NE 354950 \$22,060.00	\$661.80			

1 - This is the total amount of money you "earned" as a student in this class during **2021.**

2 - We would have taken this amount from what you earned, and paid it to the federal government instead of you. The law requires that this be done to make sure that you don't spend what you'll owe in taxes at the end of the year. This process is called WITHHOLDING.

3 - This is the amount of your overall wages subject to Social Security taxes. The maximum is currently **\$147,000** per year.

4 - We would have "withheld" this amount from your paycheck and paid part of it to the federal government to go into the SOCIAL SECURITY TRUST FUND. After paying into this fund for several years, you (and/or your family) are entitled to collect retirement and/or disability benefits when you become eligible. In addition, because you'd pay the remaining withholding in this category to the MEDICARE trust fund, you will become eligible to collect MEDICARE benefits should you ever need them. As an employer, we would have to send an amount equal to your withholding for both trust funds as an additional contribution to your account.

17 - This amount is withheld from your pay and sent to the state government to go toward any state income tax you might owe at the end of the year.

1 - This is the total amount of money you "earned" as a student in this class during **2021.**

2 - We would have taken this amount from what you earned, and paid it to the federal government instead of you. The law requires that this be done to make sure that you don't spend what you'll owe in taxes at the end of the year. This process is called WITHHOLDING.

3 - This is the amount of your overall wages subject to Social Security taxes. The maximum is currently **\$147,000** per year.

4 - We would have "withheld" this amount from your paycheck and paid part of it to the federal government to go into the SOCIAL SECURITY TRUST FUND. After paying into this fund for several years, you (and/or your family) are entitled to collect retirement and/or disability benefits when you become eligible. In addition, because you'd pay the remaining withholding in this category to the MEDICARE trust fund, you will become eligible to collect MEDICARE benefits should you ever need them. As an employer, we would have to send an amount equal to your withholding for both trust funds as an additional contribution to your account.

17 - This amount is withheld from your pay and sent to the state government to go toward any state income tax you might owe at the end of the year.

1 - This is the total amount of money you "earned" as a student in this class during **2021.**

2 - We would have taken this amount from what you earned, and paid it to the federal government instead of you. The law requires that this be done to make sure that you don't spend what you'll owe in taxes at the end of the year. This process is called WITHHOLDING.

3 - This is the amount of your overall wages subject to Social Security taxes. The maximum is currently **\$147,000** per year.

4 - We would have "withheld" this amount from your paycheck and paid part of it to the federal government to go into the SOCIAL SECURITY TRUST FUND. After paying into this fund for several years, you (and/or your family) are entitled to collect retirement and/or disability benefits when you become eligible. In addition, because you'd pay the remaining withholding in this category to the MEDICARE trust fund, you will become eligible to collect MEDICARE benefits should you ever need them. As an employer, we would have to send an amount equal to your withholding for both trust funds as an additional contribution to your account.

17 - This amount is withheld from your pay and sent to the state government to go toward any state income tax you might owe at the end of the year.

In addition, because you'd pay the remaining withholding in this category to the MEDICARE trust fund, you will become eligible to collect MEDICARE benefits should you ever need them. As an employer, we would have to send an amount equal to your withholding for both trust funds as an additional contribution to your account.

17 - This amount is withheld from your pay and sent to the state government to go toward any state income tax you might owe at the end of the year.

1 - This is the total amount of money you "earned" as a student in this class during **2021.**

2 - We would have taken this amount from what you earned, and paid it to the federal government instead of you. The law requires that this be done to make sure that you don't spend what you'll owe in taxes at the end of the year. This process is called WITHHOLDING.

3 - This is the amount of your overall wages subject to Social Security taxes. The maximum is currently **\$147,000** per year.

4 - We would have "withheld" this amount from your paycheck and paid part of it to the federal government to go into the SOCIAL SECURITY TRUST FUND. After paying into this fund for several years, you (and/or your family) are entitled to collect retirement and/or disability benefits when you become eligible. In addition, because you'd pay the remaining withholding in this category to the MEDICARE trust fund, you will become eligible to collect MEDICARE benefits should you ever need them. As an employer, we would have to send an amount equal to your withholding for both trust funds as an additional contribution to your account.

NE	354950	\$35,893.00	\$1,076.79			-	

1 - This is the total amount of money you "earned" as a student in this class during **2021.**

2 - We would have taken this amount from what you earned, and paid it to the federal government instead of you. The law requires that this be done to make sure that you don't spend what you'll owe in taxes at the end of the year. This process is called WITHHOLDING.

3 - This is the amount of your overall wages subject to Social Security taxes. The maximum is currently **\$147,000** per year.

4 - We would have "withheld" this amount from your paycheck and paid part of it to the federal government to go into the SOCIAL SECURITY TRUST FUND. After paying into this fund for several years, you (and/or your family) are entitled to collect retirement and/or disability benefits when you become eligible. In addition, because you'd pay the remaining withholding in this category to the MEDICARE trust fund, you will become eligible to collect MEDICARE benefits should you ever need them. As an employer, we would have to send an amount equal to your withholding for both trust funds as an additional contribution to your account.

17 - This amount is withheld from your pay and sent to the state government to go toward any state income tax you might owe at the end of the year.

1 - This is the total amount of money you "earned" as a student in this class during **2021.**

2 - We would have taken this amount from what you earned, and paid it to the federal government instead of you. The law requires that this be done to make sure that you don't spend what you'll owe in taxes at the end of the year. This process is called WITHHOLDING.

3 - This is the amount of your overall wages subject to Social Security taxes. The maximum is currently **\$147,000** per year.

4 - We would have "withheld" this amount from your paycheck and paid part of it to the federal government to go into the SOCIAL SECURITY TRUST FUND. After paying into this fund for several years, you (and/or your family) are entitled to collect retirement and/or disability benefits when you become eligible. In addition, because you'd pay the remaining withholding in this category to the MEDICARE trust fund, you will become eligible to collect MEDICARE benefits should you ever need them. As an employer, we would have to send an amount equal to your withholding for both trust funds as an additional contribution to your account.

17 - This amount is withheld from your pay and sent to the state government to go toward any state income tax you might owe at the end of the year.

1 - This is the total amount of money you "earned" as a student in this class during **2021.**

2 - We would have taken this amount from what you earned, and paid it to the federal government instead of you. The law requires that this be done to make sure that you don't spend what you'll owe in taxes at the end of the year. This process is called WITHHOLDING.

3 - This is the amount of your overall wages subject to Social Security taxes. The maximum is currently **\$147,000** per year.

4 - We would have "withheld" this amount from your paycheck and paid part of it to the federal government to go into the SOCIAL SECURITY TRUST FUND. After paying into this fund for several years, you (and/or your family) are entitled to collect retirement and/or disability benefits when you become eligible. In addition, because you'd pay the remaining withholding in this category to the MEDICARE trust fund, you will become eligible to collect MEDICARE benefits should you ever need them. As an employer, we would have to send an amount equal to your withholding for both trust funds as an additional contribution to your account.

17 - This amount is withheld from your pay and sent to the state government to go toward any state income tax you might owe at the end of the year.
