Parents' Right to Know

Through federal education law, parent(s) or guardian(s) have the right to request information on the professional qualification of the teachers and paraprofessionals educating their children. If you are interested in receiving this information, please contact the Central Administration Office at 701-456-0002. Upon request, you will receive a detailed explanation of the licensing of educational qualification of each of your children's teachers. You will also receive the names and qualifications of the paraprofessionals working with your student.

Student Records

A permanent cumulative record is kept on file for every student. These records contain information dealing with grades, attendance and standardized test scores. Until you are 18 years of age, your parent(s) or guardian(s) legally have access to your school records. At age 18 or older you have access to them.

A student's record cannot be sent to any agency or organization without the written consent of the student or the parent(s) or guardian(s), with the exception of another school which the student plans to attend. We will send a transcript to other schools either at the request of the student, if 18 or older, or the parent(s) or guardian(s) if under 18, or at the request of the school which the student plans to attend. This request may be verbal. The above procedures are in compliance with the provisions of Public Law 93-380 passed by Congress in 1974.

Nondiscrimination Policy

You are hereby notified that the Dickinson Public School District #1 does not discriminate on a basis of race, color, religion, sex, gender identity, sexual orientation, national origin, ancestry, disability, age, marital status, and other status protected by law in its educational programs/activities and employment practices. It is required by Title IX and Part 86 of the Department of Health, Education and Welfare regulations not to discriminate in such a manner. This notice includes Title VI Civil Rights Act of 1964 and the Americans With Disabilities Act of 1990.

You are further notified that the Dickinson Public School District #1 does not discriminate in services or employment practices on a basis of handicap, in accordance with North Dakota Century Code 15-59-04, 48-02, 19, or PL94-142, Section 504 of the Vocational Rehabilitation Act of 1973, and as amended.

You are further notified that inquiries concerning the application of Title IX, Title VI, ADA, and Part 86 or other issues of equal opportunity may be referred to the Human Resources Director, who has been designated as the person responsible for coordinating the efforts of Dickinson Public School District #1 to comply with and carry out these responsibilities, including any investigation of complaints alleging noncompliance of practices, and violation of law, or school board policy.

Asbestos Notice

The Asbestos Hazard Emergency Response Act (AHERA) requires that all public school buildings be inspected or re-inspected for the presence of asbestos every three years after a management plan is in effect. The same statute also requires initial and annual notifications of the availability of a management plan which outlines the steps to be taken to eliminate any hazards.

The Dickinson Public School District has a very limited amount of asbestos containing materials in the school buildings and it is being managed in strict compliance with all pertinent federal regulations. A copy of the inspection report, which details the locations of these materials and the proper management procedures, is available for public inspection during normal working hours in the Central Administration Office.

Covid-19 Notice

The Dickinson Public School District will monitor the coronavirus cases in the County, receive guidance from the State and County Health Officials, and follow guidelines specified by the Centers for Disease Control (CDC) for safe schools during a pandemic and develop protocols consistent with the guidelines of the CDC and health officials.

Positive Behavioral Support at Dickinson High School SMORE is our Positive Behavioral Interventions and Supports (PBIS) program. PBIS is an evidence-based, data-driven framework proven to reduce disciplinary incidents, increase a school's sense of safety and support improved academic outcomes. The premise of PBIS is that continual teaching, combined with acknowledgement or feedback of positive student behavior will reduce unnecessary discipline and promote a climate of greater productivity, safety and learning. The SMORE program at Dickinson High School applies a multi-tiered approach to prevention, using disciplinary data and principles of behavior analysis to develop school-wide, targeted and individualized interventions and supports to improve the school climate for all students.

Grade Level Assignment/Placement

Students are typically assigned grade level by the number of years they have attended high school and/or by the number of credits they have earned.

Freshman/grade 9 - regularly enrolled first-year student

Sophomore/grade 10 - attended one full year and earned 6.5 or more credits

Juniors/grade 11 - attended two full years and earned 13 or more credits

Seniors/grade 12 - attended three full years and earned 18 or more credits

Grading

The grading system at Dickinson High School uses the letters A, B, C, D, F, and I. F indicates a failing grade and I is incomplete. In general, the other four grades are interpreted as follows:

The following grading scale is in effect as of 8/22/2019.

| | |
|------------|---------------------------|
| 90% – 100% | A – Superior |
| 80 % – 89% | B – Good/Above Average |
| 70% – 79% | C – Average |
| 60% – 69% | D – Passing/Below Average |

Incomplete Grades

Incompletes must be made up within two weeks from the end of the nine-week period or the missing assignments may be recorded as a zero (0).

Withdrawal, Drop/Fail and No Credit

Students removed from classes for violations of the attendance policies or for disciplinary reasons will receive a drop/fail and an “F” will be recorded on their transcript. A grade of no credit “NC” may be recorded under certain circumstances and only with administrative approval. Students will not be able to drop AP or Dual Credit courses. Students who do not carry a minimum of six classes in a 18 week period will be withdrawn from enrollment and asked to enroll at the start of the next 18 week period.

Honor Roll

Scholarship is recognized and encouraged through an academic honor roll. The honor roll is compiled at the close of each quarter. Advanced Placement classes are ranked on a 5.0 scale. One must be a full-time student, six of eight classes, to qualify for the honor roll.

| | |
|----------------------------------|---------------|
| Straight "A" Honor Roll – All As | 4.000 average |
| Special Honor Roll | 3.500 average |
| Regular Honor Roll | 3.000 average |

The Honor Roll will be computed using the following values for letter grades:

| | |
|--------------|--------------|
| A = 4 points | B = 3 points |
| C = 2 points | D = 1 point |

* = +1 honor point (Advanced Placement Classes)

An "F" or "I" will automatically eliminate any student from the Honor Roll.

* Honor Roll students will be given one honor point for Advanced Placement classes.

***Graduation honor status will be based on GPA at the end of seven semesters.**

Schedule Changes

The class choices that you made at pre-registration and final registration times are final. Teachers have been hired, supplies and textbooks have been purchased, and sections have been balanced according to those choices.

Therefore, no schedule changes will be permitted except in the most critical circumstances. All schedule change requests should be taken to the scheduling secretary. **Schedule changes are not allowed after the first four days of each semester-period. Students will not be able to drop AP or Dual Credit courses.**

Correspondence Courses

Students who take independent study, correspondence through the Division of Independent Study in Fargo or any DHS approved online format need to be aware of the following:

1. Dickinson High School guidance counselors are available to administer tests and hand out the course material;
2. The course requirements and getting the lessons completed are the student's responsibility;
3. Seniors who expect to graduate must complete their independent study course work by May 15 to participate in the graduation ceremony;
4. As per the North Dakota High School Activities Association (NDHSAA) regulations, correspondence courses do not count towards academic eligibility.

Independent Study

Students wishing to take a course(s) through an arranged independent study with Dickinson High School staff must meet the following criteria:

1. Students may enroll in an independent course of study within a curriculum area only after they have completed all courses offered by the department;
2. Courses with more than 25 students cannot have independent study students;
3. Students must use free hours before dropping courses to add independent study;
4. Must have principal approval.

Graduation Ceremony

The graduation ceremony is an important and symbolic event. Unlike a student's right to a diploma upon completion of graduation requirements, participating in the ceremony is a *privilege*. **A student may be excluded from graduation exercises for violating school policy.**

Early Graduation

Any student interested in early graduation should have the application to the counselor's office or principal's office by the first day of school of the students senior year.

Advisor/Advisee Program

Students in grades 9-12 will have an advisor from their chosen academy who is a teacher or staff member at Dickinson High School. This advisor will meet with them on a regular basis to discuss things such as: curriculum, registration, college and graduation information, progress and grade checks, etc.

Academic Learning Center

Due to the restructuring of the school day at Dickinson High School, an Academic Learning Center has been developed. The Academic Learning Center provides assistance to all students at Dickinson High School daily from 7:45 a.m. to 4:15 p.m.

The Academic Learning Center provides assistance to any students who are at risk and are not progressing in the regular class setting. These students at risk may include transfer students and students who need to make up work missed for various reasons, including sporting events and illness.

Opportunity Period

Dickinson High School has implemented within the school day a 25-minute period of time called Opportunity Period or OP. Opportunity Period is an integral part of our school's Response to Intervention Program (RTI) where administration, faculty, and staff use various strategies to help students become more academically successful in school. Administration can assign OP to students. Students who do not attend are subject to disciplinary actions. Students are encouraged to attend Opportunity Period by teachers and administrators for various reasons such as:

1. Students are failing or struggling in various classes.
2. Students that are in need of more individualized instruction.
3. Students have fallen behind on classroom work.
4. Students that desire enhancement or advanced work in various classes.
5. Other reasons as deemed necessary to help students be more successful at Dickinson High School.

Academic Honesty

Academic honesty is of the highest importance at Dickinson High School. Students who engage in any type of cheating are subject to disciplinary action, including but not limited to, failure of the assignment to loss of credit in the course.

Response To Intervention (RTI)

Dickinson High School will provide assistance for students who are experiencing behavior, academic, health and attendance problems that are producing or may produce a negative effect on the student's performance in school. The RTI Team of the building principal, assistant principals, high school counselors, school social worker, and a member of the special needs department. The purpose of the RTI Team is to assist students in obtaining help to resolve such problems in an effective and confidential manner. This RTI Team recognizes that the primary obligation to seek assistance and to resolve the problem rests with the student and his/her parent(s) or guardian(s).

We, at Dickinson High School, recognize that a wide range of problems that are not directly associated with the school may have an effect on the student's performance in school. The problems may involve physical illness, mental or emotional illness, alcohol abuse, alcoholism, drug abuse or dependency, or family problems such as divorce, separation, financial difficulties, job loss, and illness or death of a family member or close friend. The RTI Team assures students that, if such personal problems are the cause of unsatisfactory behavior or performance, the student will receive careful consideration and an offer of assistance in an effective and confidential manner. This service will provide information of academic assistance, referral counseling on chemical dependency, physical or emotional problems, or other personal problems. Student confidentiality will be maintained unless state or federal law requires disclosure. Providing information for referral or treatment, when needed, should be constructive and not a punitive action.

RTI Team Goals

1. To assist students who have problems that may affect their school performance by providing confidential, prompt, and diversified assistance to help resolve individual and/or family problems.
2. To restore productivity through early identification of problems and intervention so that a school atmosphere conducive to learning is maintained.

RTI Team Objectives

1. To provide a confidential, flexible, competent, and sensitive program of assistance to meet the needs of students on an individual basis.
2. To provide students, parent(s) or guardian(s) with accurate information regarding known referral resources.
3. To provide in-service training to educators that will focus on their role in relation to students in high-risk situations.

The RTI Team members will implement this policy in such a manner that no student will have his/her high school career adversely affected by the use of the RTI Team. This policy, and any related procedures, will not alter or supersede the normal application of disciplinary or due process procedures.

District expenditures, in addition to the personnel costs associated with operating the program, will be limited to the cost of the initial screening for any referral of a student. The District will not hire any additional personnel to operate this program but will use existing counselors and administrators.

Homebound/Hospital Instruction

The Dickinson Public School District will provide one hour per day homebound or hospital instruction if a student is out of school for a week or longer. It is required that parent(s) or guardian(s), or other adult arranged for by the parent(s) or guardian(s), be present in the home while homebound instruction is being provided. Homebound or hospital instruction will be considered in the following situations:

1. A child has an operation or condition, which requires homebound instruction for longer than a week;
2. A student's condition relapses requiring periodic excused absences from school. Arrangements will be made to match home instruction to the need of the student; and
3. If a student is hospitalized in another North Dakota city or out of state, arrangements will be made with the school district where the hospital is located to provide hospital instruction. This instruction will be paid for by the Dickinson Public School District.

