HOW TO USE THIS GUIDE

Introduction

Mountain View High School (MVHS) offers a variety of courses that are educational, interesting, and practical. Use the information in this guide to design a schedule and an overall plan that will help you reach your goals during the next four years and beyond.

Each academic department at MVHS has provided a course progression chart for this guide. These charts are intended to give you a quick roadmap to see which courses to take from year to year. Additionally, you will notice courses are divided into two sections: <u>core</u> and <u>elective</u>. All courses listed in this guide are dependent upon staffing availability and student interest level.

If you are viewing the 2020-2021 Curriculum Guide online, you will notice links throughout the document. Clicking a link will give you more in-depth information and/or resources to explore.

Course Offerings Explained

As you look through the available courses at MVHS, you will notice certain designations beneath the course descriptions. These will give you important information about a course.

- <u>College credit</u>: If a course can be taken for Oregon college credit, it will be noted, and you will see a link to the community college that may grant the credit. You will also see a note and link to learn more about fees that may be associated with taking the course for college credit.
- <u>Capstone courses</u>: If a course is designated a capstone course, it will be noted, as will the grading scale.
- <u>Career Academies</u>: If a course is required as part of a MVHS Career Academy, it will be noted.
- <u>Career-related Learning Experiences (CRLEs)</u>: If a course can be counted toward Oregon's CRLE graduation requirement, it will be noted.

INFORMATION AT A GLANCE

Grades and GPA

Grading Scale

Your grade point average (GPA) is determined by adding all grade points earned and dividing by the number of credits attempted. Grades of Pass (P), Not Passed (NP), No Grade (NG), and Withdraw (W) have no point values and are not included in the GPA. The cumulative GPA is a total of all final grades you have earned in high school. Each grade is worth 0 to 4 points as follows:

A+, A, A-	=	4 points
B+, B, B-	=	3 points
C+, C, C-	=	2 points
D+, D, D-	=	1 point
F	=	0 points

- P = 0 grade points/credit/**pass**
- NP = 0 grade points/no credit/**no pass**
- NG = 0 grade points/**no grade**
- W = 0 grade points/no credit/withdrawn

GPA and Eligibility

Your GPA is updated as any grade is recorded on your transcript. This GPA is used to determine sports or activities eligibility, but it is not the only factor—for instance, you must also be enrolled in (and passing) at least five classes. Be sure to check with the <u>MVHS Athletic Office</u> for all Oregon State Athletic Association (OSAA) and Bend-La Pine Schools athletic eligibility requirements.

Class Weighting

Most classes are weighted equally when GPA is computed. Advanced Placement (AP) courses are weighted on a 5.0 scale, where A = 5.0, B = 4.0, etc., and will be reflected in your **weighted** cumulative GPA. Your **unweighted** GPA will reflect the standard four-point scale for each of these courses. You can find both your weighted and unweighted cumulative GPA on your <u>transcript</u>.

Student Class Rank

Class rank is determined by the cumulative GPA from ninth grade through the most recent semester grading period. Total class enrollment is used in computing the class rank. You can find class rank on your <u>transcript</u>.

Dropping a Class

You are allowed to withdraw from a course within the first 10 days of a term without grade responsibility. After the first 10 days of a term, withdrawing from a course with grade responsibility ("Drop F") will be considered after consulting with your teacher, parent/guardian, and counselor. <u>Be aware that a Drop F will result in an F being recorded on your transcript</u>. If you wish to drop a course with a grade of "W" instead of an "F" after the first 10 days of a term, make an appointment with your counselor to discuss the extenuating circumstances that affect your ability to pass the class. Please refer to Bend-La Pine Schools Administrative Regulation IKA-AR, <u>Grades and Credit</u>, for the full text of the district policy regarding dropped classes.

Once you have selected a set of courses, you are expected to remain in them for the duration of the class term. That means you want to choose the right classes for *you*. Be sure to carefully read all <u>class</u> <u>descriptions</u> in this guide, and ask your parent or guardian, teachers, and counselor about anything you don't understand.

Transcript/Academic Record

A transcript is the official record of your achievement in high school. It is a legal document that includes GPA, class rank, and final grades for all courses you have taken for high school credit. All colleges and most scholarship programs require a transcript. Many employers also require a transcript.

You can view your high school course history at any time using <u>StudentVUE</u>. This will give you a quick look at the courses you have completed, your GPA, and your remaining graduation requirements. Parents can also view course history using <u>ParentVUE</u>. (To create a new ParentVUE account, please contact the main office at 541.355.4400.)

MVHS PROGRAM AREAS

Advanced Placement

Mountain View offers more than 20 different <u>Advanced Placement (AP)</u> courses. These classes are <u>college-level courses</u>. If you take an AP course, you will be expected to work at the level of a college freshman.

All AP courses are graded on a 5.0-point scale. Students who take AP courses are eligible to take AP exams in the applicable subject areas. If you earn the required score on an AP exam, your chosen college or university may grant you the equivalent of credit for a college course. The granting college or university determines the amount of college credit granted, and not all colleges award credit for AP courses. College Board, the organization that develops AP exams and administers them nationally, offers an <u>AP Credit Policy Search</u> tool to help you find specific colleges' AP credit policies.

AP Scholar Awards

You may be recognized for challenging yourself with rigorous coursework through participation in the <u>AP Scholar Awards</u> program. Students earn this distinction by demonstrating college-level achievement through AP courses and exams. If you are recognized as an AP Scholar, you will receive an award certificate, and your achievement will be acknowledged on AP score reports sent to colleges in the fall after you take your exams.

Advanced Placement International Diploma (APID)

If you want to challenge yourself and gain a broader world view, you may become an AP International Diploma (APID) candidate. As explained by College Board,

The Advanced Placement International Diploma (APID) is a prestigious award that recognizes exceptional achievement on AP exams across several disciplines....The APID is not a substitute for a high school diploma, but rather provides additional certification of outstanding academic excellence.

Admissions offices at many international universities recognize the APID. College Board's <u>AP Around the World</u> page links to a current list of universities outside the U.S. that acknowledge AP achievement.

To earn the APID distinction, you must:

- Designate on at least one exam that your score(s) should be sent to an international university
- Earn scores of three or higher in the following areas:
 - Two AP exams from two different languages, one of which is English
 - o One AP exam from World History, Human Geography, Government, and Politics: Comparative
 - o One AP exam in Science or Math
 - o One or two AP exams from any content area except English and World Languages

For complete information about the APID, visit College Board's Study Abroad page.

Cadet Corps

Navy Junior Reserve Officers Training Corps (NJROTC) <u>Cadet Corps</u> at MVHS teaches you the skills and tools you need to succeed in school and in life. Through classroom learning and extracurricular activities, you will develop your leadership potential, increase your physical fitness, learn about history and government, and much more. As an NJROTC Cadet, you will have the opportunity to participate in community service, monthly social events, and competitive teams.

Cadets who complete two years of Cadet Corps classes and meet certain admission requirements are eligible for nomination to U.S. service academies for continuing education after high school. Cadets who choose to enlist in a branch of the military may enter at a higher rank and salary after completing two or more years in the Cadet Corps. Cadet Corps at MVHS will help you develop as a student and as a citizen, regardless of whether your future plans include military service.

Capstone Courses

If you wish to earn an Honors Diploma, you must take five capstone courses, three of which must be <u>AP</u> or International Baccalaureate (IB). Mountain View offers the following capstone courses. All courses listed below are graded on a weighted <u>5.0-point scale</u> unless denoted by an asterisk (*).

- AP Art History
- AP Art Studio
- AP Biology
- AP Calculus AB
- AP Calculus BC
- AP Capstone Research
- AP Chemistry
- AP Computer Science and Engineering
- AP European History

- AP Human Geography
- AP Language and Composition
- AP Lit and Comp: World
- AP Music Theory
- AP Physics 1
- AP Physics 2
- AP Psychology
- AP Seminar 11 & 12
- AP Spanish Language & Culture
- AP Statistics

- AP US Government and Politics
- AP US History
- Biomedical Foundations*
- Human Anatomy/Physiology*
- Narrative and Comp Studies*
- Pre-Calculus*
- WR121: English Composition*
- WR122: English Composition*

Career and Technical Education (CTE)

Career and Technical Education (CTE) gives you skills and hands-on training in a wide variety of career fields. MVHS offers CTE courses in agriculture, automotive technology, business, computer science, culinary arts, manufacturing and engineering, and media arts. Take an elective in an area that sounds interesting, or immerse yourself in a CTE subject to prepare yourself for a career. Many of our CTE courses can be taken for college credit, and some program areas offer the opportunity to further challenge yourself by earning industry certifications and participating in competitions.

Career Academies

<u>Career Academies</u> at MVHS provide a flexible and rewarding sequence of courses to help you set and achieve your educational and career goals. Each Career Academy includes required and suggested classes to help you create a fouryear plan in an area of study that interests you.

Many courses at MVHS cross over between academies, making it possible for you to study in more than one Career Academy. Whether you focus on one or more academies, you'll be able to complete graduation requirements while exploring your interests and expanding the depth and breadth of your knowledge and skills.

