# **TITLE I PARENT HANDBOOK**

This parent handbook is provided to acquaint parents with the Title I programs in the Heath City Schools. The Title I programs at Heath Middle school is developed through the efforts of parents, teachers, administrators, and Title I staff. Programs are planned through a series of steps. First, a needs assessment is conducted through input from parents, teachers, and staff. The needs assessment determines what is needed for all students to meet education standards. Second, teachers, staff and parents plan how to best meet the needs shown in the assessments. Next, teachers receive training on how to best serve these needs and implement the plan developed. Resources are gathered that are needed to implement the plan and finally a yearly review is conducted to examine results and evaluate needs again.

## **WHAT IS TITLE I?**

### **How Can It Help My Child?**

Title I is a federally funded education program that works to give all children a chance to learn at higher academic standards. Its purpose is to prevent failure by ensuring that more children experience success in school. Sometimes children need assistance to meet the standards Ohio has set for all children. This includes children who:

- Have trouble reading words
- Read below their grade level
- Have trouble understanding what they read
- Have trouble with reading fluency which impacts the student's comprehension
- Have trouble understanding math concepts

### **What help does Title I provide?**

- Title I provides assistance in the academic areas of reading and math. Extra help could include:
- Additional teachers to work with very small groups or one-on-one
  - Additional training for staff
  - A variety of evidence based instructional strategies and research based materials/programs
  - Title I teacher and regular education teachers collaborate together to meet the needs of each student

## **WHAT IS A TITLE I SCHOOLWIDE PROGRAM?**

A schoolwide program is a comprehensive reform strategy designed to upgrade the entire educational program in a Title I school; its primary goal is to ensure that all students, particularly those who are low-achieving, demonstrate proficient and advanced levels of achievement.

This schoolwide reform strategy requires that a school--

- Conduct a comprehensive needs assessment;
- Identify and commit to specific goals and strategies that address those needs;
- Create a comprehensive plan; and
- Conduct an annual review of the effectiveness of the schoolwide program and revise the plan as necessary.

The emphasis in school wide program campuses is on serving all students, improving all structures that support student learning, and combining all resources, as allowed, to achieve a common goal. Schoolwide programs maximize the impact of Title I.

The schoolwide approach to achieving these ambitious goals is based on the premise that comprehensive reform strategies rather than separate, add-on services are most effective in raising academic achievement for the lowest achieving students in a school. A well-designed and implemented schoolwide program touches all aspects of the school's operation and offers an appropriate option for high-poverty schools seeking to improve achievement for all students, particularly the lowest achieving.

## **TITLE I PROGRAMS IN THE HEATH CITY SCHOOLS**

To meet the goals established in the District's Continuous Improvement Plan several programs have been established at Garfield and Stevenson Elementary as well as Heath Middle School.

### **Heath Middle School Grades 6-8**

Intervention is provided to students that are at-risk in reading and math in grades 6-8. The staff continues to evaluate student performance on state and district assessments (STAR) to ensure that the needs of all students are met. The classroom teachers and Title I teachers work together to provide the needed assistance so that all students can reach high academic standards. Title I staff works with students based on need and grade level by using one or more of the following approaches: in the inclusionary classroom, small group, and/or in a one-to-one intensive instructional approach.

All students will be exposed to grade level content standards. Classroom teachers, the intervention specialist, and Title I teachers will work together to help all children succeed in the regular curriculum. Additional assistance and supplemental materials will be given to students having difficulty mastering state academic content standards.

I-Ready is used to individualize instruction for at-risk students. Students are given a diagnostic evaluation to determine their current levels and skills in reading and/or math. They work at their current independent level in those subjects to achieve individual growth. The program is computer generated and will provide additional learning opportunities for our students and also is available at home for parent and student access.

The district will provide high quality and continuous professional development for teachers and staff through cooperation with local colleges and universities.

On-going evaluations will be conducted to monitor student progress. These evaluations will be diagnostic, short-cycle quarterly assessments, formative assessments, progress monitoring and state tests. Teachers will work together to analyze data and plan for optimal student learning.

### **Classroom Teacher and Title I Teacher Coordination**

The following activities represent classroom teacher and Title I teacher coordination activities:

1. Individual student's reading and math strengths and weaknesses are shared with the classroom teacher and an instructional level is noted.
2. Classroom teachers are consulted regarding schedules.
3. Informal meetings are held to discuss specific children's progress.
4. Teachers fill out a formal evaluation discussing the benefit of Title I services at the end of the year. Input as to suggestions for improvement is solicited.
5. Suggestions for working effectively with parents are shared with classroom teachers and principals at the Title I schools. Our goal is to build a partnership between home and school. Classroom teachers and Title I teachers share information about student progress based on quarterly assessment and instruction. Quarterly written reports at report card periods are given to the classroom teacher regarding individual children's progress.

6. Classroom teachers and Title I teachers share information about student progress based on quarterly assessments and instruction. Quarterly written reports at report card periods are given to the classroom teacher regarding individual children's progress.

## **Model Notification of Rights under FERPA for Elementary and Secondary Schools**

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the Heath Middle School receives a request for access.

Parents or eligible students who wish to inspect their child's or their education records should submit to the school principal or assistant principal, a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the school to amend their child's or their education record should write the school principal or assistant principal, clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school's or school district's annual notification for FERPA rights. A school official typically includes a person employed by the school or school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school or school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school or school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request or the disclosure is initiated by the parent or eligible student.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, DC 20202

[NOTE: In addition, a school may want to include its directory information public notice, as required by § 99.37 of the regulations, with its annual notification of rights under FERPA.]

[Optional] See the list below of the disclosures that elementary and secondary schools may make without consent.

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, § 99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

- To other school officials, including teachers, within the educational agency or institution whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in § 99.31(a)(1)(i)(B)(1) - (a)(1)(i)(B)(3) are met. (§ 99.31(a)(1))
- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of § 99.34. - To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency (SEA) in the parent or eligible student's State. Disclosures under this provision may be made, subject to the requirements of § 99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf, if applicable requirements are met. (§§ 99.31(a)(3) and 99.35)
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§ 99.31(a)(4))
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to § 99.38. (§ 99.31(a)(5))

- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction, if applicable requirements are met. (§ 99.31(a)(6))
- To accrediting organizations to carry out their accrediting functions. (§ 99.31(a)(7))
- To parents of an eligible student if the student is a dependent for IRS tax purposes. (§ 99.31(a)(8))
- To comply with a judicial order or lawfully issued subpoena if applicable requirements are met. (§ 99.31(a)(9))
- To appropriate officials in connection with a health or safety emergency, subject to § 99.36. (§ 99.31(a)(10))
- Information the school has designated as “directory information” if applicable requirements under § 99.37 are met. (§ 99.31(a)(11))
- To an agency caseworker or other representative of a State or local child welfare agency or tribal organization who is authorized to access a student’s case plan when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student in foster care placement. (20 U.S.C. § 1232g(b)(1)(L))
- To the Secretary of Agriculture or authorized representatives of the Food and Nutrition Service for purposes of conducting program monitoring, evaluations, and performance measurements of programs authorized under the Richard B. Russell National School Lunch Act or the Child Nutrition Act of 1966, under certain conditions. (20 U.S.C. § 1232g(b)(1)(K))