In order to receive homebound or hospital instruction, a statement from a physician must accompany the request. The statement from the physician must indicate the medical condition that warrants homebound hospital instruction and the length of time that the student will need to be homebound/hospitalized due to the medical condition. If the medical condition is long-term, an updated statement from the physician must be submitted to the Director of Student Services each school quarter in order for the homebound/hospital instruction to continue. This updated statement must indicate the continuation of the medical condition and continued need for homebound/hospital instruction.

A parent(s) or guardian(s) should contact the building principal or counselor to give needed information regarding the student's condition. The principal will contact the Director of Student Services who will make the arrangements for the homebound or hospital instructional program. The final approval of this service will be made by the Director. Contact the Director of Student Services at the Central Administration Office if you have questions at 701-456-0002.

First Aid/Accidents

In the event an accident occurs within the schools or a student or other individual becomes suddenly ill, the responsibility of the school is to provide emergency care, notify parent or guardian, and in serious instances, summon necessary medical care.

The Superintendent will develop uniform procedures for giving first aid, arranging for necessary medical care, notifying parents, and officially reporting accidents.

The Board encourages its faculty and staff to become trained in first aid. First aid will not include treating infections or administering medicine except when special authorization for a particular student has been granted. Minor cuts and bruises may be treated.

In the event a child becomes acutely ill or is seriously injured during school hours, the school will inform the parents/guardian, who will make the decision whether to pick up the child at the school or meet the child at the hospital. If the school is unable to reach the parents or if they choose to meet the child at the hospital, the child may be transported by school personnel or by ambulance at the discretion of the principal or his/her designee. If the school is unable to reach the parents, an attempt will be made to contact the child's personal physician as designated on the student's record. The district's policy and regulations on concussion management shall supersede any district emergency response policies/regulations when the concussion management policy/regulations are applicable.

Student Access to Internet and Computer Network Policy

One of the major purposes of the internet is to support research and education in academic institutions in the United States by providing access to unique resources. The use of the internet in the Dickinson Public School District must be in support of educational goals and consistent with the stated objective of the school district. Use of other

networks or computing resources must comply with the rules appropriate for that network. The Dickinson Public School District is bound by the Acceptable User Policy of its current internet service provider.

Transmission of any material in violation of any federal or state law or regulation is prohibited. This includes, but is not limited to, copyrighted material, threatening, harassing, or obscene material, or material protected by trade secrets. Use for commercial activities by for-profit institutions is generally not acceptable. Use for product advertisement is also prohibited. Illegal activities are strictly prohibited.

The use of the internet for any use other than required curriculum activities is a privilege not a right. Inappropriate use may result in cancellation of those privileges. This cancellation of privileges may be up to 12 months and includes all available computers in the Dickinson Public School system. Based upon acceptable use guidelines outlined in this document, faculty and administrators will determine what constitutes inappropriate use and their decision is final.

Users are expected to abide by generally accepted rules of network etiquette. These include, but are not limited to the following:

1. Be polite. Do not write or send abusive messages to others. Do not post anonymous messages.
2. Use appropriate language. Do not swear, use vulgarities, or any other inappropriate language.
3. Do not reveal the personal home address or phone numbers of students or colleagues.
4. Note that email is not guaranteed to be private. Messages relating to or in support of illegal activities may be reported to the authorities.
5. Do not use the internet in such a way that would disrupt the use of the internet or the network by other users (e.g. downloading large files during prime time, sending chain letters or mass email messages, annoying other users).
6. Do not post personal communications without the original author's consent.

Users who identify a security problem on the network must not communicate the problem to other users and must promptly notify the system administrator. Users must not use another individual's account or give their password to others. Logging into the network with another's login will result in a cancellation of user privileges. Attempts to login to the network as a system administrator will result in cancellation of user privileges. Any user identified as a security risk or having a history of inappropriate use of the network or internet may be denied access.

Vandalism will result in cancellation of privileges. Vandalism is defined as any attempt to harm or destroy data of another user and/or any workstation or network hardware, software or cabling that is part of the network. This includes, but is not limited to, uploading, downloading, creating computer viruses, damaging computers, computer systems, computer networks, or intentionally wasting resources.

Obscene, abusive, or otherwise offensive language may appear on the internet, as well as sexually explicit, racially biased, or other offensive materials. Dickinson Public Schools, while providing access to the seemingly limitless resources on the internet, will attempt to protect students from the location of questionable materials. This will be accomplished by educating parents and students about the internet and by controlling access when appropriate and feasible. It is the responsibility of all students to access only appropriate servers and sites on the internet. The Dickinson Public School District is in compliance with the Children's Internet Protection Act, which mandates that the internet be filtered in educational institutions.

To gain access to email and the internet, all students under the age of 18 must obtain parental permission. Parent(s) or guardian(s) desiring their children to have access must sign and return the proper form. A new form will be signed when a student is first registered in the school district and upon entering the middle school and high school levels.

STUDENT DISCIPLINE

Any student who violates the rules and expectations relative to this handbook and technology use will be subject to disciplinary action. Consequences may include: a letter or a phone call to parents or guardians, detention, or suspension depending on the violation or degree of misuse. Students who violate the rules may also lose access to the device for a period of time or have their devices restored to the original settings. Serious violations will result in the students' use of technology restricted and/or revoked.

Children's Internet Protection Act (CIPA)

Schools applying for e-rate funds must have a technology protection measure in place that blocks or filters internet access. This filter may be disabled for bona fide research for adults. The policy must include monitoring the online activities of minors.

The internet safety policy must address:

- access by minors to inappropriate matter
- safety and security with email, chatting on the internet, etc.
- unauthorized access
- unauthorized disclosure

- measures to restrict minors' access to materials that are harmful to minors

This measure is necessary for e-rate funding and Title III of the ESEA and Library Services and Technology Act funds.

Sendit Technology Services (STS), our internet service provider, provides filtering to our school district with 8e6 Technologies Hardware (formerly X-Stop). The URL database is updated daily. This filter prevents students from accessing web sites that are not consistent with K-12 curriculum.

The categories blocked are: alcohol, anarchy, chat, criminal skills, cults, drugs, gambling, hate groups, obscene and tasteless sites, personal ads, pornography and public web proxies. The filtering policy can be found on the STS web site: <http://www.sendit.nodak.edu>.

Administering Prescriptive Medicines

1. No prescription or nonprescription medication will be administered by school personnel unless authorized by parent(s) or guardian(s) or prescribed by a licensed prescriber and an authorization form is signed by a parent(s) or guardian(s) (Form C FCAB-E).
2. Prescription medication must be in a container with a label prepared by a pharmacist. Nonprescription medication must be in the **original container** labeled with the student's name and dosage.
3. Medications are to be properly labeled with student's name, name of medication, dosage amount, frequency of administering, name and telephone number of the pharmacy, prescription number and doctor's name. Prescription and nonprescription medications must be hand-delivered to the school personnel by the parent(s) or guardian(s).
4. School personnel will keep a separate record of administering medication, noting date, time and initials of person administering the medication.
5. The parent(s) or guardian(s) is to make the school personnel aware of any side effects and whom to notify in case of emergency.
6. Any change in type or amount of medication must be approved by parent(s) or guardian(s) and a new approval form must be signed and completed.

By law, a student who has been diagnosed with asthma or anaphylaxis may possess and self-administer emergency medication for the treatment of such conditions provided the student's parent or guardian files with the school a document that is signed by the student's physician and which:

1. Indicates that the student has been instructed in the self-administration of emergency medication for the treatment of asthma or anaphylaxis;
2. Lists the name, dosage, and frequency of all medication prescribed to the student for use in the treatment of the student's asthma or anaphylaxis; and
3. Includes guidelines for the treatment of the student in the case of an asthmatic episode or anaphylaxis.

Neither a school district nor any employee of the district is liable for civil damages incurred by a student who administers emergency medication to themselves or an individual because a student was permitted to possess emergency medication.

Immunization

The 1979 North Dakota Health Immunization Law requires that no child will be admitted to kindergarten, elementary school, middle school, or high school unless he/she has a Certificate of Immunization on file at the school or submits one prior to admission. The law, which became effective July 1, 1979, requires that the certificate be signed by a physician or local public health department representative and be presented to the school officials by the parent(s) or guardian(s) of the child. The Certificate of Immunization states that the child has been vaccinated against diphtheria, pertussis, tetanus, measles, rubella, mumps, polio, hepatitis B, varicella (chicken pox), and meningococcal if applicable.

Two doses of chicken pox vaccine is required of children attending grades K-10. One dose of the chicken pox vaccine is required for children attending grades 11-12. A physician signature is required for a history of disease exemption. As in previous years, a student must receive meningococcal, tetanus, diphtheria, and pertussis (Tdap) vaccine before being admitted into any middle school.

The law does allow exemptions for medical, philosophical, moral, or religious beliefs. Medical and Disease Exemptions require a certificate signed by a physician. When there is a danger of an epidemic from any of the communicable diseases for which immunization is required, those children who are not adequately immunized, including children exempt, will be excluded from school until the danger of the epidemic is over.

For complete details regarding the North Dakota School Immunization Requirements, please visit the North Dakota Department of Health's website.

Title IX Policy

You are hereby notified that the Dickinson Public School District #1 does not discriminate on a basis of race, color, religion, sex, gender identity, sexual orientation, national origin, ancestry, disability, age, marital status, and other status protected by law in its educational programs/activities and employment practices. It is required by Title IX and Part 86 of the Department of Health, Education and Welfare regulations not to discriminate in such a manner. This notice includes Title VI Civil Rights Act of 1964 and the Americans With Disabilities Act of 1990.

You are further notified that the Dickinson Public School District #1 does not discriminate in services or employment practices on a basis of handicap, in accordance with North Dakota Century Code 15-59-04, 48-02, 19, or PL94-142, Section 504 of the Vocational Rehabilitation Act of 1973, and as amended.

You are further notified that inquires concerning the application of Title IX, Title VI, ADA, and Part 86 or other issues of equal opportunity may be referred to the Human Resources Director, who has been designated as the person responsible for coordinating the efforts of Dickinson Public School District #1, to comply with and carry out these responsibilities, including any investigation of complaints alleging noncompliance of practices, and violation of law, or school board policy.

Harassment

Harassment infringes on an employee and/or student's right to a comfortable environment and is a form of misconduct, which undermines the integrity of the relationship. No employee or student should be subjected to harassment either verbal or physical. This also includes any and all forms of "cyberbullying." Cyberbullying is being cruel to others by sending or posting harmful material or engaging in other forms of social cruelty by using the internet, electronic or digital technologies. Students who believe they may have been harassed or bullied should:

1. Not ignore it, because harassment tends to get worse.
2. Let the person know you don't like the behavior and that it will be reported if not stopped.
3. Report it to your parent(s) or guardian(s), a teacher, a counselor, or an administrator. Your report will be handled with strict confidentiality and you will be given help to cope with the situation.
4. Request disciplinary action against the person harassing you by filing a written report.

Penalties for harassment or bullying will range from a verbal warning to suspension or expulsion, depending on the severity of the incident. Law enforcement will be contacted in situations that warrant it. Students who make false accusations of harassment or bullying pertaining to students and school personnel will be subject to disciplinary action.

Harassment will not be tolerated and should be reported to the administration. Reports of harassment will be investigated and appropriate consequences enforced. Reports may be made to the Human Resources Director at: 444-4th Street West, Dickinson, ND; (701) 456-0002.

SCHOOL SOCIAL WORK SERVICES

School social workers are strategically placed within the Dickinson Public School District in an effort to assist any child who may be struggling academically, emotionally, and socially. All Dickinson Public School employees, including school social workers, are legally mandated reporters who may file a report with the local social services agency should an allegation of abuse or neglect occur. Social workers may use assessment, intervention, and evaluation instruments that are evidence-based and consistent with the values of the National Association of Social Workers Code of Ethics when working with children. The social workers encourage parent(s) and/or guardian(s) to play an active role in their child's educational team, which may include a multidisciplinary team of professionals. Appointments may be made during the school day.