Early College Dual Credit Program

Mountain View offers all students an early college dual credit program that includes early college CTE courses and early college transfer courses. This exciting opportunity allows you to receive college credits while enrolled in high school courses. All dual credit courses are clearly marked in this guide's <u>course descriptions</u>. Course fees vary from free to \$25 per college credit (regularly \$87 to \$109 per credit).

Dual credit course offerings are subject to change. The table on the following pages was reflective of dual credit courses at the time of publication. Please check with course teachers to determine whether the courses you want to take will be offered for dual credit.

Expanded Options

<u>Expanded Options</u> is a joint offering between Bend-La Pine Schools and Central Oregon Community College (COCC). This program allows you to take 100-level or higher college courses onsite (or online) through COCC on a seat-available basis. That means you can begin earning college credits while you are still a student at MVHS and apply your Expanded Options college coursework to your high school graduation requirements at no out-of-pocket cost.

To participate in Expanded Options, you must:

- Be enrolled in a Bend-La Pine Schools high school with junior or senior standing and be at least 16 years old at the time of enrollment or during the program;
- Have an educational learning plan based on post-secondary and career goals;
- Have neither successfully completed four years of high school nor received a high school diploma;
- Not be a foreign exchange student; and
- Apply to COCC and meet all prerequisites associated with the college-level course in which you want to enroll.

If you meet the above criteria and would like to participate in Expanded Options, you must complete the following steps:

- Meet with your high school counselor <u>before March 1</u> and complete the Expanded Options Intent form. (You
 must notify the school district of your intent to participate in Expanded Options, and at what level you intend to
 participate, by March 1 in order to enroll in the program for the upcoming school year.)
- 2. Submit your completed Expanded Options Authorization form and an <u>application for admission</u> to COCC. After you apply, you will receive an email from COCC with instructions to <u>activate your student account</u>.
- 3. Take the <u>placement test</u> at COCC.
- 4. <u>Register for your COCC class(es)</u> on your assigned registration date and time. You will do this for each quarter during which you plan to take Expanded Options courses.

For more information about Expanded Options, please refer to <u>Bend-La Pine Schools Administrative Regulation IGBHE-AR, Expanded Options Program</u> and explore COCC's <u>Expanded Options</u> page.

PLANNING FOR GRADUATION

Graduation Requirements

Most students at MVHS will graduate with an Academic Diploma or an Honors Diploma. Requirements for each diploma are listed below. In addition, each diploma requires you to demonstrate mastery of Oregon Essential Skills in reading, writing, and math; and to participate in career-related learning experiences (CRLEs). **Keep these requirements in mind as you plan your classes**. (*Please note: Each semester-long course is worth one half (0.5) credit, and each yearlong course is generally worth one full (1.0) credit unless otherwise noted. Find more graduation information in <u>Bend-La Pine Schools</u> <u>Policy IKF-AR</u> and its associated <u>reference table</u>.)*

SUBJECT AREA	ACADEMIC DIPLOMA Number of required credits	HONORS DIPLOMA Number of required credits
English/Language Arts	4	4
<u>Math</u> *	3 Algebra 1 or higher	4 Algebra 1 or higher
Science*	3	4
Social Sciences	3	3
<u>Health</u>	1	1
Physical Education	1	1
Arts, <u>CTE</u> , <u>Second Language</u>	3	1 Arts/Career/Tech 2 Same second language
Electives	8	7
Capstone Courses	0	5 classes (3 must be AP/IB)
TOTAL CREDITS	26	27

*Up to 1.0 math and/or science credit can be met with a district-approved cross-credit course. No district-approved math and science cross-credit course meets college admissions and <u>NCAA core subject area requirements</u>. A district-approved cross-credit course can only be assigned to one diploma subject category.

SUBJECT AREA	ACADEMIC DIPLOMA	HONORS DIPLOMA
Education Plan & Profile	Required	Required
Career-Related Learning Experiences	Required	Required
Essential Skills Proficiencies	Reading, Writing, Math	Reading, Writing, Math

Do You Need Additional Credits?

If you plan to attend college or pursue other advanced educational opportunities, you should consider challenging yourself during your high school career. This often means taking more than the minimum required courses. Talk to your counselor early about your post-high school goals and <u>plan your coursework</u> accordingly.

Career-Related Learning

Oregon requires students to participate in career-related learning experiences (CRLEs) in order to be eligible to graduate. As a student at MVHS, you will work with your counselor to document 16 hours of CRLEs. This is easier than it may sound: There are many ways to meet your CRLE requirement, including work-based learning, service learning, field-based investigations, school-based learning, and technology-based learning. A wide variety of educational and extracurricular activities and experiences fall under these broad umbrellas.

Essential Skills

In order to earn a high school diploma in Oregon, you must demonstrate mastery of Oregon's Essential Skills: reading, writing, and mathematics. You can meet some or all of your Essential Skills requirements by meeting certain scoring thresholds on the ACT Aspire interim and summative tests (9th grade), the PreACT (10th grade), the PSAT (10th and 11th grade), Oregon's Statewide Assessment/Smarter Balanced test (11th grade), and/or the SAT and ACT (11th and 12th grade). Additionally, students who take the GED test may meet the math Essential Skill requirement above a certain scoring threshold.

Career Endorsements

You may choose to earn a Career Endorsement in a <u>Career Academy</u>. A Career Endorsement shows you have successfully completed a focused study in a career-related field and automatically meets the state diploma requirements for personalized learning in the area of career exploration.

There are seven Career Academies at MVHS, each offering a variety of endorsement options. If you earn a Career Endorsement, you will be awarded a black (women) or red (men) cord to wear at graduation.

In order to be awarded a Career Endorsement from MVHS, you must:

- Complete the required courses
- Complete the required number of selective course credits
- Create and maintain an education plan and profile in your portfolio
- Demonstrate understanding of career-related learning standards (CRLS)
- Complete at least 16 hours of a career-related learning experience (CRLE)
- Complete an extended application reflection such as a paper, project, or presentation

To start planning your high school course of study in a Career Academy, refer to the <u>MVHS Career Academies guide</u>. You may also find it helpful to schedule an appointment with your counselor prior to forecasting classes for next year to ensure you're on track to meet the requirements of your chosen Career Academy.

PLANNING FOR COLLEGE AND CAREER READINESS

College Admissions Planning

Mountain View is committed to preparing all students for further study after graduation. College admissions requirements vary greatly, particularly among private and out-of-state colleges and universities, so work closely with your counselor to plan your high school courses to meet the requirements of the school you would like to attend.

<u>MVHS College & Careers</u> is a valuable resource as you make your post-high school plans. Watch for college visits, scholarship and financial aid information, and other opportunities to move toward life after high school.

Community College

To enroll in a community college, you must have a high school diploma or General Educational Development (GED).

Oregon Public Universities

If you are planning to enter a four-year Oregon public university, you will need to meet the state's admission requirements. All Oregon public universities require high school graduation, SAT and/or ACT scores, and a transcript that demonstrates you have met certain <u>subject requirements</u>. Each of Oregon's <u>seven public universities</u> also requires a certain minimum high school <u>GPA</u> for freshman admissions. Get specifics at <u>Oregon Goes to College</u>.

Private and Out-of-state Universities

If you are planning to enter a four-year private university or an out-of-state public university, you will need to meet that specific college's admission requirements. Meet with <u>MVHS College & Careers</u> to start exploring next steps and make sure your high school coursework and <u>GPA</u> will meet the requirements of the college or university you hope to attend.

Missing Admissions Requirements?

If your transcript indicates you are not on track to earn enough credits to satisfy your chosen college's admissions requirements, or if you have remaining testing requirements to meet, don't wait! Make an appointment to <u>meet with</u> <u>your counselor</u> right away to come up with a plan of action.

Trade Schools

Perhaps you've decided to learn about a trade after high school. There are several trade schools in Oregon, and Oregon community colleges all offer certificates and two-year degrees in various trades. Stop by <u>MVHS College & Careers</u> to start planning for the education you'll need to enter your chosen trade.

College Athletic Eligibility

NCAA Eligibility

If you plan to play a sport at a National Collegiate Athletic Association (NCAA) college or university, you must graduate from high school, complete 16 <u>NCAA-approved core courses</u>, earn a minimum of a 2.2 (for NCAA Division II) or 2.3 (for NCAA Division I) cumulative GPA in high school, and meet minimum ACT or SAT score requirements. Look for the "NCAA Approved" designation next to the course title in this curriculum guide to see which classes have been approved by the NCAA Clearinghouse. <u>Click here</u> for a quick visual guide to NCAA eligibility. You must create an account at the <u>NCAA Eligibility Center</u> in order to become an NCAA student-athlete.

NAIA Eligibility

If you plan to play a sport at a National Association of Intercollegiate Athletics (NAIA) college or university, you must graduate from high school **and** meet any two of the following three criteria: achieve a 2.0 <u>cumulative GPA</u>, graduate in the <u>top 50%</u> of your high school class, and/or achieve NAIA minimum scores on the ACT or SAT test. <u>Click here</u> for full NAIA eligibility information.

Military Careers

Navy Junior Reserve Officers Training Corps (NJROTC) Cadet Corps classes at MVHS are taught by former military personnel and are open to all students. Cadets who complete two years of Cadet Corps classes and meet certain admission requirements are eligible for nomination to U.S. service academies for continuing education after high school. Cadets who choose to enlist in a branch of the military may enter at a higher rank and salary after completing two or more years in the Cadet Corps. If you are interested in a military career after high school, visit <u>MVHS College & Careers</u> to learn more about the available opportunities, or consider enrolling in <u>Cadet Corps classes</u> at MVHS.

