World Languages

The New Jersey Student Learning Standards – World Languages (NJSLS-WL) is a guiding document toward participation in the state’s global society. As one of the most diverse states in the United States, New Jersey encompasses a multicultural, global citizenry. In all regions, there are people speaking and interacting with others in different languages; there are street signs in several languages and international enterprises conducting business in English and in a multitude of other languages. The New Jersey Department of Education, whose mission is to equip students with necessary knowledge, skills, and attitudes to participate successfully in the 21st century, embraces the state’s multiculturalism and diversity, including the acquisition of diverse languages and cultures.

Mission

World languages education provides learners with the essential language skills and cultural understandings in languages other than English necessary to live and work in a global, culturally diverse world.

Vision

An education in world languages fosters a population that:

- Cultivates communication and cultural understanding in more than one language with the levels of language proficiency that are required to function in a variety of occupations and careers in the contemporary workplace.
- Exhibits attitudes, values, and skills that indicate a positive disposition and understanding of cultural differences and that enhances crosscultural communication.
- Participates in local and global communities with people who speak languages other than English to address social justice issues and other global problems.
- Values language learning for its long-term worth in advancing personal, work-related, and/or financial success in our increasingly interconnected world.

Intent and Spirit of the World Languages Standard

The study of world languages benefits all students by fostering academic success, cognitive flexibility, increased access to information from other content areas, employment opportunities, and the ability to function more effectively with understanding and respect in all environments encountered in their lives. To meet the high school graduation requirement (N.J.A.C. 6A: 8:5.1), the New Jersey Student Learning Standards – World Languages (NJSLS – WL) promotes an acquisition process that is research-based, spiraling and recursive, and aligned to appropriate proficiency targets that are designed to ultimately enable learners to attain Novice-High level proficiency or above, which is a requirement for high school graduation. All students have regular, sequential instruction in one or more world languages beginning in kindergarten and continuing at least through the freshman year of high school. Further, N.J.A.C. 6A:8-5.1(b)4 directs districts to actively encourage all students who otherwise meet the current-year

requirement for high school graduation to continue their study of a second language through high school in order to reach higher proficiency levels. Opportunities to develop higher levels of proficiency should be based on personal and career interests.

The number of years spent studying a language and the frequency of instruction impact the level of proficiency acquired in the language. This principle has historically been supported by research in the United States and abroad (Raymond, 2012). A three-year grant project (2005-08) administered by the New Jersey Department of Education supports these research findings. Data from the federally funded project that assessed the language proficiency of 60,000 8th-grade students presented compelling evidence for the need to develop programs that offer all students the opportunity to meet the statedesignated proficiency level of Novice-High. The data showed that programs offering a minimum of 540 hours of articulated instruction in classes that meet at least three times a week throughout the academic year produce a majority of students who can speak at the Novice-High proficiency level or higher. Consequently, the establishment and/or maintenance of quality, well- articulated language programs at the elementary and middle-school levels, as required by New Jersey Administrative Code, is critical for building the capacity of high school students to achieve the Novice-High level of language proficiency required for graduation.

Revised Standards

Framework for NJ Designed Standards

The design of this version of the NJ World Language Standard is intended to:

- promote the development of curricula and learning experiences that reflect the vision and mission of world languages as stated in the beginning of this document;
- foster greater coherence and appropriate progressions across grade bands;
- prioritize the important ideas and core processes that are central to world languages and have lasting value beyond the classroom; and
- reflect the habits of mind central to world language studies that lead to post-secondary success.

World Languages Practices

Practice	Description
Communicate	Communicate effectively in more than one language in order to function in a variety of situations and for multiple purposes.
Cultures	Learners use the language to investigate, explain, and reflect on the relationship between the practices and perspectives of the cultures studied. Learners use the language to investigate, explain, and reflect on the relationship between the products and perspectives of the cultures studied.
Connections	Learners use the language to investigate, explain, and reflect on the nature of language through comparisons of the language studied and their own. Learners use the language to investigate, explain, and reflect on the concept of culture through comparisons of the cultures studied and their own.

Comparisons	Develop insight into the nature of language and culture in order to interact with cultural competence.
Communities	Learners use the language both within and beyond the classroom to interact and collaborate in their community and the globalized world. Learners set goals and reflect on their progress in using languages for enjoyment, enrichment, and advancement.

Philosophy and Goals

NJSLS – WL reflect the philosophy and goals found in the national Standards for Foreign Language Learning in the 21st Century (National Standards in Foreign Language Education Project, 2006) and the summary of the World-Readiness Standards for Learning Languages. They were developed by consulting standards in the United States and internationally, as well as by examining the latest research and best practices on second-language acquisition. The revised world languages standard is generic in nature, designed as a core subject, and is meant to be inclusive for all languages taught in New Jersey schools. With regard to the implementation of NJSLS – WL for particular languages or language groups:

American Sign Language (ASL)

The differences between studying ASL and spoken languages can be profound. Students of American Sign Language learn how to communicate spatially, rather than arranging words sequentially into sentences. They face unique challenges due to the modality differences between speaking and signing. This involves language features like the use of space, eye gaze, classifiers, depicting verbs and cinematic techniques. Students engage in all three modes of communication— interpersonal, interpretive, and presentational by using the hands, face and body to express ideas while incorporating a variety of complex linguistic features, such as role shifting, semantic influences on message meanings and application of appropriate prosodic features to reflect the signer's intent and tone. Contrary to a linear language, ASL students are challenged to express their ideas while simultaneously using these complex units of meaning. In addition, students learn different ways to navigate conversational interactions like turn-taking, attention getting techniques, and the importance of maintaining eye contact.

Level 1: All About Me Curriculum Area: World Language Unit Length: 32 Sessions	Grade Level: Kindergarten
Unit Goals	
<p>In this Unit, students will be introduced to American Sign Language and Deaf Culture through community based activities. Starting a new school year with an All About Me unit builds self-esteem, builds a sense of community, and develops communication skills. By the end of the unit, students will begin to recite common words and phrases in ASL (self, family, community, and complete an all about me project).</p>

NJSLS Learning Plan

Core Ideas

Interpersonal communication is the exchange of information and the negotiation of meaning between and among individuals.

Students will be able to:

- Identify school supplies found in pictures and gestures.
- Demonstrate understanding of commands associated with classroom items.
- Tell where things and people in the classroom are located.
- Compare a hearing classroom with Deaf culture.
- Count 1-10 in ASL. Recite. Classify.
- Learn colors in ASL. Recite. Color by Number.

- ASL Family Activity Book

Performance Expectations

- 7.1.NL.IPERS.1: Respond to a few simple questions on very familiar topics using memorized words and phrases that have been repeatedly practiced.
- 7.1.NL.IPERS.2: With the help of gestures and/or visuals, share with others basic needs on very familiar topics using memorized words and phrases that have been repeatedly practiced.
- 7.1.NL.IPERS.3: Tell others a few basic preferences and/or feelings using memorized words and phrases, often supported by gestures or visuals.
- 7.1.NL.IPERS.4: React to a few procedural instructions, directions, and commands in classroom situations.
- 7.1.NL.IPERS.5: Enact a few culturally authentic gestures when greeting others and during leave takings.
- 7.1.NL.IPERS.6: Share with others the names of a few memorized and practiced words and phrases related to climate change in the target culture(s) and in students' own cultures.