Peer Mediation

We encourage students to use peer mediation to resolve conflict peacefully with the assistance of a neutral third party whom is a peer (someone their own age).

Student Athletic Passes

Student Athletic Passes can be purchased through the Athletic Department at Dickinson High School.

Dickinson Public Schools Student Activities (www.westerndakotaassociation.org)

Forward

The purpose of this section of the handbook is to provide coaches/advisors, students, parent(s) or guardian(s), and the public with the necessary information pertaining to rules, regulations, policies, and guidelines relating to school activities in the Dickinson Public School System. Many important and common questions that arise from time to time are addressed. Dickinson Public Schools is very proud of the variety and number of activities available to our students and Dickinson Public Schools thanks the continued public support of our student activity programs.

A. Activity Director's Message

Dickinson Public Schools supports all of its activity programs with great enthusiasm as a positive and valuable part of the total educational experience. Dickinson Public Schools is extremely proud of the multitude and variety of activity programs offered to all students. All student activity programs shall be organized and managed along the following guidelines:

- Participants shall be treated as regular students. No special consideration is given for grades, attendance, assignments, etc. Students involved in school activities should represent the best that the District has to offer in and out of the classroom.
- Full allegiance will be given to all rules and regulations of the North Dakota High School Activities Association as well as other policies set forth by Dickinson Public Schools.
- All activity programs will be conducted for the benefit of the participants, with maximum concern for their safety, health, and well-being.
- Coaches/advisors as regular faculty members, as well as those who are non-faculty, are expected to exhaust all legitimate channels for promoting the highest level of excellence in all programs. Keeping in mind that

our students participate in a wide variety of activities, coaches/advisors are expected to promote and support all activity programs and will be evaluated on the basis of their loyalty and contribution to the total educational program.

- All participants involved in school activities must be mindful that participation in school activities is a privilege and therefore carries high levels of expectation. All participants must adhere to all rules and regulations of the NDHSAA, Dickinson Public Schools, and each individual program.

From the: Activities Director, Dickinson Public Schools, 979 13th Ave. W., Dickinson, ND 58601

B. Eligibility of Activity Participants

The North Dakota High Schools Activities Association (NDHSAA) serves as the governing body for many of the activities offered by Dickinson Public Schools. In accordance with the NDHSAA and many other state-sponsored student organizations, Dickinson Public Schools has adopted eligibility requirements for all its activity participants. Participants and parent(s) or guardian(s) should take the time to become familiar with all eligibility requirements. The NDHSAA Constitution and By-Laws Manual contains thorough detailed information in regards to the activities they sponsor. These by-laws may be found at www.ndhsaa.com.

The following are selected policies of the NDHSAA and those policies adopted by Dickinson Public Schools pertaining to eligibility requirements of all Dickinson Public Schools student activity participants. Individual activity programs may have additional training rules/regulations that apply to participants. Program participants will be made aware of any specific program rules/regulations that exist. The Activities Director and building principal will approve specific individual program rules/regulations in addition to those specified below:

- 1) **PHYSICALS** – All athletes, cheerleaders, and dance team members are required to have an annual physical signed by a physician and the participant's parent(s) or guardian(s) certifying that the participant has passed an adequate physical examination.
 - a. The above named participants are **not allowed to practice or participate in any contest, game, performance, or other interscholastic event** until a current physical is on file with the Activities Office at Dickinson High School.
 - b. Physicals must be completed annually on or after April 15 to be valid for the following school year. Physicals completed before April 15 are not valid for participation the following school year.
- 2) **PARTICIPATION FEES**
 - a. **Athletics** - all athletic participants or any other sponsored activity are required to register for their sport online at www.dickinson-ar.schooltoday.com
 1. Athletic fees are based upon the grade level of the student, not the level at which they participate. For example, an 8th grade student participating on a high school team would pay the middle school fee, not the high school fee.
 2. Fees for club funded sports, such as soccer and hockey, are determined by each club.
 - b. **Other Extracurricular Activities** such as: FFA, Drama, Student Congress, Speech, Skills USA, FBLA and TSA. All non-athletic activity participants are required to pay a participation fee, this fee can be paid on MySchoolBucks.com This fee is in addition to any state and national dues for each activity group.
 - c. **All Activities -**
 1. Participation fees are due and payable on the first day of the activity. Participants are **not allowed to practice or participate in any contest, game, performance, or other interscholastic event** until the required fee is paid at the Activities Office at Dickinson High School.
 2. Fees should be paid at the Activities Office at Dickinson High School or may be given directly to the coach/advisor of the activity who will forward the payment to the Activities Office.
 3. Students who are not able to pay when payment is due or feel they cannot afford to pay the fee should make arrangements with the Activities Director.
 4. Student managers, statisticians, and scorekeepers are not required to pay activity fees.
 5. Students who voluntarily drop any activity will forfeit the fee.

6. Students suspended from activities for disciplinary reasons or scholastic ineligibility will not receive refunds.
7. Full or partial refunds may be granted due to illness, injury, or being cut from a team/group. No refunds will be granted if more than half of the activity is completed.
8. Paying a participation fee **does not** guarantee any amount of playing time or other participation.

3) CODE OF CONDUCT/MEDICAL RELEASE FORM - All activity participants along with parent(s) or guardian(s) are required to read and sign a Code of Conduct/Medical Care Release Form.

- a. This form must be completed every year.
- b. Activity participants are **not allowed to practice or participate in any contest, game, performance, or other interscholastic event** until a current Code of Conduct/Medical Care Release Form is on file with the Activities Office at Dickinson High School.
- c. In order to provide for the health and safety of the individual participant and other extracurricular participants participating in a field trip, out-of-town contest or convention, or away game, the District may conduct a random search of all personal property of extracurricular participants before the students depart for the field trip, contest, convention, or game.
To participate in any school-sponsored extracurricular field trip, out-of-town contest or convention, or away game, the student and the parent(s) or guardian(s) of the student must sign a consent form by which the student agrees that as a condition of participation in the extracurricular activity, he/she will consent to reasonable search of personal property or clothing including student's backpack, book bag, suitcase, and/or purse.
- d. Coaches will have access to their medical and code of conduct information through an APP that is connected to their online registration. Extra Curricular advisors will carry a copy of the code of conduct with them at all time in the event of a medical emergency.

4) SCHOLASTIC ELIGIBILITY - In accordance with the North Dakota High School Activities Association, Dickinson Public Schools has adopted the following academic requirements for eligibility in school activities.

- a. Dickinson Middle School Students: To participate, students may not be failing in more than one class. Grades are checked at the midterm of each quarter and at the end of each quarter (eight times per year). If a student has a failing grade in more than one class, the student is declared academically ineligible for one week. The student's grades will then be checked weekly, and the student will remain academically ineligible until the required number of classes is being passed. Also, any Dickinson Middle School student participating on a Dickinson High School team/activity must be passing **all** classes to be academically eligible for that particular activity.
- b. Dickinson High School Students: To participate, students must be passing **at least six** classes. Grades are checked at the midterm of each quarter and at the end of each quarter (eight times per year). If a student is not passing at least six classes, the student is declared academically ineligible for one week. The student's grades will then be checked weekly, and the student will remain academically ineligible until the required number of classes is being passed. Additionally, beginning with the 9th grade, students need to be on pace to graduate to maintain eligibility at the end of a semester is academically ineligible for the first four weeks of the following semester. In this case, grades for the following semester will be checked after four weeks and to be eligible that student must be passing at least three classes. If not, the student will remain academically ineligible for one week and the student's grades and eligibility status will be checked weekly.

5) SCHOOL ATTENDANCE - At both the middle school and high school level, a student must be in attendance at school all day on the day of a competition, event, or performance unless prior approval is given by the Activities Director or building principal.

6) CITIZENSHIP/SPORTSMANSHIP - School activity participants are expected to exhibit good citizenship while at school and in the community. The conduct and behavior of participants is closely observed in many areas of school life and is a direct reflection of themselves, their parent(s) or guardian(s), the coach/advisor, the school, and the community. Participants will be courteous and show respect for people and property. Poor citizenship and poor sportsmanship will be determined by coaches/advisors and school administration and may result in suspension from school activities.

7) SPECIFIC TEAM/ACTIVITY RULES - Individual programs may have additional training rules/regulations that apply to students. Program participants will be made aware of any specific program rules/regulations that exist. The Activities Director will approve specific program rules. Ability alone does not

guarantee a position in any activity. Dedication, cooperation, practice, teamwork, fundamentals, and respect for team/activity rules are required.

8) PRACTICE AND GAME/EVENT ATTENDANCE - Activity participants are expected to attend all practices and games/events while in season. In certain situations, participants will need to be absent for justifiable reasons and are considered **excused absences**. However, excused absences may result in suspension from school activities. Excused and unexcused absences will be determined by coaches/advisors and school administrators and may vary from activity to activity depending on specific circumstances.

9) SUSPENSIONS AND EXPULSIONS - Students who receive an out-of-school suspension or expulsion for any part of the school day shall not be allowed to participate in any competition, event, or performance for the entire day. Furthermore, a participant shall not be allowed to practice or attend school-sponsored events until this type of suspension/expulsion is completed. A participant who receives an in-school suspension may be ineligible for participation in school activities. Participation will be decided by the administration and coach/sponsor of the activity affected based upon the severity and circumstances leading to the in-school-suspension.

10) INJURIES - Dickinson Public Schools will ensure that competent coaches/advisors, safe facilities, and safe equipment are utilized. Nevertheless, injuries may still occur. If an injury occurs, notify the coach/advisor.

Medical costs for injuries are not the responsibility of Dickinson Public Schools. Dickinson Public Schools does not carry insurance to cover costs involved in an injury. Injury costs are the responsibility of the student and/or their parent(s) or guardian(s).

11) SOCIAL MEDIA - Dickinson High School students are representatives of Dickinson High and community. The athletic department requires participants to exercise good judgment in their use of social media websites, and to conduct these activities in a responsible and respectful manner.

- It is not permissible for students involved in activities to post information, photos, inappropriate behavior or items that could be interpreted as demeaning or inflammatory.
- It is not permissible to comment on injuries, officiating, or team matters that could reasonably be expected to be confidential to team members.
- Students involved in activities are required to follow all respective social media website rules.

Best Practices and Reminders

- Think twice before posting. If you would not want your coach, parents, guardians, or future employer to see your post, do not post it.
- Be respectful and positive.
- Remember, many different audiences view your posts including fans, alumni, kids, local authorities, parents, faculty, etc.
- The internet is permanent. Even if you delete something, it is still out there somewhere. Do not post with an emotional state of mind. Coaches and administrators monitor social media and websites. Potential employers use social media and websites to screen candidates. Use the privacy/security settings made available on these sites.

12) LEADERSHIP ORGANIZATIONS - Students that are elected to leadership organizations such as Student Council, National Honor Society, etc. are publicly recognized for outstanding scholastic achievement and the highest levels of student behavior, moral character, leadership, commitment, and respect for self and others both in school and in the community. Students that fail to meet these expectations as determined by advisors and school administrators are subject to disciplinary action, including removal from the organization.

13) OUT SEASON CLUBS/ORGANIZATIONS - Dickinson Public Schools encourages students to be involved in all available activities, including those not directly available through Dickinson High School. Clubs/organizations offering activities not directly available through Dickinson High School may be considered for activity leave upon request to the Activities Director from the coach/head of the club or organization.

Note: *Dickinson High School will not approve activity leave for activities in which Dickinson High School currently makes available for our students to participate in.*

14) SPECIAL NOTES:

The Code of Conduct is in effect for the entire school year for all students whether or not they are currently in an activity. The Code of Conduct extends beyond the school year for those participants who are in an activity that either begins before school starts in the fall or ends after school ends in the spring. Each year, all activity participants are required to sign the Code of Conduct prior to participation. However, all students and parent(s) or guardian(s) are reminded that once the school year begins, all students are subject to the Code of Conduct

whether they have signed a Code of Conduct or not for the current school year as these policies are a part of the student handbook. Students from other schools participating in activities sponsored by Dickinson Public Schools are required to follow all the same policies and procedures as set by this Code of Conduct and Dickinson Public Schools student handbooks.

