin</i> , The Brothers Grimm (Page 210)	Fairy tales	Very complex	Vocabulary and language development, describing character traits, determining lessons in texts, comparing and contrasting characters and texts	Beginning to middle of year
<i>Mooncake</i> , Frank Asch (Page 239)	The moon, patterns, shadows	Moderately complex to very complex	Vocabulary and sentence structure, using informational texts to verify what is real or imaginary in literary texts, comparing and contrasting the experiences of characters across texts	Middle of year
<i>Spiders</i> , Gail Gibbons (Page 261)	Spiders, folktales and facts	Moderately complex to very complex	Vocabulary and language development, character motivation, and informational research	Middle of year
<i>Amelia Bedelia</i> , Peggy Parish (Page 284)	Clear communication	Moderately complex to very complex	Determining and using different parts of speech, determining multiple meanings of words, comparing and contrasting characters and ideas across texts	Middle of year
<i>Duck for President</i> , Doreen Cronin (Page 303)	Citizenship, elections, the presidency	Moderately complex to very complex	Vocabulary and content exploration through various texts, writing, and speaking in response to texts and unit content	End of year

* **Readily accessible text:** The language (words, sentence structure) might be at or below grade level but the content is complex and suitable for the grade level or the language is at grade level and the content is less complex.

Moderately complex text: The language is at grade level and the content is suitable for the grade level.

Very complex text: The language is at or slightly above grade level and the content is significantly complex.

² The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and should focus on a [progression of skills](#) that are formally assessed at various points throughout the year.

Frogs Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK³

This is a multiday assessment. Have students write a report about frogs after rereading the anchor text. ([RI.1.1](#), [RI.1.2](#), [RI.1.8](#), [W.1.7](#), [W.1.8](#))

Have students respond to the following prompt: Using the book *Frogs* by Gail Gibbons and a vocabulary chart, write a report on frogs that includes information on each of these:

- frog eggs
- tadpoles
- frog enemies
- what frogs eat

The report should include illustrations to support your writing and words from the vocabulary chart. ([W.1.2](#), [SL.1.5](#), [L.1.6](#))

A sample lesson with student work for this prompt is available [here](#).⁴

This sample process describes how to complete the task as described in the lesson above:

- It will take approximately two to three class sessions for students to complete their reports after rereading *Frogs* by Gail Gibbons.
- Allow adequate time for selecting and organizing notes, drawing, and writing (days 2-4).
- Begin projecting the section in *Frogs* about frog eggs. Have students read along and then select facts they learned and write them into their report.
- On the next day, project the section in *Frogs* about tadpoles. Have students read along and then select facts they learned and write them into their report.
- On the last day, project the rest of the book about frog enemies, what they eat, etc. Have students read along and select facts they learned and write them into their report.

Teacher Notes:

- *Students are asked to write an informational report about different topics they have learned about throughout the unit. ([W.1.2](#)) The completed writing should use words from the unit vocabulary chart, including descriptive words and phrases. ([L.1.1f](#), [L.1.6](#))*

³ Culminating Writing Task: Students express their final understanding of the anchor text and demonstrate meeting the expectations of the standards through writing.

⁴ http://schools.nyc.gov/NR/ronlyres/8209508D-1B0D-4730-ABBE-3225611E13E8/0/NYCDOEG1LiteracyFrogs_Final.pdf

- Students should write in complete sentences, using various nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [h](#), [i](#), [j](#); [L.1.2d](#), [e](#)) Provide [sentence frames](#)⁵ for students who need help writing complete sentences. (Sentence frames for this task are available at the link above.) The sentences should be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))

COLD-READ TASK⁶

Have students view a selected section of *Frog on His Own* by Mercer Meyer. (**Teacher Note:** Students may view either the wordless picture book or the video available through [DiscoveryEducation.com](http://www.discoveryeducation.com).⁷) Then **have them answer** a combination of multiple-choice and constructed-response questions⁸ about the text and in comparison to the other texts in the unit. Students should be expected to write a response to at least one of the questions. ([L.1.1a-j](#), [L.1.2a-e](#), [L.1.6](#)) Provide [sentence frames](#)⁹ for students who need help writing complete sentences. Sample questions:

1. Read aloud the following questions for students to answer orally: “Describe the main characters in this story. Are the main characters friends? How do you know?” ([RL.1.1](#), [RL.1.3](#))
2. Read aloud the following questions for students to answer in writing: “What problem(s) does the frog encounter in this story? What could the frog say or write to resolve his problem(s)?” ([RL.1.1](#), [RL.1.2](#), [RL.1.3](#), [RL.1.7](#))
3. Read aloud the following question for students to answer in writing: “What descriptive words or phrases would you include if you were retelling this story?” ([RL.1.1](#), [RL.1.3](#), [RL.1.4](#), [RL.1.7](#), [L.1.1f](#), [L.1.6](#))
4. Read aloud the following question for students to answer orally: “What in this text could happen in real life? What is not real?” ([RL.1.1](#), [RL.1.5](#), [RL.1.7](#), [RI.1.9](#), [W.1.8](#))

EXTENSION TASK¹⁰

1. Review the book *Tuesday*. Tell students, “We are going to write a class book for what might happen if frogs flew to our school on a Wednesday.”
2. As a class, ask students to brainstorm what could happen if the frogs flew to the school on a Wednesday. ([SL.1.1a-c](#), [SL.1.4](#)) Record these ideas on chart paper or using a projection device.
3. Assign, or let students choose, an idea from the chart. Have each student create an illustration and write an exclamatory sentence using interjections to go with the illustration. If time allows, work with students to type their exclamation. ([W.1.6](#), [SL.1.5](#), [L.1.1j](#), [L.1.2b](#))
4. As a class, sequence the completed illustrations following the schedule for the school day (e.g., the frogs might fly through the cafeteria at lunch before flying through the playground at recess). Then create the text of the story through [shared writing](#).¹¹ ([W.1.3](#), [W.1.7](#))
5. Focus students on expanding sentences using prepositional phrases and adjectives (e.g., If students say, “The frogs fly on their lily pad,” model how to expand the sentence to say, “After they fly through the classroom, the frogs soar on their floating lily pad through the cafeteria.”) ([L.1.1f](#), [j](#); [L.1.6](#))
6. Compile the pages into a class book to be placed in the classroom library or to display on a class bulletin board.

Teacher Notes:

- Students are asked to create a page for a class book in which they illustrate one idea of what might happen if frogs flew to the school on Wednesday. The illustration should also include an appropriate exclamatory sentence. ([W.1.3](#)) The completed writing should use words from the vocabulary dictionary, including frequently occurring prepositions and adjectives. ([L.1.1f](#), [j](#); [L.1.6](#))
- Students should write in complete sentences, using various nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [h](#), [i](#), [j](#); [L.1.2d](#), [e](#)) Provide [sentence frames](#)¹² for students who need help writing complete sentences and using interjections. The sentences should be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))

¹⁰ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹³ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

ONGOING READING FOUNDATIONAL SKILLS

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. Reading foundations, writing, and language development are essential in grades K-2.

There are three core skills to build at the beginning of the year in first grade:

1. Knowing and applying word analysis skills in decoding grade-appropriate words (e.g., decoding words with /ch/, /th/, /sh/, /wh/, /ai/, /ea/, /y/, /oa/, and /oo/; regularly spelled one-syllable words; and words with inflectional endings, such as -ing, -ed, and -es)
2. Demonstrating reading fluency and expression when reading grade-appropriate texts
3. Using context to confirm or self-correct word recognition and understanding in grade-appropriate texts

Teachers must determine when and what is taught based on their specific student needs. Use ongoing assessments to determine skill mastery and deficiencies.

Teachers may consult additional sources for support in teaching the skills (e.g., [Tier 1 reading foundational programs](#),¹⁴ [Florida Center for Reading Research](#),¹⁵ [Building the Foundation from the Center on Instruction](#),¹⁶ and [Phonemic Awareness in Young Children: A Classroom Curriculum](#),¹⁷ or basal textbooks).

Instructional Note: Most foundational skills will be taught during small-group reading and small-group writing instruction. Determine when and what is taught based on student needs. See the [ELA Instructional Framework](#)¹⁸ for additional information.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

Unit Note: The first three to four weeks of school are used to establish routines and classroom organization. Teachers will likely not begin this unit until those have been established. Read books with students that have content well suited for the beginning of school (e.g., *First Day Jitters* by Julie Danneburg [RL.K.10, RI.K.10]). (Sample questions: “Why won’t Sarah get out of bed? Were you surprised at the end? Let’s look back through the pictures. Can we figure out who Mrs. Hartwell/Sarah is before the end?”) Conduct [shared writing](#)¹⁹ activities, such as class books. Create various [anchor charts](#).²⁰

NOTE ABOUT THE LESSONS: Throughout this unit, students build knowledge about vocabulary, frogs, and fantasy and reality. Students progressively build knowledge using the following tools throughout the unit.

- **Unit Vocabulary Dictionary:** Students create entries for a class dictionary based on words from the texts read in the unit. Students work with the teacher to define the word, use it in a sentence, and illustrate its meaning. Begin in Lesson 1.
- **Frogs Chart:** Create a class Frogs chart with four columns: (1) Part of a Frog (Noun), (2) Trait (Adjective), (3) Use/Purpose (Verb), and (4) Additional Details (Prepositional Phrase). Have students keep track of the various words used to refer to frogs and begin to understand more complex sentence structure. Begin in Lesson 1.
- **Fantasy versus Reality Chart:** Create a class chart of details and events that occur in the stories that could not really happen. As evidence and facts are discovered through reading informational texts, complete a second column of the chart that explains how the class knows the event could not really happen, citing where the information is found. Begin in Lesson 3.

(Teacher Note: The text <i>From Tadpole to Frog</i> by Wendy Pfeffer provides good information about how frogs and tadpoles behave, grow, and change through the seasons and would be a good text to pair with <i>Frog and Toad All Year</i> instead of “The Life Cycle of a Frog.” There is an illustration on page 10 that might be considered questionable to show students at this age. If teachers choose to use the book, though, they can cover the illustration with paper or the text can be read without showing the illustration. A guided reading lesson for <i>From Tadpole to Frog</i> is available here.³¹)</p> <p>TEXT FOCUS: Similar to the previous lesson, these texts provide an opportunity for students to compare a fictional text to an informational text focused around the seasons. In kindergarten, students learned about the various seasons and how animals respond. Students build on that knowledge in this unit by focusing on the actions of frogs within each season and how the frog’s life cycle occurs across the seasons. Use a similar process for reading and understanding <i>Frog and Toad All Year</i> as was used in Lesson 3. Focus on comparing and contrasting the experiences of Frog and Toad and comparing their actions across the season to the descriptions in “The Life Cycle of a Frog.” (RL.1.5, RL.1.9) Provide students with a four-section chart labeled with the four seasons to summarize through shared writing key details from <i>Frog and Toad All Year</i>. Rumpelstiltskin Unit Overview

⁵ The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and focus on a **progression of skills** that are formally assessed at various points throughout the year.

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK⁶

Have students respond to the following prompt: “Explain why *Rumpelstiltskin* is a fairy tale. Provide at least two reasons and examples.” ([RL.1.1](#), [RL.1.2](#), [RL.1.3](#), [W.1.2](#))

Teacher Notes:

- Students determine the elements of a fairy tale and explain how *Rumpelstiltskin* fits the characteristics. The completed writing should use words from classroom resources, including conjunctions that signal a simple relationship (e.g., because and so) and frequently occurring adjectives. ([L.1.1g](#), [L.1.6](#))
- Prompt students to use the notes from the unit, including the Elements of Fairy Tales chart, for *Rumpelstiltskin*.
- Students should write in complete sentences, using various nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [f](#), [g](#), [h](#), [i](#), [j](#); [L.1.2d](#), [e](#)) The sentences should be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))

([L.1.1a-j](#), [L.1.2a-e](#), [L.1.6](#)) Provide [sentence frames](#)⁹ for students who need help writing complete sentences. Sample questions:

1. Prior to reading about the white mouse’s investigation of the object near the pond, read aloud the following questions for students to answer in writing: “Are any of the mice right? What do you think the object near the pond is? Why?” ([RL.1.1](#), [RL.1.7](#), [W.1.1](#))
2. Read aloud the following questions for students to answer orally: “Describe the main characters of this story.” ([RL.1.1](#), [RL.1.3](#))
3. Read aloud the following questions for students to answer in writing: “Fill out the following chart to identify what the mice recognize when they investigate the object near their pond and what the object actually is.” (Teacher Note: Students may require some support to identify *elephant’s tusk* for the yellow mouse.) ([RL.1.1](#), [RL.1.2](#), [RL.1.6](#), [RL.1.7](#))

Character	What the character thinks the object is	What the object actually is
Red mouse	A pillar	An elephant’s foot
Green mouse		
Yellow mouse		
Purple mouse		
Orange mouse		
Blue mouse		

4. Read aloud the following questions for students to answer orally: “Why do the mice *disagree*? How can the mice think the same object is different things?” ([RL.1.1](#), [RL.1.2](#), [RL.1.3](#), [RL.1.4](#), [RL.1.7](#))
5. Read aloud the following questions for students to answer orally: “How is the seventh mouse able to get the mice to agree?” ([RL.1.1](#), [RL.1.2](#), [RL.1.3](#), [RL.1.7](#))
6. Read aloud the following question for students to answer orally: “Is this story an example of a fairy tale? Why or why not?” ([RL.1.1](#), [RL.1.5](#))

⁷ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁸ Ensure that students have access to the complete texts as they are testing.

7. Read aloud the following questions for students to answer orally: “Explain the provided moral of the story. What real-life lesson can be learned from the experiences of the mice? What does this text teach you about how you should approach a new situation?” ([RL.1.1](#), [RL.1.2](#), [RL.1.7](#))

EXTENSION TASK¹⁰

1. Ask students to choose a character from one of the fairy tales read in class.
2. Ask students to consider these questions: “What would you like to say to this character about the events of the story? What questions would you ask?”
3. Model for students how to brainstorm answers to the two questions based on a character not likely to be selected by many students.
4. Prompt students think about their own answers for the character they selected.
5. Divide the class into pairs. Ask students to select a character and share that character’s name with their partner.
6. Have students write down the questions they would ask. ([W.1.1](#), [L.1.1.j](#)) Provide students with [sentence frames](#)¹¹ to support them in writing complete interrogative sentences.
7. Prompt students to ask their partners the questions they developed, and have the partner respond as that character. ([RL.1.1](#), [RL.1.3](#), [SL.1.1a-c](#), [SL.1.3](#))
8. Have the pairs write their own fairy tale using the provided organizer and story structure on pages 173 and 175 of the [Domain 9 Read-Aloud Anthology](#)¹² from Core Knowledge Grade 1 Listening and Learning Strand. ([W.1.3](#), [W.1.7](#))
9. Make sure pairs include the elements of fairy tales studied in class. ([RL.1.2](#), [RL.1.3](#))

Teacher Notes:

- *Students are asked to develop questions about a character in one of the fairy tales and then respond to a peer’s written questions from the point of view of the character from one of the fairy tales. They are then asked to write a fairy tale with their partner incorporating the elements discussed throughout the unit. The completed writing should use words from the vocabulary dictionary, including frequently occurring adjectives, to develop character traits. ([L.1.1f](#), [L.1.6](#))*
- *Students should write in complete sentences, using various nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [h](#), [i](#), [j](#); [L.1.2d](#), [e](#)) The sentences should be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))*
- *Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))*
- *If time allows, work with students to type their letters and/or responses. ([W.1.6](#))*

¹⁰ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹³ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

NOTE ABOUT THE LESSONS: Throughout this unit, students will build knowledge about vocabulary and characters in and elements of fairy tales. Students will progressively build knowledge using the following tools throughout the unit.

- **Unit Vocabulary Dictionary:** Students create entries for a class dictionary based on words from the texts read in the unit. Students work with the teacher to define the word, use it in a sentence, and illustrate its meaning. Begin in Lesson 2.
- **Fairy Tales Learning Log:** Students create and maintain an [interactive notebook](#)¹⁴ that contains a section for each story read in the unit. For each story read, students complete the following. Begin in Lesson 2.
 1. **Character Foldable:** Students name, illustrate, and describe the main characters from each story read in the unit. On the front of the tab, students illustrate the character and write the character's name. Underneath each flap, students write a description of the character, including adjectives. Each foldable can include more tabs to accommodate more characters, as necessary. Students build skill in capitalizing proper nouns, distinguishing proper nouns from common nouns, and using adjectives to describe the characters and their traits.
 2. **Things That Come in Threes Flip Book:** Students identify and give a written explanation of events that occur in threes in the stories. Each tab of the flip book identifies an element that comes in threes (e.g., three wishes, three tries). On each page, students name the stories that contain the element and provide an explanation of how that element is included. A model is available from [ReadWriteThink.org](#).¹⁵
 3. **Elements of Fairy Tales Chart:** Students complete this chart for each fairy tale in this unit, using the chart located on [page 151 of the Domain 9 Read-Aloud Anthology](#)¹⁶ from Core Knowledge Grade 1 Listening and Learning Strand.

