EXTRA-CURRICULAR ACTIVITIES

All extra-curricular activities will be scheduled and approved through the school administrators. The receipt and disbursal of ECA monies will be coordinated in the business office.

Any student staying after school that is unsupervised will be expected to sit in a supervised room and wait for a late bus or a ride, if there is one available. Parents will be expected to pick their child up after school if their child continually stays after school for no reason. Middle School students will not be permitted in the High School After School Supervision room without prior principal approval.

DANCES AND OTHER STUDENT PLANNED FUNCTIONS

Any class, club or school group wishing to undertake social or fund-raising activities of any nature must request approval from the principal. Requests should be made in sufficient time to be certain all arrangements can be made. A detailed program must be prepared in writing and submitted for approval at least 30 days prior to the function.

Students must be in attendance during the school day for a minimum of four periods in order to be eligible to attend an after-school function on that day. Anyone attending a school function should be there for that purpose only. Any person found loitering on the school property other than in the assigned areas, or whose behavior is not appropriate, will be required to leave. School appointed chaperones must be recognized as the controlling authorities.

The district may utilize an alcohol screening device at the discretion of the building administration.

FIELD TRIPS

Students with academic and/or behavioral concerns may be denied participation on field trips at the discretion of the building principal.

Student trips are permitted which have value in meeting educational objectives, which are necessary to the fulfillment of obligations to the interscholastic athletic or other interscholastic activity program, and which do not seriously interfere with the educational routine of students who must remain in school. On all school-sponsored trips involving pupils, school employees will make provisions for proper supervision. Student belongings may be checked when deemed appropriate. When a pupil goes on any bus trip sponsored by the school, by an organization in the school either officially or unofficially, the pupil must return on the same bus. There will be no exceptions to this rule. When a faculty member takes a group on a trip, pupils who are taking the trip are duly bound to abide by the regulations that the school establishes. Failure to do so places the pupil in jeopardy. It makes it impossible for the teacher to safeguard the pupil's interest. In such instance, the teacher stands in place of the parent.

ACADEMIC ELIGIBILITY FOR MIDDLE & HIGH SCHOOL EXTRA-CURRICULAR ACTIVITIES/ATHLETICS

Academic eligibility is designed to establish standards for school participation in athletics and extra-curricular activities. It is meant to act as a motivational tool consistent with our first and most important mission – academic success. It is intended to foster standards which will elevate student effort and achievement as well as reward consistent exemplar performance. Academic excellence in our schools is an important goal, and thus we view this policy as a motivational tool, providing incentive for students to work hard and achieve excellence.

Students in grades 7 – 12 who participate in the athletic program and/or extra-curricular activities that meet at least two hours per week, must maintain academic eligibility.

Student grades will be reviewed every five weeks using the marking period calendar.

1. Students who are failing two courses at the five-week mark will be deemed ineligible. The timeframe of the student's ineligible status will consist of two calendar weeks from the time of notification. During this two-week probationary period, the student will have the opportunity to improve grades. If after the two-week period, the student can demonstrate an improvement to the extent that they have a minimum of at least one passing grade, the student will be removed from the ineligible status and resume full status on their team. During a probationary period under these terms, students may continue to practice with their team and attend extra-curricular activities meetings. Students may not perform/compete until the improvement stated above is made. Students may only stay in this category for five weeks. If after five weeks the student is still failing two subjects, the student will be removed from the team and extra-curricular activities.
2. Students who are failing three or more courses will be removed from their team/extra-curricular activities and will be referred to appropriate school personnel for assistance. Students may return to their activity at either the five-week or quarter mark, provided they are failing two courses or less.

APPEALS PROCESS

1. A student, parent or coach/advisor may appeal the status of a participant to a committee composed of a school counselor, two or more faculty members, the Director of Athletics, and the High School Assistant Principal or Middle School Principal. The Administration will select the faculty members who will sit on the committee. The appeal must be made to the committee in writing no later than 48 hours after notification of ineligibility. Every effort will be made to hear the appeal within 48 hours. Determination of the appeal will be made by the majority vote of the committee. The appeal decision will be final and no further appeal will be heard.

A decision to retain shall be arrived at by the building principal, appropriate staff, and parent/guardian, as appropriate. The decision of the building principal shall be final.

Senior High School: Grades 9 – 12

In general, promotion from one grade level to the next shall be contingent upon the accumulation 5 units of credit at each level, as follows:

- 5 credits for Grade 10
- 10 credits for Grade 11
- 15 credits for Grade 12

A passing final average is required for a student to be given credit for successfully completing a course. The passing grade for any academic course is 65. Any failure of a required course must be repeated in summer school or the next school year. The decision of the building principal shall be final.

SCHEDULE CHANGE PROCEDURE

1. Students should consult with their school counselor to determine if a schedule change is feasible. A request for a schedule change will not be honored 15 school days after the start of the semester.
2. If the request is feasible, the student is given a Schedule Change Form. It is the student's responsibility to collect signatures of approval from the current teacher, the new teacher of the proposed subject (if any), and the parent/guardian.
3. If all parties agree, the form is returned to the school counselor, who will notify the teachers of the schedule change and when the change will be effective.
4. No student will be officially dropped from class without formal notification from a school counselor or administrator. Teachers cannot unilaterally drop a student from class.

MINIMUM COURSE LOAD

All students attending Onteora High School will carry five (5) units of credits plus physical education. Seniors must apply for permission to arrive late and/or leave early for employment by completing the application for late arrival/early dismissal.

OBJECTION TO RELEASE OF INFORMATION TO MILITARY RECRUITERS

The school district is required to provide military recruiters with secondary students' names, addresses and telephone numbers. If you object to the release of any or all of the information, you must do so in writing. The Military Opt-Out form is available on the high school's website.

APPLY FOR COLLEGE EARLY ADMISSIONS PROGRAMS

Inherent in becoming an early admissions student, is the ability to demonstrate readiness to carry out college responsibilities. Listed below are five criteria, which are minimum standards for becoming an early admissions student at any college while still enrolled at Onteora Central School.

1. Any student applying for early admissions must have a minimum average of 85 using the grades from all classes in grades 9, 10 and 11.
2. Any student applying for early admissions must successfully complete required Regents exams before college enrollment is recognized and approved by Onteora High School.
3. The student applying for early admissions and a parent or guardian must meet with the student's school counselor to formalize the college and high school plan. Any student applying for early admissions must have the approval of their counselor and high school principal.
4. A student who has not met the criteria above and has been denied early admissions status may appeal to the high school principal.
5. A grade "C" or better is required to fulfill high school graduation requirements.

ADDENDUM

College courses used to satisfy high school credit may not be accepted if transferred to another college. Any student who fails required courses for graduation fall semester must return to Onteora Central School spring semester to complete the required course(s).

ONTEORA/SUNY ULSTER BRIDGE PROGRAM

The Onteora Central School District and SUNY Ulster will offer dual enrollment courses that will allow students to earn both high school and college credits. These classes will be offered during the school day. The instructor will be an Onteora teacher approved by SUNY Ulster. Grades will be issued on a SUNY Ulster transcript. To earn college credit for these courses, students must maintain a positive attendance record. Students who miss ten or more classes for half year courses or twenty or more class periods for full year courses will be denied college credit.

Taking college-level courses in high school offers numerous benefits to students. These courses provide a more rigorous academic experience, preparing students for the challenges they will face in college. By taking these courses, students can develop critical thinking, problem-solving, and time management skills, which are essential for success in higher education. Additionally, earning college credits may save students both time and money by possibly allowing them to skip introductory courses in college. Credits earned from college-level courses through SUNY Ulster are often accepted as transfer credits by some colleges and universities.

Colleges and universities often look favorably upon students who have taken college-level courses in high school, as it demonstrates their commitment to academic excellence and their ability to handle challenging coursework. These courses will appear on a student's high school transcript and the course average will be weighted in the student's overall grade-point average. While taking college-level courses in high school can provide students with a competitive edge and better prepare them for future academic and professional endeavors, it is always best to check with the student's school counselor and department faculty to help determine the appropriateness of enrolling in college-level courses.