C. Dickinson Public Schools Alcohol, Tobacco, and Controlled Substance Use Policy and Code of Conduct.

The purpose of this policy is to define the position and disciplinary procedures of Dickinson Public Schools and the North Dakota High School Activities Association regarding the use or possession of tobacco, alcohol, narcotics, drug paraphernalia, or other controlled substances by participants in activity groups sponsored by Dickinson Public Schools. All student activities sponsored by Dickinson Public Schools are affected by this policy. They shall include, but not be limited to all athletic teams and athletic-related teams, performance groups, interscholastic groups, school-sponsored organizations, state-sponsored activity groups, and other school clubs/activities offered by Dickinson Public Schools.

Use or possession of tobacco, electronic smoking device, alcohol, narcotics, drug paraphernalia, or other controlled substances defined by North Dakota law is prohibited. Any activity group participant who uses or possesses any of these substances will be suspended from all competitions or public appearances from the notification date. Participants in activities which are an extension of the classroom and are grade related such as concert band and concert choir will be allowed to participate in public performances but will not be allowed to participate in any interscholastic competition event.

Penalties will be prescribed as shown below:

1. First offense of the school year – six weeks
2. Second and subsequent offenses in the same school year – additional 18 weeks for each offense

Notes:

- a. In addition to the suspensions listed above, Dickinson Public Schools also requires that participants must complete a substance abuse evaluation from a licensed addiction facility at the participant's expense beginning with the second offense and any subsequent offenses. This policy is in effect starting in the 6th grade and cumulative through 12th grade. This evaluation must be completed before ever participating in activities sponsored by Dickinson Public Schools again.
- b. Keep in mind that students get a "fresh start" every year the school year begins when dealing with suspensions only, not evaluations. The first offense in a single school year is six weeks and subsequent offenses in the same school year are 18 weeks. These suspensions start over every year. However, suspensions are cumulative from year-to-year when dealing with evaluation requirements. For example: A student is suspended for six weeks during his/her 8th grade year for tobacco. This same student is then again suspended during his/her junior year for alcohol. Because it is a different school year, the suspension would be six weeks. However, because this is the second offense by this same student since 7th grade, an evaluation would be required and would have to be completed before ever participating in activities sponsored by Dickinson Public Schools again.

A student will be determined to have used one of the aforementioned substances when a witness has observed him/her ingesting the substance or under the influence of the substance and signs a statement to the effect. After the statement has been signed, school officials will make a determination of guilt or innocence.

A student will be determined to be in possession when he/she is found to have the substance on his/her person, such as in a pocket or in hand, or within an area which the participant controls, i.e. his/her vehicle, home, or person. Full or partial ownership shall also be evidence of possession.

School administrators shall immediately investigate any alleged violation of the alcohol, tobacco, and controlled substance policy that is made known to the administration. If the administration finds probable cause to believe that this policy has been violated, the parent(s) or guardian(s) will be immediately notified of the violation and penalty.

Dickinson High School and Dickinson Middle School offer a multitude of activities for students. Because of the number of activities and limited days to hold events, scheduling conflicts are inevitable. Students/parents/guardians are to notify coaches/advisors immediately when they become aware that a conflict exists. The Activities Director is responsible for scheduling and will make every attempt to avoid scheduling conflicts. When conflicts exist,

curricular events such as musical performances and singular qualifying events will have precedence over all sub-varsity events and may have preference over varsity events. When a conflict arises between two qualifying events, the Activities Director will meet with the advisor/coach to decide which event the student should attend. Parental input will be considered. If the conflict remains unresolved, the building principal will conduct a meeting with the parties involved and render a final decision.

D. Church Night

As a courtesy to church organizations, no student activities, including practice, will be scheduled on Wednesday nights after 6:00 p.m. Exceptions can only be made by the Activities Director.

E. Sundays/Holidays

The NDHSAA allows contests to be scheduled on Sundays. However, it is the policy of Dickinson Public Schools that athletic contests will not be scheduled on Sundays unless there is no other option. Such athletic contests must be approved by the Activities Director.

Practices are allowed on Sundays for varsity level athletes and other activity groups provided that these practices do not conflict with church activities. Sunday practices for sub-varsity athletes are not permitted at any time. Practices are to never be held before 12:00 noon on Sundays. Additionally, coaches/advisors should provide leniency for those students who may have family obligations that conflict with Sunday practices. Furthermore, practices on holidays are to be approved by the Activities Director and/or building principal.

School Board Policy AAA

Philosophy of the Dickinson Public Schools

We, the Dickinson Public School Board, present this statement of our basic beliefs concerning education in order to formulate District goals and objectives and to establish programs that are designed to meet these goals and objectives within the legal framework of state and federal law.

We Believe:

1. The purpose of education is to equip students with the knowledge and skills necessary to become active, informed, and productive members of society. Our public schools have a responsibility to foster the growth of intelligent and informed citizens.
2. All individuals are entitled to equal rights, freedoms, and opportunities regardless of economic, cultural, or intellectual differences. The District is committed to creating and preserving a learning and working environment that promotes tolerance and is free from discrimination and harassment.
3. Only through the study of basic subject matter, history, culture and fine arts will students be prepared for both the practical tasks and complexities of the world. The District will provide all students with opportunities to participate in varied curricular offerings.
4. Education should aid in the development of good character, self-respect and self-worth, and offer opportunities to form satisfying and responsible relationships with other people. The District will offer programs that allow students to practice the skills of family and community living and that promote an appreciation for health and safety.
5. Education must look to the future. The District will offer programs to help equip students with skills that may be demanded by our future society, that help students select appropriate occupations, and that provide opportunities to develop worthwhile leisure time activities. The District will also offer programs that teach money, property, and resource management techniques and conservation practices in order to assist students with planning for the future.
6. Educational experiences should be timed in accordance with students' readiness for them. All District programs will take into account factors such as age, maturity, and readiness.
7. Appropriate discipline helps ensure that the educational program operates efficiently and helps mold students into upstanding citizens. The Board shall develop policies in accordance with law to ensure administrators are equipped to appropriately respond to disciplinary issues.
8. Parent(s) or guardian(s) and the community should serve as partners with schools. It takes the combined effort of all members of the community to develop and maintain an educational program that meets the objectives delineated above. District schools will embrace the support and reflect the expectations of the community.

School Board Policy AAB

District Goals and Objectives

The District shall comply with approval requirements in state law and shall strive to provide schools that meet the criteria for accreditation from Department of Public Instruction and that show adequate yearly progress as defined in federal law.

In addition to meeting these approval and accreditation requirements/standards, the Board has established goals and objectives, which are contained in the District's strategic plan.

School Board Policy AAC

Nondiscrimination and Anti-Harassment

General Prohibitions

The Dickinson Public Schools is committed to maintaining a learning and working environment free from discrimination and harassment in all employment and educational programs, activities, and facilities. The District prohibits discrimination and harassment based on a student's, parent's, guardian's or employee's race, color, religion, sex, gender identity, sexual orientation, national origin, ancestry, disability, age, marital status, or other status protected by law. The District also provides equal access to the Boy Scouts of America, AKA: Scouts BSA, and other designated youth groups, and required by federal law.

It is a violation of this policy for any District student, parent, guardian, employee, or third party to discriminate or harass against another District student or employee, based on any status protected by law, if the conduct occurred within the context of an education program or activity, or if the conduct had a continuing effect in the educational setting of a program or activity occurring on or off school district property. The District will not tolerate

discrimination or harassment of a District student or employee by a third party. The District also prohibits aiding, abetting, inciting, compelling, or coercing discrimination or harassment; discriminating against or harassing any individual affiliated with another who is protected by this policy and/or law; knowingly making a false discrimination and/or harassment report; and retaliation against individuals who report and/or participate in a discrimination and/or harassment investigation, including instances when a complaint is not substantiated.

The District shall promptly investigate any discrimination, harassment or retaliation complaint and act on findings as appropriate, or as required by law. Outcomes may include disciplinary measures such as, termination of employment or student expulsion in accordance with board policy, law, and, when applicable, the negotiated agreement. Students and employees are expected to fully cooperate in the investigation process. The District will take steps to prevent recurrence of discrimination, harassment, or retaliation and remedy discriminatory effects on the complainant and others, if appropriate.

Complaint Filing Procedure

The Board shall create an informal and formal discrimination and harassment complaint filing procedure in Board regulation AAC-BR. For Title IX sexual harassment complaints, grievance procedures shall be followed in accordance with federal regulations and Board regulation AAC-BR2.

The procedure provides for an impartial investigation free of conflicts of interest and bias. Nothing in this policy or in the discrimination and harassment grievance procedure prevents an individual from pursuing redress available through state and/or federal law.

Confidentiality

An individual wishing to file an anonymous discrimination and/or harassment complaint must be advised that confidentiality may limit the District's ability to fully respond to the complaint and that retaliation is prohibited. The appropriate grievance coordinator (Title IX, 504, or Title II) shall perform a confidentiality analysis to determine when a request for confidentiality cannot be honored due to safety reasons or the District's obligation to maintain a nondiscriminatory educational environment. The complainant must be notified in writing of the confidentiality analysis outcome. A discrimination or harassment investigation report is subject to the open records law after 60 days or when the investigation is complete (whichever comes first), with limited exceptions such as when the record is protected by FERPA.

Complaint Recipients

If any District employee receives a discrimination or harassment complaint, the employee shall promptly forward it to the appropriate grievance coordinator. All District employees must receive training on their reporting duties.

Grievance Coordinator

Districts shall designate at least one employee to be their Title IX Coordinator and authorize such individual(s) to coordinate the District's efforts to comply with its responsibilities under the applicable regulations.

The Title IX coordinator's responsibilities include overseeing the District's response to Title IX reports and complaints and identifying and addressing any patterns or systemic problems revealed by such reports and

complaints. The Title IX coordinator must have knowledge of the requirements of Title IX, of the District's policies and procedures on sex discrimination, and of all complaints raising Title IX issues throughout the District. To accomplish this, the Title IX coordinator must be informed of any report or complaint raising Title IX issues, even if the report or complaint was initially filed with another individual or office or if the investigation will be conducted by another individual or office.

The Board designates the Human Resources Director as the Title IX coordinator. They may be contacted at: 444 4th Street West, Dickinson, ND 58601 or 701-456-0002. Districts must notify students, parents or legal guardians, employees, and unions of the name and specified contact information for the designated Title IX Coordinator(s). The notification must also state that inquiries about the application of Title IX and its regulations may be directed to the District's Title IX Coordinator or the Assistant Secretary of Education, or both. Districts must prominently display the Title IX Coordinator's contact information on their website, if any, and in each handbook it makes available to students, parents or legal guardians, employees, and unions.

The 504/Title II coordinator's responsibilities include overseeing the District's response to disability discrimination reports and complaints. The 504/Title II Coordinator must have knowledge of the requirements of Section 504 and Title II, of the District's policies and procedures on disability discrimination, and of all complaints raising Section 504/Title II issues throughout the District. To accomplish this, the 504/Title II Coordinator must be informed of any report or complaint raising 504/Title II issues, even if the report or complaint was initially filed with another individual or office or if the investigation will be conducted by another individual or office. The Board designates the Director of Student Services as the 504 Coordinator, and the Director of Instruction as the Title II Coordinator. They may be contacted at: 444-4th Street West, Dickinson, ND 58601 or 701-456-0002.

The Nondiscrimination Coordinator's core responsibilities include overseeing the District's response to discrimination and harassment reports and complaints that do not include sex or disability under applicable federal laws, but instead the other protected statuses or sex or disability based discrimination under state law. The Board designates the Human Resource Manager as the Nondiscrimination Coordinator. They may be contacted at: 444 4th Street West, Dickinson, ND 58601 or 701-456-0002.