TEXT SEQUENCE	TEXT USE
LESSON 1: ¹⁷ “The Brothers Grimm Fairy Tales and Stories”	<p>TEXT DESCRIPTION: This text provides a short biography of the Brothers Grimm. It tells briefly about their lives and why they chose to write fairy tales.</p> <p>TEXT FOCUS: This text provides a starting point for this unit and provides students exposure to another type of informational text (biographies). Read the biography to students and discuss the type of information it provides. (RL.1.5, RI.1.1, RI.1.2) Create a timeline of when the Brothers Grimm lived and wrote so students identify the age of the unit fairy tales. Have students demonstrate their understanding of biographies by working with a partner to write one. Each pair should work together to identify their full names, when and where they were born, and what they like to do (or other questions similar to the Grimm biography). Then students should present a brief oral biography of their partner to the class. (SL.1.1a-c, SL.1.3, SL.1.4, SL.1.6)</p>

<p>LESSON 4:</p> <p><i>Rapunzel</i>, Brothers Grimm (pages 44-47 from Domain 9 of the Core Knowledge Grade 1 Listening and Learning Strand Read-Aloud Anthology)³⁵</p>	<p>TEXT DESCRIPTION: A man is caught stealing from the garden of a witch. He promises to give the witch his child when it is born. The witch takes the girl, Rapunzel, to a high tower in the forest that can only be entered by Rapunzel letting down her hair. A prince discovers this and begins to visit Rapunzel. When their friendship is discovered by the witch, Rapunzel is sent deep into the forest, and the prince is blinded after he falls from the tower. Rapunzel and the prince are reunited in the forest, she helps him see again, and they marry and live happily ever after.</p> <p>TEXT FOCUS: At this point, students have been exposed to a number of fairy tales. The information they have gathered will be used to compare and contrast stories and to strengthen and increase their skills.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students engage in multiple readings of <i>Rapunzel</i>. They work in small groups and/or pairs to build their knowledge of the text and the fairy tale elements present in a story, and consider why <i>Rapunzel</i> should be classified as a fairy tale. Students continue to work on vocabulary and creating the Fairy Tales Learning Log. The lesson concludes with students using the various elements charts to begin comparing and contrasting the stories.</p> <p>READ THE TEXT:</p>

	<ul style="list-style-type: none"> • Pre-Reading: Ask students to review the <i>Sleeping Beauty</i> and <i>Rumpelstiltskin</i> sections of their Fairy Tales Learning Log. Briefly discuss what makes those two stories examples of fairy tales. • First Reading: Read aloud <i>Rapunzel</i> on pages 44-47 of the <i>Domain 9 Read-Aloud Anthology</i> from Core Knowledge Grade 1 Listening and Learning Strand. • Word Work: Continue building a class unit vocabulary dictionary that students can rely on in their writing. (L.1.6) <ul style="list-style-type: none"> ○ Use a similar process to that used in Lesson 2. ○ For <i>Rapunzel</i>, focus on adding the following words to the unit vocabulary dictionary: <i>longed, worried, desires, delight, merciful, condition, flustered, loneliness, betrayed, and wander/wandered/wandering.</i> • Student Practice: Divide the class into small groups. Work with each small group to check their understanding of the main events of the story. Provide the groups with the images³⁶ for <i>Rapunzel</i>. Ask the groups to sequence the images, and then collectively retell the events of the story by taking turns, with each student telling a single event based on a single image. Evaluate how well individual students are able to retell their particular events. ² The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and should focus on a [progression of skills](#) that are formally assessed at various points throughout the year.

Mooncake Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK³

Have students respond to the following prompt: “Choose a character we’ve read about. What does this character not understand about the moon? Write a letter to your character that explains what they need to know to clear up their misunderstanding. Be sure to include at least one fact from the texts we have studied.” ([RL.1.2](#), [RL.1.5](#), [W.1.8](#))

Teacher Note:

- Students are asked to select a character, identify what that character misunderstands about the moon, and clear up that character’s confusion, drawing on information learned from the informational texts in the unit. ([W.1.2](#)) The completed writing should use words from the word displays, including conjunctions that signal simple relationships (e.g., because) and frequently occurring adjectives. ([L.1.1f](#), [g](#); [L.1.6](#))
- Students should write in complete sentences, using various nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [h](#), [i](#), [j](#); [L.K.2d](#), [e](#)) Provide [sentence frames](#)⁴ for students who need help writing complete sentences. The sentences should also be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))

COLD-READ TASK⁵

Read aloud⁶ *Papa, Please Get the Moon for Me* by Eric Carle to individual students. Ask students to independently answer a combination of orally read multiple-choice and constructed-response questions⁷ about the text and in comparison to other texts in the unit. Students should be expected to write a response to at least one of the questions. ([L.1.1a-j](#), [L.1.2a-e](#), [L.1.6](#)) Provide [sentence frames](#)⁸ for students who need help writing complete sentences. Sample questions:

1. Ask the student: “What happens in this story that is real? What is imaginary?” ([RL.1.1](#), [RL.1.5](#))
2. Ask the student: “Explain to Monica why Papa can’t get the moon for her.” ([RL.1.2](#), [RL.1.7](#))
3. Ask the student: “How are Papa and Bear alike? Describe both of them and what is similar.” ([RL.1.3](#), [RL.1.7](#), [RL.1.9](#))
4. Ask the student: “What facts does the author know about the moon? Select a drawing that illustrates the author’s knowledge of this fact. Why did you select this illustration?” ([RL.1.5](#), [RL.1.7](#), [RI.1.3](#), [RI.1.9](#))

⁵ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁶ If students are already reading, allow them to read the text. This should be based on individual student ability.

⁷ Ensure that students have access to the print text as they are testing; while students may not be able to read the words, they can refer to the pictures.

EXTENSION TASK⁹

Create a class book called *Moon Facts*.

Have each student complete a page for the class book by selecting three facts about the moon (learned from the texts read in class or based on verified outside knowledge or observations from the Moon Facts and Fiction class chart) to write about in complete sentences. ([W.1.2](#), [W.1.7](#), [W.1.8](#)) Then ask students to illustrate their page. ([SL.1.5](#)) When students have completed their pages, have them share their facts and page with the class. ([Sample student work](#)¹⁰) ([SL.1.4](#), [SL.1.6](#)) After the book is complete and the pages have been presented, place the book in the classroom library for students to read independently. ([RF.1.4a](#), [c](#)) If time allows, engage students in digitally publishing the class book. ([W.1.6](#))

Teacher Note:

- Students are asked to write about the moon, supply some facts about the moon, and provide a sense of closure. INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹² to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level,
2. instruction for different learners using grade-level texts to support whole-class instruction, and
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs,
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards, and
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

TEXT SEQUENCE	TEXT USE
<p>LESSON 1:¹³</p> <p><i>Moondance</i>, Frank Asch (Read Aloud)</p>	<p>TEXT DESCRIPTION: <i>Moondance</i> introduces students to Bear or Moonbear, who loves the moon. Through a series of books, Bear tries to dance with the moon, travel to the moon, eat the moon, play hide-and-seek with the moon, etc. In <i>Moondance</i>, Moonbear tries to dance with the moon. Students are left to judge whether Bear is successful.</p> <p>TEXT FOCUS: This text provides opportunities for students to read and understand a complex text with teacher support. Students will closely examine the vocabulary (RL.1.4; L.1.4a; L.1.5a, d; L.1.6) and identify the main (and recurring) character of Bear. They will explore his interactions with the moon over the course of this and several texts by the same author. (RL.1.3, RL.1.7) In particular, this text invites students to determine the misconceptions Bear has based on previous learning they gained in kindergarten.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students listen to <i>Moondance</i> read aloud and study the vocabulary as the text is displayed or projected. Then, working with a partner, students view the illustrations to retell the story and summarize the story as a class. Finally students engage in a shared writing followed by independent writing in which they write a note to Bear.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • First Reading: Read the text aloud to students. Only interrupt minimally as needed to define any essential vocabulary for basic understanding of the text. Allow students the opportunity to appreciate and fully engage in the text. • Second Reading: Read aloud the text to students and display or project the text. • Class Discussion: Lead a teacher-guided discussion in which students ask and answer questions to demonstrate their understanding of the text. <ul style="list-style-type: none"> ○ Encourage student question asking by providing question frames or conversation starters¹⁴ and developing a routine to monitor that all students are participating in the question asking and answering. (SL.1.1a-c, SL.1.2, SL.1.3, SL.1.6) ○ Focus the discussion on identifying and describing the characters, setting, and major events of the text. Prompt students to refer to key details and illustrations to support their answers. (RL.1.1, RL.1.3, RL.1.7) ○ As students provide answers, keep track of the descriptions and events on a class graphic organizer or chart,

¹³ **Note:** One lesson does not equal one day. Teachers should determine how long to take on a given lesson. This will depend on each unique class.

(L.1.6) <ul style="list-style-type: none"> ○ Project the text and ask students to locate and define in context academic vocabulary words that suggest feelings or appeal to the senses (e.g., <i>suggested</i>, <i>chuckled</i>, <i>cried</i>, <i>replied</i>, <i>asked</i>, <i>sighed</i>, <i>gazed</i>, <i>looking</i>, <i>watched</i>). (RL.1.4, L.1.4a) ○ Discuss with students the similarities among the words (i.e., they are different ways we can say or do something) and sort them into categories (Say and Do). (L.1.5a) ○ Then ask students to identify the differences by discussing the shades of meaning among the words. To support students in understanding this concept, have student pairs act out the words, and discuss what makes their demonstrations different. (L.1.5d) ○ Reinforce the understanding of these words in a literacy station activity. For example, students could act out the words and have a partner guess the word. • Third Reading: Divide the class into pairs. Read aloud the first page of <i>Moondance</i> and then display or project the illustrations of the text. <ul style="list-style-type: none"> ○ Have each partner take turns telling the other partner the next event that happens in the text as each illustration is shown. If a partner needs help, prompt the other partner to ask questions for clarification or offer feedback. Model as needed. (RL.1.1, RL.1.2, RL.1.3, RL.1.7, SL.1.2, SL.1.3) ○ Stop at various moments in the retelling to ask pairs questions about the key details in the text to determine what Bear wants and how his problem is solved. Sample questions: What is Bear confused about? Identify key details that make this book imaginary. (RL.1.5) ○ When the retelling is done, complete a Somebody-Wanted-But-So chart as a class to summarize <i>Moondance</i>. Post the summary so students can refer to it during the shared writing.

<p>LESSON 2:</p> <p><i>Mooncake</i>, Frank Asch (Read Aloud)</p>	<p>TEXT DESCRIPTION: Moon Bear decides the moon looks good enough to eat. He builds a rocket to travel to the moon, although he falls asleep before his rocket takes off. Bear wakes up, thinks he has made it to the moon (because he has never been awake during the winter), explores the moon, and makes a “mooncake.” He returns home and tells Bird about his trip to the moon.</p> <p>TEXT FOCUS: Focus the first read aloud of this text on identifying and describing how Bear feels about the moon. (RL.1.3) During subsequent reads, display or project particular words, sentences, passages, and/or pictures so students can interact with the print of the text, particularly the vocabulary. (RL.1.4) Additionally, explore Bear’s interactions with the moon, retelling the major events and demonstrating an understanding of point of view. (RL.1.1, RL.1.2, RL.1.6)</p>
<p>LESSON 3:</p> <p><i>Goodnight Moon</i>, Margaret Wise Brown</p> <p><i>Mooncake</i>, Frank Asch (Read Aloud)</p>	<p>TEXT DESCRIPTION: In <i>Goodnight Moon</i>, Bunny talks to the moon as it disappears from the sky and she falls asleep. In <i>Mooncake</i>, Bear mistakenly thinks he travels to the moon and makes a mooncake.</p> <p>TEXT FOCUS: <i>Goodnight Moon</i> serves as a model for thinking about misunderstandings we (or characters) have about the moon. Students will continue to explore <i>Mooncake</i> for Bear’s interactions with the moon, setting them up to establish the difference between what is real and imaginary and how we can use information from observations to clear up misunderstandings. Spiders Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK⁴

Have students respond to the following prompt: “Using the Spider Research booklet and class chart, write a report on your group’s assigned topic.

- Where spiders live
- What spiders look like
- How spiders catch their prey
- A spider’s life cycle

“The report should include an introductory sentence and information from the Spider Research booklet or class chart. Also include a closing that completes this statement: I think spiders are good and helpful or bad and harmful because _____. Include factual information to support your opinion.”

Teacher Notes:

- Students write an informational report about an aspect of spiders they have researched throughout the unit. They also conclude their report with an opinion statement about spiders, drawing on information from the informational texts in the unit. ([RI.1.9](#), [W.1.1](#), [W.1.2](#), [L.1.4b](#)) Students should use words from the unit dictionary, including conjunctions that signal simple relationships (e.g., because) and frequently occurring adjectives. ([L.1.1f](#), [g](#); [L.1.6](#))
- Students write in complete sentences, using nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [h](#), [i](#), [j](#); [L.1.2d](#), [e](#)) Provide [sentence frames](#)⁵ for students who need help. The sentences should be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))

COLD-READ TASK⁶

Have students independently read⁷ the first entry (March 1) and one other entry of their choice from *Diary of a Spider* by Doreen Cronin. ([RL.1.10](#)) Have **them answer** a combination of multiple-choice and constructed-response questions⁸ about the text and in comparison to the other texts in the unit. Sample questions:

1. Read aloud the following questions while students read along: “What facts about spiders did the author have to know in order to write these entries? How do you know?” ([RL.1.5](#), [RL.1.7](#), [RI.1.3](#)) Have students write their response in complete sentences. ([L.1.1a-j](#), [L.1.2a-e](#), [L.1.6](#)) Provide [sentence frames](#)⁹ for students who need help writing complete sentences.
2. Read aloud the following questions while students read along: “What events from the text are things human do as opposed to things spider do? ([L.1.1a-j](#), [L.1.2a-e](#), [L.1.6](#)) Provide [sentence frames](#)¹⁰ for students who need help.
3. Read aloud the following questions while students read along: “Are spiders shown as helpful or harmful in this text? ⁶ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁷ Some students may still need reading support. This should be based on individual student ability.

⁸ Ensure that students have access to the complete texts as they are testing.

EXTENSION TASK¹²

Have students create their own story about a spider catching its prey. ([RI.1.9](#))

To complete this task, engage students in the following process:

1. Have students select a type of spider.
2. Ask them to determine how the spider catches its prey and write out or illustrate the steps in order.
3. Provide students with a story starter. For example:

Spider was hungry. His stomach was growling. So he thought, “Today I must catch my prey. What will I do?”

4. Ask students to complete the story as the spider using the steps they already developed, using temporal words to signal event order, as well as words from the unit vocabulary dictionary. ([W.1.3](#), [W.1.8](#), [L.1.1a-i](#), [L.1.2a-e](#), [L.1.6](#))
5. Ask students to illustrate their story. ([SL.1.5](#))
6. Prompt students to work with a peer or small group to strengthen writing by revising to expand sentences and using words from the word display. ([W.1.5](#), [L.1.1j](#), [L.1.6](#))
7. Have students share their story with the class, speaking in complete sentences. ([SL.1.4](#), [SL.1.6](#))

After each story has been presented, place the stories in the classroom library for students to read independently. ([RF.1.4a](#), [c](#)) If time allows, engage students in digitally publishing their stories. ([W.1.6](#))

Teacher Notes:

- *Students are asked to write a story from a spider’s point of view, identifying the process the spider follows to catch its prey and providing a sense of closure. ([W.1.3](#)) The completed writing should use words from the word displays, including conjunctions that signal simple relationships (e.g., because) and frequently occurring adjectives. ([L.1.1f](#), [g](#); [L.1.6](#))*
- *Students should write in complete sentences, using various nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [h](#), [i](#), [j](#); [L.1.2d](#), [e](#)) Provide [sentence frames](#)¹³ for students who need help writing complete sentences. The sentences should be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))*
- *Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))*

¹² **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹⁴ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

NOTE ABOUT THE LESSONS: Throughout this unit, students will build knowledge about vocabulary, characters in folktales, and spiders. Students will progressively build knowledge using the following tools.

- **Unit Vocabulary Dictionary:** Students create entries for a class dictionary based on words from the texts read in the unit. Students work with the teacher to define the word, use it in a sentence, and illustrate its meaning. Begin in [Lesson 1](#).
- **Anansi Character Description Chart:** Students pull words and phrases from the various texts read in the unit to describe the character of Anansi/Spider. They write the words on sentence strips or index cards and glue or tape them to a class chart. Begin in [Lesson 1](#).
- **Spider Research:** Student groups create individual booklets to gather and record information about an assigned topic related to spiders: (1) Where spiders live, (2) What spiders look like, (3) How spiders catch their prey, (4) A spider's life cycle. As the groups collect information, students also create a class chart to gather and record details for all topics. This information will be used as prewriting for the Culminating Writing Task. Begin in [Lesson 4](#).