RESOURCES

College & Careers

Whether you need assistance with career exploration or navigating the process of college admissions, you'll find help and guidance at <u>MVHS College & Careers</u>. The College & Careers <u>ASPIRE</u> mentor program will match you with a trained adult mentor who will help you throughout the school year with college and career planning, college admissions, financial aid, internships and more.

The College & Careers center offers school credit for job experience, job shadows, career exploration rotations, and our cadet teaching program. Additional opportunities available through College & Careers include college and scholarship searches, career interest investigations, guided business tours, student job shadows, guest speakers, college visits, college/scholarship application and interview training, resume and letter writing assistance, service learning, mock interviews, military enlistment resources, and much more. Stop in at College & Careers in room A1 to find out about the wide variety of resources available to you!

Counseling Office

Mountain View counselors are here to help you, whether that means assisting you with planning your courses and posthigh school goals or sitting down with you to work through social or emotional challenges. As an MVHS student, you can make an appointment with your counselor by signing up in the counseling office.

In addition to working one-on-one with your counselor as needed, you can check the <u>MVHS Counseling site</u> for resources you'll need throughout high school. You'll find important dates—including class meetings, standardized tests, and other upcoming events—as well as important senior class news, graduation information, and much more.

COURSE OFFERINGS

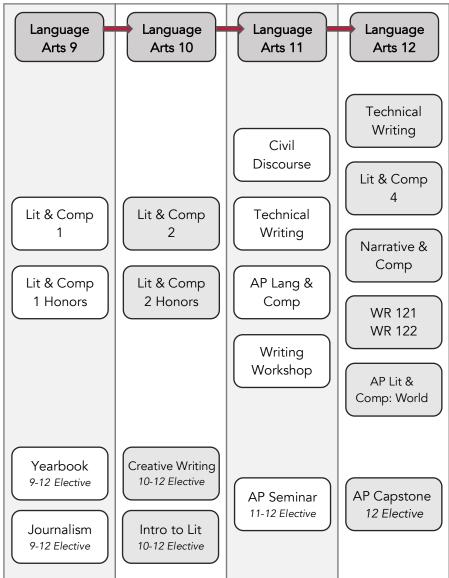

Core Subjects

Language Arts

You must earn four language arts credits to graduate. Work with your parent or guardian, teacher(s), and counselor to select classes that will meet your needs and prepare you to meet your future goals. Language arts classes at MVHS are generally based on grade level.

- Honors, dual credit, and AP classes may be appropriate if you are highly motivated and possess strong abilities in the subject area. These are rigorous classes, and both dual credit and <u>AP courses</u> include college-level work and expectations. Consider your past performance, interest level, and teacher recommendation before enrolling.
- **Standard classes** are appropriate for most students. These courses develop grade-level skills and understanding in the subject area.

2021-2022 Curriculum Guide

Mountain View High School

Ready to Forecast? Go to StudentVUE

9 th Grade Language Arts Courses	
Literature and Composition 1 LA100SLA Length: Year Credit: 1.0 NCAA Approved Prerequisite: None NCAA Approved This course examines the foundation of Western literature through the study of epic poetry, short stories, and drama. You will read relevant nonfiction works and develop skills in sentence structure, paragraphing, and correct grammar through writing assignments related to the literature and texts you study. Academic and text-specific vocabulary will be included. You will focus on developing strong processes for crafting writing in various essay structures, including expository, narrative, and argumentative.	Literature and Comp. 1 Honors LA100HLA Length: Year Credit: 1.0 NCAA Approved Prerequisite: Discuss expectations/rigor with English teacher This course will be similar to Literature and Composition 1, with the addition of more challenging literature and a higher level of skill development. You will focus on developing strong processes for crafting writing in various essay structures, including expository, narrative, and argumentative.
10 th Grade Language Arts Courses	
Literature and Composition 2 LA110SLA Length: Year Credit: 1.0 NCAA Prerequisite: Literature and Composition 1 Approved You will explore perspectives on the human condition as presented in poetry, drama, essays, and novels. Together with your class, you will discuss what it means to be an American, examining literature through a social/historical lens. The majority of writing curriculum focuses on the art of argumentation; therefore, you will study rhetoric and compose a major argumentative research paper at the end of the year using multiple sources. Throughout the course, you will review grammar and vocabulary in order to strengthen your writing.	Literature and Comp. 2 Honors LA110HLA Length: Year Credit: 1.0 NCAA Approved Prerequisite: Literature and Composition 1; discuss expectations/rigor with English teacher Literature and Composition 2 Honors is a rigorous course designed to prepare you for AP Language and Composition. You will explore perspectives on the human condition as presented in poetry, drama, essays, and novels. Together with your class, you will discuss what it means to be an American, examining literature through a social/historical lens. The majority of writing curriculum focuses on the art of argumentation; therefore, you will study several complex rhetorical texts. At the end of the year, you will research and compose a major argumentative paper using multiple sources. Throughout the course, you will review grammar and vocabulary in order to strengthen your writing.
11 th Grade Language Arts Course	
Writing Workshop LA306SLA Credit: 1.0	Length: Yea NCAA Approved

Prerequisite: Literature and Composition 2

This writing-intensive course is designed to develop and hone your nonfiction writing skills while preparing you for the rigor of college writing. We will spend a great deal of time exploring the elements of effective writing and analyzing the use of writing to expand creative and critical thinking skills. Throughout the course, you will write essays in various modes, many of which will involve multiple drafts. We will focus on all stages of the writing process, including composing, editing, drafting, revising, and peer editing. We will read and annotate the writing of others, so being an active and diligent reader will be a key to success in the course.

12 th Grade Language Arts Courses	
Literature and Composition 4 LA1125LA Length: Year	Narrative and Composition Studies LA502SLA Length: Yea
Credit: 1.0 NCAA Approved	Credit: 1.0 NCAA Approved Dual Credit Course
Prerequisite: Writing Workshop	Prerequisite: Discuss expectations/rigor with English teacher
This course explores a wide variety of visual and written texts to broaden your literary landscape. You will work toward expanding your definition of "reading a text" and improving your ability to make connections across texts. You will read widely and deeply and will be asked to demonstrate your critical thinking through written assignments that seek to build on and expand the essay skills you developed in Writing Workshop.	Focusing on 21 st century literacy, this is a senior-level, writing- intensive course designed to explore the nature of story and how it is constructed, as well as its role in shaping the different forms of literature and art that dominate our lives. Its goal is enhancing your critical thinking and writing skills. You will examine fiction and nonfiction in a variety of media—primarily film, but also advertising, art, music, and literature—and learn to demonstrate your understanding through multiple formats. Narrative & Comp Studies is a college-prep course intended for students interested in developing varied critical analysis skills in the literary forms of the 21 st century.
	 Oregon college credit may be available for this class. Work with the teacher to coordinate college credit and pay any associated fees. This <u>capstone course</u> is graded on a 4.0 scale.
WR 121: English Composition LA330CLA1	
WR 122: English Composition LA331CLA2	Length: Yea
Grade: 12 (11th grade with instructor approval only) Credit: 1.0 Prerequisite: Discuss expectations/rigor with English teacher	NCAA Approved Dual Credit Course
 Writing 121/122 are advanced, college-level writing courses for dettee critical reading and writing skills necessary for post-high school readings and consistent, intensive writing. WR 121 focuses on rhet with developing persuasive skills and effective written argumentati recommended but not essential. A COCC placement test may be available for this class. Work with 	I academic work. You will develop these skills through nonfiction orical analysis and in-depth expository writing, while WR 122 deals on. Experience in previous advanced-level English classes is highly an additional prerequisite.
 Oregon conege credit may be available for this class. Work with fees. These capstone courses are graded on a 4.0 scale. 	the teacher to coordinate conege credit and pay any associated