All other complaints, other than Title IX, 504, or Title II, shall be referred to the Human Resources Director.

Policy Dissemination

The Superintendent shall display this policy and complementary grievance procedures in a prominent place in each District building and publish it in student and employee handbooks.

Training

The Board authorizes the Superintendent to develop discrimination and harassment awareness training for students and employees. Employee training requirements are delineated in Board exhibit AAC-E3, Discrimination and/or Harassment Training Requirements for Employees.

The Title IX coordinator, 504/Title II coordinator, Nondiscrimination Coordinator, and any other school official responsible for the investigation of discrimination complaints, shall receive training. This training must include:

1. The definition of discrimination, harassment, and retaliation;
2. The handling of complaints under the Discrimination and Harassment Grievance Procedure (AAC-BR1); and
3. The applicability of confidentiality requirements.

In addition, the Title IX Coordinator(s), investigators, decision-makers, and those facilitating an informal resolution process, if applicable, under Title IX shall receive training in a number of areas specified in Board regulation AAC-BR2.

Discrimination, Harassment, and Retaliation Grievance Procedure (AAC-BR1)

The following procedure is designed to resolve discrimination, harassment, and retaliation complaints by and against students, parents, and third parties, as described in Board policy in a prompt and equitable manner. Board policy requires all students and staff to fully cooperate when asked to participate in a discrimination, harassment, or retaliation investigation. The procedure contained in these regulations supersedes the District's policies regarding complaints about personnel and bullying. For Title IX sexual harassment complaints, the procedure set forth in Board regulation AAC-BR2, Title IX Sexual Harassment Grievance Procedure, will control and supersede this procedure.

Retaliation Prohibited

The District prohibits retaliation for an individual's participation in and/or initiation of a discrimination and/or harassment complaint investigation, including instances when a complaint is not substantiated. The consequences for violating this prohibition are delineated in Board policy AAC, Nondiscrimination and Anti-Harassment Board Policy.

Complaint Filing Format and Deadlines

A complaint may be filed verbally or in writing and should be filed as soon as possible after the discrimination, harassment, or retaliation allegedly occurred. Delays in filing a complaint may cause difficulties in the investigation.

With Whom Complaints May be Filed

A complaint may be filed with any District employee. District employees are required to report any discrimination or harassment to the appropriate grievance coordinator (Title IX, 504, or Title II) when they knew (e.g., received a complaint, directly observed it) or should have known it was occurring (e.g., overheard students talking about an incident, saw discriminatory or harassing graffiti or vandalism on school property). Failure by a District employee to report under this regulation may result in disciplinary action.

Initiating Complaint Resolution Procedure

After receiving a discrimination, harassment, and/or retaliation complaint or gaining knowledge of potentially discriminatory and/or harassing conduct, the appropriate grievance coordinator shall contact the complainant, determine if an informal or formal investigation is appropriate, and determine if the complainant requests confidentiality. Requests for confidentiality must be handled in accordance with policy AAC.

Prohibition on Meeting with the Accused

At no time during the informal or formal resolution process shall the complainant be required to meet with the accused. If the appropriate grievance coordinator assigned to conduct or oversee the investigation is the accused, the Superintendent, or Board President (if the Superintendent is the accused) shall designate a different individual (which may be a third party) to carry out the accused's responsibilities associated with the investigation.

Third-Party Assistance

A school official responsible for conducting or overseeing discrimination, harassment, and/or retaliation investigations is authorized to receive assistance from the District's legal counsel throughout the process.

Investigation Timeframes

The informal resolution procedure must be completed within 30 days of a District employee reporting the complaint or incident to the appropriate grievance coordinator, unless the investigator documents reasons for delays and communicates these reasons to the complainant and accused.

The formal resolution procedure must be completed within 60 days of a District employee reporting the complaint or incident to the appropriate grievance coordinator or a complainant or accused terminating the informal complaint procedure, unless the investigator documents reasons for delays and communicates these reasons with the complainant and accused. Acceptable reasons for delays include extended school breaks when witnesses are not available, and complex cases involving multiple witnesses.

Interim Measures

Pending the final outcome of an informal or formal resolution, the District shall institute interim measures to protect the complainant and inform him/her of support services available. Interim measures may include a District-enforced no contact order, schedule changes, academic modifications for the complainant, and/or school counseling for the complainant. These interim measures should have minimal impact on the complainant. If the accused is a student, interim measures should also take into consideration the accused student's educational rights.

Informal Resolution Procedure

This procedure may only be used when mutually agreed to by the complainant, the accused and the appropriate grievance coordinator. This procedure may not be used when the alleged discrimination, harassment, and/or retaliation may have constituted sexual violence or any other crime. The formal resolution procedure must be used whenever the informal procedure is not permitted.

During the informal resolution process, the investigator shall gather information necessary to understand and resolve the complaint. Based on this fact-gathering process, the investigator shall propose an informal resolution, which may include requiring the accused to undergo training on discrimination, harassment, and/or retaliation, requiring all students and employees to undergo such training, instituting protection mechanisms for the complainant, and/or holding a formal meeting with the accused to review the nondiscrimination and anti-harassment policy, coded AAC, and discuss the implications of violating it. Both the complainant and the accused must agree to the informal resolution before it can be instituted.

The appropriate grievance coordinator shall monitor the implementation and effectiveness of the informal resolution procedure and initiate the formal resolution procedure if discrimination, harassment, and/or retaliation persists. Both the complainant and the accused have the right to terminate the informal resolution procedure at any time to pursue a remedy under the formal resolution procedure.

Formal Resolution Procedure

This procedure must be used whenever the informal resolution procedure is not used.

Whenever alleged discrimination, harassment, or retaliation may have constituted a crime, the Superintendent should contact law enforcement and enter into a memorandum of understanding concerning sharing of evidence and coordination of the investigation. However, the District shall proceed with its investigation and this resolution procedure, regardless of the criminal investigation or outcome.

The fact-gathering portion of the investigation must be carried out or overseen by the appropriate grievance coordinator and must consist of interviews with the complainant, the accused, and any others who may have witnessed or otherwise have knowledge of the circumstances giving rise to the alleged complaint and may involve gathering and review of information relevant to the complaint. Both the complainant and accused will have equal opportunity to present evidence and name witnesses. Witnesses must be instructed not to discuss this matter with others except proper authorities.

The fact-gathering portion of the investigation must be completed as soon as practical

Investigation Report:

After the fact-gathering process is complete, under the formal resolution procedure, the appropriate grievance coordinator shall complete a written report containing a determination of whether allegations were substantiated, whether the nondiscrimination and anti-harassment policy (AAC) was violated, and recommendations for corrective action, if any. The appropriate grievance coordinator shall assess if discrimination, harassment, and/or retaliation “more likely than not” occurred based on the following criteria:

- 1) Whether evidence suggests a pattern of conduct supportive of disproving the allegations of discrimination, harassment, and/or retaliation;
- 2) Whether behavior meets the definition of discrimination, harassment, and/or sexual harassment as defined in Board policy AAC;
- 3) Ages of the parties involved;
- 4) Relationship between the parties involved;
- 5) Severity of the conduct;
- 6) How often the conduct occurred, if applicable, and;
- 7) How the District resolved similar complaints, if any, in the past.

The investigation report must indicate if any measures are to be instituted to protect the complainant. Such measures may include extending any interim protection measures taken during the investigation. The report must also inform the complainant of support services available, which at a minimum must include offering school counseling services if the complainant is a student.

The investigation report must contain a monitoring plan to evaluate the effectiveness of the resolution and help prevent recurrence.

Disciplinary Action

Any disciplinary action must be carried out in accordance with Board policy, law, and, when applicable, the negotiated agreement.

The appropriate grievance coordinator along with the principal shall determine if a recommendation for expulsion for an accused student should be made.

The appropriate grievance coordinator along with the District Superintendent shall determine if a recommendation for discharge for an accused employee should be made.

If this recommendation is made and a hearing is required, the hearing must be held in accordance with District policy and law.

Both the complainant and accused shall have an equal right to attend the hearing, have a representative and parent(s) or guardian(s) (if student) present, present evidence, and question witnesses.

The complainant may choose to appoint a representative to participate in the hearing in his/her stead.

Notice of Outcome

Both the complainant and the accused must be provided written notice of the outcome of the complaint.

Nothing shall prevent the parties from seeking judicial redress through a court of competent jurisdiction or through any applicable state or federal complaint procedures.

Records Retention

Investigation materials must be retained by the appropriate grievance coordinator (504/Title II, or Nondiscrimination) for at least six years. All Title IX sexual harassment records and training materials shall be maintained in accordance with federal regulations and Board regulation AAC-BR2.

Complaint Recipients

If any District employee receives a discrimination or harassment complaint, the employee shall forward it to the appropriate grievance coordinator. All District employees must receive training on their reporting duties.

Policy Training and Dissemination

The Board authorizes the Superintendent to develop discrimination and harassment awareness training for students and employees. In addition, the Superintendent shall publish this policy in all student handbooks and employee policy and procedures manual.

Grievance Coordinator

The Title IX Coordinator's responsibilities include overseeing the District's response to Title IX reports and complaints and identifying and addressing any patterns or systemic problems revealed by such reports and complaints. The Title IX Coordinator must have knowledge of the requirements of Title IX, of the District's policies and procedures on sex discrimination, and of all complaints raising Title IX issues throughout the District. To accomplish this, the Title IX Coordinator must be informed of any report or complaint raising Title IX issues, even if the report or complaint was initially filed with another individual or office or if the investigation will be conducted by another individual or office. The Board designates the Human Resources Director as the Title IX Coordinator. They may be contacted at: 444 4th Street West, Dickinson, ND 58601 or 701-456-0002.

The 504/Title II Coordinator's responsibilities include overseeing the District's response to disability discrimination reports and complaints. The 504/Title II Coordinator must have knowledge of the requirements of Section 504 and Title II, of the District's policies and procedures on disability discrimination, and of all complaints raising Section 504/Title II issues throughout the District. To accomplish this, the 504/Title II Coordinator must be informed of any report or complaint raising 504/Title II issues, even if the report or complaint was initially filed with another individual or office or if the investigation will be conducted by another individual or office. The Board designates the Director of Student Services as the 504/Title II Coordinator. They may be contacted at: 444 4th Street West, Dickinson, ND 58601 or 701-456-0002.

All other complaints other than Title IX, 504, or Title II shall be referred to the Human Resources Director.

The Title IX coordinator, 504/Title II coordinator, and any other school official responsible for the investigation of discrimination complaints, shall receive training. This training shall include:

1. The definition of discrimination, harassment, and retaliation.
2. The handling of complaints under the Discrimination, Harassment, and Retaliation Grievance Procedure (AAB-BR); and
3. The applicability of confidentiality requirements.

It shall not be a violation of this policy for non-students 18 years and older to use or possess a product that has been

approved by the U.S. Food and Drug Administration for sale as a tobacco cessation product, as a tobacco dependence product, or for other medical purposes, and is being marketed and sold solely for such an approved purpose.

Communicating to Students, Employees, and Public

The District shall comply with all smoking prohibition posting requirements in law. Appropriate signage shall be posted throughout the District at building entrances and other highly visible locations on school property, such as, but not limited to, school buildings, District vehicles, vehicular entrances to school grounds, school playgrounds, and all indoor and outdoor athletic facilities. Compliance

Each librarian should maintain copies of federal Fair Use copying guidelines and federal Fair Use Standards for off-air taping of copyrighted audio and audiovisual works. Legal counsel shall review any proposed usage beyond the guidelines.

The District may also deem employees who willfully violate copyright laws to be acting outside the scope of employment.

Sportsmanship

Dickinson Public Schools believes school-sponsored activity programs serve educational purposes in the lives of the District’s students. One of these purposes is the development of good sportsmanship. The primary focus of the challenge of achieving good sportsmanship is on the student, but others are involved.