<p>LESSON 2:</p> <p><i>“Anansi Saves Antelope” from One-Hundred-and-One African American Read-Aloud Stories, Susan Kantor</i></p>	<p>TEXT DESCRIPTION: This read-aloud story is about the character of Anansi, who is saved from a fire by an antelope. He then repays the favor by saving the antelope’s baby.</p> <p>TEXT FOCUS: This text provides another view of Anansi as a helper.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students learn more about the character of Anansi in this story. They examine the main idea of the story and use a Socratic seminar to question the reasons characters act as they do.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • First Reading: Read the text to students. Only interrupt minimally as needed to define any essential vocabulary for basic understanding of the text. Allow students the opportunity to appreciate and fully engage with the text. Following the reading, provide time for students to ask questions and/or provide information useful in “picturing” and understanding the story. For example: What is a savanna? What is an antelope? (RL.1.1) • Second Reading: Reread the text aloud. Following the reading, provide time for students to ask questions and/or provide information about the characters and their actions. (RL.1.1, RL.1.3) For example: How would you describe Anansi? Why does Antelope carry Anansi out of the fire? • Word Work: Continue building a class Unit Vocabulary Dictionary that students can rely on in their writing. (RI.1.10, RF.1.3a-g, RF.1.4a-c) • Note for Small-Group Reading: <i>Mighty Spiders</i> can also be used for foundational skills instruction, as it contains rhyme. For example, have students find words that have the inflectional ending <i>-ing</i> throughout the text. Have students independently record these words on a chart in which they write the word and circle the base/root word. (RF.1.3f, L.1.4c) Then have students use four to six of the words appropriately in different sentences. When Billy leaves his pet spider Helen at the zoo, she is able to help out with the zoo’s fly problem. That is, until all the spider webs are removed to clean the zoo for the mayor’s visit. Once they realize the error they made, the zookeepers make a new rule: Be nice to spiders.</p> <p>TEXT FOCUS: Use this text to continue building a unit vocabulary dictionary by adding words from the text that relate to feelings, such as <i>contented</i>, <i>satisfied</i>, <i>annoyed</i>, and <i>miserable</i>. Ensure that students are able to describe the characters, setting, and events, and retell the details of the story. ¹ The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and should focus on a [progression of skills](#) that are formally assessed at various points throughout the year.

Amelia Bedelia Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK²

Have students respond to the following prompt: “Select one of the career books we’ve read in class. Identify at least three words or phrases that might confuse Amelia Bedelia.³ Explain why Amelia Bedelia might be confused by those words or phrases. Include vocabulary from your notes taken while we read the texts.” ([RL.1.3](#), [RI.1.4](#), [W.1.2](#), [W.1.7](#), [L.1.4a](#))

Teacher Notes:

- Students are asked to identify three multiple-meaning words or phrases and explain the different meanings, focusing on the most appropriate use of the words or phrases based on context. The completed writing should use words from the charts and include conjunctions that signal simple relationships (e.g., because) and frequently occurring adjectives. ([L.1.1f](#), [g](#); [L.1.6](#))
- Students should write in complete sentences, using various nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [h](#), [i](#), [j](#); [L.1.2d](#), [e](#)) The sentences should also be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))

² Culminating Writing Task: Students express their final understanding of the anchor text and demonstrate meeting the expectations of the standards through writing.

³ For example, in a doctor’s office, Amelia might try to give patients a multiple-choice test when it is time for their *exam*.

COLD-READ TASK⁴

Watch “[Brain Imaging](#)”⁵ as a class twice and instruct students to take notes (similar to the process modeled in the *Spiders* unit).

Then have students independently read *A Day with a Doctor* by Jan Kottke.

Ask students to independently answer a combination of multiple-choice and constructed-response questions⁶ about the text and in comparison to other texts in the unit. (**Teacher Note:** Allow students to use their notes from the video. There is also a transcript provided with the video, so if students need help remembering details from the video, you or they can refer to the transcript as necessary.)

Sample questions:

1. Ask students to read and answer the following question independently. ([RI.1.1](#), [RI.1.2](#), [RI.1.4](#))

What is brain imaging?

- a. A way that doctors imagine
- b. A way for people to be healthy
- c. A way to look at the brain without surgery

2. Read the following question to students and have them answer it independently in writing: “Why do doctors need to *detect the damage* done to the brain?” ([RI.1.1](#), [RI.1.2](#), [RI.1.4](#), [RI.1.8](#)) Have students write their response in complete sentences. ([L.1.1a-j](#), [L.1.2a-e](#), [L.1.6](#))

3. Read the following question to students and have them answer it independently. ([RI.1.1](#), [RI.1.4](#))

What is the *clicking* and *clacking* in an MRI machine?

- a. A large magnetic field
- b. Instruments recording
- c. Moving water in the machine

4. Ask students to read and answer the following question independently in writing: “What does a doctor do?” ([RI.1.1](#), [RI.1.2](#), [RI.1.8](#), [RI.1.9](#), [W.1.2](#)) Have students write their response in complete sentences. ([L.1.1a-j](#), [L.1.2a-e](#), [L.1.6](#))

⁴ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁵ <http://kids.usa.gov/watch-videos/videos/brain-imaging-accessible/index.shtml>

⁶ Ensure that students have access to the print text as they are testing.

5. Ask students to read and answer the following question independently in writing: “What would Amelia need to know in order to be a doctor? List words, phrases, or ideas.” ([RI.1.1](#), [RI.1.2](#), [RI.1.9](#))

6. Ask students to read and answer the following question independently. ([RI.1.1](#), [RI.1.4](#), [W.1.8](#), [L.1.4a](#))

Identify one phrase Amelia Bedelia might be confused about in a doctor’s office.

- a. “Listen to your chest”
- b. “You have a fever”
- c. “Take medicine”

Why might Amelia Bedelia be confused by the phrase you chose? ([RL.1.3](#), [RI.1.3](#))

EXTENSION TASK⁷

- Begin the Extension Task after reading aloud *Hairy, Scary, Ordinary: What Is an Adjective?*; *A Mink, a Fink, a Skating Rink: What Is a Noun?*; and *To Root, to Toot, to Parachute: What Is a Verb?* By Brian P. Cleary in Lesson 1.
- On the last page of each text, it asks, “So what is a noun/verb/adjective? Do you know?” Have students view the illustrations on the last pages and create three lists (one each for nouns, verbs, and adjectives) based on the illustrations. ([L.1.5a](#))
- Divide the class into groups.
- Assign each group an area of the school (e.g., classroom, playground, lunchroom, library, etc.) to draw similar to the illustrations in the texts.
- Provide each group with a large bulletin-board-size piece of paper for their drawing.
- When the drawing is complete, ask the group to label the drawing with adjectives, nouns, and verbs for the objects and actions appropriate for that area. For example, on the large drawing of the lunchroom, students might label: *table, lunch line, hand-washing station, eat, wash, wait, delicious, smelly, noisy*. ([L.1.1b](#), [c](#); [L.1.5c](#))
- Allow students to work on their drawings until Lesson 6.
- Following the reading of *Punctuation Takes a Vacation* in Lesson 6, display the drawings around the classroom.
- Evaluate the labels as a class (i.e., each group presents their drawing and labels and asks the class if there are any that are missing or need to be refined). ([SL.1.3](#), [SL.1.4](#), [SL.1.5](#), [SL.1.6](#), [L.1.5d](#)) Have groups add any labels the class considers important for the particular area in the drawing. ([W.1.8](#))
- Ask students to select an area to write about (from the displayed drawings—it does not have to be their drawing) and write a narrative description of their experience in that area using the labels in their writing. ([W.1.3](#), [W.1.7](#)) For example, “Here is the lunchroom. I eat here every day. I bring my delicious lunch so I don’t have to wait in the lunch line. These kids sure are noisy! I like to eat.”

Teacher Notes:

- Students are asked to write a narrative description of their experiences in an area around school. ([W.1.3](#)) The completed writing should use words from the drawings and personal, possessive, and indefinite pronouns, and include conjunctions that signal simple relationships (e.g., because). ([L.1.1d](#), [L.1.1g](#), [L.1.6](#))
- Students should write in complete sentences, using various nouns, pronouns, verbs, adjectives, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [f](#), [h](#), [i](#), [j](#); [L.1.2d](#), [e](#)) The sentences should also be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))

⁷ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)⁸ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

We can’t just say the words; we have put them together in a sentence. <p>EXPRESS UNDERSTANDING:</p> <ul style="list-style-type: none"> • <u>Student Practice</u>: Engage students in writing using various parts of speech. <ul style="list-style-type: none"> ○ Quickly explain to students that the articles in English are <i>a</i>, <i>an</i>, and <i>the</i>. (L.1.1h) ○ Ask students to review the noun, verb, and adjective lists created in Lesson 1. (L.1.5a) ○ Discuss how the words on the various lists work together (along with articles) to communicate clearly and accurately. For example, in looking at the last illustration in <i>Hairy, Scary, Ordinary: What Is an Adjective?</i>, it is not clear enough to just say, “The orange cat.” It is necessary to say, “The orange cat is driving” or “The orange cat is eating ice cream.” (SL.1.1c) ○ Divide the class into groups of four and have the groups form a circle. ○ Provide each student with a piece of white paper with four columns (see below). ○ Ask students to write an article and an adjective in the first column, referring to the adjective chart from Lesson 1. Have students then fold the paper down the center of the column to cover only what they have written. (L.1.1a, f, h) ○ Have students pass the paper to the right. ○ Ask students to write a noun in the second column and fold the paper down the center of the column to cover only what they have written. (L.1.1b) ○ Have students pass the paper to the right again. ○ Repeat the process for the third column, having students write a verb. ○ Complete the process by having the next student add an ending punctuation mark. (L.2.b) ○ Return the papers to the student who wrote the original article and adjective.

<div>LESSON 5:</div> <div>“AP Spanish Cooking Video”</div> <div><i>In English, of Course</i>, Josephine Nobisso</div>	<div>TEXT DESCRIPTION: The video is of AP Spanish students demonstrating how to make an apple dessert. The text details an experience of an Italian student attempting to describe Italy in English, which is not her native language.</div> <div>TEXT FOCUS: Using the video provides an opportunity to discuss how there are many different ways to communicate and miscommunicate. While students can watch the video to determine what is happening, they likely cannot understand what is being said. Similarly, Amelia Bedelia and Mrs. Rogers are communicating, but they aren’t necessarily understanding each other. <i>In English, of Course</i> also provides an opportunity to discuss how people talk in many different languages and the challenges that come with explaining yourself when communication is difficult.</div> <div>MODEL TASKS</div> <div>LESSON OVERVIEW: Students watch a video in Spanish and then listen to <i>In English, of Course</i> read aloud. For both texts, students consider what makes the situations easy and difficult to understand. The lesson concludes with students comparing and contrasting Amelia Bedelia and Josephine as practice, and then writing a paragraph comparing Amelia, Josephine, and Bear from the <i>Mooncake</i> unit.</div>

Duck for President Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK⁵

Have students respond to the following prompt: “Write a paragraph explaining what Duck did in the story that is similar to what a real person would do to become president.” ([RL.1.2](#), [RI.1.9](#), [W.1.2](#))

Use the following process with students:

1. Provide students with a two-column chart similar to the following:

Steps to Become President	What Duck Did to Become President
1.	1.
2.	2.
3.	3.

2. Using “Candidates,” “Political Parties,” “Primary Election,” “National Conventions,” “National Conventions—An Inside View,” “Candidates at the Convention,” and “The Campaign” from “[Elections: Let’s Do the Election Slide!](#)” from *Congress for Kids* and the group posters from Lesson 9, write a sequenced list of what a candidate must do to become president in the first column of the provided chart. Allow students to work in pairs, as needed. ([W.1.7](#), [W.1.8](#), [SL.1.1a-c](#))
3. Then have students reread *Duck for President* in small groups. ([RL.1.10](#), [RF.1.3a-g](#), [RF.1.4a-c](#))
4. Using the two-column chart for prewriting, ask students to determine what steps Duck followed to become president. Have them add details from *Duck for President* to the second column when they correspond with steps in the first column. Some rows in the second column may be blank, which means that Duck did not follow that step. For example, he did not attend a national convention.
5. Have students write a paragraph in which they answer the above prompt.

Teacher Notes:

- Students are asked to explain and then compare two different processes. ([W.1.2](#)) The completed writing should use words from the vocabulary dictionary, including conjunctions that signal simple relationships and frequently occurring adjectives. ([L.1.1f](#), [g](#); [L.1.6](#))
- Students should write in complete sentences, using various nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and conventional spelling. ([L.1.1a](#), [b](#), [c](#), [d](#), [e](#), [h](#), [i](#), [j](#); [L.1.2d](#), [e](#)) The sentences should also be capitalized and punctuated correctly. ([L.1.2a](#), [b](#), [c](#))

⁵ Culminating Writing Task: Students express their final understanding of the anchor text and demonstrate meeting the expectations of the standards through writing.

- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.1.5](#))

COLD-READ TASK⁶

Have students independently read *My Teacher for President* by Kay Winters. ([RL.1.10](#)) Then ask students to independently answer a combination of multiple-choice and constructed-response questions⁷ about the text and in comparison to other texts in the unit.

Sample questions:

1. Ask students to read and answer the following questions independently: “Choose three of the reasons Oliver gives for why his teacher would be ‘just right’ for president. ([RL.1.1](#), [RL.1.2](#)) How are the experiences of Oliver’s teacher similar to the experiences the president has? ([RL.1.7](#), [W.1.2](#)) Write your response in complete sentences.” ([L.1.1a-j](#), [L.1.2a-e](#), [L.1.6](#))
2. Ask students to read and answer the following questions independently: “Write a list of the requirements a person must meet in order to become president. Use information from *My Teacher for President*, class charts, and notes from the unit to create your list.” ([RI.1.9](#), [W.1.8](#))
3. Ask students to read and answer the following questions independently: “Create a list of questions to ask your teacher to see if she or he would make a good president. For example, a question might be, ‘Are you at least 35 years old?’ or ‘Have you ever been a leader?’ ([SL.1.2](#), [SL.1.3](#)) Then interview your teacher and ask your questions. ([SL.1.6](#)) Review the answers and write a paragraph explaining why you think your teacher would or would not make a good U.S. president. ([W.1.1](#)) Write your response in complete sentences.” ([L.1.1a-j](#), [L.1.2a-e](#), [L.1.6](#))

⁶ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁷ Ensure that students have access to the print text as they are testing.

EXTENSION TASK⁸

Have students conduct a mock election of various characters explored throughout the year (e.g., Frog, Toad, fairytale characters, Bear, Anansi, Little Bush Deer, Amelia Bedelia).

- In Lesson 9, research the election process as a class, taking notes on the various steps. ([W.1.7](#), [W.1.8](#))
- In Lesson 10, divide the class into six groups. Have each group select a candidate to run for president.
- Ask each group to engage in the process for their candidate:
 - Have groups develop a campaign poster with a slogan for their candidate. ([W.1.5](#), [W.1.6](#), [SL.1.1a-c](#), [SL.1.5](#))
 - Host a primary election to determine the top two candidates. (**Teacher Note:** Since each group will likely vote for their candidate, tell them they must vote for a candidate other than their own.)
 - Provide all students with 2 [two-column charts](#)⁹ to keep track of the pros and cons for each candidate throughout the remainder of the election process.
 - Have a convention in which the remaining groups with candidates create a platform and a brief speech to deliver to the delegates (i.e., the remaining students with no candidate in the running). The speech should present what the candidate will do as president and explain why the candidate would be a good president. The candidate groups should use details from the various charts created throughout the unit. Delegates should take notes on a two-column chart for each candidate. ([W.1.1](#), [W.1.8](#), [SL.1.2](#), [SL.1.3](#), [SL.1.4](#), [SL.1.6](#), [L.1.1j](#), [L.1.6](#))
 - Have the remaining students with no candidate create questions for a debate between the two groups with a candidate. Host a debate between the two candidates with questions from the audience. ([SL.1.2](#), [SL.1.3](#), [SL.1.4](#), [SL.1.6](#), [L.1.1j](#)) During the debate, have the audience continue to take notes on the two-column charts.
 - Have a class election.

⁸ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹⁰ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

NOTE ABOUT THE LESSONS: Throughout this unit, students will build knowledge about vocabulary and character traits of a good citizen and leader. Students will progressively build knowledge using the following tools throughout the unit.

- Unit Vocabulary Dictionary: Students create entries for a class dictionary based on words from the texts read in the unit. Students work with the teacher to define the word, use it in a sentence, and illustrate its meaning. Begin in [Lesson 2](#).
- Good Citizen Chart: Students pull words and phrases from the various texts read in the unit to describe a good citizen. They write the words on sentence strips or index cards and glue or tape them to a class chart. Create definitions as a class and record them on the chart. Begin in [Lesson 2](#). Add a third column to the chart in [Lesson 5](#) that lists characters studied throughout the year who are either examples or non-examples of each characteristic.