AP Language Arts Courses

AP Capstone Research MD357ALA Length: Year	AP Language and Composition LA151ALA Length: Year
Grade: 12 (11 th grade with AP Seminar teacher recommendation only)	Grade: 11 NCAA Approved
Credit: 1.0 Prerequisite: AP Seminar 11 and 12 The second course in the AP Capstone experience allows you to design, plan, and conduct a yearlong research-based investigation on a topic that interests you. Through this inquiry and investigation, you will demonstrate the ability to apply scholarly understanding to real-world problems and issues. You will further the skills you acquired in AP Seminar 11 and 12 by understanding research methodology; employing ethical research practices; and accessing, analyzing, and synthesizing information to build, present, and defend an argument. • This <u>capstone course</u> is graded on a 5.0 scale.	 Credit: 1.0 Prerequisite: Discuss expectations/rigor with English teacher AP Language and Composition is a writing-intensive, critical thinking course designed specifically for juniors. It focuses on nonfiction readings, and you can opt to <u>earn Writing 121/122</u> <u>credit</u> from <u>Central Oregon Community College</u>. This course is for dedicated students who wish to hone their writing skills and develop the critical reading and writing skills necessary for post-high school academic work. In the first semester of class, you will focus on rhetorical analysis and in-depth expository writing; in the second semester, you will develop persuasive skills and effective written argumentation. Experience in previous advanced-level English classes is recommended but not required. Oregon college credit may be available for this class. Work with the teacher to coordinate college credit and pay any associated fees. This course is required for the <i>Humanities</i> endorsement in the Renaissance Learning Career Academy. This <u>capstone course</u> is graded on a 5.0 scale.
AP Literature and Comp: World LA153ALA Length: Year Grade: 12 NCAA Approved Credit: 1.0 Dual Credit Course Prerequisite: Discuss expectations/rigor with English teacher Beginning with the earliest methodologies and moving into contemporary works, AP Lit and Comp: World will explore a variety of historical perspectives and literary styles. While reading and discussion will be the primary activities in this course, you will also learn to compose strong, college-level literary essays. Experience in previous advanced-level English classes is recommended but not required.	AP Seminar 11 and 12 MD356AELJ Length: Year Grades: 11-12 * This elective credit course DOES NOT Credit: 1.0 fulfill English credit requirements. Prerequisite: None Open to juniors and seniors, AP Seminar 11 and 12 is an elective course designed to help develop your critical thinking and inquiry skills. Using an inquiry framework, you will delve deeply into interesting, thought-provoking issues. Through reading and project-based learning, you will learn to craft arguments to support your point of view. This course will also support you as you investigate real-world topics of your choosing from multiple perspectives that are often different or competing. In addition, you will learn to collect and analyze information with accuracy and precision, develop arguments based on facts, and effectively communicate your point of view through writing, discussion, presentation, and debate. • This capstone course is graded on a 5.0 scale.
 Oregon conege creat may be available for this class. Work with the teacher to coordinate college credit and pay any associated fees. This <u>capstone course</u> is graded on a 5.0 scale. 	- This <u>approve course</u> is graded on a 3.0 scale.

Other Language Arts Courses	
Civil Discourse LA542SLA Length: Year Grades: 11-12 NCAA Approved Credit: 1.0 Prerequisite: Literature and Composition 1 and Literature and Composition 2 or instructor placement In this course you will research relevant/current issues that apply to your life and that are important to you. You will use evidence from your research, in-class discussions, and overall reflections to navigate each topic in a controlled environment. You will practice the skill set of having respectful, open- minded conversations with others who have differing viewpoints.	Competitive Speech LA401SEL Length: Year Grades: 10-12 * This elective credit course DOES NOT Credit: 1.0 fulfill English credit requirements Prerequisite: English teacher recommendation This is an advanced-level speech course emphasizing student-directed focus, independent research projects, and teacher-guided revision and improvement. You will develop public speaking and debating skills and gain an in-depth understanding of your chosen topics. This course will give you the opportunity to complete writing work samples as needed. Please note: Attendance at some speech and debate tournaments is required.
Creative Writing LA304SEL9Length: SemesterGrades: 10-12* This elective credit course DOES NOTCredit: 0.5fulfill English credit requirementsPrerequisite: English teacher recommendationIn Creative Writing, you will study and write in a variety of genres including short fiction, poetry, and drama/screenwriting. This course is designed for students who enjoy writing as an art form and as personal expression and who are interested in developing and honing their skills in these genres. You will develop these skills through reading samples of each genre and consistent writing, revising, and workshopping of your work.	Introduction to Literature LA508DEL9 Length: Semester Grades: 10-12 * This elective credit course DOES NOT Credit: 0.5 fulfill English credit requirements Prerequisite: Librarian approval In this course you will read from a variety of formats and in different genres, reflecting upon themes presented in these works. Through discussions and written assignments, you will improve your vocabulary and critical thinking skills and gain greater insight into the function of literary fiction and nonfiction. Interary fiction and
Journalism LA322SEL9 Length: Semester Grades: 9-12 * This elective credit course DOES NOT Credit: 0.5 fulfill English credit requirements Prerequisite: None Earn about the law and ethics of journalism! We will learn interview techniques and how to write news, features, sports stories, and editorials. Learn how to take great photos and use them effectively. Learn brainstorming techniques, copy editing, layout, and publishing.	Technical Writing LA302SLA Length: Year Grades: 11-12 Credit: 1.0 Prerequisite: None Students can expect to complete real-world, career-related research, writing (resumes, cover letters, proposals, etc.), and project-based assignments and presentations. Throughout the course, you will be encouraged to pursue projects that align with your career-related interests.

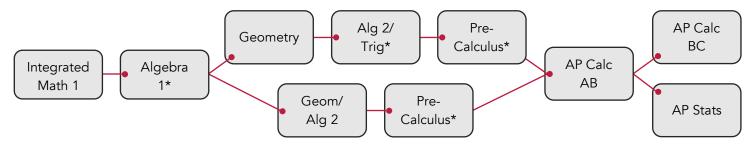

Mathematics

You must earn three mathematics credits to graduate with an Oregon Standard or Academic Diploma; if you plan to earn an Honors Diploma or pursue college after high school, you should consider earning four mathematics credits. Work with your parent or guardian, teacher(s), and counselor to select classes that will meet your needs and prepare you to meet your future goals. Mathematics classes at MVHS follow the progression outlined on the next page, and placement is generally based on your performance in the previous year's mathematics course. **If you earned a grade of D or F in the previous year's mathematics course**, you must repeat that course before advancing to the next course.

2021-2022 Curriculum Guide

- Dual credit and AP classes may be appropriate if you are highly motivated and possess strong abilities in the subject area. These are rigorous classes, and both dual credit and <u>AP courses</u> include college-level work and expectations. Please consider your past performance, interest level, test scores, and teacher recommendation before enrolling in an honors, dual credit, or AP course.
- **Standard classes** are appropriate for most students. These courses develop grade-level skills and understanding in the subject area.

Mathematics Course Progression

* Math Strategies

Courses marked with an asterisk (*) above may be taken concurrently with a math strategies elective course. Math Strategies Algebra 1 and Math Strategies Pre-Calculus are year-long, one-credit elective classes; Math Strategies Algebra 2 is a year-long, half-credit elective course offered during one 7th period color day. Talk to your current math teacher to determine whether you should take a math strategies elective.

AP Statistics MA351AMA

Length: Year

NCAA Approved

Grade: 12

Credit: 1.0

Prerequisite: Grade of C- or higher in Pre-Calculus or instructor approval. Must have met all math requirements.

This college-level introductory course in statistics is designed to prepare you for the AP Statistics Exam. The course covers four main topics: exploring data, planning studies, probability theory, and inferential reasoning. Some activities and assignments are designed for developing concepts and understanding, while others focus on improving the way you communicate statistical knowledge. You will frequently work on projects involving hands-on gathering and analysis of real-world data, using both a graphing calculator and personal computer for analysis.

• This <u>capstone course</u> is graded on a 5.0 scale.

AP Human Geography SS330AWSLength: YearGrades: 9-12NCAA ApprovedCredit: 1.0Dual Credit CoursePrerequisite: Instructor approvalAP Human Geography introduces you to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of the earth's surface and its resources. In this course we will examine the distribution and features of people and their settlements, activities, and culture (including language, religion, and folk and popular culture differences). You will employ spatial concepts and landscape analysis to understand human social organization and its environmental, social, political, and economic consequences. In addition to covering locational theories for different economic sectors, we will explore issues such as economic development, business affairs analysis, resource distribution, urbanization patterns, population growth, rural economics, and coping with a changing world economy. This course will prepare you for college-level work and establish high levels of organizational and study skills. Participation in the AP Exam is strongly encouraged.• Oregon college credit may be available for this class. Work with the teacher to coordinate college credit and pay any associated fees.• This capstone course is graded on a 5.0 scale.	 AP Psychology SS172ASS Length: Year Grades: 11-12 NCAA Approved Credit: 1.0 Dual Credit Course Prerequisite: Grade of C or higher in Psychology 1 and instructor approval This course will introduce you to the systematic and scientific study of the behavior and mental processes of human beings and other animals. AP Psychology is designed to demonstrate how psychological methodology and theory may be used to understand and predict behavior, as well as to assist you in applying conceptual knowledge to everyday situations. Oregon college credit may be available for this class. Work with the teacher to coordinate college credit and pay any associated fees. This course is required for the Mental Health endorsement in the Health Services Career Academy and the Psychology endorsement in the Human Resources Career Academy. This capstone course is graded on a 5.0 scale.
AP US Government and Politics SS111AGV Length: Year Grades: 11-12 NCAA Approved Credit: 1.0 Prereq: C or higher in U.S. History and instructor approval AP US Government and Politics will give you a challenging analytical perspective on government and politics in the United States. You will learn important facts, concepts, and theories pertaining to U.S. government, understand patterns of the political process and political behaviors, and explain various government structures and procedures and their effects on society. Course topics include constitutional underpinnings, political beliefs and behaviors, political parties, interest groups and mass media, public policy, institutions of the national government, and civil rights and liberties. Participation in the AP Exam is strongly encouraged. Please note: In order to earn the Government credit required for graduation, you must complete the entire yearlong course. If you drop this course before completing it, you must then complete the standard American Government course in order to earn the required Government credit.	AP US History SS102AUSLength: YearGrades: 10-11NCAA ApprovedCredit: 1.0Prerequisite: Instructor approvalAP US History will provide a challenging and fascinating look at the full scope of our nation's history. This course is based on nine historical thinking skills that will ask you to think critically in a deep analysis of our country's successes, issues, changes, and trends. It also utilizes seven thematic learning objectives to help organize multifaceted content. You will learn to assess, analyze, and use historical materials and stimulus on a daily basis. Document-based questions, long and short answer writing, and numerous projects will stress reading, writing, and speaking skills. This course is for students who are highly motivated to complete and master college-level work. Excellent attendance, time management, and study skills are mandatory. Participation in the AP Exam is strongly encouraged.