The School Board believes administrators must insist that good sportsmanship is the goal; athletic directors and other administrators must realize the value of sportsmanship and set the tone for the implementation of its good practice.

Coaches/activity sponsors must accept the responsibility of making each activity event a showcase for education. They are expected to be models of self-control and dignity for participants and spectators.

Participants must be taught to handle themselves in a sportsmanlike way; they are also expected to project good sportsmanship in the activities in which they participate.

Student fans must be reminded that their conduct reflects on their school, and that poor sportsmanship will not be tolerated.

Adult spectators must realize that they also must exhibit good sportsmanship at athletic/activity events. Spectators serve as a model for their own children and for other young people in the community. Spectators also need to demonstrate self-control and dignity while participating in various activities.

Administrators and activity sponsors shall practice good sportsmanship. Students will be taught good sportsmanship and be held accountable for their actions. Spectators will be reminded and encouraged to be appropriate role models for young people. The School Board will support staff and administrators who enforce sportsmanship rules at school-sponsored activity events, including evicting students or adults who violate the District policy.

Additional administrative rules will be developed providing enforcement of these expectations and also include positive incentives.

Rules of Conduct

The Superintendent shall develop rules of conduct for athletic events. These rules shall be published in student and employee handbooks and disseminated to District patrons using the method deemed most appropriate, effective, and cost efficient by the Superintendent.

The Superintendent, school District administrators, principals, District security personnel, and law enforcement may evict violators of these rules from the athletic event and the Superintendent may prohibit and/or restrict attendance at

future events. In addition, District students and employees violating these rules may be subject to disciplinary consequences in accordance with District policy and law.

Descriptor Code ABCB-BR **Sportsmanship Regulations**

Good sportsmanship is a primary goal of athletic programs in the Dickinson Public School District. Both adults and students are expected to exhibit good sportsmanship during athletic events.

Students and their parent(s) or guardian(s) shall be informed of the District's expectations and parental cooperation will be sought in maintaining good sportsmanship. Coaches and other adult supervisors shall use appropriate disciplinary measures, such as loss of playing time and possible removal from the team, as a deterrent to poor sportsmanship. Student fans will be held to the same standard as players. In addition to the possibility of being barred from attendance at further events, misconduct at an extracurricular event will bear the same consequences as misconduct during school.

Coaches and adult leaders may also use suitable rewards and other positive incentives to encourage good sportsmanship among students.

Coaches and other adult leaders are also expected to exhibit good sportsmanship. Instances of failure to do so will result in disciplinary action such as oral and written reprimands; failure to correct negative behavior could result in possible suspension from extra-duty activities.

Fans and spectators are expected to show good sportsmanship. Failure to do so is cause for security personnel and administrators to suggest that they are not serving as a good role model for young people and if negative behavior persists or is particularly offensive, they will be asked to leave.

School Board Policy ACAA-AR **Emergency Closing Procedure**

If there is any doubt about school being open or closed, parent(s) or guardian(s) are asked to listen to radio stations KDIX 1230 AM, KLTC 1460 AM, KDXN-105.7 FM, KCAD 99.1 FM and KXDI 94 FM. The District Swift-12 message (telephone, text, email message system) will be activated should weather conditions warrant the closing of schools or early dismissal. Residents are requested not to telephone the school office or Central Administration Office when weather is bad. Too many calls tie up vital phone lines, making it difficult to keep everything running smoothly.

In the event of other emergencies not related to weather that might require the schools to close or be evacuated during the school day, all District staff will follow the steps outlined in the District Emergency Procedures Manual to ensure the safety and well-being of all children in the schools.

School Board Policy ACE **Violent and Threatening Behavior** **Threatening Behavior**

A true threat is a statement made orally, in writing, or using another medium that would be perceived by a reasonable person to be a serious expression of intent to harm, commit assault, or damage school property.

Reporting

Any student or employee who has knowledge of a threat shall promptly report it to the building principal or Superintendent. Failure to report a known threat may result in disciplinary consequences up to and including suspension for students and termination of employment for staff in accordance with policy, law, and, when applicable, the negotiated agreement.

Threat Assessment

Upon receipt of a threat report, the building principal shall promptly contact the Superintendent. The Superintendent shall determine if the report constitutes a true threat as defined above and if, given the nature of the threat, it should be handled internally or turned over to law enforcement. The Superintendent shall make these determinations based on, but not limited to, the following criteria:

1. The detail, specificity, context, and content of the threat;
2. The amount of disruption the threat has caused or may cause to the educational environment;
3. Whether or not the Superintendent can identify the source of the threat; anonymous threats may be turned over to law enforcement;
4. When the source of the threat can be identified, the Superintendent shall consider, to the extent possible, the individual's:
 - a. State of mind;
 - b. Relationship with peers;
 - c. Age;
 - d. Domestic life;
 - e. Ability to carry out the threat (e.g., access to weapons);
 - f. Past behavior.
5. If any laws have been violated;
6. The identity and potential motives of the individual reporting the threat.

The threat assessment may involve interviews with District staff, students, and parents or guardians. The Superintendent may, in accordance with the Family Educational Rights and Privacy Act and other applicable records laws, release threat assessment findings to law enforcement when deemed necessary.

When law enforcement and/or the Superintendent, having considered the totality of the facts obtained through the threat assessment, verifies that a threat is true, the District shall take necessary and timely measures to safeguard students, staff, and District property.

Disciplinary Consequences for Threatening Behavior

1. Regular Education Students: A student who is found to have made a true threat will be subject to disciplinary measures, including, but not limited to suspension and/or expulsion. When deemed to be a necessary safety precaution, the District may require alternative placement or appoint supervision during the periods of suspension and/or expulsion for threatening behavior.
2. Special Education Students: Special education students found to have made a true threat will be disciplined in accordance with applicable policies and laws pertaining to the discipline of special education students.

3. Staff: Employees found to have made a true threat shall be subject to disciplinary consequences up to and including termination of employment in accordance with policy, law, and, when applicable, the negotiated agreement.

Students and employees may also be to subject to the filing of criminal charges and/or referred to counseling services for treatment.

Violent Behavior

The District prohibits all acts of violence and aggression, including, but not limited to, possession of a weapon or dangerous instrument, physical assault, vandalism of District property, stalking, gang affiliation and/or activity, terroristic acts. Violators of this policy shall be subject to disciplinary consequences, determined by the seriousness of the act, including, but not limited to, expulsion for students, discharge for employees, and exclusion from school premises in accordance with applicable policy and law. In addition, the District may take legal action against the perpetrator.

Students and employees may also be to subject to the filing of criminal charges and/or referred to counseling services for treatment.

Prohibitions

A student or school staff member may not:

- 1. Engage in bullying;
- 2. Engage in reprisal or retaliation against:
 - a. A victim of bullying;
 - b. An individual who witnesses an alleged act of bullying;
 - c. An individual who reports an alleged act of bullying; or
 - d. An individual who provides information/participates in an investigation about an alleged act of bullying.

3. Knowingly file a false bullying report with the District.

Reporting Procedures for Alleged Policy Violations

1. Reporting requirements for school staff: Any school staff member with knowledge or suspicion of a violation of this policy or who has received an oral or written report of a violation of this policy from a student, community member, or anonymously shall contact the building principal to inform him/her as soon as possible. If the alleged violation implicates the building principal, the school staff member shall report it to the Superintendent. If the alleged violation implicates the Superintendent, the school staff member shall file it with the Board President.

Should school administration determine that a school staff member knew of or suspected a violation of this policy and failed to report it in accordance with the procedure above, the staff member may be subject to disciplinary consequences or, for sponsors of school-sanctioned activities, other corrective measures.

2. Reporting options for students and community members: Students and community members (including parents or guardians) may report known or suspected violations of this policy using any of the following methods:
 - a. Completing a written complaint form: A complainant will have the option of including his/her name on this form or filing it anonymously. The District will place the form in a variety of locations throughout the school and should inform students and staff of these locations. The form may be returned to any school staff member or filed in a school building's main office.
 - b. Complete and submit an online complaint form. A complainant will have the option of including his/her name on the form or submitting it anonymously.
 - c. File an oral report with any school staff member.

Bullying may be a repeated or, in rare cases, one-time exposure to deliberate, negative behavior by one or more individuals. Single incidents and conflicts between two or more individuals do not automatically constitute bullying behavior. Districts should investigate each situation to determine if the alleged behavior meets this policy's definition of bullying. If the misconduct does not meet this policy's definition of bullying, it may be addressed under other district disciplinary policies.

A complaint filed anonymously may limit the District's ability to investigate and respond to the alleged violations.

Documentation and Retention

The District shall develop a form to report alleged violations of this policy (ACEA-E3). The form should be completed by school staff when they:

1. Initiate a report of an alleged violation of this policy; or
2. Receive an oral report of an alleged violation of this policy.

The form should be completed by an administrator when they:

1. Initiate a report of an alleged violation of this policy; or
2. Receive an oral report of an alleged violation of this policy.

All written reports of an alleged violation of this policy received by the District shall be forwarded to the appropriate school administrator for investigation and retention.

Report forms and all other documentation related to an investigation of an alleged violation of this policy shall be retained by the District for six (6) years after a student turns 18 years of age or graduates from high school, whichever is later.

Investigation Procedures

School administrators (i.e., a principal, assistant superintendent, or the Superintendent) or the Board President, if the Superintendent is implicated, are required to investigate violations of this policy (as described under “Prohibitions”), when in receipt of actual notice of an alleged violation. Actual notice of an alleged violation occurs when alleged bullying, reprisal, retaliation, or false reporting is reported using the applicable method(s) prescribed in the reporting section of this policy.

Upon receipt of a report of an alleged policy violation, the designated administrator shall first determine if the alleged policy violation is based on a protected status—whether actual or perceived. Reports involving a protected status shall be investigated in accordance with the District’s Nondiscrimination and Anti-harassment policy (AAC), including the timelines contained therein.

In all other cases, administration shall determine the level of investigation necessary based on the nature of the alleged violation of this policy after considering factors such as, but not limited to: the identity of the reporter and their relationship to the victim/alleged perpetrator; the ages of the parties involved; the detail, content, and context of the report; whether or not this report is the first of its type filed against the alleged perpetrator. Based on the level of investigation the administrator deems necessary, investigations may include any or all of the following steps or any other investigatory steps that the administrator deems necessary:

1. Identification and collection of necessary and obtainable physical evidence (NOTE: In some cases physical evidence may be unobtainable, e.g., a private social networking profile).
2. Interviews with the complainant, the victim, and/or the alleged perpetrator. At no time during an investigation under this policy shall the victim/complainant be required to meet with the alleged perpetrator.
3. Interviews with any identified witnesses.
4. A review of any mitigating or extenuating circumstances.
5. Final analysis and issuance of findings in writing to the victim and bully and, if applicable, implementation of victim protection measures and disciplinary measures under this or other applicable policies.

Investigations shall be completed within no more than 60 days unless the administrator documents good cause for extending this deadline. Such documentation should be sent to the victim and alleged perpetrator during the investigation.

Reporting to Law Enforcement and Others Forms of Redress

Law enforcement must be notified by a school administrator or Board President if there is in reasonable suspicion that a bullying incident constituted a crime on or off school district property. Nothing in this policy shall prevent a victim/their family from seeking redress under applicable state and federal law.

Disciplinary and Corrective Measures

A student that the District has found to have violated this policy shall be subject to disciplinary consequences and/or corrective measures. When determining the appropriate response to violations of this policy, administration shall take into account the totality of circumstances surrounding the violation. Measures that may be imposed include, but are not limited to:

1. Require the student to attend detention.

2. Impose in-school or out-of-school suspension or recommend expulsion. Due process procedures contained in the District's suspension and expulsion policy shall be followed.
3. Recommend alternative placement. This recommendation shall be submitted to the Superintendent for approval or denial. The Superintendent may approve such recommendations only if the student has been given notice of the charges against him/her and an opportunity to respond. Alternative placement of special education students will be handled in accordance with applicable policy.
4. Create a behavioral adjustment plan.
5. Refer the student to a school counselor.
6. Hold a conference with the student's parent(s) or guardian(s) and classroom teacher(s), and other applicable school staff.
7. Modify the perpetrator's schedule and take other appropriate measures (e.g., moving locker) to minimize contact with the victim.
8. If applicable, contact the administrator of the website or social media platform on which the bullying occurred to report it.