LESSON 1: ¹¹ <i>If Everybody Did</i> , Jo Ann Stover	<p>TEXT DESCRIPTION: This text deals with a variety of situations and actions that seem minor at the moment, but once everybody does them, they can become a problem.</p> <p>TEXT FOCUS: This text can stimulate discussion about the importance of rules, consequences for not following those rules, and making decisions for the good of ourselves and others. In the end, students are expected to demonstrate an understanding of the consequences of their actions.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students engage with printed copies of the text. They discuss the meaning and examples of <i>consequences</i>, and work with a partner to develop a chart summarizing the content of <i>If Everybody Did</i>. Students then write their own explanation modeled after the text based on the rules of their classroom or school.</p> <p>READ THE TEXT:</p> <ul style="list-style-type: none"> • <u>First Reading</u>: Provide each student with a copy of <i>If Everybody Did</i>. Read aloud the text as students follow along. Allow students to engage with the text without interruption and react to the illustrations. • <u>Second Reading</u>: Introduce the word <i>consequences</i> if students are not already familiar with it. Reread the text aloud or call on students to read pages aloud as the other students follow along. (RL.1.10) Stop at various points in the text to ask students questions. (RL.1.1, RL.1.7, SL.1.2) <ul style="list-style-type: none"> ○ Have you ever [action from the text]? Why did you do it? Did it cause any problems? ○ What are the <i>consequences</i> when everybody does it?

2ND GRADE UNIT PLANS

2nd Grade Units at a Glance

Note: Students should be able to read more texts on their own in grade 2, although all sets still contain very complex texts for reading aloud. The units are ordered based on their content, taking into account connections with science and social studies and the best order to build student knowledge across the year.

Anchor Text	Unit Focus	Text Complexity*	Content and Standards	Recommended Time of Year
<i>Cinderella</i> , Marcia Brown (Page 327)	Cinderella stories	Moderately complex to very complex	Vocabulary and language development, describing character traits, determining lessons in texts, comparing and contrasting characters and texts	Beginning of year
<i>The Best Place</i> , Susan Meddaugh (Page 355)	Houses and homes around the world	Moderately complex to very complex	Vocabulary and language development, determining a central message, comparing and contrasting central messages across texts, modeling writing after published texts	Beginning to middle of year
"Thirsty Planet," Beth Geiger (<i>National Geographic Explorer</i>) (Page 383)	The water cycle and the role of water in nature	Moderately complex to very complex	Vocabulary and sentence structure, using informational texts to describe the connection between a series of scientific concepts in a text, explaining how specific images contribute to the meaning of a text	Middle of year
<i>The Ox-Cart Man</i> , Donald Hall and Barbara Cooney (Page 407)	Agricultural history of the US economy and how families made choices to meet their basic needs	Moderately complex to very complex	Vocabulary and language development, determining a central message, understanding connections between ideas within and across texts, how illustrations enhance written text	Middle to end of year

Cinderella Unit Overview

⁴ The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and should focus on a [progression of skills](#) that are formally assessed at various points throughout the year.

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK⁵

Have students respond to the following prompt: “Choose *Cinderella* and two other tales from the unit and explain the lesson that each tale teaches. How are those lessons similar or different? Provide at least two similarities and two differences in the lessons.” ([RL.2.1](#), [RL.2.2](#), [RL.2.3](#), [RL.2.9](#), [W.2.2](#))

Teacher Notes:

- Students are asked to determine the moral or lesson of three tales and explain how each teaches that moral or lesson. The completed writing should use words from classroom resources, including the past tense of frequently occurring irregular verbs (e.g., sit and told) and frequently occurring adjectives. ([L.2.1d](#), [L.2.6](#))
- Prompt students to use the notes from the unit, including the Patterns in Cinderella Stories Chart, for the tales selected.
- Students should write in complete sentences, using collective and irregular plural nouns, reflexive pronouns, past tense of verbs, and adjectives and adverbs. ([L.2.1a](#), [b](#), [c](#), [d](#), [e](#)) The sentences should be capitalized and punctuated correctly, and conventional spelling should be used. ([L.2.2a](#), [c-e](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.2.5](#))

⁵ Culminating Writing Task: Students express their final understanding of the anchor text and demonstrate meeting the expectations of the standards through writing.

COLD-READ TASK⁶

Read “[Billy Beg](#)” from Domain 3 of the Grade 1 Core Knowledge Listening and Learning Strand (pages 41-45 of the Read-Aloud Anthology) independently⁷ and then **answer** a combination of multiple-choice and constructed-response questions⁸ about the text. Sample questions:

1. How does the beginning of this fairy tale introduce the story? ([RL.2.5](#))
2. How does Billy live his life differently than a usual prince would? ([RL.2.1](#), [RL.2.2](#), [RL.2.3](#))
3. Choose one of the following events. Describe how Billy Beg responds. ([RL.2.3](#))
 - a. When his friend the bull is taken to the market to be sold
 - b. When the giant says he is going to eat Billy Beg
 - c. When the old man tells Billy Beg about the dragon in the village
 - d. When the princess runs to thank Billy Beg after he defeats the dragon
4. How do the three gifts from the bull help Billy? ([R.2.1](#), [R.2.5](#))
5. Think about Billy’s experiences. What can you learn from them? What does this text teach you about how you should approach a new situation? ([RL.2.1](#), [RL.2.2](#))
6. Ireland is the setting for “Billy Beg.” What does the story “Billy Beg” teach us about Ireland and what the Irish value or think is important? ([RL.2.1](#), [RL.2.2](#))
7. How does the ending to this fairy tale finish the story? ([RL.2.5](#))
8. Use a Venn diagram to compare and contrast “Billy Beg” with *Cinderella* and “The Girl with the Red Slippers.” What are some similarities between the three stories? What are some differences? Write the details that are similar in all three stories in the center of the diagram, details that are similar between two stories where the two circles overlap, and details that are different in each story on the edges of the circle that do not overlap. ([RL.2.1](#), [RL.2.9](#), [W.2.8](#))
9. Add to the Patterns in Cinderella Stories Chart for “Billy Beg” using evidence from the text. ([RL.2.1](#), [RL.2.2](#), [W.2.8](#))

⁶ Cold-Read Task: Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note**: This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁷ Note: Depending on the time of year this assessment is given, some students are likely to need additional support reading this text. Read aloud the text for those students.

⁸ Ensure that students have access to the complete texts as they are testing.

EXTENSION TASK⁹

Have students work in small groups to answer the following prompt: “Investigate the traditions and values of different cultures. What are some of the unique ways the people of that culture relate to one another? Are there particular religious celebrations? What about food and clothing? Then write a modern version of *Cinderella* set in the country you researched. Use at least one example from your research in your story. Model your story after the Cinderella tales read throughout the unit. Add a picture to your story. Read your story to the class once it is finished and answer any audience questions.” ([W.2.3](#), [SL.2.3](#), [SL.2.4](#))

Use the following process with students:

1. Divide the class into groups of two or three students. Assign cultures or ask students to choose a culture to investigate from a list of choices.
2. Have students investigate the answers as a group to a series of questions (e.g., What is the main religion? What do they eat? What kind of clothes do the people wear? What is day-to-day life like for most people? What is the weather like? What is the landscape like? What can we learn from their experiences?). Have students use resources such as <http://www.exploreandmore.org/world/default.htm>. ([RI.2.1](#), [RI.2.2](#), [RI.2.4](#), [RI.2.5](#), [RI.2.8](#), [RI.2.10](#), [W.2.7](#), [W.2.8](#)) Another option is to read aloud informational texts about the different cultures. In each situation, prompt groups to take notes about the culture.
3. Model for students how a Cinderella story is constructed using a modern version of the Cinderella story. Review how the story follows patterns. What is the point or lesson of the story? ([RL.2.2](#)) How do the chosen details support the lesson of the story? Sample texts for modeling:
 - a. *Prince Cinders* by Babette Cole
 - b. *Cinder Edna* by Ellen Jackson
 - c. *Bigfoot Cinderrrrrella* by Tony Johnson
 - d. *Chickerella* by Mary Jane Auch
4. Compose a modern Cinderella story using a local animal character familiar to students (e.g., alligator, nutria rat, pelican, bear). Use [shared writing](#)¹⁰ and demonstrate with students the process of creating a story while also demonstrating written conventions. ([W.2.7](#), [L.2.1a-f](#))
5. Ask each group to compose their own Cinderella story, incorporating at least one example from their research and following the expected patterns.
6. Ensure that students add an illustration to enhance the content. ([SL.2.5](#)) If time allows, help groups publish their stories using technology. ([W.2.6](#))
7. Once each group is done, have them read the Cinderella story to the class, demonstrating fluency. ([RF.2.4b](#), [SL.2.4](#))

⁹ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

¹⁰ <http://www.louisianabelieves.com/resources/classroom-support-toolbox/teacher-support-toolbox/lesson-assessment-planning-resources/whole-class>

8. Following the reading of each story, conduct a class discussion in which students ask questions of the presenters to find out more information about the culture studied. Add the culture represented in each story read to the class Comparing Cultures Chart begun in Lesson 2. Work as a class to determine how each story represents the unique elements of the culture. ([SL.2.1b](#), [c](#); [SL.2.3](#))
9. Combine the stories into a class book. Place the book in a classroom library for students to read independently. ([RF.2.3a-f](#); [RF.2.4a](#), [c](#))

Teacher Notes:

- *Students are asked to describe the connection between cultural values and story details and write a narrative story modeled after the structure and language of the Cinderella stories from the unit. ([W.2.3](#), [W.2.7](#)) They are also asked to present their narrative story to the class.*
- *The completed writing should include a visual element to support the written text and use words from the word display. ([SL.2.5](#), [L.2.6](#)) Students should write in complete sentences, using adjectives and adverbs properly. ([L.2.1e](#), [f](#)) The writing should demonstrate grade-appropriate grammar and usage, capitalization, punctuation, and spelling. ([L.2.1a-d](#); [L.2.2a](#), [c-e](#))*
- *Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.2.5](#))*

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹¹ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

¹¹ <http://www.louisianabelieves.com/resources/classroom-support-toolbox/teacher-support-toolbox/lesson-assessment-planning-resources>

ONGOING READING FOUNDATIONAL SKILLS

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. Reading foundations, writing, and language development are essential in grades K-2.

Reading foundational skills continue to progress in grade 2. Students:

1. Become more proficient in decoding single-syllable and multisyllabic words with short and long vowels
2. Learn to read irregularly spelled words (e.g., *because*, *does*) and words with lower-frequency sound and spelling patterns (e.g., *ough*)
3. Read fluently (e.g., with accuracy, appropriate rate, and expression) on successive readings of a text
4. Learn additional strategies for decoding unfamiliar words, such as using context to aid in word recognition and understanding

Teachers must determine when and what is taught based on their specific student needs. Use ongoing assessments to determine skill mastery and deficiencies.

Teachers may consult sources for additional support in teaching the skills (e.g., [Tier 1 reading foundational programs](#),¹² [Florida Center for Reading Research](#),¹³ [Building the Foundation from the Center on Instruction](#),¹⁴ [Phonemic Awareness in Young Children: A Classroom Curriculum](#),¹⁵ or basal textbooks).

Instructional Note: While some reading foundational skills will be taught during whole-class instruction with the whole-class texts, most foundational skills will be taught during small-group reading and small-group writing instruction. Determine when and what is taught based on student needs. See the [ELA Instructional Framework](#)¹⁶ for additional information.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

NOTE ABOUT THE LESSONS: Throughout this unit, students will build knowledge about vocabulary and characters in and elements of Cinderella stories. Students will progressively build knowledge using the following tools throughout the unit.

- Unit Vocabulary Dictionary: Students create entries for a class dictionary based on words from the texts read in the unit. Students work with the teacher to define the word, use it in a sentence, and illustrate its meaning. Begin in Lesson 1.
- Cinderella Learning Log: Students create and maintain an [interactive notebook](#)¹⁷ to store the various charts, notes, and writing assignments completed during the unit. Begin in Lesson 1. Additionally, students will include two charts that are introduced and built ongoing throughout the unit:
 1. **Patterns in Cinderella Stories Chart**: Students complete this chart for each version of the Cinderella story throughout this unit. Begin in Lesson 2.
 2. **Comparing Cultures Chart**: Students identify characteristics of the culture and how the culture is represented in the story. Begin in Lesson 2.

LESSON 1: ¹⁸ <i>Cinderella</i> , Marcia Brown	<p>TEXT DESCRIPTION: This classic tale tells the story of Cinderella, a girl known for her goodness, who is forced by her stepmother to labor on household tasks and live in squalor. Denied permission to attend the prince’s ball, Cinderella is visited by her fairy godmother, and through magic is provided with a coach, coachmen, and a dress but warned she must return by midnight. At the ball, everyone marvels at the mysterious princess’s beauty, especially the prince, and her stepsisters are thrilled at her generosity. Cinderella returns to the ball the next evening, but leaving in a hurry, loses her slipper. The prince uses the slipper to track down his true love; he and Cinderella are soon married.</p> <p>TEXT FOCUS: Use this text to review elements of a fairy tale and to identify key patterns of the Cinderella story. Students will learn key vocabulary and terms used in Cinderella stories and how character traits help to determine the moral or lesson of a story.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students listen to the story read aloud and then engage in a class discussion about the elements of a fairy tale. <p>LESSON 2:</p> <p><i>The Rough-Face Girl</i>, Rafe Martin and David Shannon</p>	<p>TEXT DESCRIPTION: In this Algonquin Indian version of the Cinderella story, the Rough-Face Girl is made miserable by her two beautiful but heartless sisters. The sisters compete for the affections of the Invisible Being by approaching his sister, who asks questions to verify that they can see her brother. Failing to answer the questions, the sisters leave in shame. The Rough-Face Girl, determined to marry the Invisible Being, clothes herself in birch bark, shells, and reeds. Ask students to think of ways the cartoon version is similar to or different from the story they have just read. (RL.2.1, RL.2.9) Then discuss how the voices used in the dialogue of the cartoon show differences in the good and bad characters. (RL.2.6, RL.2.7) • Second Reading: Reread <i>Yeh-Shen</i> aloud. (RL.2.3, RL.2.7) ○ How did Yeh-Shen's stepmother trick the fish into coming onto the bank of the pond? (RL.2.7) ○ Why did the old man come to see Yeh-Shen? What did the fish bones give Yeh-Shen to go to the festival? How did the king get the golden shoe that Yeh-Shen had lost? (RL.2.7)

¹ The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and should focus on a [progression of skills](#) that are formally assessed at various points throughout the year.

The Best Place Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK²

Have students respond to the following prompt: “Write a letter to the wolf describing the most important lesson you learned from reading about his experiences in *The Best Place*. Identify what you learned and provide reasons for why you chose that lesson. Make sure to use a proper greeting and closing.”

Demonstrate command of proper grammar, usage, punctuation, and spelling, and use grade-appropriate words and phrases.

Teacher Notes:

- Students are asked to identify what they consider to be the central lesson in *The Best Place*. ([RL.2.1](#), [RL.2.2](#), [RL.2.3](#), [RL.2.7](#), [W.2.1](#)) They should include reasons for why they selected the lesson they chose, and use a proper greeting and closing in the letter. ([L.2.2b](#)) The completed writing should use words from the word display. ([L.2.6](#))
- Students should write in complete sentences, using adjectives and adverbs properly. ([L.2.1e](#), [f](#)) The writing should demonstrate grade-appropriate grammar and usage, capitalization, punctuation, and spelling. ([L.2.1a-d](#), [L.2.2c-e](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.2.5](#))
- If time allows, help students publish their letters using technology. ([W.2.6](#))

COLD-READ TASK³

Have students read *The Treasure* by Uri Shulevitz independently. ([RL.2.10](#); [RF.2.4a](#), [c](#)) Then ask students to independently read and answer in writing a combination of multiple-choice and constructed-response questions⁴ about the text. Sample questions:

1. How does Isaac respond to his dream? ([RL.2.1](#), [RL.2.3](#), [RL.2.7](#))
2. What causes Isaac to begin and end his journey? ([RL.2.1](#), [RL.2.3](#), [RL.2.5](#), [RL.2.7](#))
3. What does Isaac learn from his journey? ([RL.2.1](#), [RL.2.2](#), [RL.2.7](#))
4. How is the lesson of *The Treasure* similar to or different from *The Best Place* or the excerpts from *The Wizard of Oz*? ([RL.2.1](#), [RL.2.2](#), [RL.2.9](#)) (**Teacher Note:** This could be done on a graphic organizer, rather than through essay/short answer writing.)

