Other Information

- Please encourage the students to dress appropriately. The weather will be cool in the morning and the grass could still be wet. Encourage the students to wear a long-sleeve shirt over the top of a t-shirt if the desire and to wear **ATHLETIC SHOES!**
- When you hear the signal to rotate, you will rotate clock-wise (Next Number Up) to the next station.
- Each station will have a volunteer working at it and we are hoping that you can manage/monitor your students within their two (2) groups during the activity time. Your split up class will be at stations that are back to back of each other.