During the 2024-25 school year, the following courses are expected to be offered:

College-Level Courses through SUNY Ulster (Anticipated Cost: \$74 per credit; \$5 per credit for free & reduced eligible students)
Computer Applications in Business (BUS 171) - <i>3 credits</i>
College Algebra & Trigonometry (MAT 115) - <i>4 credits</i>
College English I (ENG 101) - <i>3 credits</i>
College English II (ENG 102) - <i>3 credits</i>
Intermediate French I (FRE 201) - <i>4 credits</i>
Intermediate French II (FRE 202) - <i>4 credits</i>

ADVANCED PLACEMENT (A.P.) COURSES

Onteora Central School District offers A.P. courses through College Board. Advanced Placement course and exam completion may qualify for college credit. Many of these courses have suggested prerequisites but are available to all students. Students who register for Advanced Placement courses are expected to take the A.P. examination in May. Students are responsible for the cost of the exam. Please note that summer assignments may be required as a prerequisite.

Each year, the high school faculty and administration determines which courses to offer based on student interest and scheduling/teacher availability. During the 2024-25 school year, the following courses are being offered:

Advanced Placement Courses (2024-25) (Anticipated Cost: \$98 per exam; \$53 per exam for free & reduced eligible students)
AP African American History AP Art 2D Design AP Art 3D Design AP Art Drawing AP Biology AP Calculus AB AP Chemistry AP Computer Science Principles AP Environmental Science AP European History AP Government & Politics AP Language & Composition AP Psychology AP U.S. History

Taking advanced placement (AP) courses offers numerous benefits to students. These courses provide a more rigorous academic experience, preparing students for the challenges they will face in college. By taking these courses, students can develop critical thinking, problem-solving, and time management skills, which are essential for success in higher education. Additionally, earning college credits through AP courses may save students both time and money by possibly allowing them to skip introductory courses in college.

Colleges and universities often look favorably upon students who have taken AP courses, as it demonstrates their commitment to academic excellence and their ability to handle challenging coursework. These courses will appear on a student's high school transcript and the course average will be weighted in the student's overall grade-point average. While taking advanced placement courses in high school can provide students with a competitive edge and better prepare them for future academic and professional endeavors, it is always best to check with the student's school counselor and department faculty to help determine the appropriateness of enrolling in Advanced Placement courses.

Middle School Accelerated Course Offerings

Per state regulations, students in grade 8 shall have the opportunity to take high school courses in mathematics and in at least one of the following areas: English, social studies, world languages, art, music, career and technical education subjects or science courses. Onteora offers the following opportunities to 8th grade students:

Courses:

- HS Algebra
- HS Science (Biology or Earth Science)
- Studio Art

Onteora uses student data and teacher recommendations to determine eligibility for these courses. Further clarification on the determining factors may be had by contacting your child's school counselor or the middle school principal.

GRADE REPORTING

Computerized progress/grade reports are issued every five weeks. These reports will be available on the student/parent portal. Parents who require a paper copy should request one from the Principal's Office.

HOMEWORK

The Board of Education recognizes that a reasonable amount of independent study and preparation is necessary for the scholastic growth of pupils. It is also aware that the amount of preparation should increase as the child progresses through the grades.

Homework is a flexible and individual instructional responsibility of the teachers in our school system. Because of the individual differences and needs of pupils, it is unsound to require or expect all students to experience the same kind of homework in connection with their school instruction period. Purposeful homework varies from day to day with each pupil, depending upon educational capacity, potential, and need.

ACADEMIC INTEGRITY

Academic integrity is a fundamental principle that lies at the core of education. It refers to the ethical and honest behavior expected from students in their academic pursuits. Academic integrity encompasses various aspects, including, but not limited to, avoiding cheating, plagiarism, copying, and unauthorized use of artificial intelligence (AI).

Cheating involves dishonest practices such as using unauthorized materials during exams, copying from others, or seeking help from external sources without permission. It undermines the fairness of the educational system, devalues the achievements of honest students, and erodes the trust between students and educators.

Plagiarism, another form of academic dishonesty, involves presenting someone else's work or ideas as one's own without proper attribution. It not only violates intellectual property rights but also hampers the development of critical thinking, research skills, and creativity among students.

Copying someone else's work, whether it is an assignment or a project, is also a breach of academic integrity. It deprives students of the opportunity to learn and demonstrate their own knowledge and skills. It is essential for students to produce original work that reflects their understanding and efforts.

Furthermore, the unauthorized use of artificial intelligence (AI) in academic work is becoming a growing concern. While AI can be a valuable tool for research and learning, using it to generate or complete assignments without proper understanding or acknowledgment is unethical. It undermines the learning process and devalues the educational experience.

Maintaining academic integrity is crucial for several reasons. Firstly, it ensures a level playing field for all students, promoting fairness and equal opportunities. It also fosters a culture of honesty, integrity, and trust within educational institutions. Moreover, academic integrity helps students develop essential skills such as critical thinking, research, and ethical decision-making, which are valuable in their future endeavors.

Consequence for academic misconduct will result in automatic zeros on assignments and assessments, which will not be able to be made up. Additional behavioral consequences may be considered.

INCOMPLETE GRADES

An incomplete grade must be replaced by a numerical grade within five weeks. It is the student's responsibility to make arrangements with their teacher and school counselor to make up missed work. Incomplete grades that are not resolved within this time period will result in a zero.

INDEPENDENT STUDY

Independent study, for credit, will be available to meet the individual needs of students in grades 9 through 12. The principal, after consultation with relevant faculty, shall award credit to the student based on successful completion of the independent study and demonstrated mastery of the learning outcomes of the subject.

Students enrolled in the District, may earn a maximum of three (3) units of elective credit towards a Regents diploma through independent study. The student's participation in independent study shall be approved by a school-based panel consisting of, at a minimum, the principal, a teacher in the subject area for which independent credit is sought, and the School Counseling Department Director or administrator.

Credit for independent study may be awarded for elective courses only and shall not be awarded for courses required for the Regents diploma as specified in Commissioner's Regulations. All independent study must have principal's approval as per State Regulations. If funding is involved, it must be approved by the Board of Education.

Independent Study includes all studies undertaken for school credit outside the formal classroom structure. It provides an individual the opportunity, under NYS certified teacher supervision, to pursue study in an area of interest and/or enables the individual to develop a specific talent not addressed in the present course offerings.

COURSE MIDTERMS, FINALS, A.P. EXAMS

Students are expected to take all course midterms and finals on the scheduled date. In the event that a student misses an exam due to illness, a parent/guardian is expected to notify the school on that day and provide a doctor's note upon the student's return to school. It is the student's responsibility to reschedule their exam with their teacher. Failure to comply with the above procedure will result in a test score of a zero (0). In the event that the school district schedules additional common exams, students are expected to follow the same procedure outlined above.

Students taking an Advanced Placement (A.P.) course are expected to take the appropriate A.P. exam for that course during the testing administration period. Failure to take an A.P. exam may result in the removal of the A.P. course weighting.

HONOR ROLL SYSTEM

1. High Honors: 95-100
2. Honors: 90-94
3. Merit: 85-89

Should any student have an INCOMPLETE in any subject at the end of the marking period, the student will not be eligible for the Honor Roll.

LEARNING CENTER

The Ontario HS/MS Learning Center is open from 7:40 A.M. until 4:10 P.M., Monday - Thursday and 7:40 A.M. until 2:40 P.M., on Friday. It is open to students in grades 7-12 and all staff. The Learning Center provides a supportive, academically stimulating environment, which allows for learning outside the traditional classroom experience. The Center is equipped with a collection of resource materials including several networked computers. The Learning Center may be used for group activities, testing (make-up and alternate site), remedial support, tutoring, etc. Students are expected to assume responsibility and maintain a quiet working atmosphere, having consideration for others working.

LIBRARY

The Ontario HS/MS Library (Media Center) is open from 7:30 A.M. until 2:35 P.M. Books may be taken out for a two-week period and then renewed. Periodicals are available for overnight and weekend use.

The library maintains a continually growing collection of printed and non-printed materials selected to support and enrich the 6-12 school curriculum, providing both reference and recreational resources. The staff provides students with assistance in the selection and use of resources. A library research skills program has been implemented in grades 7 and 8 as a mandate of the New York State Regents Action Plan. Research skills are also taught in specific senior high classes. If materials are not available in our library, students may order books on loan from public and academic libraries via inter-library loan services provided by the Ulster County School Library BOCES System, located in New Paltz, New York. This service is free of charge. In order that the best possible use be made of the library facility, students are expected to assume responsibility for carrying out the necessary regulations and maintaining a quiet working atmosphere. Students are expected to use the library facilities in a proper manner, taking into consideration the rights of others. The library staff is there to assist and supervise the students who have requested permission to come to the library. Inappropriate behavior will result in loss of privileges and disciplinary action.