Alternate assessment option for districts who choose not to purchase *The Treasure*:

Have students read “[Our New Old House](#)”⁵ from ReadWorks.org independently. ([RL.2.10](#); [RF.2.4a](#), [c](#)) Then ask students to independently read and answer in writing a combination of multiple-choice and constructed-response questions⁶ about the text. Sample questions:

1. Describe what happens in the beginning, middle, and end of this story. ([RL.2.1](#), [RL.2.5](#))
2. How does Ramon feel about his house at the beginning of the story? Why? ([RL.2.1](#), [RL.2.3](#), [RL.2.7](#))
3. How does Ramon respond to the storm outside his house? ([RL.2.1](#), [RL.2.3](#), [RL.2.7](#))
4. How does Ramon feel about his house at the end of the story? Why? ([RL.2.1](#), [RL.2.3](#), [RL.2.7](#))
5. Remember what happens to the wolf in *The Best Place*. How are Ramon’s experiences similar to or different from the experiences of the wolf? ([RL.2.1](#), [RL.2.2](#), [RL.2.7](#))

³ Cold-Read Task: Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁴ Ensure that students have access to the complete texts as they are testing.

EXTENSION TASK⁷

Have students work in small groups to answer the following prompt: “Investigate a country in *Children from Australia to Zimbabwe* not already in *My House Has Stars*. Write a new entry for *My House Has Stars* based on information gathered from *Children from Australia to Zimbabwe*. Model your entry after the entries in *My House Has Stars*. Add a picture to your entry. Read your entry to the class once it is finished and answer any audience questions.”

Teacher Notes:

- If needed, provide groups with additional resources on the country they are investigating.
- Students are asked to identify the similarities and differences between the houses in other countries and write a narrative description modeled after the structure and language of *My House Has Stars*. ([W.2.3](#), [W.2.7](#)) They are also asked to present their narrative description to the class. ([SL.2.4](#))
- The completed writing should include a visual element to support the written text and use words from the word display. ⁷ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)⁸ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

The language of these poems makes them useful as models for student writing.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students engage in choral reading and then partner reading of “One Giant Hug” and “My House’s Night Song.” Then they participate in a class discussion to ask and answer questions about the poems. Finally, they participate in shared and independent writing of a poem using Rosenthal’s poems as a model.</p> <p>READ THE TEXT:</p> <ul style="list-style-type: none"> • First Reading: Provide students the poems and/or project the poems for students to read. As this unit focuses on houses and homes, stock the classroom library with many similar books at different reading levels for students (e.g., <i>Let's Go Home: The Wonderful Things About a House</i> by Cynthia Rylant or <i>A Nest for Celeste</i> by Henry Cole). (RL.2.10, RI.2.10) These books can also be checked out at a school or local library and temporarily stored in the classroom library. <p>LESSON 3:</p> <p><i>The Best Place</i>, Susan Meddaugh</p>	<p>TEXT DESCRIPTION: The wolf loves his house, but he decides to sell it because a little bird suggested he hadn't seen enough of the world. After his travels, the wolf realizes his house really was his home, but the new owners refuse to sell his home back to him. The wolf throws a fit and is run off. Finally, the wolf learns an important lesson about the meaning of home and what really makes it "the best place."</p> <p>TEXT FOCUS: This text emphasizes the importance of friends and community for making a house a home.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students continue to build understanding of vocabulary and develop an understanding of adjectives and adverbs and when to use each. They work with a partner to read and recount the text, and then engage in a brief writing assignment.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • First Reading: Read the text aloud and display or project the text so students can view the illustrations and follow along with the printed text. • Word Work: Continue building a vocabulary display²² throughout the unit that students can rely on. Prompt students to record the words in individual rows on their graphic organizer in column one. ○ Display the sentence or paragraph that contains one of the selected words and model how to identify what the word modifies or describes. ○ Have students fill in column two for the modeled word, define the word in column three, and illustrate the phrase in column four. (RL.2.4, L.2.4a) ○ Repeat the process with another word. This time, have students identify what the word is modifying or describing as a class or in pairs. ○ Continue this process until the graphic organizer is complete. ○ Explain the differences between adjectives and adverbs based on what they modify. Review the chart as a class and label the words as adjective or adverb, then discuss the differences and reasons for each label. (L.2.1e)

Prompt students to incorporate adjectives or adverbs. (L.2.1e-f, L.2.6) For example, “He was awed by the desert” could become “He was awed by the large and dry desert.” “He howled and growled, and the ground shook beneath his feet” could become “He howled and growled loudly, and the ground shook wildly beneath his feet” or “The ground shook beneath his feet because he howled and growled.” Have students write their expanded or rearranged sentences on the board for the class to locate and identify the adjectives and adverbs. ○ Reinforce the concept for students to practice independently. For example, students could use the words in original sentences that describe real-life connections to the words and their use (e.g., Describe, in writing, a time when you were <i>awed</i>.) ⁴ The skills addressed during whole-class instruction are in addition to what is being done during small-group instruction. Teachers must incorporate a full reading foundational skills program during small-group reading and writing time to ensure students gain the skills necessary to learn to read independently. What is taught should be based on individual student needs and should focus on a [progression of skills](#) that are formally assessed at various points throughout the year.

“Thirsty Planet” Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK⁵

Have students respond to the following prompt: “Describe the process of the water cycle. List each step of the cycle and describe how each step is connected to the one before it and the one after it. Then, explain why water is needed to sustain life on Earth.” ([RI.2.1](#), [RI.2.2](#), [RI.2.3](#), [W.2.8](#))

Teacher Notes:

- *Students are asked to describe the connections between the stages of the water cycle and to explain why water is essential for sustaining life. They should write two paragraphs. In the first paragraph, students should introduce the topic, use facts and definitions to explain each step of the water cycle, and provide a concluding statement or section. Students should then write a second paragraph to explain why water is needed to sustain life on Earth. ([W.2.2](#))*
- *Prompt students to use notes from the unit, specifically the notes from Lessons 2 and 3. ([W.2.8](#))*
- *Students should write in complete sentences, using various nouns, pronouns, verbs, and prepositions; basic subject-verb agreement; and simple and compound sentences. Students should consult a beginning dictionary to check and correct spelling. ([L.2.1a](#), [b](#), [c](#), [d](#), [e](#), [f](#); [L.2.2e](#)) The writing should demonstrate grade-appropriate grammar and usage, capitalization, punctuation, and spelling. ([L.2.2c-d](#))*
- *Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.2.5](#))*

COLD-READ TASK⁶

Have students independently read *Down Comes the Rain* by Franklyn Branley. ([RI.2.10](#); [RF.2.4a](#), [c](#)) Then ask them to independently read and answer in writing a combination of multiple-choice and constructed-response questions⁷ about the text. Sample questions:

1. Read page 23. Describe the connection between water vapor and ice drops. ([RI.2.1](#); [RI.2.3](#); [W.2.2](#); [L.2.1a](#), [b](#), [d](#), [e](#), [f](#); [L.2.2c](#), [d](#); [L.2.6](#))
2. Read pages 24 and 25. Look at the illustrations. Explain how this diagram helps the reader to understand what happens to water when it freezes in the air. ([RI.2.1](#); [RI.2.7](#); [W.2.2](#); [L.2.1a](#), [b](#), [d](#), [e](#), [f](#); [L.2.2c](#), [d](#); [L.2.6](#))
3. Read pages 27 and 28. Identify the main focus of page 28. ([RI.2.1](#), [RI.2.2](#))
4. Identify the main purpose of the text. What does the author want to explain? ([RI.2.1](#); [RI.2.6](#); [L.2.1a](#), [b](#), [d](#), [e](#), [f](#); [L.2.2c](#), [d](#); [L.2.6](#))

⁶ **Cold-Read Task:** Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁷ Ensure that students have access to the complete texts as they are testing.

EXTENSION TASK⁸

Have students write an essay in which they explain the ways we can conserve water.⁹

1. Students reread sections in *One Well* and “Thirsty Planet” and take notes on conserving water. (Lesson 6)
2. Have students respond to the following prompt in writing: “What can you do to save water?” ([RI.2.1](#), [RI.2.2](#), [W.2.2](#)) (Lesson 7)
3. Prompt students to introduce the topic they are writing about, clearly answer the question, provide examples from their notes and texts, “wrap up” the essay with a concluding sentence, spell words correctly, and use capitals, periods, and question marks. ([L.2.2a](#), [d](#), [e](#))
4. Prompt students to use words from the vocabulary display as needed to help with writing. ([L.2.6](#))
5. Ask students to share their written response with a partner to evaluate the detail. Ask them: “Do you agree or disagree with your partner’s explanation? Why? What can be edited to clarify their work?” ([SL.2.1c](#))
6. Have students create a final draft of the essay. If time allows, help students publish their entries using technology. ([W.2.6](#))
7. Then ask students to finish their written response by drawing an illustration that supports their writing. ([SL.2.5](#))
8. Access grade 2 student samples of on-demand writing for this prompt [here](#).¹⁰

Teacher Notes:

- *If needed, provide students with additional resources to learn ways to conserve water. These resources are available through <http://achievethecore.org/file/1046>.*
- *Students are asked to explain various ways to conserve water based on texts read in the unit. They are asked to write an informative paragraph using facts to develop their points. ([W.2.2](#))*
- *The completed writing should use words from the word display. ([L.2.6](#)) Students should write in complete sentences, using adjectives and adverbs properly. ([L.2.1e](#), [f](#)) The writing should demonstrate grade-appropriate grammar and usage, capitalization, punctuation, and spelling. ([L.2.1a-d](#); [L.2.2a](#), [c-e](#))*
- *Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.2.5](#))*

⁸ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹¹ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

<p>LESSON 5:</p> <p><i>The Raft</i>, Jim LaMarche</p>	<p>TEXT DESCRIPTION: <i>The Raft</i> tells the story of a little boy whose experiences on the river open his world to unknown possibilities. “River Song” by Banana Slug String Band is a song whose lyrics tell the story of a river being born, the effects of weather on the river, and the movement of the river through the land.</p>								

TEXT SEQUENCE	TEXT USE
<p>“River Song”³¹ from <i>We All Live Downstream</i>, Banana Slug String Band</p>	<p>TEXT FOCUS: Students will explore how the river is used and the purposes that it serves for humans and animals that live in and around it.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students listen to <i>The Raft</i> read aloud and reread the text in pairs. Students identify the struggles that Nicky faced. Students identify how Nicky responds to the challenges that he faces throughout the story and how the river helps him to overcome the challenges. Students listen to the song and take notes on the movement of the river throughout the song. The class creates a graphic organizer to identify characteristics of the river and to describe the connection between the river and the water cycle. The class will participate in a discussion about the importance of the river to the animals that live in or near it. Lastly, students write a paragraph in which they give their opinion.</p> <p>READ AND UNDERSTAND THE TEXTS:</p> <ul style="list-style-type: none"> • First Reading: Read aloud <i>The Raft</i> without interruption while students follow along with their own copy. • Second Reading: Divide the class into pairs. Have students partner read³² the text. (RL.2.10; RF.2.4a, b, c) <ul style="list-style-type: none"> ○ Conduct a class retelling of the text. Project an illustration and call on a pair to explain what point in the story the illustration depicts and how the illustration provides information about Nicky and the events of the text. (RL.2.1; RL.2.2; RL.2.7; SL.2.1a, c; SL.2.2) <ul style="list-style-type: none"> ▪ Ask pairs to consider these questions: What does Nicky want? What is Nicky’s problem? How does Nicky initially respond to the challenge of spending the summer with his grandmother? How does he respond at the end of the text? How do Nicky’s views change as the summer progresses? What do these changes teach us about how we should act in a similar situation?” (RL.2.1, RL.2.2, RL.2.3) ○ Following the retelling, ask students to write in their Water Log an initial statement of the message or lesson of <i>The Raft</i> and a single reason why. As needed, provide students with an answer frame³³ to support them in writing framing their ideas (e.g., “A lesson of <i>The Raft</i> is _____. I know this because _____.”). • Word Work: Continue building a vocabulary display.³⁴ (L.2.6) Select specific sentences, paragraphs, or pages for students to reread based on the selected vocabulary. Have students independently reread the sections and note any words or phrases that provide additional information about Nicky’s feelings or the setting (e.g., <i>invisible</i>, <i>ancient</i>, <i>downstream</i>, <i>disgusted</i>,

(RL.2.10, RF.2.4a, c) Prior to reading, prompt them as they are rereading to focus on Nicky’s connection with the raft. How does the raft begin to change how Nicky feels about the summer? (RL.2.3) • <u>Class Discussion</u>: Guide a whole-class discussion for students to make connections within and across texts. <ul style="list-style-type: none"> ○ Ask students to describe how the story changes from the beginning to the end, including specific turning points. (RL.2.1, RL.2.2, RL.2.5) ○ Ask students: “What events occur while Nicky is on the raft?” (RL.2.2) ○ Prompt students to look more closely at the movement of the animals throughout the text and how they respond to and interact with Nicky. Also, ask students to consider the drawings on the raft: “Who created this raft? Who else could have had Nicky’s experiences? What do these connections tell us about nature, water, and our interactions with each? How are these ideas reinforced in ‘A Thirsty Planet’?” (RL.2.7) • <u>Fourth Reading</u>: Divide the class into pairs. Ask pairs to work with a partner to practice reading aloud sections of <i>The Raft</i> with accuracy and expression. (RL.2.10, RF.2.4b) • <u>First Reading</u>: Have students listen to the song and follow along with the lyrics. Facilitate a discussion in which students identify the changes to and uses of the river. (RI.2.1, RI.2.5) ○ How is the river used by children and parents? (RI.2.1, RI.2.5) • <u>Class Discussion</u>: Create a class T-chart. One side should include characteristics of the river from either text; the other side should include explanations of how the characteristic is connected to the water cycle based on knowledge gained from the texts in the unit. (RI.2.1, RI.2.2, RI.2.3, W.K.8) Sample T-chart:

The Ox-Cart Man Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK⁴

Have students respond to the following prompt: “Write a letter to the ox-cart man explaining to him how life has changed since he was alive. Use events from the story and current-day examples. Explain some of the causes for why life is different now. Make sure to use a proper greeting and closing.”

Demonstrate command of proper grammar, usage, punctuation, and spelling, and use grade-appropriate words and phrases.

Teacher Notes:

- Students are asked to identify what is the same and what is different between life now and the setting and events of *The Ox-Cart Man*. ([RL.2.1](#), [RL.2.2](#), [RL.2.3](#), [RL.2.7](#), [W.2.2](#)) They should include examples to support the differences they chose, and use a proper greeting and closing for the letter. ([L.2.2b](#)) The completed writing should use words from the word display. ([L.2.6](#))
- Students should write in complete sentences, using adjectives and adverbs properly. ([L.2.1e](#), [f](#)) The writing should demonstrate grade-appropriate grammar and usage, capitalization, punctuation, and spelling. ([L.2.1a-d](#), [L.2.2c-e](#))
- Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.2.5](#))
- If time allows, help students publish their letters using technology. ([W.2.6](#))

⁴ Culminating Writing Task: Students express their final understanding of the anchor text and demonstrate meeting the expectations of the standards through writing.

COLD-READ TASK⁵

Have students independently read *The Paper Crane* by Molly Bang. ([RI.2.10](#); [RF.2.4a](#), [c](#)) Then ask them to independently read and answer in writing a combination of multiple-choice and constructed-response questions⁶ about the text. Sample questions:

1. Complete the following chart to recount *The Paper Crane*. ([RL.2.1](#), [RL.2.2](#), [RL.2.5](#), [RL.2.7](#))

Somebody	Wanted	But	So	Then (optional)

2. Part A. What is the restaurant’s problem or challenge? ([RL.2.1](#), [RL.2.7](#))

- a. A new restaurant is built that serves better food.
- b. A new highway is built, and customers stop coming.
- c. The owner is poor because he serves his food for free.
- d. The owner loses business because he refuses to change.

Part B. How does the restaurant owner respond to the challenge? ([RL.2.3](#); [RL.2.7](#); [L.2.1a](#), [b](#), [d](#), [e](#), [f](#); [L.2.2c](#), [d](#); [L.2.6](#))

3. The following is the description of the stranger when he comes to the restaurant: “His clothes were old and worn, but he had an unusual, gentle manner.” How does the stranger have “an unusual, gentle manner”? ([RL.2.1](#); [RL.2.4](#); [RL.2.7](#); [W.2.1](#); [L.2.1a](#), [b](#), [d](#), [e](#), [f](#); [L.2.2c](#), [d](#); [L.2.4a](#), [b](#); [L.2.6](#))
4. Why does the owner cook for the stranger? ([RL.2.1](#); [RL.2.7](#); [W.2.1](#); [L.2.1a](#), [b](#), [d](#), [e](#), [f](#); [L.2.2c](#), [d](#); [L.2.6](#))
5. How does the stranger help the restaurant? ([RL.2.1](#); [RL.2.7](#); [L.2.1a](#), [b](#), [d](#), [e](#), [f](#); [L.2.2c](#), [d](#); [L.2.6](#))
6. The text says the restaurant owner is **overjoyed** when the stranger returns to the restaurant. Select a sentence that uses the underlined word in the same way as *overjoyed*? ([L.2.4a](#), [d](#); [L.2.5b](#); [L.2.6](#))
- a. Caleb was satisfied when he completed his homework.