Elective Subjects

Agriculture Science Systems

Agriculture Science Systems classes provide experience in hands-on activities, projects, and problems. You will study communication, the science of agriculture, plants, animals, natural resources, and agricultural mechanics. While surveying the opportunities available in agriculture, you will learn to solve problems, conduct research, analyze data, work in teams, and take responsibility for your work, actions, and learning.

Agriculture Science Systems Course Progression

Ag Leadership

Starting in 10th grade, students who have completed agriculture courses may be able to take Ag Leadership. Ag Leadership is our FFA Officer and Agriculture Science Systems capstone course; instructor approval is required. Talk to your current ag teacher to find out if you are eligible to take Ag Leadership 1, 2, 3, or 4.

2021-2022 Curriculum Guide

Agriculture Science Systems Courses			
Agriculture Leadership MD300SEL, MD335SEL, MD336SEL, MD337SELLength: YearGrades: 10-12 Credit: 1.0Dual Credit Course	Introduction to Agriscience SC610SSC Length: Year Grades: 9-12 Credit: 1.0		
Prerequisite: Introduction to Agriscience or Metals Technology 1 <i>and</i> instructor approval	Prerequisite: None		
Learn how to get a competitive edge in the workplace. Ag Leadership creates opportunities for career success by focusing on the development of interpersonal, human relations, and other employable skills that are highly sought after in business and industry. You will develop your abilities in speaking, teamwork, and public relations and explore your proficiency as an effective leader while learning how to be an excellent communicator.	Introduction to Agriscience introduces you to the world of agriculture and the pathways you may pursue. We will explore career and post-secondary opportunities, practice hands-on skills, and work as individuals and teams within each area of the agriculture industry. Not only will you gain a basic understanding of the plant and animal industries, you'll also gain leadership development through the FFA. Each student will conduct a Supervised Agriculture Experience (SAE) project, in which they will be able to personally analyze one area of agriculture in which they are interested. This course wil set you up for success to pursue other agricultural courses, including metals, animal science, plant science, and more. <i>Please note: This course does not meet <u>college entrance</u> and <u>NCAA core subject</u> requirements.</i>		
 Oregon college credit may be available for Agriculture Leadership 1. Work with the teacher to coordinate college credit and pay any associated fees. This course is required for the Agricultural Education endorsement in the Agriculture Science Systems Career Academy. You will have the opportunity to meet the Career-Related Learning (CRLE) graduation requirement in this class. 	This course is required for the Agricultural Education, Animal & Veterinary Science, and Agriculture Mechanics & Technology endorsements in the Agriculture Science Systems Career Academy.		
Introduction to Animal Science SC611SSC Length: Year Grades: 10-12 Credit: 1.0 Prerequisite: Introduction to Agriscience Discover how domesticated animals influence and impact our daily lives. Learn the biology of the animal, including anatomy, nutrition, health and disease, and reproduction and genetics. Develop skills related to the care and welfare of animals while exploring food safety and agriculture commodity marketing practices. You must pass the scientific inquiry work sample during the course to earn a grade of C or higher in this class. Upon satisfactory completion of both semesters, this course may be used to meet up to 1.0 of the science credits required for graduation. <i>Please note: This course does not meet</i>	Metals Technology 1 AA600SFA Length: Year Grades: 9-12 Credit: 1.0 Prerequisite: None This course will introduce you to welding and fabrication. You will learn welding and shop safety; theory of welding process; welding-related math skills; GMAW, SMAW, and OA welding; plasma torch operation; and other machining operations. In order to complete this course, you must complete a prescribed number of welds in each process.		
 <u>college entrance</u> and <u>NCAA core subject</u> requirements. You will have the opportunity to meet the Career-Related Learning Experience (CRLE) graduation requirement in this class. 	• This course is required for the <i>Agriculture Mechanics & Technology</i> endorsement in the Industrial & Engineering and Agriculture Science Systems Career Academies.		

Agriculture Science Systems Courses (continued)			
Metals Technology 2 AA601SFA Length: Year Grades: 10-12 Dual Credit Course Credit: 1.0 Prerequisite: Grade of C or higher in Metals Technology 1 or instructor approval In this skills-based course, you will build upon your welding skills developed in Metals 1. Students will develop their skills welding out of position using GMAW and SMAW. Students will learn metal preparation and welding skills for multi pass welding. Students will learn basic safety and skills for GTAW. Students will learn and practice basic CNC Plasma design and fabrication. You will continue to expand your skills and abilities while working toward a welding certificate, if desired. • Oregon college credit may be available for this class. Work with the teacher to coordinate college credit and pay any associated fees. • This course is required for the Agriculture Mechanics & Technology endorsement in the Industrial & Engineering	 Metals Technology 3 AA605SFA Length: Year Grades: 11-12 Credit: 1.0 Prerequisite: Grade of C or higher in Metals Technology 2 or instructor approval In this skills-based course, you will build upon your welding, fabrication, and design skills developed in Metals 2. Students will apply their GMAW, SMAW. GTAW, and/or CNC Plasma techniques to design and fabricate small scale projects. All projects must be instructor-approved. Students can practice and attempt their welding certification exam if they choose. Oregon college credit may be available for this class. Work with the teacher to coordinate college credit and pay any associated fees. You will have the opportunity to meet the Career-Related Learning Experience (CRLE) graduation requirement in this 		
and Agriculture Science Systems Career Academies. Metals Technology 4 AA606SFA Length: Year Grade: 12 Credit: 1.0 Prerequisite: Grade of C or higher in Metals Technology 3 or instructor approval	class. Natural Resources 1 SC260SSC Length: Year Grades: 10-12 NCAA Approved Credit: 1.0 Dual Credit Course Prerequisite: Introduction to Agriscience		
This is a project-based course. The students and instructor will collaborate to approve and design projects. Projects can include small or medium construction. Projects can also include developing specific welding techniques on selected welding process. Students can practice and attempt their welding certification exam if they choose.	If you're interested in pursuing a career in a field related to natural resources or environmental science, this course is for you. We'll find out what natural resources are and study various scientific topics, including human impacts on the planet, energy sources, physical geography and geology, ecology, soils, watersheds and riparian areas, the atmosphere, botany, forestry, fisheries, and wildlife. You will gain career- related skills in teamwork, personal management, problem solving, and communication related to natural resources industries. Career development will also be an integral part of the course via research projects, guest speakers, and possible job shadows or internships.		
 Oregon college credit may be available for this class. Work with the teacher to coordinate college credit and pay any associated fees. This course is required for the Agriculture Mechanics & Technology endorsement in the Industrial & Engineering and Agriculture Science Systems Career Academies. Business

Why should you take business courses? Well, someday you will likely work in a business, manage a business, or own a business. The career possibilities in business are endless and extremely practical. You may specialize in accounting, marketing, finance, or management—or maybe use *all* of those skills as an entrepreneur and start your own business. As a business student, you can get practical experience operating the student store and be part of the Future Business Leaders of America (FBLA) club. With the skills you'll gain in business classes, your future is limited only by your imagination.

Grades: 10-12 Dual Credit Course	Grades: 10-12 Dual Credit Course
Credit: 0.5 May be repeated for HS credit	Credit: 0.5 May be repeated for HS credi
Prerequisite: None	Prerequisite: Accounting 1
 Accounting is known as the "language of business" and is a foundational course in any study of business. You will be introduced to the basic concepts of double-entry accounting and financial recordkeeping for a service or retail business. You will learn the accounting cycle and debit/credit theory. Using marketing forms and the computer, you will practice accounting problems and procedures while journalizing and posting transactions, reconciling bank statements, using various journals and ledgers, and processing receivables and payables. You will learn about financial statements and how they help business owners and managers make sound financial decisions for their operations. You may have the opportunity to help run the Cougar Den (student store) and other school-related projects in need of financial recordkeeping. All students enrolled in Accounting 1 will be eligible for—and encouraged to participate in—FBLA. Oregon college credit may be available for this class. Work with the teacher to coordinate college credit and pay any associated fees. This course is required for the <i>Finance, General Business</i>, and <i>Office Management</i> endorsements in the Business & Management Career Academy. 	 This next-step accounting course builds on the foundation of accounting principles and procedures you learned in Accounting 1. With a focus on analyzing and interpreting business transactions and financial statements, you will continue to practice accounting problems related to merchandising businesses and corporations. You will learn the basics of QuickBooks, a popular accounting software program You will gain an understanding of industry-standard procedures, or generally accepted accounting principles (GAAP), business ethics, business structure, management, and career options in accounting. You may also have the opportunity to help run the Cougar Den (student store) and assist with other school-related projects that require financial recordkeeping. All students enrolled in Accounting 2 will be eligible for—and encouraged to participate in—FBLA. Oregon college credit may be available for this class. Work with the teacher to coordinate college credit and pay any associated fees. This course is required for the <i>Finance</i> endorsement in the Business & Management Career Academy.