Students are notified of overdue library materials. If the item(s) in question is not returned or paid for after the student has received two overdue notices and a bill, the student will not be permitted to take out materials.

WITHDRAWAL FROM SCHOOL

State Education Law states that children who turn 16 years of age, during the school year must remain in school until the end of that school year. If a student leaves to attend another school, the student should secure a transfer and immunization records from the School Counseling Department to present to the student's new school. It is important that the student notify both the School Counseling Department and the Assistant Principal's office of the withdrawal. The School Counseling Department provides a check-out sheet to facilitate such matters. School books should be returned to the respective subject matter teachers, and the student's gym and hall lockers should be cleaned out before the student leaves.

* State Law indicates July 1, as the beginning of the school year.

DIGNITY FOR ALL STUDENTS ACT

The Board of Education recognizes that a learning environment that is safe and supportive can increase student attendance and improve academic achievement. A student's ability to learn and achieve high academic standards, and a school's ability to educate students, is compromised by incidents of discrimination or harassment, including but not limited to bullying, taunting, hazing, and intimidation. The District will strive to create an environment free of discrimination and harassment and will foster civility in the schools to prevent and prohibit conduct that is inconsistent with the District's educational mission.

Consistent with Policy 3420 Anti-Harassment in the School District, the District condemns and prohibits all forms of discrimination and harassment of students based on actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender, or sex by school employees or students on school property or at school-sponsored events and activities that take place on or off of school property. In addition, any act of discrimination or harassment outside of school-sponsored events that can reasonably be expected to materially and substantially disrupt the educational process may be subject to discipline.

Parents who unlawfully detain students for "vacation" purposes are encouraged to discuss their child's academic record with the Principal at least one week prior to such absences and preferably before planning a vacation.

Students who are absent because of accompanying parents on vacation shall be held accountable and responsible for all subject matter requirements and assignments missed. Assignments will not

DISCIPLINE

INTRODUCTION

The Ontario Board of Education hopes that our students will become passionate learners who are empowered to achieve their dreams and act as good citizens of the world and of their community at large.

To achieve this goal, the Board strives to provide safe schools for all students, regardless of actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender, or sex and to ensure that all members of the school community assume personal responsibility and behave with a sense of mutual respect. The Board recognizes that to maintain such an environment, we must all live within certain boundaries and that inappropriate action by one person can infringe upon the rights of another. When conflicts arise, we are committed to abiding by the guiding principles of Positive Behavior Intervention and Supports (PBIS) with nonviolent resolutions that encourage personal growth, responsibility, recovery and that treat each individual with respect and dignity.

This Code of Conduct, consistent with Board Policies 3410 Code of Conduct on School Property and 7310 School Conduct and Discipline, describes the behavior that the Board expects from all members of the school community, identifies consequences if those standards are not met, and establishes procedures to ensure that discipline, when necessary, is prompt, fair, progressive and effective.

In all cases, regardless of the consequence imposed, the school personnel authorized to impose the consequence must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All

students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary consequence in connection with the imposition of the consequence.

Students who are to be given penalties other than an oral warning, written warning, or written notification to their parents/guardians are entitled to additional rights before the consequence is imposed. These additional rights are explained below.

1. **Detention:**

Teachers, principals, and the Superintendent may use after-school detention or lunch or recess detention as a consequence for student misconduct in situations where removal from the classroom or suspension would be inappropriate.

2. **Suspension from Transportation:**

If a student does not conduct themselves properly on a bus, the bus driver is expected to bring such misconduct to the building principal's attention via their supervisors. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the Superintendent or their designees, consistent with Policy 7340 Bus Rules and Regulations. In such cases, the student's parent/guardian will become responsible for seeing that their child gets to and from school safely. Should the suspension from transportation amount to a suspension from school, the District will make appropriate arrangements to provide for the student's education.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the consequence involved.

3. **Suspension from athletic participation, extracurricular activities, and other privileges:**

A student subjected to a suspension from athletic participation, extracurricular activities, or other privileges is not entitled to a full hearing pursuant to Education Law §3214.

However, the student and the student's parent/guardian will be provided with a reasonable opportunity for an informal conference with the District official imposing the suspension to discuss the conduct and the consequence involved.

4. **In-School Suspension:**

The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building principals and the Superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in "in-school suspension."

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent/guardian will be provided with a reasonable opportunity for an informal conference with the District official imposing the in-school suspension to discuss the conduct and the consequence involved.

5. **Suspension from School:**

Suspension from school is a severe consequence, which may be imposed only upon students who are insubordinate, disorderly, violent, or disruptive, or whose conduct otherwise endangers the safety, moral well-being, health, or welfare of others.

The following circumstances subject the student to immediate suspension as well as all classroom, co-curricular, and extracurricular activities:

- a. Coming to school in a drunken or drugged condition. (Possible police involvement).
- b. Use or possession of alcoholic beverages or other drugs on school property. (Police involvement).
- c. Coming on school property after drinking alcoholic beverages. (Possible police involvement).
- d. Assault of a teacher or any school personnel or causing bodily harm to them. (Possible police involvement).
- e. Crossing Route 28 without permission or leaving school grounds without permission from an administrator.
- f. Reporting a false alarm, arson, calling in a bomb threat. (Police involvement).
- g. Possession of a weapon on school property. (Gun-Free Schools Act: Any student who has brought a “firearm” to school, shall be suspended for a period of not less than one calendar year subject to a determination of the Superintendent on a case-by-case basis). (Police involvement).

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the Superintendent and the building principals, consistent with Policy 7313 Suspension of Students.

Any staff member may recommend to the Superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the Superintendent for a violation of the Code of Conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The Superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

a. **Short-term (5 days or less) suspension from school:**

When the Superintendent or principal (referred to as the “suspending authority”) proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student’s parents/guardians in writing that the student may be suspended from school. The written notice must be provided by personal delivery, mail delivery, or some other means that is reasonably calculated to assure receipt of the notice of the decision to suspend at the last known address for the parents/guardians. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents/guardians.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents/guardians of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents/guardians.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student’s presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student’s presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

b. **Long-term (more than 5 days) suspension from school:**

When the Superintendent or building principal determines that a suspension for more than five days may be warranted, they shall give reasonable notice to the student and the student’s parents/guardians of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against them, and the right to present witnesses and other evidence on their behalf.

The Superintendent shall personally hear and determine the proceeding or may, using their discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before them. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the Superintendent may accept all or any part thereof. An appeal of the decision of the Superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the district clerk

within 10 business days of the date of the Superintendent's decision, unless the parents/guardians can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the Superintendent. Final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

c. **Permanent suspension:**

Permanent suspension is reserved for extraordinary circumstances such as cases where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel, or any other person lawfully on school property or attending a school function.

MINIMUM PERIODS OF SUSPENSION

1. **Students who bring a weapon to school:**

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be suspended for at least one calendar year, unless the Superintendent modifies the suspension. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. In deciding whether to modify the suspension, the Superintendent may consider the following:

- a. The student's age.
- b. The student's school grade.
- c. The student's prior disciplinary record.
- d. The Superintendent's belief that other forms of discipline may be more effective.
- e. Input from parents/guardians, teachers, or others.
- f. Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. **Students who commit violent acts other than bringing a weapon to school:**

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, will be suspended from school for up to five days, unless the Superintendent modifies the suspension. In addition, the student may be subject to a suspension for more than five days after a §3214 hearing is conducted. If the proposed suspension is for just five days, the student and the student's parents/guardians will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed suspension is for more than five days, the student and the student's parents/guardians will be given the same notice and opportunity for a hearing given to all students subject to long-term suspension.

In deciding whether to modify the consequence, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. **Students who are repeatedly and substantially disruptive of the educational process or repeatedly substantially interfere with the teacher's authority over the classroom:**
Any student, other than a student with a disability, who repeatedly and substantially disrupts the educational process or substantially interferes with the teacher's authority over the classroom, may be suspended from school for up to five days, unless the Superintendent modifies the suspension. For purposes of this Code of Conduct, "repeatedly and substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this Code on four or more occasions during a semester. If the proposed suspension is for just five days, the student's parent/guardian will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed suspension is for longer than five days, the student and the student's parent/guardian will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. In deciding whether to modify the suspension, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

The District will provide alternative instruction within a reasonable amount of time to students removed from classes by teachers or suspended from school.