⁵ Cold-Read Task: Students read or listen to a text or texts being read aloud and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁶ Ensure that students have access to the complete texts as they are testing.

- b. Roderick was uneasy at the thought of touching a spider.
 - c. Reagan was jubilant on the morning of her birthday party.
 - d. Ashley was distraught when she realized she lost the money.
7. Identify a lesson that is taught in this story. ([RL.2.2](#); [L.2.1a](#), [b](#), [d](#), [e](#), [f](#); [L.2.2c](#), [d](#); [L.2.6](#))

EXTENSION TASK⁷

Have students interview an adult relative (e.g., parent, grandparent) about life when he or she grew up. Students should develop questions, conduct the interview, and then type the questions and answers to share with the class.

1. Divide the class into groups.
2. Ask each group to develop questions to ask an adult relative. ([W.2.5](#); [W.2.7](#); [L.2.1a-f](#); [L.2.2a, c-e](#); [L.2.6](#)) The questions should focus on learning more about life in previous decades. Sample questions:
 - a. Where and when did you grow up?
 - b. What did the place where you grew up look like?
 - c. How has the place changed since you grew up?
 - d. What were the best and worst things about the place where you grew up?
 - e. How is life different now than it was then?
 - f. What is one thing we have today that you didn't have growing up? Is that thing good or bad?
 - g. What is one thing we have today that you wish you had when you were growing up?
3. Have students interview their adult relative using the questions developed in class. ([SL.2.1a-c](#), [SL.2.6](#))
4. Provide students time in class to type their questions and their relative's responses. ([W.2.6](#))
5. Have students select one question and answer they think is most interesting or surprising.
6. Have them present who they interviewed and what they learned from the interview by reading the selected question and answer. ([SL.2.4](#))
7. Allow the audience to ask questions or share similar insights. ([SL.2.3](#))
8. Following all the presentations, conduct a class discussion in which students reflect on what they learned and how the lives of those they interviewed were similar and different. ([SL.2.2](#))

⁷ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)⁸ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

TEXT SEQUENCE	TEXT USE
<p>LESSON 1:⁹</p> <p><i>The Ox-Cart Man</i>, Donald Hall and Barbara Cooney</p>	<p>TEXT DESCRIPTION: Using detailed illustrations and specific vocabulary, this literary text is about a family that makes its livelihood living on a farm and selling the goods at a market every fall. The story shows the seasonal activities of the farm as it prepares to go to market.</p> <p>TEXT FOCUS: The anchor text introduces the unit to students by showing how people living in early America got the things they needed to survive. Explain to students that by the end of the unit, they will understand that the way people get what they need has changed. This text will be reread throughout the unit.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students will ask and answer <i>who</i>, <i>what</i>, <i>where</i>, <i>when</i>, <i>why</i>, and <i>how</i> questions to demonstrate an understanding of when the ox-cart man lived, what he did each season, and how these seasonal activities were essential to his family’s survival. Then, students describe the overall story structure of <i>The Ox-Cart Man</i>, including how the beginning events introduce the ox-cart man’s life and how the ending concludes his yearlong cycle.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • Pre-reading: Lead a brief class discussion in which students answer questions such as, “What do you know about life in the past? How is it different than the way we live? Where did people live? How did they get food/clothes?” Show the front cover of <i>The Ox-Cart Man</i>. Ask students, “What details do you see on the front cover that show the setting of the text? Do you think the setting of this story is in the past or present?” (RL.2.1, RL.2.7, SL.2.1a-c, SL.2.4, SL.2.6). • First reading: Read this text aloud. Display or project the pages so students can see the illustrations and follow along with the printed text. • Word Work: Build a vocabulary display¹⁰ throughout the unit that students can rely on in their writing. (L.2.6) <ul style="list-style-type: none"> ○ Prompt students to identify words related to the unit focus (e.g., <i>ox</i>, <i>wool</i>, <i>loom</i>, <i>yarn</i>, <i>linen</i>, <i>shingles</i>, <i>birch</i>, <i>barrel</i>, <i>flax</i>) and words from word families or those with related or multiple meanings (e.g., <i>sheared</i>, <i>spun/spinning</i>, <i>split</i>, <i>tapped</i>, <i>tucked</i>, <i>stitching</i>, <i>whittling</i>, <i>embroidered</i>). ○ As a class, define the words in context (using illustrations when appropriate). (L.2.4a) ○ Work with students to verify the meanings of the words. (L.2.4e)

⁹ **Note:** One lesson does not equal one day. Teachers should determine how long to take on a given lesson. This will depend on each unique class.

(L.2.5a) Display the words for students to use when they write. • Note for Small-Group Instruction: Reinforce student understanding of words through additional vocabulary tasks during small-group or center work. Ideas for tasks can be accessed here¹³ and here.¹⁴ • Class Discussion: As a class, ask and answer questions about the text so students can demonstrate understanding of key details. Encourage students to ask questions by providing question stems or conversation starters¹⁵ and developing a routine to ensure that all students are participating in the question asking and answering. (RL.2.1, SL.2.1a-c, SL.2.2, SL.2.6) Sample questions for <i>The Ox-Cart Man</i>: <ul style="list-style-type: none"> ○ Where is the ox-cart man going? Why? (RL.2.7) ○ What does the ox-cart man do at the market? Why is the market important to the family’s survival? Why is the ox-cart man important to the market? (RL.2.3, RL.2.7) ○ What does the family do during the winter, spring, and summer to prepare for the fall market? (RL.2.3, RL.2.7) • Second Reading: Divide the class into pairs. Read aloud the first page of <i>The Ox-Cart Man</i> and then display or project the illustrations of the text. <ul style="list-style-type: none"> ○ Have each partner take turns telling the other partner the next event that happens in the text as each illustration is shown. <p>LESSON 2:</p> <p>“The Seasons of Farming” from Domain 5 of the Grade K Core Knowledge Listening and Learning Strand (pages 85-88 of the Read-Aloud Anthology)¹⁶</p>	<p>TEXT DESCRIPTION: This informational text explains the events on a farm during the each of the four seasons. The text also introduces challenges that farmers face, including droughts and pests, and how farmers respond to the challenges.</p> <p>TEXT FOCUS: This text connects to the unit focus by explaining the seasonal farming cycle. It is connected to the anchor text by providing students with facts and information in order to make insights about the characters, settings, and events in the story. After reading, as a class, ask and answer questions—teacher-created questions or those provided by Core Knowledge—about the text so students can demonstrate understanding of key details.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students read “The Seasons of Farming” independently and then engage in a class discussion about the text to build knowledge for the unit focus and the impact of seasons on farming. Students then revise their writing from Lesson 1 and add a paragraph to the essay.</p> <p>READ THE TEXT:</p> <ul style="list-style-type: none"> • First Reading: Have students create a list of the following words: <i>drought, fertilizer, irrigate, pests, pesticides, harvest, cultivate, emerge, frequently, typically, especially, unfortunately, fortunately, supposed, ensure, produce</i> (noun and verb), <i>producing, yield, spoil, destroying, damaged, ruin, possible, certain</i>. (Teacher Note: This same list will be used for word work later in the lesson.) <ul style="list-style-type: none"> ○ Read aloud the words as students read them silently. ○ Read aloud the words as students read them chorally. ○ Ask students to practice reading¹⁷ the list aloud at least three times with a partner. (RF.2.3b, c, d, e, f) ○ Have students read “The Seasons of Farming” aloud with a partner. (RF.2.4b) • Second Reading: Have students read “The Seasons of Farming” in pairs.¹⁸ (RI.2.10, RF.2.4a-c) • Third Reading: Ask students to reread “The Seasons of Farming” independently or in pairs. During the third reading, asks students to write a “title” for each paragraph. The title can be a single word or phrase or short sentence (e.g., “Fertilizer,” “The Farmer’s Job,” or “Farmers Prepare the Ground with a Plow.”) (RI.2.2, L.2.6)

<p>LESSON 3:</p> <p><i>The Stranger</i>, Chris Van Allsburg</p>	<p>TEXT DESCRIPTION: This literary text uses a mixture of pictures and words to explore the idea of the changes of the seasons and the expected natural events that occur with them: colder weather, leaves changing color, Jack Frost, and migration. The story is a mystery about the identity of the stranger who will represent the seasonal change from summer to fall.</p> <p>TEXT FOCUS: This text connects to the unit focus by requiring students to apply knowledge about seasons, farms, and the farming cycle to analyze the overall structure of the story and the identity of the stranger.</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students listen to <i>The Stranger</i> read aloud multiple times. After each reading, they attempt to determine who the stranger is based on clues provided in the text. Students work to understand the vocabulary of the text and then write a paragraph in which they state and support their opinion about who the stranger is. Finally, students engage in a class discussion to connect <i>The Stranger</i> to the other texts read in the unit.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • <u>First Reading:</u> Read aloud <i>The Stranger</i>. The narrator describes the process of canning and making butter while also explaining how farmers sell their goods at markets in order to earn money. It includes a description of the various booths at the market and how food gets to grocery stores.</p> <p>TEXT FOCUS: This text connects to the unit focus by providing important information to students about how farmers produce and buy goods for and from others. Have students work with pairs to read the text, similar to the process used in Lesson 2. (RL.2.10) Using the narrator’s words and details from the text, have students describe the setting and overall structure of the text, and compare and contrast the experiences of the ox-cart man with those of the narrator. LESSON 7: <i>My Rows and Piles of Coins</i> , Tololwa Mollel	TEXT DESCRIPTION: This is a story about Saruni, a young boy, and his family, who were both consumers and sellers in a market in Tanzania. If they had a productive day at the market, Saruni’s mother gave him five cents for helping her. Saruni decided to save his money to buy a bicycle. Not only did he want one for his own enjoyment, but also so he could help his mother take heavy loads to sell at the market. In the end, he is disappointed that he does not have enough money to buy a bike from the market. He finally tells his mom of his plan, and his dad comes home with a bike for him.

	<p>TEXT FOCUS: Students ask and answer <i>who, what, where, when, why</i> and <i>how</i> questions to demonstrate an understanding of key details in a text, such as setting, characters, and events. (RL.2.1) Students describe the overall story structure of <i>My Rows and Piles of Coins</i>, including how the beginning events introduce Saruni’s savings goal and the ending shows Saruni making a new goal to save toward based on how he can help his mother at the market. (RL.2.5) Students will also apply knowledge of consumers, producers, and sellers to understand the roles of the characters Saruni, Yeyo, Murete, and the tall skinny man at various points in the story.</p> <p>MODEL TASKS</p> <p>SAMPLE TASK: Access a full lesson⁴⁰ for <i>My Rows and Pile of Coins</i> with questions, vocabulary, and a writing task. Incorporate the vocabulary into the display as has been done in previous lessons. Following the lesson, allow time for discussion so that students can make connections between the experiences of Saruni and his family and the ox-cart man and characters in other texts of the unit. Students should also continue to use the vocabulary of the unit from <i>Who’s Buying? Who’s Selling?</i> (e.g., <i>consumer, market, benefit, demand</i>) in discussing the text.</p> <p>Teacher Note: This lesson is aligned to grade 3 standards, although almost all of the questions and tasks are still applicable to grade 2. Read aloud the text to students rather than asking them to read the text independently, as instructed on the lesson.</p>
<p>LESSON 8:</p> <p><i>The Little House</i>, Virginia Lee Burton</p>	<p>TEXT DESCRIPTION: <i>The Little House</i> is a story of a country cottage that becomes engulfed by the city that grows up around it. The house has an expressive face of windows and doors, so she’s sad when she’s surrounded by the dirty, noisy city’s hustle and bustle. Fortunately, there’s a happy ending, as the house is taken back to the country where she belongs.</p> <p>TEXT FOCUS: Students begin by creating a vocabulary display of words and phrases that supply meaning for how the little house is feeling at various points in the text to use when they write (RL.2.4, SL.2.1a-c, L.2.6). Students describe the overall story structure of <i>The Little House</i>, including how the beginning events introduce the country life and how the ending concludes back in the country. (RL.2.5) They describe how the character of the little house in <i>The Little House</i> responds to the country changing to the city. (RL.2.3) They begin to be introduced to how life has changed from the market economy to urban communities and complete a chart that identifies reasons for these changes. (RL.2.1, RL.2.7) Students engage in writing activities in which they explain the change of setting in <i>The Little House</i> and the causes of this change. (W.2.2, W.2.8, L.2.1a-f, L.2.2a-e, L.2.6, SL.2.2)</p> <p>MODEL TASKS</p> <p>LESSON OVERVIEW: Students read and discuss the text in order to build understanding. Students participate in a discussion to deepen understanding of the central message and how it is conveyed through the text and use of illustrations. Students end the lesson by writing a summary of the sequence of events as well as the main character’s feelings about the story’s events.</p>

Lives: Poems About Famous Americans Unit Overview

SUMMATIVE UNIT ASSESSMENTS

CULMINATING WRITING TASK⁵

Assign each student a poem from *Lives: Poems About Famous Americans* selected by Lee Bennett Hopkins that has not been read in class. Focus on selecting poems about people researched for the extension task, such as Thomas Alva Edison (“American Wizard,” Lawrence Schimel) or Anne Sullivan and Helen Keller (“Till,” Tom Robert Shields).

Then ask students to respond to the following prompt: “Write a one-paragraph summary of the poem. In your summary, identify the main topic, describe the details and examples for the main topic, and identify a central message of the poem. Demonstrate command of proper grammar, usage, punctuation, and spelling, and use grade-appropriate words and phrases.”

Teacher Notes:

- *Students are asked to summarize the poem and identify the main topic, describe the details and examples for the main topic, and identify a central message. ([RL.2.1](#), [RL.2.2](#), [W.2.2](#)) The completed writing should use words from the word display. ([L.2.6](#))*
- *Students should write in complete sentences, using adjectives and adverbs properly. ([L.2.1e](#), [f](#)) The writing should demonstrate grade-appropriate grammar and usage, capitalization, punctuation, and spelling. ([L.2.1a-d](#), [L.2.2c-e](#))*
- *Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.2.5](#))*
- *If time allows, help students publish their summaries using technology. ([W.2.6](#))*

3. In “U.S. Presidents: Abraham Lincoln,” what does it mean that “books were **scarce** on the frontier”? ([RI.2.1](#), [RI.2.4](#), [L.2.4a](#))
 - a. Books were useful.
 - b. Books were expensive.
 - c. Books were hard to find.
 - d. Books were valuable to people.
4. What does the author of “U.S. Presidents: Abraham Lincoln” want us to know about Abraham Lincoln? ([RI.2.2](#); [RI.2.6](#); [L.2.1a, b, d, e, f](#); [L.2.2c, d](#); [L.2.6](#))
5. Complete a Biography Chart for Abraham Lincoln using information from either text. ([RI.2.1](#), [RI.2.2](#), [W.2.8](#))

Abraham Lincoln	Answer	Evidence
What is the person’s birth date and date of death?		
What is the greatest problem or challenge this person experienced?		
How did this person help others during and after his/her lifetime?		
Why is this person famous?		
What is an important point in this person’s life?		

⁶ **Cold-Read Task:** Students read texts and answer a series of multiple-choice and constructed-response questions. While the text(s) relate to the unit focus, the text(s) have not been taught during the unit. **Note:** This is a comprehension text. Measurement of student reading ability and mastery of specific reading foundational standards (e.g., decoding, fluency, etc.) should be monitored throughout the unit, particularly during small-group instruction.

⁷ http://www.readworks.org/sites/default/files/passages/700_us_presidents_abraham_lincoln.pdf. Note: The Lexile level of the ReadWorks.org text is toward the middle of the grades 2-3 band. Depending on the time of year this assessment is given, some students are likely going to need additional support reading this text. Read aloud the text for those students.

6. Part A. What words and phrases repeat in “Abe”? ([RL.2.1](#), [RL.2.4](#))

Part B. Even though some words and phrases repeat, they don’t repeat in the same way. What changes in the repetition, and what meaning does that change reveal? ([RL.2.1](#), [RL.2.2](#), [RL.2.5](#))

- a. Lincoln is the president in the second stanza, which means he is powerful.
- b. Lincoln goes from using an axe to using his hands, which means he is strong.
- c. Lincoln is young in the first stanza and old in the second stanza, which means he has become smarter.
- d. Lincoln goes from splitting things apart to bringing them together, which means he helps the nation.

