A GUIDE TO OHIO'S TWO-YEAR COLLEGES 2019-2020

OHIO
ASSOCIATION FOR COLLEGE ADMISSION COUNSELING

Colleges

Two-Year Colleges: Associate Degree Preferred!

Do you know that nearly 50 percent of all undergraduate college students begin their studies at a two-year college? Two-year colleges offer:

- Academic Excellence
- Quality Faculty and Staff
- Affordable Cost
- Classes Close to Home
- Variety of Programs
- Outstanding Support Services (Financial Aid, Counseling, Tutoring, etc.)
- Personal Attention
- State-of-the-Art Equipment and Facilities
- Caring Environment
- Small Classes
- Collegiate Environment (Student Clubs, Activities, and Sports)
- Ability to Transfer Credits
- Programs Accredited by North Central Association of Colleges and Schools

Ohio's two-year college system is made up of 23 state-assisted and locally autonomous technical and community colleges. In recent years, over 200,000 students have enrolled in college credit courses at these institutions throughout Ohio.

Two-year colleges consist of three types: technical, state community, and community. Technical colleges provide hands-on education in a specific field. Many technical college graduates transfer to baccalaureate programs. Both state community and community colleges offer technical programs and university parallel programs providing students with a variety of options.

Students who choose to begin their college careers at a two-year college cite quality of education and reasonable cost as the main benefits. Completing the first two years of a bachelor's degree at a two-year college can save the student several thousand dollars. A variety of technical, career-oriented degrees offered by two-year colleges can lead to employment immediately after the student completes his/her associate degree.

This guide provides an up-to-date directory of programs and services offered by Ohio's system of technical and community colleges. We hope you find it helpful!

Belmont College

68094 Hammond Road, St. Clairsville, Ohio 43950-9735

Profile: Belmont College offers more than 25 degrees and 20 certificate programs. In addition, the Workforce Development and Community Education Department offers classes for those seeking a specific skill set without the extended time commitment of completing a degree. Belmont College offers credit and non-credit programing at the Main Campus in St. Clairsville, Ohio. The College also has off-campus locations in Cadiz and Woodsfield, Ohio, as well as online classes.

Accreditation: Higher Learning Commission of the North Central Association of Colleges and Schools

Admissions Phone: 740.695.9500; Toll Free: 1.800.423.1188; **Fax Number:** 740.699.3049; **Harrison County Center:** 740.942.2222; **Monroe County Center:** 740.472.5468; **Email:** admissions@belmontcollege.edu; **Website:** www.belmontcollege.edu

State of Ohio Transfer

The Ohio Board of Regents, following the directive of the Ohio General Assembly, has developed a statewide policy to facilitate movement of students and transfer credits from one Ohio public college or university to another. The purpose of the State Policy is to avoid duplication of course requirements and to enhance student mobility throughout Ohio's higher education system. Since independent colleges and universities in Ohio may or may not be participating in the transfer policy, students interested in transferring to an independent institution are encouraged to check with the college or university of their choice regarding transfer agreements.

The Ohio Board of Regents' Transfer and Articulation policy established the Transfer Module, which is a specific subset or the entire set of a college or university's general education requirements. The Transfer Module contains 36-40 semester hours of specified course credits in English composition, mathematics, fine arts, humanities, social science, behavioral science, natural science, physical science, and interdisciplinary course work. A transfer module completed at one college or university will automatically meet the requirements of the transfer module at the receiving institution, once the student is accepted. Students may be required, however, to meet additional general education requirements that are not included in the Transfer Module.