REFERRALS

Students may be referred for counseling, in-house District programs (e.g., Prime for Life, Peer Mediation, etc.), a Person in Need of Supervision petition through Family Court, or juvenile delinquency proceedings.

1. **Counseling:**
The social worker, school counselor, nurse, school psychologist, and/or principal/assistant principal shall handle referrals of students to appropriate human service agencies such as counseling and social services.
2. **PINS Petitions:**
The District may file a PINS (Person In Need of Supervision) petition in Family Court on any student under the age of 18 who demonstrates that they require supervision and treatment by:
 - a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
 - b. Engaging in an ongoing or continual course of conduct that makes the student ungovernable, or habitually disobedient and beyond the lawful control of the school.

3. **Juvenile Delinquents and Juvenile Offenders:**

The Superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20(42).

The Superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

DISCIPLINE OF STUDENTS WITH DISABILITIES

It may sometimes be necessary to suspend, remove, or otherwise discipline students with disabilities to address disruptive or problem behavior. Students with disabilities are entitled to certain procedural protections beyond those available to students without disabilities whenever school authorities intend to impose discipline upon them. The school is committed to ensuring that the procedures for suspending, removing, or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations and Policy 7313 Suspension of Students.

This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

1. **Authorized Suspensions or Removals of Students with Disabilities:**

- a. For purposes of this section of the Code of Conduct, the following definitions apply:
 - i. A “suspension” means a suspension from school pursuant to Education Law §3214.
 - ii. A “removal” means a removal for disciplinary reasons from the student’s current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to themselves or others or placement in an IAES for behavior involving serious bodily injury, weapons, illegal drugs, or controlled substances.
 - iii. An “IAES” means a temporary educational placement, other than the student’s current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to receive educational services so as to enable the student to continue to participate in the general curriculum, although in another setting, and to progress towards meeting the goals set out in such IEP, and receive, as appropriate, a functional behavioral assessment and intervention services and

modifications that are designed to address the behavior violation so that it does not recur.

- b. School personnel may, following the procedures set forth in Education Law Section 3214, order the suspension or removal of a student with a disability from their current educational placement as follows:
 - i. The School Board, the District BOCES Superintendent, Superintendent of Schools, or a building principal may order the placement of a student with a disability into an IAES, another setting, or may order suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
 - ii. The Superintendent may order the placement of a student with a disability into an IAES, another setting, or may order suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed as per subparagraph (a) above for the same behavior, if the Superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
 - iii. The Superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a pattern that is equivalent to a change of placement when considering the proximity of time and duration of such suspension.
 - iv. The Superintendent may order the placement of a student with a disability in an IAES to be determined by the Committee on Special Education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 *school* days, even when it is a manifestation of the student's disability, if the student possesses or carries a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function or has inflicted serious bodily injury upon another person while at school, on school premises or at a school function.
- c. “Weapon” means the same as “dangerous weapon” under 18U.S.C. §930 (g)(w), which includes “a weapon, device, instrument, materials or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury.” (NOTE: Question for Legal Counsel.)

- d. “Controlled substance” means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy. Reference Policy 7320 Alcohol, Drugs and Other Substances.
- e. “Illegal drugs” means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.
- f. “Serious bodily injury” means bodily injury that involves a substantial risk of death, extreme physical pain, protracted or obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.
- g. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 school days at a time, if the IHO determines that the District has demonstrated by substantial evidence that maintaining the current placement of the student is substantially likely to result in injury to the student or others.

2. **Change of Placement Rule:**

A disciplinary change in placement means a suspension or removal from a student’s current educational placement that is either:

- a. for more than 10 consecutive school days; or
- b. for a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the similarity of the student’s behavior in previous incidents, the length of each suspension or removal, the total amount of time the student is removed, and the proximity of the suspensions or removals to one another.

School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal. However, the District may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the manifestation team has determined that the behavior was not a manifestation of the student’s disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs, or controlled substances, or behavior resulting in serious bodily injury.

3. **Special Rules Regarding the Suspension or Removal of Students with Disabilities:**

- a. The District’s Committee on Special Education shall:

- i. Conduct functional behavioral assessments, as appropriate, to determine why a student engages in behaviors that impede learning and how the student's behavior relates to the environment, and develop or review behavioral intervention plans whenever the District is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs, controlled substances or serious bodily injury. If, subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from their educational placement for more than 10 school days in a school year is subjected to a suspension or removal that constitutes a disciplinary change in placement, the members of the manifestation team shall review the behavioral intervention plan and its implementation to determine if modifications are necessary. If one or more members of the CSE believe that modifications are needed, the School District shall convene a meeting of the manifestation team to modify such plan and its implementation, to the extent the committee determines necessary.
- b. A manifestation team shall conduct a determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs, controlled substances, or serious bodily injury or a decision is made by an IHO to place a student in an IAES in a dangerous situation or a decision is made to impose a suspension that constitutes a disciplinary change in placement.
 - i. A manifestation team shall include a representative of the District knowledgeable about the student and the interpretation of information about child behavior, the parent/guardian, and relevant members of the CSE, as determined by the parent/guardian and the District.
 - ii. The manifestation team shall review all relevant information in the student's file, including the student's IEP, any teacher observation, and any relevant information provided by the parents/guardians to determine if the conduct in question:
 - 1) was caused by or had a direct and substantial relationship to the student's disability; or
 - 2) was the direct result of the District's failure to implement the IEP.
- c. The parent/guardian of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of the misconduct, shall have the right to invoke applicable procedural safeguards

set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the School District is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the District is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

- i. The Superintendent, building principal, or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
- ii. A District shall be deemed to have knowledge that such student had a disability if prior to the time the behavior occurred:
 - 1) The parent/guardian of such student has expressed concern in writing to supervisory administrative personnel or to a teacher of the student that the student is in need of special education; however, the expression may be oral if the parent/guardian does not know how to write or has a disability that prevents a written statement; or
 - 2) The parent/guardian of the student has requested an evaluation of the student in accordance with Part 200 of the Commissioner's Regulations; or
- d. A teacher of the student, or other personnel of the District has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the District's Director of Special Education or to other supervisory personnel of the District.

A student will not be considered a student presumed to have a disability for disciplinary purposes if, upon receipt of information supporting a claim that the District had knowledge the student was a student with a disability;

- i. It was determined that the student is not a student with a disability;
- ii. The parent/guardian of the student did not allow an evaluation of the student; or
- iii. The parent/guardian of the student has refused Special Education services.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the District, which can include suspension.

- e. The District shall provide parents/guardians with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES because of misconduct involving weapons, illegal drugs, controlled substances, or serious bodily injury; or because maintaining the student in their current educational setting poses a risk of harm to the student or others; or because a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.
- f. The parents/guardians of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents/guardians of non-disabled students under the Education Law.
- g. Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension for more than five school days shall be bifurcated into a guilt/no guilt phase, and if guilt is found and a manifestation determination in accordance with § 201.4 of the Commissioner's Regulations results in a "No" manifestation determination, then a consequence phase in accordance with the procedures set forth in the Commissioner's Regulations incorporated into this Code. The Superintendent shall make a threshold determination of whether a suspension or removal in excess of 10 consecutive school days shall be considered. If such shall be determined affirmatively, the hearing shall be adjourned until a manifestation determination is made.
- h. The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the manifestation team has determined that the behavior is not a manifestation of the student's disability or the behavior involves weapons, illegal drugs, controlled substances, or serious bodily injury.
- i. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided with a Free Appropriate Public

Education (FAPE) as required by federal and state law and the Commissioner's regulations incorporated into this Code.

4. **Expedited Due Process Hearing:**

An expedited due process hearing shall be conducted in the manner specified by the Commissioner's Regulations incorporated into this Code, if:

- a. The District requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in their current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in their current educational placement during such proceedings.
- b. The parent/guardian requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement pursuant to a disciplinary suspension or removal, including but not limited to any decision to place the student in an IAES.
- c. During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs, controlled substances, or serious bodily injury, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents/guardians and the District agree otherwise.
- d. If school personnel propose changing the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
- e. An expedited due process hearing shall be completed within 20 school days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, they must mail a written decision to the District and the parents/guardians within 10 school days after the last hearing date without exceptions or extensions.

5. **Referral to law enforcement and judicial authorities:**

In accordance with the provisions of IDEA and its implementing regulations:

- a. The District may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.