7. How did Abraham Lincoln respond to the challenges he faced? What does his response reveal about Lincoln? Complete the following chart. One example is provided for you. ([RL.2.1](#), [RL.2.3](#), [RI.2.1](#), [RI.2.8](#), [RI.2.9](#), [W.2.8](#), [L.2.6](#))

Challenge	Lincoln’s Response	Characteristic
No time for education	Learned to read and write on his own	Smart

8. “Never giving up” is a common idea in several texts of this unit. How did Abraham Lincoln never give up? ([RI.2.1](#); [RI.2.8](#); [RI.2.9](#); [L.2.1a](#), [b](#), [d](#), [e](#), [f](#); [L.2.2c](#), [d](#); [L.2.6](#))

UNIT FOCUS	UNIT ASSESSMENT	DAILY TASKS

<ul style="list-style-type: none"> • Topic: Famous Americans from history • Themes: The importance of never giving up and fighting for what is just • Text Use: Vocabulary and poetic structure, using texts as mentor texts to create writing, analyzing poetry for a central message, comparing and contrasting ideas across texts on similar topics 	This task focuses on: <ul style="list-style-type: none"> • Understanding grade-level texts • Writing in response to texts 	Read and understand text: <ul style="list-style-type: none"> • Lesson 2 (sample tasks included) • Lesson 6 (sample tasks included) Express understanding of text: <ul style="list-style-type: none"> • Lesson 3 (sample tasks included) • Lesson 5 (sample tasks included) • Lesson 7 (use this task)

EXTENSION TASK⁹

Have students work in small groups to respond to the following prompt: “Investigate the life of a famous American. What events led to this person becoming famous? Should this person be considered heroic? Write a poem about the life of the famous American you researched. Model your poem after the poems in *Lives: Poems About Famous Americans* selected by Lee Bennett Hopkins. Add a picture to your poem. Read your poem to the class once it is finished and answer any audience questions.” ([W.2.3](#))

Use the following process with students:

1. Divide the class into small groups of two or three students. ([SL.2.1a](#))
2. Define the word *hero*. ([RI.2.4](#))
3. Work with students to summarize the lives of the famous Americans studied throughout the unit. ([RI.2.1](#), [RI.2.2](#)) Create a class chart similar to the following and determine whether the famous American should or should not be considered heroic based on his/her actions. ([RI.2.3](#))

Who is the famous American?	What actions or events led to this person becoming famous?	Is this person heroic? Why or why not?
Susan B. Anthony		
Eleanor Roosevelt		
Amelia Earhart		
Marian Anderson		
Mary McLeod Bethune		
Jackie Robinson		
Rosa Parks		
Martin Luther King Jr.		

4. Read aloud the entries from *50 American Heroes Every Kid Should Meet* for those listed on the chart above. Ask students to determine whether the additional information supports their evaluations of heroism.

⁹ **Extension Task:** Students connect and extend their knowledge learned through texts in the unit to engage in shared research or shared writing. The research extension task extends the concepts studied in the set so students can gain more information about concepts or topics that interest them. The writing extension task either connects several of the texts together or is a narrative task related to the unit focus.

5. Ask groups to select a famous American to investigate from a list of choices. (Encourage student selections by reading aloud portions of the entries in *50 American Heroes Every Kid Should Meet*.) Possible people to consider: George Washington Carver, Davy Crockett, Ruby Bridges, Thomas Alva Edison, Pocahontas, Martin Luther King Jr., Helen Keller, Ben Franklin, Sarah Breedlove Walker (Madam C. J. Walker), or other people included in *50 American Heroes Every Kid Should Meet*.
6. Have groups read an additional text about the person they are investigating. (**Teacher Note:** Groups may read the texts independently or as a small group, depending on their ability.) Sample texts:
 - *George Washington Carver: Teacher, Scientist, and Inventor*, Lori Mortensen
 - *A Picture Book of Davy Crockett*, David Adler
 - *The Story of Ruby Bridges*, Robert Coles
 - *A Picture of Book of Thomas Alva Edison*, David Adler
 - *Pocahontas*, Shannon Zemlicka
 - *Teammates*, Peter Golenbock
 - *Martin Luther King, Jr. and the March on Washington*, Frances Ruffin
 - *What's the Big Idea, Ben Franklin?*, Jean Fritz
 - *Helen Keller: Courageous Advocate*, Scott Welvaert
 - *Vision of Beauty: The Story of Sarah Breedlove Walker*, Kathryn Lasky
7. While they are reading, prompt groups to take notes about the person's life. (Where are they from? What makes the person famous? What actions did this person take in response to the various events? Is this person heroic? Why or why not? What should we remember about this person? What can we learn from their experiences?) ([W.2.7](#), [W.2.8](#))
8. Model for students how a poem from *Lives: Poems About Famous Americans* is constructed, emphasizing how the poem draws on and describes events in the person's life. What is the point or message of the poem? How do the chosen details support the message of the poem?
9. Compose a poem using [shared writing](#)¹⁰ and the analyzed model from *Lives: Poems About Famous Americans*. Demonstrate with students the process of creating a poem while also demonstrating written conventions.
10. Ask each group to compose their own poem using the notes they took from their reading and add an illustration to their poem to enhance the content. ([SL.2.5](#)) If time allows, help groups publish their poems using technology. ([W.2.6](#))
11. Once the groups are done, have them read the poem to the class, demonstrating fluency. ([RF.2.4b](#), [SL.2.4](#))
12. Following the reading of each poem, conduct a class discussion in which students ask questions of the presenters to find out more information about the person studied. Add the person to the class chart created in step 3 and work as a class to determine whether the person should be considered a hero or not. ([SL.2.1b](#), [c](#); [SL.2.3](#))

¹⁰ <http://www.louisianabelieves.com/resources/classroom-support-toolbox/teacher-support-toolbox/lesson-assessment-planning-resources/whole-class>

13. Combine the poems into a class book. Place the book in a classroom library for students to read independently. ([RF.2.3a-f](#); [RF.2.4a, c](#))

Teacher Notes:

- *Students are asked to describe the connection between a series of events and write a narrative poem modeled after the structure and language of Lives: Poems About Famous Americans. ([W.2.3](#), [W.2.7](#)) They are also asked to present their narrative poem to the class.*
- *The completed writing should include a visual element to support the written text and use words from the word display. ([SL.2.5](#), [L.2.6](#)) Students should write in complete sentences, using adjectives and adverbs properly. ([L.2.1e, f](#)) The writing should demonstrate grade-appropriate grammar and usage, capitalization, punctuation, and spelling. ([L.2.1a-d](#); [L.2.2a, c-e](#))*
- *Use teacher conferencing and small-group work to target student weaknesses and improve student writing ability. ([W.2.5](#))*

INSTRUCTIONAL FRAMEWORK

In English language arts (ELA), students must learn to read, understand, and write and speak about grade-level texts independently. In grades K-2 specifically, reading foundations, writing, and language development are essential. This instruction alone, though, is not sufficient for promoting complex thinking and deep comprehension of text. Students must also be engaged in whole-class lessons with complex read-aloud and grade-level texts. To do this, teachers must select appropriate texts and use those texts so students meet the standards, as demonstrated through ongoing assessments. To support students in developing independence with reading and communicating about complex texts, teachers should incorporate the following interconnected components into their instruction.

Click [here](#)¹¹ to locate additional information about this interactive framework.

Whole-Class Instruction

This time is for grade-level instruction. Regardless of a student's reading level, exposure to complex texts supports language and comprehension development necessary for continual reading growth. ***This plan presents sample whole-class tasks to represent how standards might be met at this grade level.***

Small-Group Reading

This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to read based on their specific needs and using texts at their reading level;
2. instruction for different learners using grade-level texts to support whole-class instruction;
3. extension for proficient readers using challenging texts.

Small-Group Writing

Most writing instruction is likely to occur during whole-class time. This time is for supporting student needs that cannot be met during whole-class instruction. Teachers might provide:

1. instruction for students learning to write based on their specific developmental needs;
2. instruction for different learners to support whole-class instruction and meet grade-level writing standards;
3. extension for proficient writers.

Independent Reading

This time is for increasing the volume and range of reading that cannot be achieved through other instruction but is necessary for student growth. Teachers can:

1. support growing reading ability by allowing students to read books at their reading level;
2. encourage reading enjoyment and build reading stamina and perseverance by allowing students to select their own texts in addition to teacher-selected texts.

TEXT SEQUENCE AND SAMPLE WHOLE-CLASS TASKS

NOTES ABOUT THE LESSONS: Throughout this unit, students will build knowledge about vocabulary and notable historical figures. Students will progressively build knowledge using the following tools.

- **Vocabulary Display:** The class creates a display for the vocabulary words learned in the unit. Focus on selecting words related to the unit focus and words that have multiple meanings or are part of a word family. Students work with the teacher to define the word and create visual depictions of the various connections between words in the texts. Begin in [Lesson 1](#).
- **Famous Americans Learning Log:** Students create and maintain an [interactive notebook](#)¹² that contains a section for famous Americans studied in the unit. For each famous American, students complete the following. Begin in [Lesson 1](#).
 1. **Biography Chart:** On a three-column graphic organizer, students summarize biographical information and main life events for each person studied in the unit. Students build skill in asking and answering who, what, when, where, how, and why questions to demonstrate understanding of a text.
 2. General notes and written responses about the people studied in the unit.
- **Class Timeline:** The class creates a timeline to connect the lives of the various individuals studied in the unit. A similar task is suggested in [Domain 12 Read-Aloud Anthology](#) from Core Knowledge Grade 2 Listening and Learning Strand. Begin in [Lesson 1](#).

Anthony: An Advocate for Women’s Rights” is a biography, which includes details about the life and contributions of Susan B. Anthony.</p> <p>TEXT FOCUS: This text provides opportunities for students to read and understand a complex text with teacher support. Students will closely examine the vocabulary. Students will identify the main purpose of a biography, as the teacher explains that many will be read throughout the unit. Students will identify the main causes for which Anthony fought and use this text to identify characteristics of a person that would make the person “famous,” including words, thoughts, and actions. Students will keep a journal of famous Americans throughout the unit.</p> <p>MODEL TASKS</p>

	<p>LESSON OVERVIEW: Students begin exploring the vocabulary relative to this unit and create a vocabulary display to use when they write. They engage in multiple whole-class readings of “Susan B. Anthony: An Advocate for Women’s Rights” and summarize the main details. Students complete a Biography Chart and write a paragraph to summarize the significance of Anthony’s life.</p> <p>READ AND UNDERSTAND THE TEXT:</p> <ul style="list-style-type: none"> • <u>First Reading:</u> Read the text to students. Only interrupt minimally as needed to define any essential vocabulary for basic understanding of the text. Allow students the opportunity to appreciate and fully engage with the text. • <u>Class Discussion:</u> Lead a discussion in which students ask and answer questions to demonstrate their understanding of a biography. Encourage students to ask questions by providing question stems or conversation starts and developing a routine to ensure that all students are participating in the question asking and answering. (SL.2.1a-c, SL.2.2) Sample questions include: <ul style="list-style-type: none"> ○ What does the author want us to understand by reading this this text? (RI.2.1, RI.2.2) ○ How is this text different from the informational texts we read in our last unit? ○ What is the main purpose of this biography and biographies in general? Why do we celebrate it?” (RL.2.2, L.2.4a)2. Facilitate the class in paraphrasing the poem. Guide students to write the poem line by line in their own words. As they move through the poem, display their interpretation on the board. (RL.2.1, RL.2.2)3. As a class describe how words and phrases supply rhythm in the poem. (RL.2.4) Discuss the effect of the language: “Does the language make the poem more interesting? Does it help you understand Martin Luther King Jr.? Does it help you create images in your mind as you read?”. (RL.2.3, L.2.3a, L.2.5b, L.2.6)4. Ask students, “Who is the speaker? How does the speaker feel about Martin Luther King Jr.?” (RL.2.6)5. Review the title. Ask, “Why is Martin Luther King Day important? Does the title have the same or different meaning than before?” (RL.2.2, L.2.4a)6. Ask, “What can we learn about Martin Luther King Jr. and his actions from this poem? What does the speaker want us to know?” Have students write one-sentence on the central message of the poem. (RL.2.2, RL.2.3, L.2.1f)• <u>Second Reading</u>: Read aloud “Martin Luther King Jr.: Defender of the Dream” as students read chorally.⁴⁹ (RI.2.10)• Have students create a Biography Chart for Martin Luther King Jr. and place it in the Martin Luther King Jr. section of their Famous Americans Learning Log. COLLEGE AND CAREER READY ENGLISH LANGUAGE ARTS STANDARDS

Grade-specific standards define what students should understand and be able to do by the end of each grade. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate.

Reading

Key Ideas and Details

1. Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
3. Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

Craft and Structure

4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.
5. Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.
6. Assess how point of view or purpose shapes the content and style of a text.

Integration of Knowledge and Ideas

7. Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words²⁷.
8. Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.

Range of Reading and Level of Text Complexity

10. Read and comprehend complex literary and informational texts independently and proficiently.

²⁷ Please see “Research to Build and Present Knowledge” in Writing and “Comprehension and Collaboration” in Speaking and Listening for additional standards relevant to gathering, assessing, and applying information from print and digital sources.

Writing

Text Types and Purposes²⁸

1. Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
2. Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
3. Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

Production and Distribution of Writing

4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

Research to Build and Present Knowledge

7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
9. Draw evidence from literary or informational texts to support analysis, reflection, and research.

Range of Writing

10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

²⁸ These broad types of writing include many subgenres. See [Appendix A](#) for definitions of key writing types.

Speaking and Listening

Comprehension and Collaboration

1. Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.
2. Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.
3. Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric.

Presentation of Knowledge and Ideas

4. Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.
5. Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
6. Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

Language

Conventions of Standard English

1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

Knowledge of Language

3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

Vocabulary Acquisition and Use

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.
5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
6. Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

LOUISIANA K-2 ENGLISH LANGUAGE ARTS STANDARDS

College and Career Ready Students in REading, Writing, Speaking, Listening, and Language

The descriptions that follow are not standards themselves but instead offer a portrait of students who meet the expectations of the English language arts/literacy standards for reading, writing, speaking, listening, and language.

They demonstrate independence.

Students can, without significant scaffolding, comprehend and evaluate complex texts across a range of types and disciplines, and they can construct effective arguments and convey intricate or multifaceted information. Likewise, students are able independently to discern a speaker's key points, request clarification, and ask relevant questions. They build on others' ideas, articulate their own ideas, and confirm they have been understood. Without prompting, they demonstrate command of standard English and acquire and use a wide-ranging vocabulary. More broadly, they become self-directed learners, effectively seeking out and using resources to assist them, including teachers, peers, and print and digital reference materials.

They build strong content knowledge.

Students establish a base of knowledge across a wide range of subject matter by engaging with works of quality and substance. They become proficient in new areas through research and study. They read purposefully and listen attentively to gain both general knowledge and discipline-specific expertise. They refine and share their knowledge through writing and speaking.

They respond to the varying demands of audience, task, purpose, and discipline.

Students adapt their communication in relation to audience, task, purpose, and discipline. They set and adjust purpose for reading, writing, speaking, listening, and language use as warranted by the task. They appreciate nuances, such as how the composition of an audience should affect tone when speaking and how the connotations of words affect meaning. They also know that different disciplines call for different types of evidence (e.g., documentary evidence in history, experimental evidence in science).

They comprehend as well as critique.

Students are engaged and open-minded—but discerning—readers and listeners. They work diligently to understand precisely what an author or speaker is saying, but they also question an author's or speaker's assumptions and premises and assess the veracity of claims and the soundness of reasoning.

They value evidence.

Students cite specific evidence when offering an oral or written interpretation of a text. They use relevant evidence when supporting their own points in writing and speaking, making their reasoning clear to the reader or listener, and they constructively evaluate others' use of evidence.

They use technology and digital media strategically and capably.

Students employ technology thoughtfully to enhance their reading, writing, speaking, listening, and language use. They tailor their searches online to acquire useful information efficiently, and they integrate what they learn using technology with what they learn offline. They are familiar with the strengths and limitations of various technological tools and mediums and can select and use those best suited to their communication goals.

They come to understand other perspectives and cultures.

Students appreciate that the twenty-first-century classroom and workplace are settings in which people from often widely divergent cultures and who represent diverse experiences and perspectives must learn and work together. Students actively seek to understand other perspectives and cultures through reading and listening, and they are able to communicate effectively with people of varied backgrounds. They evaluate other points of view critically and constructively. Through reading great classic and contemporary works of literature representative of a variety of periods, cultures, and worldviews, students can vicariously inhabit worlds and have experiences much different than their own.

LOUISIANA K-2 ENGLISH LANGUAGE ARTS STANDARDS

Language Progressive Skills, by Grade

The following skills, marked with an asterisk (*) in Language standards 1–3, are particularly likely to require continued attention in higher grades as they are applied to increasingly sophisticated writing and speaking.

