INTRODUCTION

Overview

The Comprehensive Education Data and Research System (CEDARS) is a longitudinal data system that allows the Washington Office of Superintendent of Public Instruction (OSPI) to collect, store and report data related to students, courses, and teachers in order to meet state and federal reporting requirements and to help educators and policy makers to make data driven decisions. CEDARS replaced the former data collection tool used by OSPI, the Core Student Record System (CSRS), in September 2009.

The Comprehensive Education Data and Research System (CEDARS) Appendices supplements the CEDARS Manual and Reporting Guidance.

Information contained within this document is intended to be complementary to information contained within other OSPI documents, namely the CEDARS manual itself. Please contact Customer Support if you find inconsistencies.

Where appropriate, this document will refer to the appropriate CEDARS Manual submission file(s) and elements affected.