- b. The Superintendent may transmit copies of the Special Education and disciplinary records of a student with disabilities for consideration to the appropriate authorities to whom a crime is reported only to the extent that transmission is permitted by FERPA.
6. **Declassified Students:**
In accordance with law, the manifestation team must conduct a manifestation determination in the case of a declassified student who has been subject to discipline that would constitute a disciplinary change in placement.
7. **Section 504/Title II ADA Disability:**
Before discipline may be meted out for a student with a disability or suspected disability founded solely under §504 of the Rehabilitation Act of 1973 (hereinafter “§504”) or Title II of the Americans with Disabilities Act (hereinafter the “ADA”), the §504 multi-disciplinary committee (hereinafter the “§504 committee”) must make a determination of whether the conduct underlying the charge(s) was a manifestation of the disability.
- a. If a nexus is found between the disability and the conduct underlying the charges, the §3214 proceeding must be discontinued and the matter placed under the jurisdiction of the §504 Committee for any further consideration. The record of discipline imposed to date shall be expunged. The §504 Committee must register a referral and bring about an evaluation of a student with a suspected disability or, if the student is already eligible under §504, it must consider possible program modification and disposition on a non-disciplinary basis.
 - b. If no nexus is found, yet a disability is indicated or has been identified, discipline may be imposed upon remand to the §3214 Hearing Officer. Students whose sole disabilities are founded under §504 and for whom no nexus is found shall be disciplined in the same manner as their non-disabled peers.
 - c. Students with a recognized 504/ADA disability who are currently using or in possession of alcohol or drugs may be disciplined regardless of their disability status in the same manner and to the same extent as their non-disabled peers, provided that the students are currently engaged in the illegal use of drugs or alcohol.

Any consequence imposed may not be based on past behavior for which a nexus determination was not made

USE OF PHYSICAL FORCE BY STAFF

Corporal, or physical, punishment by District employees is strictly forbidden. However, reasonable physical force may be used to:

- 1. Protect yourself or others from physical injury.

2. Protect school or personal property.
3. Restrain or remove a disruptive or violent student who refuses to refrain from disruptive or violent acts. If a therapeutic restraint is necessary, only trained staff members may perform the restraint. Each school building will maintain and disseminate to all staff a current list of staff members trained in TCI.

The District Superintendent or designee will file reports on incidents of the use of physical force with the Commissioner of Education in accordance with Commissioner's Regulations.

ENFORCEMENT AND PUBLIC CONDUCT ON SCHOOL PROPERTY

The building principal or their designee shall be responsible for enforcing the conduct required by this Code.

When the building principal or their designee sees an individual engaged in prohibited conduct, which in their judgment does not pose any immediate threat of injury to persons or property, the principal or their designee shall tell the individual that the conduct is prohibited and attempt to persuade the individual to stop. The principal or their designee shall also warn the individual of the consequences for failing to stop. If the person refuses to stop engaging in the prohibited conduct, or if the person's conduct poses an immediate threat of injury to persons or property, the principal or their designee shall have the individual removed immediately from school property or the school function. If necessary, local law enforcement authorities will be contacted to assist in removing the person.

The District shall initiate disciplinary action against any student, staff member, or visitor, as appropriate, in accordance with the "Consequences" section above. In addition, the District reserves its right to pursue a civil or criminal legal action against any person violating the Code.

STUDENTS SEARCHES AND INTERROGATION

1. **Searches:**
Police, as well as the Superintendent and District/building administrators, may search students and their possessions if there is reasonable suspicion.

By bringing a personal electronic device (including, but not limited to, cellular phones, smart phones, tablets, and laptops) to school, the student consents to a search of the device when school officials have reasonable suspicion that such a search will reveal a violation of the District Code of Conduct. The scope of the search will be limited to the violation which the student is accused of. Content or images that violate state or federal laws will be referred to law enforcement. The school district will cooperate with law enforcement officials as appropriate.

School computers, desks, lockers, and storage spaces are school property and may be opened and inspected by school officials without prior notice or student consent. Video surveillance footage may be accessed as part of a search process, consistent with Policies

5686 Use of Surveillance Cameras in the School District and 5751 Video Cameras on School Buses.

2. **Questioning:**

School officials may question students about possible violations of school rules. The student's parents/guardians may be contacted, depending upon the circumstances.

The police may enter the schools if a crime has been committed on school property, they have an arrest or search warrant, or if they have been invited by school officials. Prior to questioning students, police must read them their "Miranda rights," and school administrators or police must diligently try to notify the students' parents/guardians and give them the opportunity to be present.

Child Protective Services (CPS) may interview students on school property without notification to the parents/guardians regarding allegations of suspected child abuse, maltreatment, or neglect (including educational neglect).

SEARCHES AND QUESTIONING

1. **Student searches:** Involuntary personal searches of students and their possessions may be conducted by District/building administrators when there is reasonable suspicion for a search by school personnel.

Such searches must conform to state and federal laws, and must be based on reasonable suspicion. The reasonableness of the search will depend upon the:

- a. Student's age, gender, and school history and record.
- b. Prevalence and seriousness of the alleged infraction.
- c. Urgency of an immediate search.
- d. Reliability of the information used to justify the search and the likelihood that the search will produce useful information.

School desks, lockers, storage spaces, and computers belong to the School District, not the student, and thus may be opened and inspected by school officials without student permission. Video surveillance footage may be accessed as part of a search process, consistent with Policies 5686 Use of Surveillance Cameras in the School District and 5751 Video Cameras on School Buses.

2. **Questioning of Students by School Officials:** School officials have the right to conduct investigations and question students regarding any violations of school rules and/or illegal activity. The student's parent/guardian may be contacted, depending upon the nature and reasoning for the questioning and the necessity for further action that may result.

District/building administrators are not required to give students "Miranda warnings" prior to questioning them.

The questioning of students by school officials does not preclude subsequent questioning by police authorities as otherwise permitted by law.

3. **Questioning of Students by Police:** It is the policy of the District to cooperate with law enforcement agencies. While police do not have general power to interview children in school, or to use school facilities in connection with police department work, the police may enter the schools of the District if a crime has been committed on school property, they have a warrant for arrest or search, or if they have been invited or authorized by District/building administrators.

When the police have properly entered the school and wish to interview students in the school, the students must be afforded the same rights they have outside the school. Students must be informed of their legal rights, may remain silent if they so desire, may request the presence of an attorney, and must be protected from coercion and illegal restraint. When a student is under the age of 16 and police are present for an interview or investigations, school officials must make every reasonable effort to notify the student's parent/guardian(s), unless the police indicate that such interview concerns a student's parent/guardian(s) or other household member and it is pursuant to a report regarding suspected child abuse, maltreatment, or neglect.

4. **Child Protective Services Investigations:** Child Protective Services (CPS) may interview students on school property without notification to the parents/guardians regarding allegations of suspected child abuse, maltreatment, or neglect (including educational neglect). In addition, certified school personnel are mandated reporters, and are legally required to follow all appropriate regulations. Child Protective Services may in some cases desire to conduct interviews of students on school property. Such interviews generally pertain to allegations of suspected child abuse, maltreatment, or neglect. A school official shall be present during the interview unless it is decided that the presence of the school official is not essential to protect the interests of the pupil and that the Department of Social Services worker's job can best be accomplished by conducting the interview without the school official present.

STUDENT DRUG AND ALCOHOL ABUSE PROCEDURES

Procedure for handling students who are using drugs, under influence, or in possession of drugs, drug paraphernalia, or alcohol on school property or during any school sponsored activity:

1. The teacher or staff member must bring the student and any drugs or alcohol to the school administrator. This includes the use and possession of tobacco and any type of electronic cigarettes. Tobacco is defined to include any lighted or unlighted cigarette, cigar, cigarillo, pipe, bidi, clove cigarette, and any other smoking product and smokeless tobacco, and spit, dip, chew, spitless snuff and/or snuff, smokeless, dip, in any form and electronic cigarettes. "Electronic cigarette" or "e-cigarette" means an electronic device that delivers vapor which is inhaled by an individual user (including vaporizers, vapor pipes, and vape pens), and shall include any refill, cartridge and any other component of such a device.

2. The school administrator and nurse will make judgment regarding the immediate medical needs of the student.
3. The principal or the principal's designee must inform the parents and schedule a conference, appraise law enforcement of the violation, and follow up with a report to the Superintendent as soon as possible.
4. The Principal will suspend the student and a Superintendent's Hearing will be required.
5. If the incident is referred to the Superintendent and the Hearing Officer finds that a violation of school policy has in fact taken place, an additional suspension may be imposed, along with a mandatory meeting with the school social worker.