Computer Science

The Computer Science program at MVHS gives you the opportunity to explore how computing and technology impact the world. As a Computer Science student, you will solve problems using computers; learn programming languages; build websites, apps, and computing devices; create using technology; and become a responsible digital citizen.

Computer Science Course Progression

Computer Science Course

Exploring Computer Science AA218SFA

Grades: 9-12 Credit: 1.0

Prerequisite: None

This class is for *everyone*—no experience needed. Make web pages, design your own program, design and control devices, and learn what artificial intelligence is (and why you care). Understand how data is captured and used, how technology controls your life experience and influences society, and how to create new technology instead of being consumed by others' creations. Computer science is changing everything. Entertainment, medicine, transportation, public policy, agriculture, fashion, art, energy, society, and design all rely on computer science. Come join us in being part of that change, and have fun doing it!

• You will have the opportunity to meet the Career-Related Learning Experience (CRLE) graduation requirement in this class.

AP Computer Science Course

AP Computer Science Principles AA852AFA

Grades: 10-12

Credit: 1.0

Prerequisite: Grade of C or higher in Exploring Computer Science or instructor approval

Using Python as a primary tool and incorporating multiple platforms and languages for computation, this course aims to develop computational thinking, generate excitement about career paths that utilize computing, and introduce professional tools that foster creativity and collaboration. You will develop programming expertise and explore the workings of the Internet while working on projects and problems like app development, visualization of data, cyber security, and simulation. The course curriculum is a College Board-approved implementation of AP Computer Science principles. While this can be your first course in computer science, we encourage you to start with Exploring Computer Science if you do not have computing experience. *This course follows Project Lead the Way and Code.org curriculum*.

• This course is required for the *Computer Science* endorsement in the Industrial & Engineering Career Academy.

• This <u>capstone course</u> is graded on a 5.0 scale.

Culinary Arts

Careers in the food and beverage industry are some of the most dynamic and competitive in the country! The MVHS Culinary Arts program will prepare you for culinary school as well as for jobs with restaurants, caterers, and bakeries. Through hands-on instruction in a state-of-the-art commercial kitchen, you will begin by learning the basics of food and cooking, including nutrition, sanitation, and basic kitchen skills. As you progress through the program, you will be introduced to more complex recipes and ingredients and the underlying food science. Ultimately you will take part in real-world projects, including catering, internships, and culinary competitions.

Manufacturing & Engineering Technology

Manufacturing & Engineering Technology classes will teach you how to build with tools like lasers, CNC machines, table saws, and even fiberglass and carbon fiber. In the beginning years you will learn how to build and design with wood, then composites, and put it all together in a capstone project your senior year. Earn college credit while doing all of this. Get started in what could be your future business, or learn a great new hobby that you can use around the house for years to come.

Media Arts

Enter the digital age by taking a Media Arts class! In these courses, you will learn new skills and techniques in many different digital disciplines. Using technology and computers, you will be creating your own designs, artwork, websites, publications, and films. Programs covered in these classes include Adobe Illustrator, Photoshop, eDesign, iMovie, and web page coding. These digital skills are excellent additions to resumes!

Media Arts Course Progression

Media Arts Courses	
Graphic Arts 1 FA400SFA9 Length: Semester Grades: 9-12	Graphic Arts 2 FA401SFA9 Length: Semester Grades: 9-12
Credit: 0.5 Prerequisite: None	Credit: 0.5 Prerequisite: Grade of C or higher in Graphic Arts 1 <i>or</i> instructor approval
In this course, you will explore the elements and principles of graphic design. Using the Adobe Creative Suite, you will explore beginning, intermediate, and advanced levels of computer graphic design and multimedia. Class projects, presentations, and critiques will be modeled after real-life design applications. The overall emphasis will be on creating a rigorous classroom environment and following industry standards as we train on software and complete projects.	This course is designed for students who are highly skilled with Adobe Illustrator and possess a high level of understanding of design elements and principles. You and your classmates will function as an in-school design firm, offering skills and services to create materials for school clubs, teams, and staff. Additional coursework is student-directed and requires the ability to problem-solve, work without direct instruction, and meet long-term deadlines. Graphic Arts 2 will emphasize the ability to communicate with clients and be able to present ideas and concepts in a clear fashion. Although high-level skills are required, the class focus is on working as a team, expressing creativity, and having fun!
• This course is required for the <i>Production: Publications,</i> <i>Visual Arts: Graphic Arts/Media,</i> and <i>Visual Arts: Studio</i> <i>Arts</i> endorsements in the Arts & Communications Career <i>Academy and the Computer Information Systems</i> endorsement in the Business & Management Career <i>Academy.</i>	 This course is required for the <i>Production: Publications</i> and <i>Visual Arts: Graphic Arts/Media</i> endorsements in the Arts & Communications Career Academy. You will have the opportunity to meet the Career-Related Learning Experience (CRLE) graduation requirement in this class.
Graphic Arts 3 FA403SFA9 Length: Semester Grades: 11-12 Credit: 0.5 Prerequisite: Grade of C or higher in Graphic Arts 2 or instructor approval	Journalism LA322SEL9 Length: Semester Grades: 9-12 Credit: 0.5 Prerequisite: None
In Graphic Arts 3 you will continue to use the elements and principles of art as you create independent passion projects. Through your work on schoolwide graphic design projects like posters and spirit wear, you will build upon your Adobe Illustrator skills and create a portfolio you can use to apply to jobs and colleges. This course emphasizes creating thumbnails and planning strong, thoughtful design.	Learn about the law and ethics of journalism! We will learn interview techniques and how to write news, features, sports stories, and editorials. Learn how to take great photos and use them effectively. Learn brainstorming techniques, copy editing, layout, and publishing.
Photography 1 FA600SFA9 Grades: 9-12	Length: Semester
Credit: 0.5 Prerequisite: Supply own digital camera and thumb drive; pay for y	our own prints. Discuss camera requirements with instructor.

This course is a study of photography, with focus on technique, composition, and editing. Using a digital camera and software such as iPhoto and Photoshop, you will learn basic camera operation, design, photo editing, and methods for downloading, transferring, and printing digital images. You will create, edit, post, and share digital and printed images.

• This course is required for the *Production: Photography, Production: Videography, and Visual Arts: Graphic Arts/Media* endorsements in the Arts & Communications Career Academy.

Media Arts Courses (continued)	
Photography 2 FA601SFA9 Length: Semester Grades: 9-12 Credit: 0.5 Prerequisite: Grade of C or higher in Graphic Arts 1 or instructor approval This course is designed for students who are highly skilled with Adobe Photoshop and have a high level of understanding of photographic technique and composition. You will explore personal themes and photo essays and further practice digital editing and photo manipulation. Professional portfolio development will be an integral part of the class. Coursework is student-directed and requires the ability to problem-solve, work without direct instruction, and meet long-term deadlines. • This course is required for the Production: Photography and Production: Videography endorsements in the Arts & Communications Career Academy.	Video Arts 1 AA800SFA9Length: SemesterGrades: 9-12Credit: 0.5Prerequisite: Photography 1 or instructor approvalBecome an amateur filmmaker in this fun and creative class!Preserve family memories or create a project to supplementyour other classwork. You will learn basic video filming andediting techniques to create several short films including newsstories, documentaries, and a music video. Workingindependently and in teams, you will plan, film, edit, andproduce several finished film projects.• This course is required for the Production: Photographyand Production: Videography endorsements in the Arts & Communications Career Academy.
Web Design 1 AA210SFA9 Length: Semester Grades: 9-12 Credit: 0.5 Prerequisite: None Interested in learning how to make a web page? This course will teach you the fundamentals of web design. You will learn how to create HTML documents (basic web pages); format text; use design elements and principles; insert graphics and links; create forms; and work with tables, marquees, and frames. In order to be successful in this course, you need to have the ability to work independently and meet deadlines. • This course is required for the Visual Arts: Graphic Arts/Media endorsement in the Arts & Communications Career Academy and the Computer Information Systems endorsement in the Business & Management Career Academy.	Web Design 2 AA211SFA9 Length: Semeste Grades: 9-12 Credit: 0.5 Prerequisite: Web Design 1 or instructor approval Work as a web designer! In this course you will move beyond basic HTML and work with authoring systems and software to design and create sites. We will review web design concepts and analyze various sites. With an emphasis on planning, time management, organization, and creativity, you will build and maintain sites for groups and function as a web design firm.
Yearbook LA334SEL Grades: 9-12 Credit: 1.0 Prerequisite: Photography 1 <i>or</i> instructor approval This course introduces the basics of photojournalism, including hist photographing portraits, features, activities, and sports for the year areas of publication, including interviewing, writing, editing, compu- management.	book. PE & Health

Over 2,000 years ago, the Greek philosopher Plato observed, "Physical fitness and mental fitness go hand in hand." With that tenet in mind, the PE and Health departments offer opportunities to develop and strengthen your body and your mind. *Please note: Refundable lock fees may apply in all PE classes.*

PE Courses Length: Semester Basketball 1 PE202SPE9 Basketball 2 PE203SPE9 Length: Semester Grades: 9-12 Grades: 9-12 Credit: 0.5 Credit: 0.5 Prerequisite: None Prerequisite: Instructor approval This advanced class is highly competitive! Basketball 2 is for Basketball 1 is for the general PE student who wants to learn or improve their basic basketball skills and fitness level. the serious and motivated student-athlete. This demanding Increasing your fundamental skill in dribbling, passing, class will focus on advanced basketball fundamentals, agility shooting, and footwork will help you become a more and quickness activities, and weight training. Throughout the successful recreational player. You will learn the basic rules course, we will develop individual and team concepts for and history of the game, along with basic offensive and offense and defense. defensive game strategies. We'll play a variety of games, contests, and tournaments to practice your improved skills. Conditioning 1 PE300SPE9 Length: Semester Length: Semester Court Sports PE207SPE9 Grades: 9-12 Grades: 9-12 Credit: 0.5 Credit: 0.5 Prerequisite: None Prerequisite: PE 1 and instructor approval In this beginning conditioning class, weight training is This advanced class is highly competitive! Court Sports is for supplemented with plyometric, speed, aerobic, and agility students who are driven to improve skill and knowledge training. This course may be repeated for credit. through drill rehearsal and competition. Throughout each unit, you will be assessed on skill development, application of game strategies, and teamwork. You will be required to articulate the components of assessed skills and show mastery of game terminology and rules by applying them during officiating duties and/or passing written exams.