If the misconduct does not meet this policy's definition of bullying, it may be addressed under other District disciplinary policies.

If the perpetrator is a school staff member, the District shall take appropriate disciplinary action including, but not limited to: a reprimand, modification of duties (only if allowed by applicable policy, the negotiated agreement, and/or the individual's contract), suspension, or a recommendation for termination/discharge in accordance with applicable law and/or policy.

Victim Protection Strategies

When the District confirms that a violation of this policy has occurred, it should notify the victim's parents and shall implement victim protection strategies. These strategies shall be developed on a case-by-case basis after administration has reviewed the totality of the circumstances surrounding the bullying incident(s) or other violations of this policy. Strategies may include, but not be limited to, the following:

1. Additional training for all students and applicable staff on implementation of this policy and/or bullying prevention.
2. Notice to the victim's teachers and other staff to monitor the victim and his/her interaction with peers and/or the assignment of a staff member to escort the student between classes.
3. Assignment of District staff to monitor, more frequently, areas in the school where bullying has occurred.
4. Referral to counseling services for the victim and perpetrator.
5. Modification of the perpetrator's schedule and other appropriate measures imposed on the perpetrator (not the victim) to minimize the perpetrator's contact with the victim.

Dissemination and Education

The District shall review and revise this policy as it determines necessary. A copy of this District bullying policy and any amendments must be filed with the Department of Public Instruction.

The District shall place this policy, in its entirety, in student and staff handbooks and ensure that it is explained and discussed with its students each school year. The District shall also develop and implement bullying prevention programs for all students and staff professional development activities. School administration may develop guidelines to assist students and staff with identifying bullying conduct.

SUICIDE PREVENTION

Definitions

This policy defines the following:

- *At risk* means a student who has made a suicide attempt, has the intent to die by suicide, or has displayed a significant change in behavior suggesting the onset or deterioration of a mental health condition. The student may have thought about suicide including potential means of death and may have a plan. In addition, the student may exhibit feelings of isolation, hopelessness, helplessness, and the inability to tolerate any more pain.
- *Mental health* means a state of mental and emotional being that can impact choices and actions that affect wellness. Mental health problems include mental and substance use disorders.
- *Postvention* means a crisis intervention strategy designed to reduce the risk of suicide and suicide contagion, provide the support needed to help survivors cope with a suicide death, address the social stigma associated with suicide, and disseminate factual information after the suicide death of a member of the school community.
- *Risk assessment* means an evaluation of a student who may be at risk for suicide, conducted by the appropriate school staff (e.g., school psychologist, school counselor, or school social worker). This assessment is designed to elicit information regarding the student's intent to die by suicide, previous history of suicide attempts, presence of a suicide plan and its level of lethality and availability, presence of support systems, and level of hopelessness and helplessness, mental status, and other relevant risk factors.
- *Risk factors for suicide* means characteristics or conditions that increase the chance that a person may try to take his or her life. Suicide risk tends to be highest when someone has several risk factors at the same time. Risk factors may encompass biological, psychological, and or social factors in the individual, family, and environment.
- *Suicide Death* means death caused by self-directed injurious behavior with any intent to die as a result of the behavior. [Note: The coroner's or medical examiner's office must first confirm that the death was a suicide before any school official may state this as the cause of death.]
- *Suicide attempt* means a self-injurious behavior for which there is evidence that the person had at least some intent to kill themselves. A suicide attempt may result in death, injuries, or no injuries. A mixture of ambivalent feelings such as wish to die and desire to live is a common experience with most suicide attempts. Therefore, ambivalence is not a sign of a less serious or less dangerous suicide attempt.
- *Suicidal behavior* means suicide attempts, intentional injury to self-associated with at least some level of intent, developing a plan or strategy for suicide, gathering the means for a suicide plan, or any other overt action or thought indicating intent to end one's life.
- *Suicide contagion* means the process by which suicidal behavior or a suicide influences an increase in the suicidal behaviors of others. Guilt, identification, and modeling are each thought to play a role in contagion. Although rare, suicide contagion can result in a cluster of suicides.
- *School property* is defined in NDCC 15.1-19-10(6)(b) is all land within the perimeter of the school site and all school buildings, structures, facilities, and school vehicles, whether owned or leased by a school district, and the site of any school-sponsored event or activity.

Purpose

The purpose of this policy is to protect the health and well-being of all District students while on school property by having procedures in place to prevent, assess the risk of, intervene in, and respond to suicide. The District:

1. Recognizes that physical, behavioral, and emotional health is an integral component of a student's educational outcomes;
2. Further recognizes that suicide is a leading cause of death among young people;
3. Has an ethical responsibility to take a proactive approach in preventing deaths by suicide; and
4. Acknowledges the school's role in providing an environment which is sensitive to individual and societal factors that place youth at greater risk for suicide, and one which helps to foster positive youth development.

Prevention

District Policy Implementation

A District Suicide Prevention Coordinator shall be designated by the Superintendent. The Dickinson Public School District Superintendent designates the Director of Student Services as its Suicide Prevention Coordinator. The District Suicide Prevention Coordinator shall be responsible for planning and coordinating implementation of this policy for the school district. Each school principal shall designate a school Suicide Prevention Coordinator to act as a point of contact in each school for issues relating to suicide prevention and policy implementation. This may be an existing staff person. All staff members must report students they believe to be at elevated risk for suicide to the school Suicide Prevention Coordinator.

Staff Professional Development

All staff shall receive a minimum of eight hours professional development on risk factors, warning signs, protective factors, response procedures, referrals, postvention, and resources regarding youth suicide prevention every two years.

The professional development may include additional information regarding groups of students at elevated risk for suicide, including those living with mental and/or substance use disorders, those who engage in self harm or have attempted suicide, those in out-of-home settings, those experiencing homelessness, American Indian/Alaska Native students, LGBTQ (lesbian, gay, bisexual, transgender, and questioning) students, students bereaved by suicide, and those with medical conditions or certain types of disabilities.

Additional professional development in risk assessment and crisis intervention may be provided to school-employee mental health professionals and school nurses.

Youth Suicide Prevention Programming

Developmentally-appropriate, student-centered education materials shall be integrated into the curriculum of all K-12 health classes. The content of these age-appropriate materials may include:

1. the importance of safe and healthy choices and coping strategies;
2. how to recognize risk factors and warning signs of mental disorders and suicide in oneself and others;
3. help-seeking strategies for oneself or others, including how to engage school resources and refer friends for help.

In addition, schools may provide supplemental small group suicide prevention programming for students.

Publication and Distribution

This policy must be distributed annually and included in all student and employee handbooks, and on the school website.

Corporal punishment does not include action taken by an employee for self-defense, protection of persons or property, obtaining possession of a weapon or other dangerous object, to quell a verbal disturbance, for the preservation of order, or pain or discomfort caused by athletic competition or recreational activities voluntarily engaged in by a student.

Complaints alleging that a District employee inflicted corporal punishment will be dealt with in accordance with school board policy on personnel complaints.

Disciplinary Authority

Regulations on disciplinary standards and investigation procedures shall delineate the degree of disciplinary authority that the District shall grant to teachers and principals.

Other school personnel shall be granted disciplinary authority by the principal on a case-by-case basis based on the nature and scope of the employee's duties. Personnel granted such authority shall be required to comply with this policy and any disciplinary authority limits established by regulations. Employees unauthorized to administer student discipline shall report student misconduct to the appropriate school authority.

Freedom of expression may not be utilized to present material that is vulgar, slanderous, defames character, advocates violation of law or is in violation of District policy.

The Superintendent shall ensure that students are made aware of the legal authority of the Board and the delegated authority of the staff to make rules and regulations regarding the orderly operation of the school, which uphold the legal rights of students.

A student or staff member that has reason to believe that a student has violated this policy should notify a school official (i.e., a teacher or administrator if the reporter is a student; a school administrator if the reporter is a District staff member). Except in limited circumstances under law, a teacher is required to report known or suspected

violations of this policy to the school principal.

Violation

When a principal/Superintendent has reasonable suspicion that a student has violated this policy, they may search the student in accordance with the District's policy on searches of students' person or personal property. Such searches shall not include referral for mandatory alcohol/drug testing.

Disciplinary sanctions will be imposed on, and additional actions may be taken (as listed below) in response to, any violation of this policy. These sanctions may include suspension or expulsion, intervention (as described below), and notification of proper authorities for prosecution. Prohibited substances will be confiscated and illegal substances will be turned over to law enforcement authorities.

Any student who is observed to be under the influence of a prohibited substance will be taken immediately to the principal's office. The student's parent(s) or guardian(s) will be notified and asked to pick up the student. If there appears to be imminent danger to other students, school personnel, and/or the student involved, the principal may have the student removed from the school by school, medical, or law enforcement personnel.

Intervention

It is acknowledged that the public school has neither the authority nor the responsibility to make medical or health determinations regarding chemical dependency; however, when observed behavior indicates that a problem exists which may affect the student's ability to learn or the educational climate of the school, the school has a right and a responsibility to refer the student for a formal chemical dependency diagnosis. The Superintendent shall develop a procedure for chemical dependency identification and referral for treatment.

Referral for treatment shall be a constructive not punitive action; however, use of the treatment program shall not override or prohibit the District from taking disciplinary action for violations of this policy.

The school will make a reasonable effort to cooperate with a therapy program if one is recommended for the student. The Board believes that if a student is involved in a chemical dependency program and is successfully addressing their harmful involvement with chemicals, they may be allowed to continue in the regular school setting and continue to participate in any extracurricular program unless participation is in conflict with rules and regulations set forth by the Board, the North Dakota High School Activities Association, and/or the student has been suspended or expelled as a result of a District policy violation.

The school may, through the use of available resources, provide follow-up counseling and supportive assistance to those students who return after successfully completing a therapeutic regimen, realizing that the student may need assistance in dealing with other environmental factors beyond the school's control which may remain unchanged.

Confidentiality

The District shall maintain the confidentiality of students referred for counseling and chemical dependency treatment in accordance with the District's policy on counseling records and other applicable law.

Education

The District will teach about drugs and alcohol in an age appropriate developmentally based education and prevention program. This program will include information about drug and alcohol counseling and rehabilitation programs available to the students.

In addition, the District will conduct staff orientation and training on drug and alcohol prevention, including a periodic overview of this policy and its procedures for implementation.

Policy Implementation

Student handbooks shall contain a statement of sanctions required concerning the possession, use, or distribution of drugs and/or alcohol.

The Dickinson Public Schools will review this policy and its implementation periodically to ensure that disciplinary sanctions are consistently applied and to determine the effectiveness of the program for the prevention of alcohol and other drug use/abuse.

School Board Policy FFB

Attendance and Absences

The Dickinson Public School District believes that regular school attendance is the joint responsibility of the student and their parent(s) or guardian(s), and it is essential for student success in school. The District shall abide with compulsory attendance requirements in state law for students ages seven through sixteen. In order to comply with and enforce these requirements, the Board establishes the following attendance policy:

Definitions

A. For purposes of compulsory attendance reporting under NDCC 15.1-20-02.1 (1-2):

- *Excused absence* is an absence that the District will not use in determining if a compulsory attendance violation occurred. Any absence may be excused if it is supported by either a verbal or written excuse supplied by the student's parent/guardian, teacher, or school administrator.

Examples of an excused absence may include illness, injury, family emergency, religious observance or instruction, suspension, participation in a school-related activity, court appearances when subpoenaed, or other reasons deemed necessary and justifiable by the building principal or Superintendent.