VISITORS TO THE SCHOOL

The Board encourages parents/guardians and other community members to visit our schools. All visitors must first sign in and obtain authorization for being on school premises during the instructional day. The building principal or their designees are responsible for all persons in the building and on the grounds.

Parents/guardians and other District citizens are encouraged to visit the District's schools for school sponsored events or meetings with Administrators and/or staff members. Since school safety is of the utmost importance, and schools are a place of work and learning, certain limits must be set for such visits. The building principal or their designees are responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools, consistent with Policy 3210 Visitors to the School:

1. Anyone who is not a regular staff member or student of the school will be considered a visitor and is expected to abide by the rules for public conduct on school property contained in this Code of Conduct regardless of whether the visit takes place during the school day or after school hours.
2. All visitors to the school must report to the sign-in desk upon arrival at the school. There, they will be required to sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the sign in desk before leaving the building during the instructional school day.
3. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register.
4. Visitors who wish to observe a classroom while school is in session are required to seek permission and indicate the purpose for such visit in advance with the building administrator or their designee.
5. Teachers are expected not to take class time to discuss individual matters with visitors.

6. Any unauthorized person on school property will be reported to the principal or their designee. Unauthorized persons will be asked to leave. The police or the School Resource Officer may be called if the situation warrants.
7. Upon entering a District building, visitors will be asked to present a government-issued ID such as a driver's license, which can either be scanned or manually entered into the system. If a visitor does not have a U.S. government-issued ID, the school staff member can use any form of identification and manually enter the person's name and birthdate into the system.
8. Once entry is approved, the system will issue a badge that identifies the visitor, date, and purpose of the visit. At the conclusion of the visit, the visitor will return the badge to the office and will be checked out through the new system. This system will allow us to account for all visitors in the event of an emergency.

DISSEMINATION AND REVIEW OF CODE

The District will ensure that the community is aware of this Code of Conduct by:

1. Disseminating a summary of the Code of Conduct written in plain language to all parents/guardians of District students before the beginning of the school year and making this summary available later upon request.
2. Making full copies of the District Code of Conduct available to all parents/guardians, students, and community members on the District website, in the District office, and in the main offices of each school.
3. Providing copies of an age-appropriate summary of the Code of Conduct to all students at the beginning of each school year.
4. Providing a copy of the Code, and subsequent amendments to the Code, to all current teachers, and other staff members, and to newly hired employees when first hired, as soon as practical after adoption.
5. Providing an in-service education program for District staff members.
6. Reviewing the Code of Conduct every year and update it as necessary.
7. Holding a public hearing before adopting any Code revisions.
8. Filing any amendments to the Code with the Commissioner of Education in accordance with the Commissioner's rules and regulations.

A building's regulations, procedures, Code of Conduct, or Policy 7312 Student Dress Code must be consistent with, and must not be contradictory to, the District Code of Conduct/ Policy 7312 Student Dress Code. Distribution of regulations and procedures relating to the individual building Code of Conduct/Policy 7312 Student Dress Code is the responsibility of the building principal.

REVIEW OF CODE

An in-service education program for all District staff members to ensure the effective implementation of the Code of Conduct will be provided. The Superintendent may solicit the recommendations of District staff members, particularly teachers and administrators, regarding in-service programs pertaining to the management and discipline of students.

The Board of Education will review this Code of Conduct every year and update it as necessary. In conducting the review, the Board will consider how effective the Code's provisions have been and whether the Code has been applied fairly and consistently.

An advisory committee may be appointed to assist in reviewing the Code and the District's response to Code of Conduct violations. The committee will be made up of representatives of student, teacher, administrator, and parent organizations, school safety personnel, and other school personnel.

At a regularly scheduled Board meeting, the Board or the Code of Conduct Committee will present any Code revisions for review. The Board will reapprove any such updated code only after at least one public hearing that provides for the participation of school personnel, parents, students and any other interested parties

PROCEDURE FOR IDENTIFICATION/RESOLUTION OF DISCIPLINARY PROBLEMS

Pupil service personnel, administrators, teachers, and others shall report to the building principal students who are having problems or appear to be having problems regarding matters covered in the discipline code. Parents are also invited to advise the building principal of concerns the parents may have regarding the children pertaining to the discipline code. Students are expected to report to teachers or the building administrator any student who appears to be having discipline problems. Students are expected to cooperate in any conferences regarding the discipline of that student. When the building principal is aware of, or has received a report from pupil service personnel, administrators, teachers, students, or parents, the building principal shall conduct whatever inquiry the principal considers appropriate. If the building principal, after such inquiry, considers there is a basis for concern, the principal shall arrange to have a meeting with the parents and appropriate staff members to review the matter and create a plan to resolve the discipline problem. The purpose of the procedure is to identify possible problems early and to resolve these disciplinary problems. The district shall assign such support personnel to assist the parties, considering the resources available at any given time.

HEALTH SERVICES

The Ontario Central School District's School Health Services program supports your student's academic success by promoting health in the school setting. One way that we provide care for your student is by performing the health screenings as mandated by the State of New York.

Each building has a Health Office with a School Nurse.

IMMUNIZATIONS

All entering students (kindergarten and new to the district) are required by New York State Education Law to have a current physical and be immunized against diphtheria, poliomyelitis, measles, mumps, rubella (German measles), varicella, Hepatitis B, and age appropriate Tdap, and meningococcal vaccines. Proof of immunizations from a Health Care Provider (HCP) or previous school record is required as acceptable documentation of the immunization status.

During the school year, the following screenings are required:

1. Vision – distance and near acuity for all newly entering students and students in kindergarten, grades 1, 3, 5, 7, & 11.
2. Hearing – hearing screening for all new entrants and students in kindergarten, grades 1, 3, 5, 7, & 11.
3. Scoliosis - scoliosis (spinal curvature) screening for all girls grades 5 and 7, and all boys grade 9.
4. Health Appraisals - a physical exam, including Body Mass Index (BMI) and Weight Status Category is required for all new entrants and students in kindergarten, grades 1, 3, 5, 7, 9, & 11. If we do not receive a physical exam report on the required health appraisal form completed by your Health Care Provider by September 30, a school physical exam will be scheduled. You will be sent a notice before the exam is scheduled.
5. Body Mass Index Reporting (BMI) – as part of a required school health exam, a student must have their height and weight measured. The results are then used to compute the student's BMI. The BMI helps the doctor or nurse know if the student's weight is in a healthy range, too low, or too high. Periodically schools are requested to report to New York State Department of Health (NYSDOH) information about our student's weight status groups. Only summary information is sent, no student names or identifying information. However, you may choose to have your student's information excluded from this survey report. If you do not wish to have your student's weight status group information included as part of the Health Departments survey, please send written notice to the school nurse.

The information sent to the NYSDOH will help health officials develop programs that encourage students to be healthier.

6. Dental Certificates – a dental certificate is requested for all new entrants and students in kindergarten and grades 1, 3, 5, 7, 9 & 11.

A letter will be sent home if there are any findings on the screenings done at school that would cause concern or need medical follow-up. Please call the school's health office if you have any questions or concerns.

FIRST AID

In cases of accidents or illness, the school district is responsible for immediate first aid care. Parents will be notified. The subsequent treatment and transportation of the ill or injured student becomes parental responsibility. All injuries incurred in school must be reported to the teacher, supervisor, or bus driver in charge, and the student must report to the health office. The health office must receive a report of injury since the appropriate recording and insurance follow-up is very important and must be completed promptly. *If students become ill or injured during school hours they must report to the health office.*

BASIC HEALTH RULES

1. Keep your student home if they have any of the following conditions:
 - a. Fever (temperature of 100 degrees or more)
 - b. Fever during the previous 24 hours
 - c. Heavy nasal discharge
 - d. Persistent cough
 - e. Overtired and generally not feeling well
 - f. Vomiting and/or diarrhea within 24 hours of the start of the school day
 - g. Rash of unknown origin
2. If a student's health is in doubt upon entering school or during the school day, the parents/guardians will be notified to pick up the student.
3. Parents/guardians should notify the Health Office whenever a student is absent. This is especially true if the student has been exposed or diagnosed with a contagious disease (chicken pox, mono, strep throat, etc.), even if they have been home for several days.
4. A student with a fever cannot return to school until fever free for 24 hours without any antipyretic (fever reducing) medications (i.e. Tylenol, Ibuprofen, etc.).