PE Courses (continued)	
Female Weight Training PE314SPE9 Length: Semester Grades: 9-12 Credit: 0.5 Prerequisite: None This class is designed for female students who want to increase strength, speed, and agility but who don't want to be part of a traditional conditioning class. In each class you can expect to work toward making gains through weight training, plyometrics, agility drills, speed work, flexibility, and core development. You will learn proper lifting, safety, and spotting techniques.	Low Impact PE/Aerobics PE219SPE9Length: SemesterGrades: 9-12Credit: 0.5Prerequisite: NoneThis course is designed for students who do not want to take a traditional PE course but want to be active in a non-competitive environment. We will be outdoors most of the time, occasionally off campus, but all activities will start and end on campus. Low-impact club-type activities, primarily walking-based, will introduce you to cardio fitness, flexibility, and strengthening; promote aerobic principles; and give you the opportunity to learn and practice pedestrian and cardio fitness safety and etiquette.
PE 1 PE100SPE9 Length: Semester Grades: 9-12 Credit: 0.5 Prerequisite: None In this course you will experience individual lifetime physical fitness skills. In addition to improving your fitness level, you will participate in—and learn rules, skills, and strategies of—soccer, volleyball, badminton, pickleball, basketball, football, tennis, softball, mat games, Frisbee games, golf, and weight training.	PE 2 PE101SPE9Length: SemesterGrades: 9-12Credit: 0.5Prerequisite: PE 1PE 2 builds on the foundation of skills and concepts youlearned in PE 1. You will continue to work toward improving or maintaining your current fitness level as you build skills and strategies in a variety of games. Units may include any combination of soccer, volleyball, badminton, pickleball, basketball, football, tennis, softball, Frisbee games, golf, weight training, floor hockey, team handball, and lacrosse.
Power Training PE304SPE9 Length: Semester Grades: 9-12 Credit: 0.5 Prerequisite: None Power Training is designed for the serious student-athlete who would like to increase his or her overall dynamic strength and conditioning and is prepared to become a more dynamic athlete through hard work. Advanced and intensive daily workouts will help build your cardiovascular endurance, muscle strength, muscular endurance, and flexibility. You will learn what it takes to train at a competitive level to enhance your well-being and athletic performance. This course is intended for athletes who are currently engaged in sports or other serious activities.	Sports Medicine/Athletic Training PE403SEL9 Length: Semester Grades: 10-12 Elective Credit Course Credit: 0.5 Prerequisite: None This course focuses on sports- and fitness-related aspects of the rapidly growing health careers field. You will learn about injury prevention and evaluation, recognition and rehabilitation of common athletic conditions, human anatomy and physiology, and medical terminology. Scheduled class hours include a required internship that provides additional learning in high school training rooms, physical therapy clinics, and hospital settings, as well as in specialty areas such as massage therapy, occupational therapy, chiropractics, fitness, nutrition, and other medical fields. Upon successful completion of this course, you will receive American Red Cross and First Aid certifications. A passing grade in Sports Medicine/Athletic Training results in 0.5 elective credit, not PE credit. • This course is required for the Sports Medicine endorsement in the Health Services Career Academy.

Performing Arts

Performing Arts at MVHS is a dynamic program that includes multiple band, orchestra, and choir ensembles, as well as theater arts and music classes. Develop your instrumental, vocal, and performance skills through in-class instruction and practice before performing at school events and local and regional competitions. Learn to sight-read and even compose your own music. Take part in a Cougar Co. production, either on stage or behind the scenes. Whether you want to sing, play an instrument, act, or create electronic music, you'll find a place in the Performing Arts program!

Band Course Progression

Band Audition and Enrollment Notes

Jazz Band 2 and Wind Ensemble require auditions.

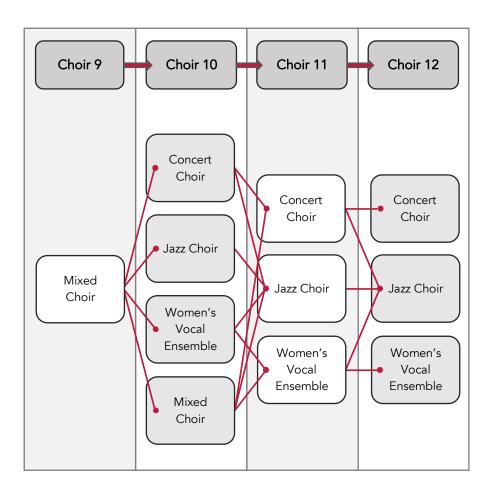

Enrollment in Jazz Band requires concurrent enrollment in Symphonic Band or Wind Ensemble, depending upon the instrument played.

Band Courses		
Jazz Band 1 FA835SFA Length: Year Grades: 9-12 Credit: 1.0 Prerequisite: Previous band experience or instructor approval This performance group will give you the opportunity to perform various jazz styles such as swing, funk, and Latin music, with a focus on small groups. You will perform one concert during the first semester and two concerts during the second semester. No prior jazz experience is required. You must be a member of the symphonic band to be eligible for this class; exceptions are made for non-concert instruments (contact Band Director for exceptions). <i>Please note: All performances are required.</i>	Jazz Band 2 FA836SFA Length: Year Grades: 10-12 Credit: 1.0 Prerequisite: Audition required In this audition-based honors jazz band, you will study a wide variety of jazz styles by performing music of a moderate to difficult ability level at a rigorous performance pace. You will perform two concerts and one festival during the first semester; and three concerts and one festival during the second semester. You will also have the opportunity to perform jazz and pop styles of music in small group combo settings at home basketball games. You must be a member of the symphonic band to be eligible for this class; exceptions are made for non-concert instruments (contact Band Director for exceptions). Please note: All performances are required.	
Symphonic Band FA834SFA Length: Year Grades: 9-12 Credit: 1.0 Prerequisite: None Symphonic Band welcomes all students who would like to be part of the Mountain View band program. In this course you will work toward group and individual musicianship. We will perform in a variety of settings, including formal concerts, pep band gigs, parades, an adjudicated festival, and other events as scheduled. Previous band experience helpful but not required. Please note: All performances are required.	Wind Ensemble FA839SFA Length: Year Grades: 10-12 Credit: 1.0 Prerequisite: Previous band experience and audition required Wind Ensemble is the core of the Mountain View band program. You will spend the fall rehearsing and performing music in the grandstands at home football games. You will perform in a concert setting once in the first semester; the entire second semester will be spent studying and performing music as a symphonic band. You will also perform in two concerts and two festivals during the second semester. Throughout the year you will perform at school and community events. Please note: All performances are required.

Theater Arts Courses	
 Cougar Co. FA731SFA Length: Year Grades: 10-12 Credit: 1.0 Prerequisite: Theater Arts 1 and audition required Cougar Co. is a yearlong touring production class. The class selects or creates scripts, rehearses and designs a one-act production in the first semester and then tours the production to local schools or other venues during the spring semester. You must have taken Theater Arts 1 and audition/interview to be admitted into this course. This course is required for the <i>Composition: Dramatic Composition & Playwriting</i> endorsement in the Arts & Communications Career Academy. You will have the opportunity to meet the Career-Related Learning Experience (CRLE) graduation requirement in this class. 	Introduction to Dance FA703SFA9 Length: Semester Grades: 9-12 Credit: 0.5 Prerequisite: None Introduction to Dance is designed to give the musical theatre performer the essential training in various dance techniques, an understanding of the structure behind stage choreography, and an insight into the necessary showmanship and performance of that choreography. You will explore various dance styles through technical training and explore their historical context and artistic impact on the musical theatre genre. Throughout the semester, you will engage in comprehensive technique and training practices as well as prepare performance pieces in a variety of musical theatre dance styles.
Technology for the Stage FA710SFA9Length: SemesterGrades: 9-12Credit: 0.5Prerequisite: NoneGet hands-on experience with set building, light design, and sound dynamics! You will design and build both model and functional sets for plays, as well as design and run lights for auditorium events. This course also covers sound systems and sound effects.• You will have the opportunity to meet the Career-Related Learning Experience (CRLE) graduation requirement in this class.	Theater Arts 1 FA700SFA9 Length: Semester Grades: 9-12 Credit: 0.5 Prerequisite: None In this beginning theater course, you will study basic play analysis, stage direction, and acting techniques from improvisation, movement, and mime to memorized scenes. This course emphasizes acting and communication skills and includes an in-depth study of theater history. • You will have the opportunity to meet the Career-Related Learning Experience (CRLE) graduation requirement in this class.
Theater Arts 2 FA701SFA9 Grades: 9-12 Credit: 0.5 Prerequisite: Grade of C or higher in Theater Arts 1 and instructor s Theater Arts 2 offers an in-depth study of character analysis and ad You will be involved in situations that are designed to strengthen y dramatic process. This course emphasizes physical movement and	lvanced work in both presentational and representational acting. our creative abilities and increase your understanding of the