Standard	Grade(s)							
	3	4	5	6	7	8	9–10	11–12
L.3.1f. Ensure subject-verb and pronoun-antecedent agreement.								
L.3.3a. Choose words and phrases for effect.								
L.4.1f. Produce complete sentences, recognizing and correcting inappropriate fragments and run-ons.								
L.4.1g. Correctly use frequently confused words (e.g., <i>to/too/two</i> ; <i>there/their</i>).								
L.4.3a. Choose words and phrases to convey ideas precisely.*								
L.4.3b. Choose punctuation for effect.								
L.5.1d. Recognize and correct inappropriate shifts in verb tense.								
L.5.2a. Use punctuation to separate items in a series.†								
L.6.1c. Recognize and correct inappropriate shifts in pronoun number and person.								
L.6.1d. Recognize and correct vague pronouns (i.e., ones with unclear or ambiguous antecedents).								
L.6.1e. Recognize variations from standard English in their own and others' writing and speaking, and identify and use strategies to improve expression in conventional language.								
L.6.2a. Use punctuation (commas, parentheses, dashes) to set off nonrestrictive/parenthetical elements.								
L.6.3a. Vary sentence patterns for meaning, reader/listener interest, and style.‡								
L.6.3b. Maintain consistency in style and tone.								
L.7.1c. Place phrases and clauses within a sentence, recognizing and correcting misplaced and dangling modifiers.								
L.7.3a. Choose language that expresses ideas precisely and concisely, recognizing and eliminating wordiness and redundancy.								
L.8.1d. Recognize and correct inappropriate shifts in verb voice and mood.								
L.9–10.1a. Use parallel structure.

READING STANDARDS FOR LITERATURE

The following standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. *Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.*

Key Ideas and Details

1. With prompting and support, ask and answer questions about key details in a text.
2. With prompting and support, retell familiar stories, including key details.
3. With prompting and support, identify characters, settings, and major events in a story.

Craft and Structure

4. Ask and answer questions about unknown words in a text.
5. Recognize common types of texts (e.g., storybooks, poems).
6. With prompting and support, name the author and illustrator of a story and define the role of each in telling the story.

Integration of Knowledge and Ideas

7. With prompting and support, describe the relationship between illustrations and the story in which they appear (e.g., what moment in a story an illustration depicts).
8. (Not applicable to literature)
9. With prompting and support, compare and contrast the adventures and experiences of characters in familiar stories.

Range of Reading and Level of Text Complexity

10. Actively engage in group reading activities with purpose and understanding.

READING STANDARDS FOR INFORMATIONAL TEXT

Key Ideas and Details

1. With prompting and support, ask and answer questions about key details in a text.
2. With prompting and support, identify the main topic and retell key details of a text.
3. With prompting and support, describe the connection between two individuals, events, ideas, or pieces of information in a text.

Craft and Structure

4. With prompting and support, ask and answer questions about unknown words in a text.
5. Identify the front cover, back cover, and title page of a book.
6. Name the author and illustrator of a text and define the role of each in presenting the ideas or information in a text.

Integration of Knowledge and Ideas

7. With prompting and support, describe the relationship between illustrations and the text in which they appear (e.g., what person, place, thing, or idea in the text an illustration depicts).
8. With prompting and support, identify the reasons an author gives to support points in a text.
9. With prompting and support, identify basic similarities in and differences between two texts on the same topic (e.g., in illustrations, descriptions, or procedures).

Range of Reading and Level of Text Complexity

10. Actively engage in group reading activities with purpose and understanding.

READING STANDARDS FOR FOUNDATIONAL SKILLS

These standards are directed toward fostering students' understanding and working knowledge of concepts of print, the alphabetic principle, and other basic conventions of the English writing system. These foundational skills are not an end in and of themselves; rather, they are necessary and important components of an effective, comprehensive reading program designed to develop proficient readers with the capacity to comprehend texts across a range of types and disciplines. Instruction should be differentiated: good readers will need much less practice with these concepts than struggling readers will. The point is to teach students what they need to learn and not what they already know—to discern when particular children or activities warrant more or less attention. **Note: In kindergarten, children are expected to demonstrate increasing awareness and competence in the areas that follow.**

Print Concepts

1. Demonstrate understanding of the organization and basic features of print.
 - a. Follow words from left to right, top to bottom, and page by page.
 - b. Recognize that spoken words are represented in written language by specific sequences of letters.
 - c. Understand that words are separated by spaces in print.
 - d. Recognize and name all upper- and lowercase letters of the alphabet.

Phonological Awareness

2. Demonstrate understanding of spoken words, syllables, and sounds (phonemes).
 - a. Recognize and produce rhyming words.
 - b. Count, pronounce, blend, and segment syllables in spoken words.
 - c. Blend and segment onsets and rimes of single-syllable spoken words.
 - d. Isolate and pronounce the initial, medial vowel, and final sounds (phonemes) in three-phoneme (consonant-vowel-consonant, or CVC) words.²⁹ (This does not include CVCs ending with /l/, /r/, or /x/.)
 - e. Add or substitute individual sounds (phonemes) in simple, one-syllable words to make new words.

Phonics and Word Recognition

3. Know and apply grade-level phonics and word analysis skills in decoding words.
 - a. Demonstrate basic knowledge of one-to-one letter-sound correspondences by producing the primary or many of the most frequent sound for each consonant.
 - b. Associate the long and short sounds with common spellings (graphemes) for the five major vowels.
 - c. Read common high-frequency words by sight (e.g., the, of, to, you, she, my, is, are, do, does).
 - d. Distinguish between similarly spelled words by identifying the sounds of the letters that differ.

Fluency

4. Read emergent-reader texts with purpose and understanding.

²⁹ Words, syllables, or phonemes written in /slashes/ refer to their pronunciation or phonology. Thus, /CVC/ is a word with three phonemes regardless of the number of letters in the spelling of the word.

WRITING STANDARDS

The following standards for offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of skills and applications. Each year in their writing, students should demonstrate increasing sophistication in all aspects of language use, from vocabulary and syntax to the development and organization of ideas, and they should address increasingly demanding content and sources. Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades. The expected growth in student writing ability is reflected both in the standards themselves and in the collection of annotated student writing samples in [*In Common: Effective Writing for All Students*](#).

Text Types and Purposes

1. Use a combination of drawing, dictating, and writing to compose opinion pieces in which they tell a reader the topic or the name of the book they are writing about and state an opinion or preference about the topic or book (e.g., My favorite book is . . .).
2. Use a combination of drawing, dictating, and writing to compose informative/explanatory texts in which they name what they are writing about and supply some information about the topic.
3. Use a combination of drawing, dictating, and writing to narrate a single event or several loosely linked events, tell about the events in the order in which they occurred, and provide a reaction to what happened.

Production and Distribution of Writing

4. Begins in grade 3.
5. With guidance and support from adults, respond to questions and suggestions from peers and add details to strengthen writing as needed.
6. With guidance and support from adults, explore a variety of digital tools to produce and publish writing, including in collaboration with peers.

Research to Build and Present Knowledge

7. Participate in shared research and writing projects (e.g., explore a number of books by a favorite author and express opinions about them).
8. With guidance and support from adults, recall information from experiences or gather information from provided sources to answer a question.
9. Begins in grade 4.

Range of Writing

10. Begins in grade 3.

SPEAKING AND LISTENING STANDARDS

The following standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of skills and applications. *Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.*

Comprehension and Collaboration

1. Participate in collaborative conversations with diverse partners about kindergarten topics and texts with peers and adults in small and larger groups.
 - a. Follow agreed-upon rules for discussions (e.g., listening to others and taking turns speaking about the topics and texts under discussion).
 - b. Continue a conversation through multiple exchanges.
2. Confirm understanding of a text read aloud or information presented orally or through other media by asking and answering questions about key details and requesting clarification if something is not understood.
3. Ask and answer questions in order to seek help, get information, or clarify something that is not understood.

Presentation of Knowledge and Ideas

4. Describe familiar people, places, things, and events and, with prompting and support, provide additional detail.
5. Add drawings or other visual displays to descriptions as desired to provide additional detail.
6. Speak audibly and express thoughts, feelings, and ideas clearly.

LANGUAGE STANDARDS

The following standards for grades offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of skills and applications. *Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.*

Conventions of Standard English

1. Demonstrate command of the conventions of Standard English grammar and usage when writing or speaking.
 - a. Print many upper- and lowercase letters.
 - b. Use frequently occurring nouns and verbs.
 - c. Form regular plural nouns orally by adding /s/ or /es/ (e.g., dog, dogs; wish, wishes).
 - d. Understand and use question words (interrogatives) (e.g., who, what, where, when, why, how).
 - e. Use the most frequently occurring prepositions (e.g., to, from, in, out, on, off, for, of, by, with).
 - f. Produce and expand complete sentences in shared language activities.
2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
 - a. Capitalize the first word in a sentence and the pronoun I.
 - b. Recognize and name end punctuation.
 - c. Write a letter or letters for most consonant and short-vowel sounds (phonemes).
 - d. Spell simple words phonetically, drawing on knowledge of sound-letter relationships.

Knowledge of Language

3. Begins in grade 2.

Vocabulary Acquisition and Use

4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on kindergarten reading and content.
 - a. Identify new meanings for familiar words and apply them accurately (e.g., knowing duck is a bird and learning the verb to duck).
 - b. Use the most frequently occurring inflections and affixes (e.g., -ed, -s, re-, un-, pre-, -ful, -less) as a clue to the meaning of an unknown word.
5. With guidance and support from adults, explore word relationships and nuances in word meanings.
 - a. Sort common objects into categories (e.g., shapes, foods) to gain a sense of the concepts the categories represent.
 - b. Demonstrate understanding of frequently occurring verbs and adjectives by relating them to their opposites (antonyms).
 - c. Identify real-life connections between words and their use (e.g., note places at school that are colorful).
 - d. Distinguish shades of meaning among verbs describing the same general action (e.g., walk, march, strut, prance) by acting out the meanings.
6. Use words and phrases acquired through conversations, reading and being read to, and responding to texts.

GRADE 1 ENGLISH LANGUAGE ARTS STANDARDS

READING STANDARDS FOR LITERATURE

The following standards offer a focus for instruction each year and help ensure that students gain adequate exposure to a range of texts and tasks. Rigor is also infused through the requirement that students read increasingly complex texts through the grades. *Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.*

Key Ideas and Details

1. Ask and answer questions about key details in a text.
2. Retell stories, including key details, and demonstrate understanding of their central message or lesson.
3. Describe characters, settings, and major events in a story, using key details.

Craft and Structure

4. Identify words and phrases in stories or poems that suggest feelings or appeal to the senses.
5. Explain major differences between books that tell stories and books that give information, drawing on a wide reading of a range of text types.
6. Identify who is telling the story at various points in a text.

Integration of Knowledge and Ideas

7. Use illustrations and details in a story to describe its characters, setting, or events.
8. (Not applicable to literature)
9. Compare and contrast the adventures and experiences of characters in stories.

Range of Reading and Level of Text Complexity

10. With prompting and support, read prose and poetry of appropriate complexity for grade 1.

READING STANDARDS FOR INFORMATIONAL TEXT

Key Ideas and Details

1. Ask and answer questions about key details in a text.
2. Identify the main topic and retell key details of a text.
3. Describe the connection between two individuals, events, ideas, or pieces of information in a text.

Integration of Knowledge and Ideas

7. Use the illustrations and details in a text to describe its key ideas.
8. Identify the reasons an author gives to support points in a text.
9. Identify basic similarities in and differences between two texts on the same topic (e.g., in illustrations, descriptions, or procedures).

Range of Reading and Level of Text Complexity

10. With prompting and support read informational texts appropriately complex for grade 1.

READING STANDARDS FOR FOUNDATIONAL SKILLS

These standards are directed toward fostering students' understanding and working knowledge of concepts of print, the alphabetic principle, and other basic conventions of the English writing system. These foundational skills are not an end in and of themselves; rather, they are necessary and important components of an effective, comprehensive reading program designed to develop proficient readers with the capacity to comprehend texts across a range of types and disciplines. Print Concepts

1. Demonstrate understanding of the organization and basic features of print.
 - a. Recognize the distinguishing features of a sentence (e.g., first word, capitalization, ending punctuation).

Phonological Awareness

2. Demonstrate understanding of spoken words, syllables, and sounds (phonemes).
 - a. Distinguish long from short vowel sounds in spoken single-syllable words.
 - b. Orally produce single-syllable words by blending sounds (phonemes), including consonant blends.
 - c. Isolate and pronounce initial, medial vowel, and final sounds (phonemes) in spoken single-syllable words.
 - d. Segment spoken single-syllable words into their complete sequence of individual sounds (phonemes).

Phonics and Word Recognition

3. Know and apply grade-level phonics and word analysis skills in decoding words.
 - a. Know the spelling-sound correspondences for common consonant digraphs.
 - b. Decode regularly spelled one-syllable words.
 - c. Know final -e and common vowel team conventions for representing long vowel sounds.
 - d. Use knowledge that every syllable must have a vowel sound to determine the number of syllables in a printed word.
 - e. Decode two-syllable words following basic patterns by breaking the words into syllables.
 - f. Read words with inflectional endings.
 - g. Recognize and read grade-appropriate irregularly spelled words.

Fluency

4. Read with sufficient accuracy and fluency to support comprehension.
 - a. Read on-level text with purpose and understanding.
 - b. Read on-level text orally with accuracy, appropriate rate, and expression on successive readings.
 - c. Use context to confirm or self-correct word recognition and understanding, rereading as necessary.

GRADE 1 ENGLISH LANGUAGE ARTS STANDARDS

SPEAKING AND LISTENING STANDARDS

The following standards offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of skills and applications. *Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.*

Comprehension and Collaboration

1. Participate in collaborative conversations with diverse partners about grade 1 topics and texts with peers and adults in small and larger groups.
 - a. Follow agreed-upon rules for discussions (e.g., listening to others with care, speaking one at a time about the topics and texts under discussion).
 - b. Build on others' talk in conversations by responding to the comments of others through multiple exchanges.
 - c. Ask questions to clear up any confusion about the topics and texts under discussion.
2. Ask and answer questions about key details in a text read aloud or information presented orally or through other media.
3. Ask and answer questions about what a speaker says in order to gather additional information or clarify something that is not understood.

Presentation of Knowledge and Ideas

4. Describe people, places, things, and events with relevant details, expressing ideas and feelings clearly.
5. Add drawings or other visual displays to descriptions when appropriate to clarify ideas, thoughts, and feelings.
6. Produce complete sentences when appropriate to task and situation.

8. Describe how reasons support specific points the author makes in a text.
9. Compare and contrast the most important points presented by two texts on the same topic.

Range of Reading and Level of Text Complexity

10. By the end of year, read and comprehend informational texts, including history/social studies, science, and technical texts, in the grades 2–3 text complexity band proficiently, with scaffolding as needed at the high end of the range.

READING STANDARDS FOR FOUNDATIONAL SKILLS

These standards are directed toward fostering students' understanding and working knowledge of concepts of print, the alphabetic principle, and other basic conventions of the English writing system. These foundational skills are not an end in and of themselves; rather, they are necessary and important components of an effective, comprehensive reading program designed to develop proficient readers with the capacity to comprehend texts across a range of types and disciplines. Instruction should be differentiated: good readers will need much less practice with these concepts than struggling readers will. The point is to teach students what they need to learn and not what they already know—to discern when particular children or activities warrant more or less attention.

Print Concepts

1. Mastered in grade 1.

Phonological Awareness

2. Mastered in grade 1.

Phonics and Word Recognition

3. Know and apply grade-level phonics and word analysis skills in decoding words.
 - a. Distinguish long and short vowels when reading regularly spelled one-syllable words.
 - b. Know spelling-sound correspondences for additional common vowel teams.
 - c. Decode regularly spelled two-syllable words with long vowels.
 - d. Decode words with common prefixes and suffixes.
 - e. Identify words with inconsistent but common spelling-sound correspondences.
 - f. Recognize and read grade-appropriate irregularly spelled words.

Fluency

4. Read with sufficient accuracy and fluency to support comprehension.
 - a. Read on-level text with purpose and understanding.
 - b. Read on-level text orally with accuracy, appropriate rate, and expression on successive readings.
 - c. Use context to confirm or self-correct word recognition and understanding, rereading as necessary.

WRITING STANDARDS

The following standards for offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of skills and applications. Each year in their writing, students should demonstrate increasing sophistication in all aspects of language use, from vocabulary and syntax to the development and organization of ideas, and they should address increasingly demanding content and sources. *Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.* The expected growth in student writing ability is reflected both in the standards themselves and in the collection of annotated student writing samples in [In Common: Effective Writing for All Students](#).

Text Types and Purposes

1. Write opinion pieces in which they introduce the topic or book they are writing about, state an opinion, supply reasons that support the opinion, use linking words (e.g., because, and, also) to connect opinion and reasons, and provide a concluding statement or section.
2. Write informative/explanatory texts in which they introduce a topic, use facts and definitions to develop points, and provide a concluding statement or section.
3. Write narratives in which they recount a well-elaborated event or short sequence of events, include details to describe actions, thoughts, and feelings, use temporal words to signal event order, and provide a sense of closure.

Production and Distribution of Writing

4. Begins in grade 3.
5. With guidance and support from adults and peers, focus on a topic and strengthen writing as needed by revising and editing.
6. With guidance and support from adults, use a variety of digital tools to produce and publish writing, including in collaboration with peers.

Research to Build and Present Knowledge

7. Participate in shared research and writing projects (e.g., read a number of books on a single topic to produce a report; record science observations).
8. Recall information from experiences or gather information from provided sources to answer a question.
9. Begins in grade 4