5. Send/email in a written note whenever the student returns to school from an absence.
6. Notify the School Nurse as soon as possible if your student has tested positive for COVID-19.
7. If your student has been evaluated by a healthcare provider due to an illness or injury, please request a note that clears them to return to school and specifies activity restrictions, if necessary.
8. Contact the School Nurse if there are any questions or concerns.

MEDICATION ADMINISTRATION

If it becomes necessary for a student to take any form of medication at school, the following steps must be followed:

1. A written order from the HCP must be obtained which includes the student's name, medication, dosage, and time to be given at school.
2. Permission must be given in writing by the parent/guardian, in order for the medication to be given at school.
3. The medication must be delivered to the school in its original container, properly identified with the student's name, date prescribed, name of medication, dosage, and instructions for administering (if prescription medication, original pharmacy container-recommend asking pharmacy at time of filling prescription for a second labeled bottle, so one can be kept at home and one sent to school).
4. The medication must be kept in the health office in a locked cabinet (see below for exceptions*).
5. At no time should a student have prescription or non-prescription medication/drugs on them*.
6. If a student is to self-carry medication, it is to be noted on the medication order form, and the Self-Carry Attestation form must be completed by the healthcare provider and signed by a parent/guardian.

School personnel may not dispense any medications, including over the counter medications, unless the above conditions have been met.

*Some conditions may necessitate that a student carry and self-administer their medication. Examples would be an inhaler for severe asthma or an Epi-pen for serious bee sting allergies. The school should have knowledge of these medications prior to a student bringing them to school. They require all of the above written permissions and an attestation form completed by parent and medical provider to self-carry, self-administer.

ADHD medications, anti-seizure drugs, maintenance allergy medications, and antibiotics are examples of non-emergency medications, and should be administered at home when possible. If you believe your student has a potential emergency health need, please consult with the school nurse to develop an emergency care plan. Students may not possess, consume, or distribute any type of medication without the approval of the school's administration and/or the health office.

These policies and procedures are necessary to insure the health and safety of the entire student body. We appreciate your cooperation and compliance.

HAND SANITIZERS

Alcohol based hand sanitizers can be used in school. If you do not want your student to use alcohol-based hand sanitizer, you must notify the nurse in writing.

PHYSICAL EDUCATION AND ATHLETICS

Medical excuses pertaining to Physical Education must be obtained from the student's HCP. The document should be brought to the Health Office as soon as possible, and definitely prior to the start of class. The Health Office will supply the Physical Education teacher with documentation of the HCP note. A student may not participate/return to any Physical Education classes/sports until cleared, in writing, by their HCP. If a student is expected to be out of physical education class for any extended time, there is a form that will be sent to the doctor to determine if any adaptive measures can allow the student to participate. The clearance note that is needed to return to physical education/sports after a medical exclusion **must state** the students name, date cleared to return, and "student is cleared to return to all physical activities and sport without restrictions", and must be signed by the HCP. If there are any continued restrictions to the return, the restrictions must be clearly defined by the HCP.

In order to be cleared for activities after a concussion, the HCP must clear the student to return to activity. If the concussion occurred as a result of a sports injury, the clearance must be signed by a physician, not a Nurse Practitioner or Physician's Assistant. Upon appropriate HCP clearance, the school medical director, will review the form and clear the student to begin the Concussion return to play protocol. Once the student has completed the return to play, the student will be able to participate in all activities.

Before a student is allowed to participate in any interscholastic athletic activity, the student must have a current physical exam (health appraisal) on file, be registered on Family ID for the sport including recent health history (interval health history), which must be completed each season, and be approved by the school's medical director.

GENERAL

Please notify your School Nurse of any changes in your student's health history throughout the school year. It is important to keep your School Nurse informed of any changes in your student's health. This would include any newly diagnosed allergies, asthma, food sensitivities/preferences, new medications, as well as any new illnesses or injuries.

Blank Health Appraisal forms, medication administration order forms, dental forms, COVID

clearance forms, concussion forms, etc. can all be found on the District Website under district forms, then under health forms.

Please contact the health office with any medical related questions or concerns.

PSYCHOLOGICAL SERVICES

The school psychologists are available for consultation on individual problems and for individual testing. Students, parents, and teachers may arrange appointments through the School Counseling Department.

SOCIAL WORK SERVICES

The High School/Middle School social worker will provide the following services:

1. Family intervention
2. Crisis intervention
3. Referral services
4. Consultation services
5. Liaison with community agencies
6. Drug/alcohol intervention & counseling

SAFETY

ACCIDENTS

All accidents/injuries must be immediately reported to the staff member in charge and the health office.

LOCKDOWN DRILLS

The State Education Law requires lockdown drills for safety and for the preservation of life in the event of an emergency. Lockdown drills are conducted periodically throughout the school year.

FIRE DRILLS

The State Education Law requires fire drills for safety and for the preservation of life in the event of an emergency. **EVERYONE MUST LEAVE THE BUILDING WHEN THE FIRE ALARM SOUNDS.** Upon recognition of the fire alarm, pupils, leaving books behind, should exit from the building under the direction of their teacher. Talking during fire drills is prohibited. Each classroom has an emergency exit plan posted, and students are expected to know it.

AFTER SCHOOL SUPERVISION

1. Student Supervision:
 - a. Only students who have a legitimate purpose to be on school property after the instructional day will be permitted to remain in the building and in a supervised location. Legitimate purposes include: participating in an extra-curricular activity (clubs & athletics), homework help, library/learning center, and detention.
 - b. Students attending clubs, homework help, library/learning center, and detention must go directly to the designated classroom, and must report by 2:45 P.M. Students who arrive late should be written up and may lose their privilege of staying after school. Students must remain supervised at the location of their activity until 4:10, when they are to be provided with a late bus pass by the supervising adult.
 - c. Student-athletes who are scheduled to participate in an immediate event (I.e., practice/game) must report to the event's location by 2:45 P.M. (or earlier per their coach's directive). If their event starts later, they must either go home and return later for the scheduled event, or go to a designated supervised classroom. The location of this room is still to be determined. Student athletes will be provided with a long-term late bus pass for the sports season that they are participating in.
 - d. Students who wish to remain after school to attend a school-sponsored event must proceed to the event immediately. If the event starts later than 3 P.M., the students must go to the supervised classroom and be present by 2:45 P.M. (see above). These students will take a late bus home and will be issued a pass upon leaving the event.

2. Building Security:

- a. All exterior doors to the building, with the exception of the high school gymnasium's main entrance door, will remain locked after the instructional day. A staff member will be stationed at the welcome desk at the east end to buzz in visitors and to monitor the main hallway.
- b. A monitor will be patrolling the hallways to make sure that students are not lingering about the hallways.
- c. All interior hallway doors will be closed and locked after the 5:15 bus departs.

ANIMALS IN SCHOOL

Students are not allowed to bring any animals into the school unless authorized by administration. If any animals are brought to school, upon arrival, they must be taken directly to the appropriate room for the day and must be taken home at dismissal, unless otherwise authorized by administration. Animals may not be transported on school vehicles.

BACKPACKS

The practice of carrying the weight of many textbooks, etc. in backpacks all day has caused a great deal of back strain and several injuries. Because of this and the necessity to teach organizational skills, the use of backpacks in the middle school during the day will not be permitted (This includes any bags used for carrying books). Middle school students will be allowed to use backpacks to transport their books to and from school, and they must be stored in their lockers during the school day. Teachers will be assisting students with locker strategies that will assure the timely arrival to classes.

RESTROOMS

Student restrooms throughout the building have been designated as either a high school or middle school restroom. Students must only use the restrooms that are assigned to their building. It is expected that there are no more than two students at time in any large restroom. There is never to be more than one person at a time inside of a gender-neutral bathroom.

CAFETERIA

Hot and cold lunches are served each day in the cafeteria. Students must follow their schedules and eat at the designated time. The menu for the week is published monthly and is posted throughout the school building and on our website.

Students are to return trays, dishes, etc. to the counter and put all trash and paper products in the receptacles provided for them before leaving the lunchroom. Each student will have a scheduled lunch period.

Students are expected to use proper table manners, including returning their lunch trays, and follow the directions of the cafeteria monitors. Disruptive behavior, such as running and shouting, will not be tolerated. Cafeteria privileges may be revoked for students who disregard these rules.