AP Music Course

AP Music Theory FA809AFA

Grades: 11-12

Credit: 1.0

Prerequisite: Must be able to confidently read music

AP Music Theory corresponds to two semesters of a typical introductory college music theory course. This course will focus on aural training, musical dictation, keyboard harmony, musical analysis, part-writing/counterpoint, listening skills, and notation. Performances will be part of the learning process. *Please note: Previous experience reading music is required. If you are not confident with your music reading skills, take Music Theory 1 first.*

- This course is required for the Composition: Music endorsement in the Arts & Communications Career Academy.
- This <u>capstone course</u> is graded on a 5.0 scale.

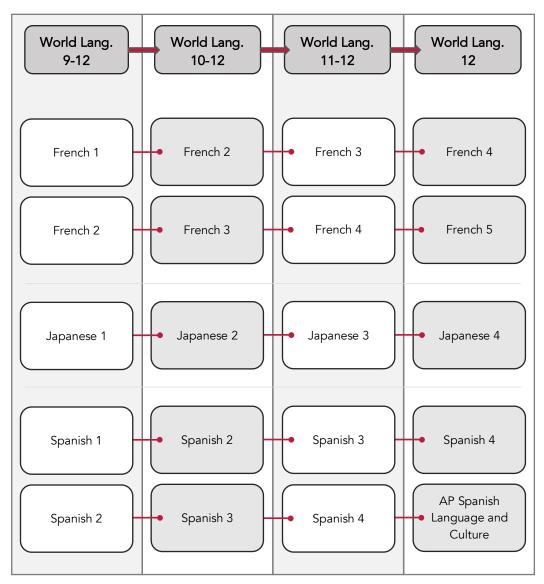

2021-2022 Curriculum Guide

World Languages

The ability to communicate in another language is an incredibly useful skill in this increasingly interdependent world. A growing number of job opportunities hinge upon proficiency in more than one language. The Oregon university system requires a minimum of two years of study in the same world language. Three or more years of study in the same language may be required or strongly recommended for colleges or universities outside of Oregon.

MVHS offers in-depth study in four world languages: Chinese, French, Japanese, and Spanish. You must demonstrate level-specific language proficiency in order to proceed to the next level of study.

World Languages Course Progression

French 5 FL205SFA Length: Year Grades: 9-12 NCAA Approved Credit: 1.0 Prerequisite: Grade of B or higher in French 4 or instructor approval This course is designed to help you improve and refine in all domains of communication, including reading, speaking, listening, and writing. You will regularly listen to and read news broadcasts from various French-speaking countries, and we will do in-depth exploration of a specific French-speaking region. This class will explore the themes of beauty, identity, family, global challenges, science and technology, and contemporary life. You will learn about these topics in order to make comparisons to your own culture and experiences. You will aim to perform at an advanced-low level.	Japanese 1 FL501SFA Length: Year Grades: 9-12 NCAA Approved Credit: 1.0 Prerequisite: None In the first year of Japanese class, you will learn the language required to talk about yourself, your school environment, your family life, and the geography of Japan. You will learn the first two alphabets of the Japanese writing system, along with 50 kanji characters. Activities in calligraphy, origami, and Japanese cuisine will expose you to Japanese culture. Guest speakers will lead discussion on subjects ranging from business and school life to travel.
Japanese 2 FL502SFA Length: Year Grades: 9-12 NCAA Approved Credit: 1.0 Prerequisite: Grade of C or higher in Japanese 1 In this course you will build upon the goals and coursework introduced in Japanese 1 to create more realistic and natural communication styles. Reading and writing is entirely in Japanese (for example, hiragana, katakana, and kanji). You will learn additional kanji. We will continue to focus on the cultural aspects introduced in Japanese 1.	Japanese 3 FL503SFA Length: Year Grades: 9-12 NCAA Approved Credit: 1.0 Prerequisite: Grade of C or higher in Japanese 1 This course will expand upon the foundations established in Japanese 1 and 2, leading you to greater proficiency in the language. You should be proficient in both reading and writing hiragana, katakana, and kanji before you enter Japanese 3. Through a greater emphasis on special projects, you will increase your understanding of cultural aspects introduced in Japanese 1 and 2.
Japanese 4 FL504SFALength: YearGrades: 9-12NCAA ApprovedCredit: 1.0Prerequisite: Grade of C or higher in Japanese 3This course will build upon the foundations of polite and casual speech established in Japanese 3. You will be able to converse in everyday spoken Japanese; you will also be introduced to formal and very formal Japanese, as well as more kanji, with an emphasis on recognizing commonly used kanji in Japanese newspapers. We will build on cultural aspects emphasized in Japanese 2 and 3, with a sustained emphasis on special projects to advance your learning.	Spanish 1 FL601SFA Length: Year Grades: 9-12 NCAA Approved Credit: 1.0 Prerequisite: None This course is designed as an introduction for students who have no prior Spanish learning experience. You will acquire a variety of expressions and vocabulary through games and interactive activities to communicate about yourself, friends, school, food, and leisure activities in Spanish. From the Aztec Calendar and Day of the Dead to authentic food advertisements and menus, you will develop written and oral proficiency at a novice-high level.

School-to-Career

School-to-Career (STC) integrates relevant work experience into the academic process and creates broad opportunities for all students, whether college-bound or workforce-bound. Most STC programs are independent study courses that require you to be organized and proactive. Some programs, including Cadet Teaching and Cadet Health Care Giver, are offered at certain times of the year; others, such as job shadows, internships, and structured work-based opportunities, can be started at your request.

If you are interested in any of the programs outlined below, stop by A1 and see your School-to-Career Program Manager to sign up.

Work-Based Learning		
Structured Work-Based Learning (Paid Work) Grades: 10-12	Structured Work-Based Learning (Non-Paid: Community Service or Volunteer Work) Grades: 10-12	
Length: 144 hours (Level 1) Elective Credit: 0.5 144 additional hours (Level 2) Elective Credit: 0.5 Prerequisite: None	Length:72 hours (Level 1)Elective Credit: 0.572 additional hours (Level 2)Elective Credit: 0.5Prerequisite: NoneElective Credit: 0.5	
Do you have a job? Earn credit for your experience by demonstrating proficiency in career-related learning standards. In order to be awarded credit through Structured Work-Based Learning, you will be expected to complete a student workbook, compile hours, and complete an evaluation based on your career-related learning experience. <i>Please note: This</i> <i>is an independent study course. You will not be able to</i> <i>forecast for it and it will not be part of your class schedule.</i> <i>Work with your counselor and College & Careers to plan this</i> <i>credit.</i>	Earn credit for community service or volunteer work! You can find volunteer opportunities in College & Careers; you can also enter the program if you have already secured a volunteer position on your own. In order to be awarded credit, you will be expected to complete weekly production reports, compile volunteer hours, type a reflection paper, and complete an evaluation based on your career-related learning experience. <i>Please note: This is an independent study course. Volunteer</i> work must be for public service or humanitarian purposes and must meet the criteria set by the Oregon Bureau of Labor and Industries. You will not be able to forecast for it and it will not be part of your class schedule. Work with your counselor and College & Careers to plan this credit.	
Internship Program (Paid or Non-Paid) Grades: 10-12	Length: Semester	
Length: 72 hours (Level 1) Prerequisite: None	Elective Credit: 0.5	
Internships are designed to bridge academics and workplace learning pathway and provide a broader understanding in that area. Grades: 11-12	Grades: 11-12
Credit: 0.5	Credit: 0.5
Prerequisite: Excellent attendance and reliable transportation	Prerequisite: Excellent attendance and reliable transportation
This program is designed to provide you with the opportunity to have a realistic experience in the field of health care. You will be assigned to a local health care facility where the primary focus will be on working with the facility's residents, including escorting them to and from activities, assisting staff with serving meals and other dining room activities, reading, and participating in social activities.	This program is designed to provide you with the opportunity to have a realistic experience in the field of education. You wil be assigned to work with an elementary or middle school teacher in grades 1-8. The primary focus will be on actual contact with students, working with small groups and one-on- one situations. Other duties will include grading papers, recordkeeping, preparing bulletin boards, writing and presenting lesson plans, and related activities.
 This course is required for the <i>Health Care Giver</i> endorsement in the Health Services Career Academy. You will have the opportunity to meet the Career-Related Learning Experience (CRLE) graduation requirement in this class. 	 This course is required for the <i>Educator</i> endorsement in the Human Resources Career Academy.
