Auburn Middle School Summer Reading 2023

BOOKS BEAT SUMMER SLIDE

Children who are given access to books over the summer perform 35-40% better on reading achievement tests than those without access to books.

SOURCE: Allington, Richard L., Anne McGill-Franzen, Gregory Camilli, Lunetta Williams, Jennifer Graf, Jacqueline Zola, Courtney Smith, and Rhonda Novak. "Addressing Summer Reading Setback Among Economically Disadvantaged Elementary Students." *Reading Psychology* 31.5 (2016): 461-77. Web.

It's been another extraordinary school year, and students are eager for some well-deserved rest and relaxation this summer. It is important, however, to remember that children of all ages need to read during the summer months. On average, students lose two months of reading skills over the summer. It is our focus to motivate students to create and support their own reading culture, thereby offering them greater opportunities for success in their lives. Students should read for about 30 minutes daily *year-round*. Research studies show that children who read on an almost daily basis develop much higher academic success rates than those who do not,

leading to increased potential for personal choice and success as they grow.

This booklet outlines the requirements for each grade level along with expectations of what is required of students at the start of the school year. **Every student will be required to read only ONE book—a mandatory title per grade level.** We are providing a list of recommended titles by grade level for students who wish to go beyond the required reading, but they are not mandatory. We believe this list will appeal to our students in terms of genre, interest, and reading level. All novels on this list are deemed grade-level appropriate. However, students are not limited to this list if they wish to read more than one book.

Both Amazon and Barnes and Noble have a variety of paperback, ebook, and audiobook versions of the required titles for sale and delivery. If you or your child has a library card, you can borrow ebooks and audiobooks for free on any device through the Libby app.

Students are also encouraged to practice keyboarding skills over the summer to ensure they can effectively type on their iPads during the school year. Being able to type the recommended words per minute will also help students during the computer-based MCAS testing in English Language Arts, Mathematics, and 8th-grade Science.

Recommended Typing Speed and Accuracy:

Grade	WPM	Accuracy
6	30	90%
7	35	90%
8	40	90%

Suggestions for Note-Taking

“If I read the books in June, I won’t remember what I read...”

We hear this every year, *so take notes!* Notes will **NOT** be collected and graded, **HOWEVER**, you can use them on the quiz and class discussions. You may also want to wait until closer to the end of the summer to read the book so it is fresh in your mind. You can take notes any way that you want, but two-column note format will work well for the suggestions below:

- Write down each character’s name as he/she is introduced and describe each one. As you read, indicate the importance of each character in the book.
- Identify main ideas by chapter.
- Identify story elements of the novel—genre, setting, characters, conflict, climax, resolution, theme, etc.
- Summarize what happens in the book. What are the important conflicts? Note a few statements or ideas that are noteworthy or meaningful. Include page numbers.
- Annotate (highlight and make notes) if you own the book. Look for passages that are surprising, important, confusing, main ideas, or anything you think would be a good talking point. Write your reactions in the margin.