All students must be scheduled to have a lunch period.

DISPLAYING OF POSTERS

All posters or displays must be approved and initialed by an administrator. Posters are to be removed immediately upon completion of the activity. Only designated areas are to be used for display.

EARLY DISMISSAL/LATE ARRIVAL FOR EMPLOYMENT

The application for permission for seniors to arrive late or leave early must be obtained from the School Counseling Department, and approved by the High School Administration. Seniors who are permitted to arrive late must ensure that they arrive on time for their scheduled classes. Students who are chronically late will have their late arrival privileges revoked.

VOLUNTEER FIRE DEPARTMENT PERSONNEL

Students who are active in local volunteer fire departments and respond to emergency calls during the school day must complete an application for permission to leave school grounds. This form must be obtained from the High School Principal's Office and approved by the High School Administration. Volunteer fire department personnel are not permitted to leave school grounds until this form is completed and approved.

LOCKERS

Onteora Middle-High School issues locks for each student.

Each student is issued a locker and combination lock. Locks will be issued at no cost to the students. Students must return locks at the end of the school year. It is expected that students will keep the locker neat and clean. Students may go to lockers before and after school, and during the passing time between classes. They are encouraged to take sufficient books with them for both classes and study halls so that it will not be necessary to visit lockers at the end of each class period. Students are instructed not to leave valuables in lockers and to keep them locked at all times for their safety. They should not give the locker combination to anyone else nor should they keep any articles in other students' lockers. If your locker does not work properly, it should be reported to the office. Students are to use their assigned locker only and are not to change lockers with anyone.

Lockers are provided by the school for student use and the administration has the right to search any locker as deemed necessary.

OFF LIMIT AREAS

During school hours, students are not permitted to leave the school property or the school building without prior approval from school authorities. All parking lots and athletic fields around the building are off limits to students during the school day without supervisions from a staff member.

Students are not permitted to cross Route 28 during the school day. The school day begins at 7:25 A.M. when buses discharge students and ends at 2:35 P.M. Students who stay after school to participate in extracurricular activities or athletics may not cross Route 28 without permission.

SECURITY

Students are urged to minimize loss of personal items and valuables by following the steps listed below:

1. Do not bring excessive amounts of money or valuables to school.
2. Do not give anyone your locker combination.
3. Do not share your locker with anyone.
4. Put an identification mark in clothing and personal items.
5. Turn in money and valuables to teachers at the beginning of Physical Education class; however, the school does not assume responsibility for money or valuables held by teachers.

SELLING & SOLICITING

Selling and soliciting, and collecting of money on school property may be done only with prior permission of the building administrators.

ALCOHOL SCREENING

The district may utilize an alcohol screening device at the discretion of the building administration.

HAZARDOUS WEATHER DAYS

In the event hazardous weather conditions necessitate the closing of school or a delay in opening of schools for the day, an automated message will be sent by the district. The following radio stations may also announce or list these facts on their website: WKNY, WGHQ, WGY, WDST, WBPM, WRWD. You may also log onto cancellations.com or check our web site, www.onteorak12.ny.us.

PESTICIDE NOTIFICATION

Parents/guardians of students have the right to be on a 48-hour notification list that pesticides are going to be used in the school. A follow-up notification will also be sent by the District as follows:

1. Within 2 days of end of Winter break.
2. Within 2 days of end of April break.
3. Within 10 days of the end of school year.
4. Within 2 days of end of summer school.

If any parent/guardian chooses to be on this 48-hour notification list, please contact the Director of the Buildings & Grounds Department.

CHANGE OF ADDRESS

Each pupil whose address is changed during the school year must give the new address and telephone number to the central registrar's office at (845) 657-6383. In case of emergency, we must have the most recent phone number on file in the office.

TRANSPORTATION

Nicole Sommer, Transportation Supervisor

Fax (845) 657-7079

School bus transportation is an extension of the school day. It is expected that students will ride their school bus in an orderly and respectful fashion. When students misbehave, their actions tend to distract the driver of the bus and create a potentially dangerous situation. Here are the rules for bus conduct:

1. Be ready when the bus arrives.
2. Obey all requests of bus drivers.
3. The younger children will receive first consideration in seating.
4. Students must ride their assigned bus and are to board and disembark ONLY at assigned stops.
5. Bus transfers will be made only for emergency purposes. Parents may make arrangements, in advance in writing, through the office of the building principals.
6. Do not board or leave the bus while it is in motion.
7. Students are to remain seated while the bus is in motion.
8. Head, arms, and hands are to be kept inside the bus.

"Electronic cigarette" or "e-cigarette" means an electronic device that delivers vapor which is inhaled by an individual user (including vaporizers, vapor pipes, and vape pens), and shall include any refill, cartridge and any other component of such a device.
10. Students are to refrain from the abusing of seats, eating or drinking, use of profanity, harassment of others, fighting, and disorderly behavior.
11. Pass (approximately 10 feet) in front rather than behind the bus.

 - b. Copy 3 to Transportation Supervisor, signed original will be forwarded to the Transportation Supervisor indicating action taken by the administrator.
2. The parent will be called and told the child is in danger of losing transportation after he has received three warnings.
3. On the fourth warning a conference will be arranged between the parent, principal, bus driver, Transportation Supervisor and contractor to discuss the problem and suspension.
4. The principal and/or Transportation Supervisor may suspend the child from bus transportation.

BUS DRILLS

In accordance with State Education Law, three emergency bus drills will be conducted on all vehicles transporting Onteora students during the school year.

ALTERNATE TRANSPORTATION REQUESTS

1. Student must present a written note from the parent/guardian to the Middle School/High School attendance secretary prior to the beginning of first period.
2. The note must contain the address the student will need transportation to and valid contact number(s) for the parent/guardian.
3. If the student is going home with another student, include that information as well.

In the event that a written note is unable to be provided for alternate transportation requests due to unexpected circumstances, an e-mail must be sent to the Middle School/High School Attendance Secretary. For grades 6 and 8, e-mails are sent to msattendance@onteora.k12.ny.us and for grades 9 through 12, e-mails are sent to hsattendance@onteora.k12.ny.us. A Fact Sheet for PARENTS

WHAT IS A CONCUSSION?

A concussion is a brain injury. Concussions are caused by a bump or blow to the head. Even a “ding,” “getting your bell rung,” or what seems to be a mild bump or blow to the head can be serious.

You can’t see a concussion. Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury. If your child reports any symptoms of concussion, or if you notice the symptoms yourself, seek medical attention right away.

WHAT ARE THE SIGNS AND SYMPTOMS OF A CONCUSSION?

Signs Observed by Parents or Guardians

If your child has experienced a bump or blow to the head during a game or practice, look for any of the following signs and symptoms of a concussion:

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows behavior or personality changes
- Can’t recall events prior to hit or fall
- Can’t recall events after hit or fall

Symptoms Reported by Athlete

- Headache or “pressure” in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Sensitivity to light
- Sensitivity to noise
- Feeling sluggish, hazy, foggy, or groggy
- Concentration or memory problems
- Confusion
- Does not “feel right”

HOW CAN YOU HELP YOUR CHILD PREVENT A CONCUSSION?

Every sport is different, but there are steps your children can take to protect themselves from concussion.

- Ensure that they follow their coach’s rules for safety and the rules of the sport.
- Encourage them to practice good sportsmanship at all times.
- Make sure they wear the right protective equipment for their activity (such as helmets, padding, shin guards, and eye and mouth guards). Protective equipment should fit properly, be well maintained, and be worn consistently and correctly.
- Learn the signs and symptoms of a concussion.

WHAT SHOULD YOU DO IF YOU THINK YOUR CHILD HAS A CONCUSSION?

- 1. Seek medical attention right away.** A health care professional will be able to decide how serious the concussion is and when it is safe for your child to return to sports.
- 2. Keep your child out of play.** Concussions take time to heal. Don’t let your child return to play until a health care professional says it’s OK. Children who return to play too soon—while the brain is still healing—risk a greater chance of having a second concussion. Second or later concussions can be very serious. They can cause permanent brain damage, affecting your child for a lifetime.
- 3. Tell your child’s coach about any recent concussion.** Coaches should know if your child had a recent concussion in ANY sport. Your child’s coach may not know about a concussion your child received in another sport or activity unless you tell the coach.

It’s better to miss one game than the whole season.