- *Unexcused absence* is any absence not supported by the verbal or written excuse required for an excused absence and shall count in determining when a compulsory attendance violation occurred. If a student is absent for an unexcused reason, the parent/guardian is responsible for promptly calling the principal's office to explain the absence, and the student shall be subject to the consequences contained in the Absences section of this policy.

Examples of an unexcused absence may include, but are not limited to, truancy, oversleeping, routine errands, car maintenance and repair, and any undeclared absences.

Documentation Requirements

School administration may require documentation to verify an excused absence, including, but not limited to:

1. Medical documentation from an appropriate licensed healthcare provider;
2. A copy of a court summons or subpoena;
3. An obituary for funeral leave;

4. Verification of planned or executed family travel (e.g., a boarding pass);
5. A request from an official at the student's place of worship; **or**
6. A request for an absence due to a curricular or extracurricular event submitted by the student's teacher, coach, or extracurricular advisor.

Compulsory Attendance Violations

North Dakota law defines what constitutes a compulsory attendance violation. Suspected violations of the compulsory attendance law shall be reported to school administration and investigated in accordance with law. When a compulsory attendance violation is substantiated, the District shall comply with law enforcement reporting requirements under law.

Absences

The Board recognizes that prompt, regular attendance is extremely important. Absenteeism not only adversely affects the learning process of a student but also may impede their normal progression through the grades. The Board expects each student to attend all scheduled classes and daily activities except when a school administrator has excused a student.

The Superintendent or designee shall establish criteria for requesting and granting approved absences, make-up work requirements, and parental notification processes for students with accumulated absences.

Disciplinary Sanctions

The Board believes that unapproved absences are a form of misconduct and authorizes the Superintendent to establish grade-appropriate disciplinary consequences. Students shall be afforded appropriate due process rights based on the severity of disciplinary penalty that the District is considering imposing. Students shall be required to complete assigned work.

Dissemination

This policy shall be published in all student handbooks.

School Board Policy FFD **Carrying Weapons**

Definitions This policy defines the following:

- *Dangerous weapon* as defined by NDCC 62.1-01-01(1)
- *Firearm* as defined in accordance with 18 U.S.C. 921 and NDCC 62.1-01-01(3)
- *School property* is defined in NDCC 15.1-19-10 (6)(b) as all land within the perimeter of the school site and all school buildings, structures, facilities, and school vehicles, whether owned or leased by the District, and the site of any school-sponsored event or activity.

Prohibitions

Students are prohibited from knowingly possessing or transmitting on school property a firearm, dangerous weapon, or any object that is used, attempted to be used, or threatened to be used to intimidate or cause bodily harm.

Disciplinary Consequences

Violation of this policy will result in disciplinary action up to and including suspension or expulsion. Bringing a dangerous weapon, other than a firearm, to school will require that proceedings for up to 10 days suspension and/or expulsion for up to 12 months be initiated immediately in accordance with the district's suspension and expulsion policy.

Bringing a firearm to school will require that the District immediately initiate proceedings for the expulsion of the student involved for a minimum of one calendar year in accordance with the district's suspension and expulsion policy. The Superintendent may modify the length of a firearms-related expulsion to less than one calendar year on a case-by-case basis based on the following criteria:

1. The totality of the circumstances, including the severity of the incident and the degree of endangerment of other students and staff.
2. The age and grade level of the student.
3. The prior disciplinary history of the student being expelled.
4. Relevant factors that contributed to the student's decision to possess a firearm in violation of this policy.
5. The recency and severity of prior acts resulting in suspension or expulsion.
6. Whether or not the optional provision of educational services in an alternative setting is a viable alternative to modifying the duration of the expulsion.
7. Input, if any, provided by licensed professionals (psychologists, psychiatrists, counselors) as to whether or not the expelled student would place himself/herself or others at risk by returning to the school prior to the expiration of the expulsion period.

Parents will be notified and all dangerous weapons will be confiscated and may be turned over to the student's parents or to law enforcement officials at the discretion of the administration. Firearms will be confiscated and turned over to law enforcement.

Special Education Students

A student who is defined as having a disability under the Individuals with Disabilities Education Act (IDEA) who has brought a firearm or dangerous weapon to school shall be handled in accordance with IDEA regulations. The District shall make manifestation determinations, disciplinary decisions, and placement decisions of such students in accordance with IDEA regulations.

Nonapplicable Provisions

This policy does not apply to students enrolled and participating in a school-sponsored shooting sport, provided that the student informs the school principal of the student's participation, and the student complies with all requirements set by the principal regarding the safe handling and storage of the firearm. The principal may allow authorized persons to display dangerous weapons or look-a-likes for educational purposes. Such a display will be exempt from this policy.

A student who finds a firearm or dangerous weapon on the way to school, on or in school property, or discovers that they accidentally have a firearm or dangerous weapon in their possession shall not be considered to possess it if they turn it over to an administrator, teacher or head coach or immediately notifies an administrator, teacher, or head coach of its location.

School Board Policy FFE

Extracurricular Participation Requirements

Philosophy

The Board believes that participation in extracurricular activities constitutes a privilege and not a right. Students who participate in extracurricular activities represent the student body, school district, and community on the state and national level. As such, behavior of these students is a reflection of the entire community.

The District will enforce the requirements placed on extracurricular participants by the North Dakota High School Activities Association (NDHSAA), which govern both on and off campus behavior. In addition, the Board has established additional extracurricular participation requirements via a Dickinson Public Schools Code of Conduct policy found in the Dickinson Middle School and Dickinson High School student handbooks.

Activities Affected by this Policy

Activities affected by this policy shall include extracurricular activities as listed in the student handbook, including those not sponsored by NDHSAA.

Academics

NDHSAA requires that local Districts establish a definition of what constitutes a failing grade. For the purposes of this policy, a failing grade is defined as receiving a letter grade of F in any curricular course as computed from the beginning of the semester for regular education students or, in the case of special education students, not meeting the goals of Individual Education Programs as assessed from the beginning of the semester.

Suspension Procedure

When the principal or Superintendent, as a result of his/her investigation, concludes that a violation of this policy or NDHSAA bylaws has occurred, he/she shall notify the student of this suspension.

Violation of Other Misconduct Policies

Students who violate student conduct policies not covered by NDHSAA bylaws may be subject to suspension from extracurricular activities for a period of time determined by coaches/advisors and administration. Such consequences shall be imposed in addition to other disciplinary consequences imposed under the applicable policy.

When the administration deems suspension from extracurricular participation necessary, he/she shall follow the procedure for suspension from extracurricular participation required by NDHSAA bylaws and Dickinson Public Schools Code of Conduct policy

School Board Policy FFK

When the hearing officer is someone other than the Dickinson Public School Board, the student may seek a review of the hearing officer's expulsion decision by the Board based on the record of the hearing.

Expulsion shall not be imposed beyond the maximum duration permitted by law.

Suspension or expulsion of students with disabilities must comply with the provisions of the Individuals with Disabilities Education Act.

The District is not required to refer a regular education student who has been suspended or expelled for violation of school rules and/or district policy for special education assessment and evaluation to determine if such a student

might have a disability. A suspended regular education student is not entitled to the reinstatement of school privileges pending any assessment and evaluation that is to be made during the term of the student's suspension.

1. Maintaining a list of school personnel by title who have access to student information; this list shall be provided to the Superintendent each time it is updated;

parent/eligible student. The regulations shall be delineated in board approved regulations-shall be available upon request.

2.- Classroom Use of Instructional Tools Requiring Release of Student Information

Teachers are encouraged to use instructional technological tools that allow for use of an alias or that do not require submission of directory information (other than or in addition to name) or PII. Whenever a teacher wishes to use an instructional tool that requires release of directory information, other than or in addition to name, or PII such as, but not limited to, software or an app, the teacher shall submit a request to the building-level privacy officer. The privacy officer shall check the District's master list of individuals and entities approved to receive student information. If the entity is not on this list or the teacher's request is beyond the scope of information sharing permission previously granted, the privacy officer shall either deny the teacher's request or submit an information-sharing request to the Superintendent for board approval. If the teacher is authorized to use the instructional tool, the building-level privacy officer shall ensure the teacher complies with any parental consent requirements and directory information opt-out requests before using the tool.

3. - Data Breaches

District employees are responsible for informing a privacy officer of any known or suspected breach of PII. The Board shall develop criteria in regulations for approving and denying these requests.

The privacy officer shall determine if the Board has previously approved such release and, if not, deny the request or submit it to the Superintendent for board approval.

6. Personally Identifiable Information (PII)

Any third party requesting or receiving access to student PII must receive board approval unless the third party is required to receive PII under state or federal law. Any school employee who wishes to share PII with a third party shall contact his/her privacy officer. The privacy officer shall determine if the Board has previously approved such release and, if not, deny the request or submit it to the Superintendent for board approval. Parental/eligible student consent is not required to release PII under the following circumstances:

- j. To comply with a judicial order or lawfully issued subpoena; the District must make reasonable attempt to contact the parent/eligible student before disclosure unless the court order instructs otherwise
- k. To the parents of an eligible student who is also a "dependent student" as defined in IRS Section 152

The District will take measures necessary to ensure that individuals and entities to which PII is released shall only have access to information necessary to fulfill their responsibilities under law and to the District. Measures may include, but not be limited to, controlling access to computer data through password restrictions, controlled access to paper records, and ensuring that any information access agreements required by law are properly executed by the Board.

7. When Parental Consent is Required

The District must obtain parental/eligible student consent to release student information under the following circumstances:

- a. The Board has approved release of PII to an individual or entity not meeting the definition of school official under law and/or not meeting an exception to the parental consent requirement under FERPA
- b. The Board has approved release of directory information, other than or in addition to name, or PII to an online service provider for commercial purposes and the impacted students are under 13

If the District is unable to obtain this consent, it shall not release the impacted student's information.

504 Plans and Individual Educational Programs (IEPs)

Sharing of student information necessary for developing, amending, or implementing an IEP or 504 Plan and sharing student information needed to determine eligibility for special education or disability services are not subject to board approval requirements in NDCC Ch. 15.1-07-25.3 because the District provides these services in fulfillment of requirements under state and federal law.

Policy Violations

Failure by a District employee or volunteer to comply with this policy, other District confidentiality requirements, or any improper disclosure of student information by a school employee or volunteer shall result in disciplinary action

up to and including dismissal in accordance with applicable law. Failure by a third party to comply with this policy, any information-sharing agreements between the District and third party, or any improper disclosure of student information by the third party may result in termination of the third-party's access to student information and termination of the District's agreement with the third party if permitted under the terms of such agreement.

Training

School officials employed or volunteering for the District shall receive information and/or training on confidentiality requirements pertaining to student education records and consequences for breaching confidentiality. The District shall also provide training to applicable school personnel on the procedures for requesting to release student information contained in this policy.

If you do not want Dickinson School District to disclose directory information from your child's education records without your prior written consent, you must notify the school/District in writing **within two weeks of the first day child is enrolled.**

FGA-E2 – MODEL NOTIFICATION OF RIGHTS UNDER FERPA FOR ELEMENTARY AND SECONDARY SCHOOLS

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the school receives a request for access. Parents or eligible students should submit to the school principal, or appropriate school official, a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected in accordance with board regulation FGA-BR.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Parents or eligible students who wish to ask the school to amend a record should write the school principal, or appropriate school official, clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel), or a person serving on the school board. A school official also may include a volunteer or contractor outside of the school who performs an institutional service of function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; or a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing

his/her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

Disclosure of PII without Consent

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, §99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student:

1. To other school officials, as defined in #3 above, within the educational agency or institution whom the school has determined to have legitimate educational interests. This may include contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in §99.31(a)(1)(i)(B)(1) - (a)(1)(i)(B)(2) are met. (§99.31(a)(1))
2. To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of §99.34. (§99.31(a)(2))
